

BILL PROHIBITING THE GRANTING OF NEW TRIALS ON ERRORS IS SQUELCHED

Strongly Opposed by the Lawyers in the House.

Resolution Introduced to Investigate Express Charges.

The Anti-Cigarette Bill Not Having Smooth Sailing.

(From a Staff Correspondent.)

St. Paul, Jan. 29.—(Special to The Herald.)—Representative Rockne of Humboldt, this morning, offered a bill which is intended to reach the situation existing in the case of the Great Northern railroad and its new stock issue. It requires that railroads shall get the permission of the railroad and warehouse commission before issuing new stock, and shall present an application for such permission in which the amount of stock to be issued, and its purpose, shall be set forth.

Another investigation resolution came in from Representative Robertson of Argyle, providing for a joint committee of two senators and three representatives to look into express rates, which are alleged to be too high.

The house judiciary committee re-

(Continued on page 12, sixth column.)

SAW CROWLEY ON THE ROOF

Witnesses Testify for the Defense in Shooting Case.

Pittsburg, Pa., Jan. 29.—A brief consultation between the counsel engaged in the case of Lieut. L. R. Drury and United States infantry, charged with the killing of William H. Crowley, near the Allegheny arsenal on Sept. 10, 1903, proceeded this morning, the second day of the trial of the two soldiers before Judge O'Connor today. At its close the defense placed a number of witnesses on the stand who testified to seeing Crowley, two days before the shooting, on top of the arsenal wall, digging at the roof of one of the buildings. One witness, Jerry Kenna, told of helping Crowley to detach some copper from the roof of the building. Kenna said he was with Crowley when they were pursued by the soldiers.

LEASE OF CHURCHES

To French Parish Priests is Now Proposed by Catholics.

New Proposition Seems to Offer First Prospect of Adjustment.

Paris, Jan. 29.—The proposition, which the French bishops, with the approval of the pope, have now submitted to the government, seems to offer the first real prospect of an adjustment of the conflict between church and state under the separation regime. While it involves a material modification of the position taken in the last papal encyclical, the proposition put forward has all the appearance of an ultimatum. Whether the government, in spite of the concessions made and making in the interest of religious peace, will accept a settlement based upon the absolute recognition of the Roman hierarchy, remains to be seen. The model contract, which the bishops have submitted, provides for the virtual lease of the churches in perpetuity to the parish priests by the mayors, the leases being for eighteen years and renewable by their successors. The leases, which carry a stipulation engaging the communal, municipal and state authorities not to interfere with the administration of the church and parish, are invalid without the ratification of the bishop and was not null the moment the parish priest loses the bishop's authorization. The bishops must act together to insure the acceptance of the contracts everywhere or nowhere.

It developed today that the report that Cardinal Richier, the archbishop of Paris, had summoned another meeting of the bishops was not correct. The cardinal only summoned meetings of the regional assemblies of bishops, to which the pope's decision was communicated.

COUNT LEO TOLSTOI.
A Dispatch From St. Petersburg Says That the Famous Novelist and Reformer Is Dying.

BUT LITTLE CRITICISM

Heard About the New Capitol, Says the Commission.

Board Makes Its Annual Report to the Governor.

St. Paul, Jan. 29.—(Special to The Herald.)—The capitol commission made their annual report to the governor late Monday. The report states that of the \$4,500,000 appropriated by the legislature, after paying for the entire structure, there is still left in the treasury \$8,077.

The commission has \$70,530 on hand, but of this amount \$29,158 is to be paid out as balance on contracts, while \$3,295 must be paid out as interest on the last appropriation of the legislature of \$500,000.

Owing to lack of funds the commission was obliged to omit many improvements originally planned in the scheme of architecture. Among these were: Candelabra for lighting the entrance, couchant bronze lions to be placed on the pedestals in front of the main entrance, two more pictures for the entrance to the governor's reception room, statues of prominent men for the niches throughout the building and statuary for the cornice of the building.

Certificates amounting to \$550,000 outstanding, payable in sums of \$100,000, are still outstanding. They are to be paid annually until 1925.

The legislature appropriated \$60,000 for the annual maintenance of the building. In 1905 the board paid \$32,580, while in 1906 there was paid out \$18,234.

The board pays a short tribute to the building itself, saying that there is little criticism heard from any side about the great marble structure. The members state that for fourteen years they have labored to see the completion of the building. The board is pleased that the results have given satisfaction to the people of the state.

SWETTENHAM SENDS THANKS

To United States for Supply of Tents Sent to Jamaica.

Washington, Jan. 29.—Secretary Taft has received the following cablegram from Governor Swettenham, dated Kingston, Jamaica:

"Most grateful thanks for supply of tents arrived from Cuba in charge of Capt. Battle, United States of America. Service most highly appreciated."

The tents referred to are those forwarded from Santiago by Brigadier Gen. Wint upon the urgent request made to Provisional Governor Magon by the acting British minister at Havana.

NOT ABLE TO ENTER MINE

West Phallen Life Savers Cannot Perform Work of Rescue.

Raging Fires Keep Them From Entering the Shaft.

Saarbrueck, Rhensish Prussia, Jan. 29.—The official mine inspectors, who are in charge of the Reden mine at St. Johannsberg, where the disastrous explosion occurred yesterday, say it is impossible to state precisely how many miners perished. They have a list of 163 men who went into the shaft yesterday morning, and of this number seventy-seven have been brought out dead.

The corps of West Phallen life savers, provided with the apparatus they took to Courrières, France, at the time of the great mine disaster, there, have arrived here, but the men have been unable to enter the mine on account of the fire.

Minister of Industry Delbruck reached the scene of the disaster today to attend a meeting of the commission, which is to decide whether the mine shall be flooded or not.

The pit mouth was surrounded all night by silent crowds. In the sheds where the roll call of miners shifts are usually held, the bodies of the dead are laid out. The entrances are surrounded by sobbing women, who, as their names are called, go in to identify, if they can, the mutilated bodies. Numerous military doctors and many nurses and priests are attending the survivors.

Later in the day the management of the mine announced that the dead would probably reach 148, although the number may be greater.

The fire in the mine is under control, and the work of rescue has commenced.

Relief funds amounting to \$7,500 have already been collected.

FULL FARE FOR THE SOLDIERS

Railroads Will Not Give Government Any Special Rates.

Omaha, Neb., Jan. 29.—The Union Pacific and Northwestern railroads have refused to make any special rates to the government for the shipment of soldiers en route to the Philippines and from San Francisco and the quartermaster's department of the department of Missouri is much disappointed. The officers expressing themselves in forcible language over the action of the railroads.

Yesterday bids were opened in Omaha for the transportation of 600 men, 500 for the transport of equipment, and a large amount of supplies from Fort Robinson and Russell to San Francisco. Only the Union Pacific and Northwestern railroads bid to provide for regular and full rates. Railroad officials say the government will secure no more cheap fares.

DAY OF THE CARNATION

Anniversary of McKinley's Birth Generally Observed at Capital.

Late President's Favorite Flower in Evidence Everywhere.

Washington, Jan. 29.—This is the sixty-fourth anniversary of the birth of William McKinley. As such anniversary and as "Carnation day," it is being observed generally in the nation's capital. Government officials, members of congress and private citizens are wearing the president's favorite flower, in silent memory of a martyred public servant, and in the interest of patriotism and good citizenship.

President Roosevelt had on his desk today a great vase of fine carnations, and a similar bunch of carnations adorned the desk of Secretary Loeb. Members of the cabinet each wore one of the handsome flowers as they appeared at the cabinet meeting. Early today Postmaster Cortelyou, one of the founders of the "Carnation League of America," presented to each of the bureau and division chiefs and to each of the members of the trustees of the McKinley memorial. It is indicated that the purpose of the "Carnation League of America" is to instill into the minds of the people a desire for a real patriotic observance of all our national days.

"Carnation day," in its simplicity and delicacy, is particularly appropriate as a memorial to William McKinley, the man, and its broader purpose of good citizenship, it is imbued with the spirit of William McKinley, the statesman.

ALL RECORDS ARE BROKEN

Over 400 New Cases of Scarlet Fever in Chicago.

Chicago, Jan. 29.—The scarlet fever epidemic, which was said by the officials of the health department to be lessening, has broken out with renewed violence. All records were broken today when 407 new cases of the fever were reported.

It has been the opinion of the health department that the epidemic was due to milk which had been infected in various dairies outside of the city, and much search has been made to stop the contagion from this cause, that it was believed that the epidemic was practically under control.

THE NEW MAN ON THE JOB.

COAL FROM AUSTRALIA

Being Imported by the Harriman Lines at Great Cost.

Scarcity of Rolling Stock Makes This Course Necessary.

Omaha, Neb., Jan. 29.—The Harriman railroads are buying coal in Australia and shipping it to the United States for use in the locomotives on the lines of the system. The coal costs the roads \$1 per ton at the docks in Australia, and by the time San Francisco is reached the cost has become enormous. But so scarce are freight cars and motive power on the Harriman system that it pays the railroad to pay this price for coal rather than to take cars and engines from general traffic and devote them to the coal business.

Out in Wyoming the great coal camps of the Union Pacific are almost at a standstill. Fire in the Cumberland mines prevents work at that place, and the No. 1 mine at Rock Springs, which produced 1,000 tons daily, is closed because of lack of machinery. The road is short nearly 2,200 tons daily from that field alone. Several steamers are en route from Australia now with bituminous coal for the Harriman system, and the importation will continue until the coal famine is over.

KILLED WHILE LOADING CARS

Emil LaFortune Meets Death at Camp Near Virginia.

Virginia, Minn., Jan. 29.—(Special to The Herald.)—Emil LaFortune, a Frenchman about 35 years of age, who was employed as a top loader at Camp No. 20 of the Virginia Lumber company, was killed yesterday morning while engaged in loading a car with lumber. The end fell, striking him on the back of the head. He lived but a few minutes. The body was brought to Messer's morgue in this city. It is said that his relations live in the neighborhood of Sault Ste. Marie, and an effort will be made to locate them. It is not known whether LaFortune was married.

E. M. Wells, proprietor of the People's theater at Hibbing, will hereafter have two performances each week at the Fay Opera House in this city. His company will appear here Thursday and Friday evenings and this will give the people of Virginia an opportunity to witness good vaudeville attractions at reasonable prices.

LYNCHING THREATENED. Abila, Iowa, Jan. 29.—Feeling is running high because of the alleged criminal assault by Charles Parker, a negro, upon three school girls, ranging from 10 to 12 years of age. Parker fled, but search is being made for him and there is talk of stringing him up.

TEN JURORS HAVE NOW BEEN SECURED TO ACT IN HARRY THAW TRIAL

MRS. WILLIAM THAW.
Mother of Harry Thaw, Who is in Daily Attendance at Her Son's Trial.

FOR HARBOR OF DULUTH

Senator Nelson Introduces Two Amendments in the Senate.

Provides for Breakwater Off Ship Canal and Dredging Harbor.

FROM THE HERALD WASHINGTON BUREAU.

Washington, Jan. 29.—(Special to The Herald.)—Senator Nelson today introduced in the senate two amendments, which he will urge to the rivers and harbors bill for improving the harbor at Duluth and Superior, when the measure reaches the senate. The proposed Nelson amendments were worded:

"For the construction of a breakwater at the outer entrance to the ship canal at Duluth harbor, Minnesota, of the type described as C and B, in the report submitted in House Document No. 32, \$500,000. Provided, that a contract may be entered into by the secretary of war for such materials and work as may be necessary to prosecute said project, to be paid for as appropriations may from time to time be made by law, not to exceed in the aggregate \$2,185,920.

"Appropriating \$450,000 for enlarging the anchorage basin in Duluth harbor."

FOUR KILLED IN COLLISION

Fatal Accident on Fitchburg Division of Boston & Maine.

Shelburne Falls, Mass., Jan. 29.—In a collision between an express train and an extra freight on the Fitchburg division of the Boston & Maine railroad, at South River today, four employees of the railroad were killed and several injured. No passenger was hurt. The rolling stock was badly smashed, and the traffic was greatly delayed.

NATIVES KILL DUTCH OFFICIALS

Serious Revolt Breaks Out on the Island of Java.

Amsterdam, Holland, Jan. 29.—A serious revolt has broken out in the province of Kediri, island of Java, Dutch West Indies, according to a dispatch received here today from Batavia. It is stated that 300 natives have taken up arms and that many of the Dutch officials and their adherents have been killed or wounded. The vice governor of the province is said to be among the wounded and the chief of police is reported to have been killed. Troops have been dispatched to the scene of the outbreak.

STRIKE AT BAKU. Baku, Trans-Caucasia, Jan. 29.—Seven thousand employees of four oil refineries here struck today. Their demands include a bonus for 1906, varying from 20 to 80 per cent of their wages for the year. A general strike is being planned in support of the movement.

Eighteen Talesmen Examined During Morning Session.

Four Men Are Peremptorily Challenged Out of the Lot.

One Hundred New Talesmen Are Present in Court.

New York, Jan. 29.—One hundred new talesmen were present this morning when the Thaw trial was resumed, before Justice Fitzgerald. They were summoned yesterday, when it seemed that the old panel of 200 might be exhausted before the jury box could be filled. There were three vacant jury chairs when this, the fifth day of the trial, was started, and there remained about thirty-five names on the original jury panel to be called. It was agreed that they should first be exhausted before calling upon any of the newly summoned talesmen.

All the members of the Thaw family were again present today, arriving in two parts. Mrs. Evelyn Nesbit Thaw and Miss May McKenzie entered the courtroom with Mr. and Mrs. George Carnegie. Miss McKenzie took her accustomed seat at the far end of the second of the two rows of chairs assigned to the prisoner's relatives. This is the most inconspicuous place in the family group. Mrs. Evelyn Thaw sat beside her. Mrs. Carnegie sat with the prisoner's wife until her mother, Mrs. William Thaw, arrived with the countess of Yarmouth and the two Thaw brothers, Edward and Joseph. Mrs. Carnegie then moved into the front row of chairs, and her place was taken by the elder Mrs. Thaw. The prisoner's wife and mother were thus seated.

(Continued on page 8, fifth column.)

WOMAN'S VICTIM LIVED TOO LONG

To Have Her Indicted Under the Charge of Murder.

Washington, Jan. 29.—Mrs. Jennie L. May, indicted for assault with intent to kill, was placed on trial today for the shooting of Lucien Conen, a former member of the marine band. The shooting occurred Sept. 27, 1906, and after lying in a helpless condition until October last, Conen died while at the home of his mother in Louisville, Ky. Because Conen lived more than a year and a day after being shot, Mrs. May, under the law, could not be charged with murder or manslaughter, and her indictment on the charge of assault with the intent to kill was returned by the grand jury soon after Conen died. According to statements made at the time, Mrs. May claimed the shooting was the result of Conen repeating slanderous stories regarding her.

IMPORTANT EVIDENCE

Discovered by Police in Connection With Townsend's Death.

Man Under Arrest Intimated Suicide in a Letter.

New York, Jan. 29.—What the police regard as an important piece of evidence in connection with the death of Dr. Townsend at his home in New Brighton, S. I., was discovered today. It is a letter which was found at the Brooklyn home of John Bell, who has been arrested in connection with the case. The letter bears Bell's signature, is addressed to his brother, Howard, is dated in a Brooklyn postoffice late on the evening of Jan. 26 and intimates that the writer intended to take his own life.

"Pray that I may be justified in my act," the letter concludes, "and that I may meet sister in heaven." The "sister" referred to in the letter was Bell's wife, who died just a year before the Townsend tragedy. Mrs. Bell was under the care of Dr. Townsend when she died, and it is said that her husband blamed the physician for her death. Bell will be taken before Mrs. Townsend today for identification.

WEATHER FORECAST—Snow and moderating temperature tonight and Wednesday with northerly winds. Lowest temperature tonight will vary from zero to about 10 degs. below.

Sensational Sale of Fancy Vests

Our entire stock at two prices. The latest styles and all the nobby patterns in the much wanted imported flannels and silks.

Our \$4.50, \$4, \$3.50, \$3 and \$2.50 Fancy Vests at one price **\$1.95**

Mothers!

Our Sale of Boys' Suits, Boys' Overcoats and Boys' Reefers at exactly HALF PRICE will close next Saturday night.

Oak Hall Clothing Co.

331-333-335 West Superior Street.

SOLUTION SUGGESTED

Hockey Rink Can be Secured at Very Small Expense.

Curling Rink Can be Remodelled for Puck Chasers.

The hockey rink problem may be solved by the Duluth curling club, at a very moderate expense. A plan has been suggested to some of the members, whereby the present skating rink could be made into a hockey rink with the expenditure of a very small amount of money. The club has a lease on fourteen feet of ground to the north of the present wall of the rink. This wall could be moved back fourteen feet, and in that space a set of bleachers could be erected running along the north side of the rink. These bleachers would accommodate from 200 to 300 or perhaps 1,000 spectators. At the east end there is a gallery. If it were altered it could be made to accommodate 200 or 300 spectators and rows of seats could also be placed beneath it. Along the south side of the rink one or possibly two rows of spectators could be accommodated, and the bleachers could also be utilized. All that would be necessary would be to put the side boards around the ice, and secure a pair of goal nets. The walk and benches at present standing on the north side of the rink could be removed, adding about three feet to the width of the rink, and the club would then have a very passable hockey rink. It would be a little small, but not too small, and spectators to the number of 2,000 could be accommodated in comfort. The improvements would not cost more than a few hundred dollars, and could be made in a few weeks. The plan has been quite enthusiastically received by the curlers to whom it has been mentioned, and the directors will take it up and seriously consider it.

WEST DULUTH.

MACCABEES INSTALL.

Annual Affair of West Duluth Tent is Held.

The members of West Duluth Tent No. 2, K. O. T. M., held their annual public installation of officers last evening at Great Eastern hall. There was a large attendance of the members and friends and the ceremonies were elaborate and impressive. Refreshments were served after the installation ceremony was finished and the company afterwards enjoyed dancing.

George J. Mallory acted as the installing officer and afterwards delivered an address. A short talk was also made by John Peterson, past commander of the Duluth Tent No. 1. Both speakers commented favorably upon the good progress made by the lodge during the last year.

The following officers were installed: Commander, Oliver Buell; lieutenant commander, William Yax; recorder, George J. Mallory; sergeant-at-arms, J. P. Johnson; first master of guard, Mitchell Yax; second master of guard, L. Water; sentinel, D. King; picket, F. Gotwald.

Western club were at the rink last evening but one interesting and closely contested game was played. Scott and McDonald were the opposing skips and the latter won by the score of 3 to 5. The following was the way the rinks lined up:

Scott, McDonald, skip 3.

West Duluth Briefs.

H. R. Patterson and L. A. Barnes attended the Carlton County Good Roads association meeting this morning at Carlton.

Elmer McDowell and Henry Braden returned yesterday from Skibo, where they have been working in the woods.

The West Duluth fire department was called to put out a small blaze in one of the cars used in the coke department at the Zenith Furnace plant. The damage was very slight.

The young people of the Asbury M. E. church will organize a ski club this evening. A meeting will be held at the home of I. G. Wohlan, 101 North Fifty-eighth avenue west.

The Ladies' Guild of the Holy Apostles Episcopal church will meet tomorrow afternoon at 2:30 with Mrs. Sidney Hanchett, 229 North Fifty-ninth avenue west. Mrs. Hanchett will leave this week for a visit with her mother, at her old home, before leaving for Barrows, Saskatchewan, Can.

The sleighride party which had been planned by the Irving school alumni association has been postponed for two weeks, as other events had been arranged for the next two Fridays.

O. S. Lund is seriously ill at his home, 307 Sixteenth avenue west.

M. J. Ellstrand left this morning for the Twin Cities where he will attend the annual meeting of the Minneapolis and St. Paul branch of the association.

Hazen Stevens came in from Saginaw, Minn., and spent Sunday and Monday at his home in West Duluth.

Louis Gibson of Split Rock has returned after having spent a couple of days visiting in West Duluth.

Arthur Wilson, 116 Sixty-third avenue west, left for Minneapolis yesterday to enter a pharmacy school.

Rev. W. J. Lowrie of 620 North Fifty-eighth avenue west is visiting his brother, Rev. W. C. Lowrie at Cloquet, Minn., where, perhaps, literally true, gives a slightly wrong idea of the affair.

The question of whether or not the local court has jurisdiction over an assault case in Hibbing was deemed by the judge a more weighty one than it was up to the municipal court to decide, and in his ruling he expressly stated that the decision was made because he was uncertain as to what disposition ought to be made of the case. If he ruled against the defendant, Hibbing would have to pay the costs of the case.

The ruling of the district court, therefore, while literally reversing the decision of the lower court, was only technically so, as Judge Windom made this ruling only as a means of getting the case into the higher court.

Seaton-Day Electric Co. Will blot out your troubles. If you have them, try our electrical work. Try them.

Great Bargain! Will sell two large room suits, solid mahogany, also bed room suit, solid mahogany, at \$125.00 each suit. Above goods are good as new and cost \$200.00. Will also sell solid mahogany sideboard for \$75.00. Duluth Van & Storage Co.

WANTS CITY TO BUY IN A LUMP

Comptroller Advises the Council to Buy Supplies at Lowest Market.

One of the recommendations of City Comptroller McCormick to the council in his annual report for 1906, is that the city purchasing department should buy supplies for the year when the market is lowest.

The greatest saving in this line is in regard to coal, and Mr. McCormick has prepared a table showing that in some cases a difference of \$100 a ton was made between the highest and the lowest price paid.

Had all the coal been bought at the lowest price paid, a saving of \$14,535.50 would have been made out of a total of about \$100,000 which the city paid for coal last year.

Hay and feed for the fire department, if purchased in a lump when the market was on rock bottom, would have saved the city \$37,734 for the fire department, and for the police department \$22,440. The would mean a total saving on the amounts of fuel, hay and feed used by the various city departments of \$100,000, an item not to be despised.

Before this Mr. McCormick's table submitted these figures to various coal companies for confirmation, and besides confirming the difference in prices the coal dealers intimated that if the city could arrange to make its purchases in a lump the prices would be still further reduced.

PREACHER THREATENED.

Scurrilous Anonymous Letters Sent to His Flock.

New York, Jan. 28.—Reputable residents of Woodhaven and Ozone park, among them several members of the Rev. Dudley O. Osterheld's Methodist church, and the pastor himself, have recently received through the mails a

number of anonymous letters of a scandalous nature, and the postal authorities will be requested to make a thorough investigation and run down the writers of the offensive letters.

A woman, a highly respected member of Pastor Osterheld's church, the wife of one of Woodhaven's leading citizens, has been receiving from time to time within the past two months unsigned letters of such a scurrilous nature and couched in language so vile that she became ill from fear.

One of the letters which Mr. Osterheld received contained a threat that if he did not desist in his crusades against the saloons in the Eighty-third street, a number of men would get together, capture him on some dark night, and tar and feather him.

It is said there is evidence which may lead to the discovery of the guilty parties.

There are also the plans of those interested in the Metropolitan, to be directed. The Wisconsin Central owns the theater now and it is improbable that they will let it go. The Metropolitan, however, is said to have a better chance of getting the theater.

VAUDEVILLE HOUSE NO. 3

Hibbing Man Said to be Planning One for Duluth.

Proposed Orpheum Theater Would Make Three in All.

Vaudeville has been flirting with Duluth for some time past. The success of the Hibou theater has demonstrated that Duluthians like the valettes, and many vaudeville interests have been casting fond glances in the direction of this city.

C. H. Miles, who owns a large hotel on the range, is the latest one to be mentioned for vaudeville managerial honors at the Head of the Lakes. Mr. Miles was in Duluth last evening, on his way to Hibbing after a business trip to Chicago, where he is said to have made preliminary arrangements for the establishment of a theater here.

The project in which Mr. Miles is said to have invested himself is entirely distinct from that one mentioned in the public prints some time ago as likely to be built on the corner of the Bayha building on Second avenue west. The Orpheum vaudeville house, the theatrical situation here would be very interesting, to say the least.

Should these "tides of Mr. Miles' dip" theatricals prove true, and should the Orpheum crowd persevere in their determination to invade this city with a vaudeville house, the theatrical situation here would be very interesting, to say the least.

There are also the plans of those interested in the Metropolitan, to be directed. The Wisconsin Central owns the theater now and it is improbable that they will let it go. The Metropolitan, however, is said to have a better chance of getting the theater.

LATE DOINGS IN UPPER MICHIGAN

Underground Employee at Princeton Killed by Premature Blast.

Negaunee—Sedalia Malco Guidici, employed as an underground miner at the Princeton mine in the Swanzy district, was instantly killed Friday. He and his partner in the mine were working on a tunnel when a premature blast occurred.

Both were working on a tunnel when a premature blast occurred. The blast was caused by a fuse which had been left in the tunnel.

The blast was caused by a fuse which had been left in the tunnel. The blast was caused by a fuse which had been left in the tunnel.

KIDNEY TROUBLE

Suffered Two Years—Relieved In Three Months.

C.B. FIZER.

MR. C. B. FIZER, Mt. Sterling, Ky., writes:

"I have suffered with kidney and bladder trouble for ten years past. Last March I commenced using Peruna and continued for three months. I have not used it since, nor have I felt a pain."

"I believe that I am well and I therefore give my highest commendation to the curative qualities of Peruna."

Peruna For Kidney Trouble.

Mrs. George H. Simser, Grant, Ontario, Can., writes:

"I had not been well for about four years. I had kidney trouble, and, in fact, felt badly nearly all the time."

"This summer I got so very bad I thought I would try Peruna, so I wrote to you and began at once to take Peruna and Manalin."

"I took only two bottles of Peruna and one of Manalin, and now I feel better than I have for some time."

"I feel that Peruna and Manalin cured me and made a different woman of me altogether. I bless the day I picked up the little book and read of your Peruna."

"It is the business of the kidneys to remove from the blood all poisonous materials. They must be active all the time, else the system suffers. There are times when they need a little assistance."

"Peruna is exactly this sort of a remedy. It has saved many people from disaster by rendering the kidneys service at a time when they were not able to bear their own burdens."

Ask Your Druggist for Free Peruna Almanac for 1907.

GOLD CERTIFICATES

In Smaller Denominations May be Issued by Treasury Department.

Washington, Jan. 29.—The senate committee on finance today heard United States Treasurer Charles H. Treat in favor of the house bill to provide for the issuance of gold certificates in denominations of \$5 and \$10. The law at present does not permit the issuance of gold certificates of a denomination less than \$20. It is proposed to diminish the number of certificates of the high denominations and further to recall a portion of the silver certificates of the denominations of \$5 and \$10 and in place of the latter, increase the number of \$1 and \$2 bills. The house measure is not acceptable to the treasury department and it is in regard to the technical changes in the operation of the law that Mr. Treat was heard. Another hearing will be held next week.

ORDER WILL PARALYZE LAND OFFICE BUSINESS

All Final Proofs Are Held Up by the President.

Agents Must Personally Examine Every Claim in Future.

President Roosevelt has just handed down a sweeping order in regard to the issuing of final certificates and patents or other evidence of title to public lands, which if it remains in force, will practically stop a stop to the issuing of any final certificates from the local land offices throughout the country for an indefinite time.

A copy of the order, which is dated at Washington, Jan. 25, has been received at the Duluth land office by Register Engel, and is accompanied by a circular from G. F. Pellock, assistant commissioner at Washington, instructing the local officials to carry out the rulings of the order in every particular.

The order, which is made in lieu of the one given out by the president on Dec. 13, directs that no final certificates, patents or other evidence of title shall be issued under the public land laws until an actual examination has been made on the ground by an authorized officer of the government.

While the new order is aimed at the frauds, which have been discovered in some of the land districts of the country, and as that of the December order, it goes further and deeper and makes it practically impossible for a title to land to be obtained unless the claimant is acting in good faith. The first order stated that no patents should be issued unless there had been a special agent. But as the patents are issued from the office of the secretary of the interior at Washington, and the final certificates issued by the local land offices are taken as sure proof of the honesty and good faith of the applicant by the Washington authorities, the first order did not accomplish the wish of the president.

Heretofore, at the time the notice of the hearing for final proof is published, the land officials have sent no agent to the hearing, but the government has been supposed to make an examination of the land and see if the applicant is acting in good faith. At the hearing he has been supposed to turn in his testimony to be compared with that of the agent. But as there are only three men in Duluth authorized to do this work and nearly 700 cases to attend to each month, very few of the claims have been actually visited.

Therefore, at the time of the hearing, the special land agent merely sends in his statement to the register and he has not visited the claim and knows nothing about it. The land officials then proceed on their own judgment about the testimony of the special agent. According to the order of President Roosevelt this can no longer be done and no final certificates can be issued unless the government's special agent has made a personal examination of the claim.

tion. The president's order in full is as follows:

"The Secretary of the Interior: Sir. To prevent the fraud now practiced in the acquisition of public lands of the United States, I have directed that hereafter no final certificate, patent, or other evidence of title shall be issued under the public land laws until an actual examination has been made on the ground by an authorized officer of the government; but the following shall be excepted from the force of this order:

"(1) All claims which have heretofore been examined on the ground by an authorized officer of the government whose report is found satisfactory.

"(2) All claims where heretofore an officer of the government other than an authorized officer has made an examination and reported in accordance with the provisions of law that have been established by Congress or other regular adverse proceedings.

"(3) Entries which may have been confirmed by virtue of an act of Congress.

"(4) Selections and entries in which no residence or improvement is required by law, when the lands embraced therein are strictly special government lands, or when their character has been fixed by investigation and classification made in accordance with the law.

"(5) Cases of reissuance of patents because of some clerical error occurring in the patent heretofore issued.

"(6) All Indian allotments which have been regularly approved in accordance with instructions of the secretary of the interior.

"You will issue all necessary instructions to carry this order into effect."

"This order is in lieu of my order of Dec. 13, 1906."

"THEODORE ROOSEVELT."

"The honest man need have no fear that he will not secure a patent to his land eventually," said Register Engel today. "It will only delay matters for months and perhaps years unless the present force of special government agents is greatly increased. We will endeavor to comply with the order, but when we come to issue the final certificates we will have to wait for the testimony of the special agent."

"No information has been received from the Washington authorities regarding an increase in the force of special agents unless this is done, there will be practically no more final certificates or patents issued from the local land office."

"The order is aimed at the frauds in the United States. At the office of Special Agent Coulter no orders have been received concerning the order of President Roosevelt."

OPENS SAFE WITH HAIRPIN.

Youth Amazes Detectives by Showing His Criminal Cunning.

New York, Jan. 29.—Herman Holtschlag, 30 years old, and a confessed safe robber, is in jail in Atlantic City, N. J. He was taken into custody on a charge of larceny, and after being held for some time he had been found safe in the office of William McLaughlin, a real estate operator, on three different occasions, taking from it about \$300.

Detectives who were called in said that the safe had been opened by an expert craftsman. There was not a scratch on the outside to indicate that it had been opened. The youthful prisoner told the detectives that he had opened the safe with a piece of wire and, when they hesitated to accept his statement, he gave them an exhibition of safe robbery by accompanying them to the real estate man's office, where, with an ordinary hairpin, he quickly opened the big burglar-proof safe while the stenographer stood agape.

BACK FROM CONVENTION

Simon Clark Elected Vice President of Retail Grocers.

Duluth May Land the Big Gathering in 1909.

At the annual meeting of the National Retail Grocers' Association of the United States, held last week at Dallas, Tex., Simon Clark of Duluth was elected vice president of the organization. This is the first time that a Duluth man has been honored with a position on the executive staff of the organization, and is indicative of the probable success of the project now under way to get the big food dispensing meeting for Duluth in 1909.

The meeting will be held in Boston next January, but Mr. Clark says that the grocers showed a favorable attitude toward coming to Duluth for the next meeting.

Several important legislative measures were talked of, among them the

inspection of weights and measures by government officials, to insure full measure being given on all scales. The grocers think that this is just as important a measure for the benefit and protection of the public as the pure food laws, and they will push bills to this effect with the greatest energy.

They also expressed a desire that putting up goods in short weight packages, as many wholesalers do at present, be made a criminal offense and designed as a protection both to the grocer and consumer, as the consumer always comes back at the grocer in case of a short weight package, for which, in most cases, the retailer is not to blame.

The establishment of a national credit bureau, which would move about from different parts of the country may be traced by this bureau, and their standing determined by the retailer in their new home town was also discussed.

George H. Schellenburg, president of the local association, was also present at the big meeting. There were more than 1,400 grocers at the big banquet.

WILL ASK FOR AN APPROPRIATION

Naval Militia Will Request Legislature for Reimbursement.

Members of the Minnesota Naval militia, who advanced the funds necessary to bring the naval training ship Gopher from the navy yards to Duluth, will present a bill to the state legislature in the near future, asking for an appropriation of \$8,500 to reimburse them for the expense.

After the organization of the naval militia, the legislature made provision for an annual appropriation of \$8,500 to defray expenses, but the first payment was not made until a year after the bill was passed. When the boat was brought to Duluth, the state appropriation was not available, and the new boat house which was built, practically used up the first money received from the state. The organization has bought its own uniforms, and the members do not expect to recompense, although the state, it is said, should have borne that expense as the other states are doing that have naval militia.

Among those who donated toward the expense of bringing the Gopher to Duluth were: Guy A. Eaton, commander; George Scully, lieutenant commander; E. F. Howard, navigator; N. F. Hugo, S. S. Williamson, lieutenant; Fred Engels, paymaster; James A. Wharton, lieutenant; Dr. Patton, surgeon, and C. E. Melby, lieutenant.

OPPOSES A RESERVOIR.

Warren Potter Objects to Proposed Reservoir at Gull Lake.

Washington, Jan. 29.—Capt. Warren Potter of Aitkin, Minn., claims that he has convinced the engineers of the war department that the proposed Gull Lake reservoir, for the purpose of relieving Northern Minnesota from high water in the spring is not only unwise but impracticable.

"If the engineers can make water run up hill," said Capt. Potter, "they can establish their project, but it will cost three times as much as the little cut off at we are asking, which simply adds nature in carrying surplus water down a stream."

Potter will remain right here to fight the proposition as embodied in the house river and harbor bill, which authorizes a survey for a reservoir. Senator Clapp, chairman of the com-

mittee on Indian affairs, has completed his first draft of the Indian bill. A leading feature is that all restrictions on lands allotted to the Indians in Indian territory shall be removed after July 1.

The petition of the White Oak Point band in Minnesota for additional allotments, while offering many strong arguments, in their favor, will go over, subject to points of order upon the bill.

There will be no provisions allowing the White Earth halfbreeds to sell timber from their additional allotments, which are still unconfirmed.

There will be a lively debate on this when it comes upon the floor of the senate, relative to the authority of the secretary of the interior to dispose of large tracts of Indian lands for forest reserve purpose.

LIST OF DEAD IS NOT KNOWN

Spring Alone Will Tell of Suffering in Dakota.

"The situation in North Dakota has not been exaggerated a bit and it would not surprise me in the least if, when spring comes, it is found that many farmers have been actually frozen to death during the winter," said Frank X. Gravel, the well known traveling man, who is in Duluth. Mr. Gravel has just come in from North Dakota, where he made some towns on the Northern Plains.

"I have been on the road for the past twenty-five years and most of it has been spent in the Northwestern territory and I have never seen the snow so deep as this year," continued Mr. Gravel.

"In some places in the state there are drifts 20 to 30 feet high. People here have no idea of the depth of the snow. Most of the roads have had to abandon traffic on their branch lines weeks at a time. Half of the suffering caused this winter will never be known until spring."

REFUSED TO BE SEPARATED

Mother Does Not Want Children Taken to Home.

One of the most pitiable cases which has been brought to the notice of the humane officials for some time is that of the Rogers family, a widowed mother and four children, who are living in a poor, papered shack at Seventeenth avenue east and Railroad street.

The cold weather has caused a good deal of suffering on the part of the family, and an attempt was made yesterday to take the children to the children's home to be cared for, so that the mother, relieved of the burden of feeding four hungry little ones, might have an easier time.

Mrs. Rogers, however, refused to be separated from her children, and a ton of coal and some provisions were sent out to the family today.

One of the most gratifying parts of the work of the humane society is the spirit of co-operation with the society shown by the drivers and teamsters throughout the city. Never before since the society has been in operation has so little trouble been experienced with teamsters who carelessly or cruelly left their horses unattended through the zero weather, and a few gentle reminders have been all that have been necessary to keep up all the horses in the city properly protected.

Humane Agent Patterson says he has made numerous trips up and down Superior and Michigan street, and has also included West Duluth in his journeys, and only found one or two animals standing without a blanket.

APPOINTMENT IS PENDING

Damage Suit Causes Inquiries of Duluth's Electrical Inspection.

The recent damage suit against the city of Ely, Minn., as the result of the electrocution of a man there from two wires becoming crossed, which cost the city \$5,000, has caused many inquiries as to whether this city is suitably provided with an electrical inspector to determine whether or not wires are safely strung, well insulated, and placed in a manner which should reduce danger of electrocution or fires to a minimum.

The city has an inspector in connection with the fire department, whose duty it is to see that wires are safely and properly insulated in the neighborhood of buildings and in places where faulty insulation might result in disastrous fires.

In addition to this, last August the city council passed a resolution directing the board of public works, working in conjunction with the city engineer, to appoint a competent electrical inspector to supervise for the city the construction and hanging of lines throughout the city. The motion provided that this appointment be made when the three principal electrical companies in the city, the Duluth Telephone company, the Zenith Telephone company, and the Duluth-Edison Electric company, should each agree to pay a third of the expert's salary for the remainder of the year 1906. The Duluth-Edison Electric company agreed to do this but the Zenith company refused to do its share, so the appointment was delayed.

The motion further directed that after Jan. 1, 1907, the expert's salary should be provided for out of the public works fund, but, as the motion stated that the appointment was to be made only when the electric companies had agreed to pay the 1906 salary, it is a matter of doubt as to whether a new motion will be necessary to secure the appointment or not.

It's healthful, wholesome. It's good for one as the other. The more you take the better you sleep and eat. Makes people happy. That's what Hollister's Rocky Mountain Tea does. 10 cents. Tea or Tablets. Ask your druggist.

GOVERNOR MATA KILLED.

While at the Head of His Troops Attacking Insurgents.

Willemstad, Jan. 29.—According to advices received here today from Caracas, Governor Mata, at the head of a body of armed troops, surprised a secret political meeting in the yard of Vice President Gomez at Caracas, Venezuela, during the night of Jan. 27, and in the fighting which followed, Governor Mata and several others were killed, and a large number, including the commander of the troops, wounded.

SHORTS RETURNS FROM HIS LECTURING TOUR.

Washington, Jan. 29.—Chairman Shorts of the Isthmian canal commission and W. Leon Pepperman, chief of the Washington office of the commission, returned here today after

"Goods bought after the 25th of the month charged on succeeding month's bill payable March 1st."

Exhibit of Advance Spring Models!

The new things for spring are coming in. Crisp, fresh Waists and Costumes and jaunty, stylish Skirts for street and dress wear, each bringing messages of what may be expected for 1907. Not mere experiments, mind you, brought out to "feel" public sentiment as to their "taking" qualities, but accepted styles adapted from models now being worn in the centers of fashion in the Old World. Our time is yours if you care to get an insight into what the coming Spring Season has to offer.

Exhibit "A" A Princess Dress by "Drew"

Of batiste—the waist tucked and laid on a lace yoke—Valenciennes insertion scrolled around the bodice and sleeves in bow-knot fashion—sleeves elbow length, finish with rows of lace making them very fluffy—girdle and collar of Val insertion, joined with a bow-knot of lace here and there. The skirt is very full and follows the lines of the figure, because of being pin tucked and joined to the bodice—has an 18-inch flounce with five rows of Val insertion set in—pleated at the bottom and an under-flounce of batiste, making a very soft and fluffy bottom to the skirt. An additional ornamented, hand-embroidered rosebud adorn the waist and sleeves, making the entire dress a true work of art.

Exhibit "B"—Exquisite Creations in Waists and Blouses in the New Materials for Spring 1907

Beautiful Waists of lace—yokes of hand-made lace. Net Waists in the new Levault color—the popular shade for spring. Waists of cluny lace—trimmed with yokes of lace insertion—new three-quarter sleeves.

New Lingerie Waists in sheer lawns and mulls—dainty creations in entirely new designs. Pretty tailored effects in Waists of linen or silk—suitable for traveling.

Exhibit "C"—The "Jane" Jumper Skirt

A new creation made of cloth or silk—to be worn with lace or net.

This is the newest spring creation and is exclusive with us—has straps and shoulder pieces prettily tucked and gathered to support skirt, the skirt being made in a new half-circular pleated effect.

Special for Tomorrow

\$15.00 New Voile Skirts—\$9.75. Full plated, made of fine quality voile and finely tailored. These are brand new and come in all sizes.

Other models in voile at \$12.50, \$15.00, \$17.50 and \$19.50.

BLOEDEL & EBELING

CASH FURNITURE DEALERS

Upstairs Over Gray-Tallant Co., 117-19 W. Sup. St.

No goods taken back for default—no cash business—everything here is new.

THAT rheumatism is not wholly due to the damp air and cold winds. There's something wrong with your constitution.

Scott's Emulsion of cod liver oil and hypophosphites contains the flesh-building, blood-enriching elements required to set your constitution right.

Needn't worry then about damp air.

ALL DRUGGISTS, 50c. AND \$1.00.

FOUGHT WITH CATS IN A CAR

Cornered by Catamounts, Man Saves His Life With Knife.

Altoona, Pa., Jan. 28.—With only a pocket knife to defend himself, J. H. Harbaugh of this city, a freight brakeman on the Cresson & Clearfield railroad, has fought a desperate battle with two catamounts. Harbaugh's train had stopped at a coal mine, near Bakerton, Cambria county, to pick up an empty car. He boarded the car to loosen the brake, when a low wall, like that of an infant, directed his attention to a corner of the car, where four tiny balls of fire blazed at him.

Fearing an attack, he drew his knife, and had not long to wait. Slowly the balls of fire moved toward him and something shot through the air and landed on his breast. Instantly he plunged the knife into its neck. A scream brought the other animal to the aid of its mate. While Harbaugh was sinking the knife again into the animal in front, the mate sprang on his back. Hurling the first aside he was again attacked, and so vigorously did he use the knife that the catamount sprang away in the darkness, crying in pain. Harbaugh was severely lacerated about the face, neck and hands, and his clothes were torn to ribbons.

FROM THE ANTILLES. Chamberlain's Cough Remedy Benefits a Child in Kingston, Jamaica.

Mr. W. O'Reilly Fogarty, who is a member of the City Council at Kingston, Jamaica, West Indies, writes as follows: "One bottle of Chamberlain's Cough Remedy had good effect on a cough that was giving me trouble, and I think I should have been more quickly relieved if I had continued the remedy. That it was beneficial and quick in relieving me there is no doubt, and it is my intention to obtain another bottle." For sale by all druggists.

OPPOSED TO SHIP SUBSIDY

Minority Report Attacks Railroad Magnates and Protection Policy.

Washington, Jan. 28.—J. J. Hill, E. H. Harriman and the Republican policy of protection are assailed in the minority adverse report on the Littaur compromise ship subsidy bill, which was passed in the house yesterday by Representative Spight of Mississippi and bears his signature, as well as that of three other Democratic members of the house committee on merchant marine and fisheries, Messrs. Goulden, Sharkey and Patterson.

After reviewing the proposed subsidy to South American and Oriental lines, the report says: "It is not pretended that the proposed appropriations are intended merely to compensate for services rendered, but admittedly the larger part is pure gratuity to a few individuals. It is a policy of special privilege which obscures the public interest and is a source of constant complaint to the people of the United States. The report discusses the two proposed lines which are to be subsidized between the Pacific coast and the Orient, saying:

"But when it is recalled that at Seattle, north of Cape Mendocino, is the existing steamship line owned by J. J. Hill, and south of it, at San Francisco, is the Harriman line, the Pacific Mail, we may begin to suspect that there is a 'nigger in the woodpile.' Who are J. J. Hill and E. H. Harriman? The former is the great railway magnate of Northern Securities notoriety, who tried to merge vast interests in spite of the law and was only prevented by proceedings in the Supreme Court. The latter is the great corporate leader who controls more railway trackage than any other man in the world. Is it hard to guess who under this bill would pocket \$1,000,000?"

It is then stated by the report that the proposed line from the Pacific coast to Chile would be a more extension of the Harriman line to Panama, and the general principle of government subsidy is attacked. The report declares that governmental aid of this sort can never result in a great merchant marine, and urges the repeal of legislation which induces shipbuilding in this country.

MCCORMICK SENTENCED.

Winona, Minn., Jan. 28.—Judge Snow today sentenced George McCormick to two and one-half years in the penitentiary for indecent assault on Rosalie Hanson.

WEST END LODGE MAY BUY CHURCH

Modern Woodmen Considering Purchase of Norwegian-Danish.

Will Remodel Building Into First Class Home for Lodge.

The church building at First street and Twenty-first avenue was occupied at present by the First Norwegian-Danish M. E. congregation, may be turned into a lodge hall. When the Methodists vacate it to move into their new church, the old building may be turned over to Duluth Camp No. 231, Modern Woodmen of America.

Members of the lodge are seriously considering the purchase of the church property and they will take final action in the matter at their next meeting. If the Woodmen do purchase the property, they will make of it one of the finest lodge homes in the Northwest. The inside of the building will be altered, of course, and that part of the building now used by the Sunday school and for church parlors, will be refitted into club rooms for members of the lodge.

It is said that a large number of the Woodmen are in favor of buying the property and it is said that the Methodists are willing to let it go at a reasonable price. The lodge has been in the building for some time, and it is said that the purchase of the building would be a great benefit to the lodge. The purchase of the building would be a great benefit to the lodge. The purchase of the building would be a great benefit to the lodge.

It is estimated that the purchase of the building would be a great benefit to the lodge. The purchase of the building would be a great benefit to the lodge. The purchase of the building would be a great benefit to the lodge.

King of All Cough Medicines

Mr. E. G. Case, a mail carrier of Canton Center, Conn., who has been in the U. S. service for about sixteen years, says: "We have tried many cough medicines for croup, but

Chamberlain's Cough Remedy

is king of all and one to be relied upon every time. We also find it is the best remedy for coughs and colds, giving certain results and leaving no bad after effects. We are never without it in the house

SCOTCHMEN AT BANQUET

Commemorate the Birthday Anniversary of Robert Burns.

"Auld Scotia" Honored by Guests in Song and Story.

Clanmen of old Scotland, transplanted in the new land of America, feasted at the Spalding last evening and sang the praises of Robert Burns.

As one of the speakers observed, "Bobbie" Burns is not only loved by the Scotch, but he is the world's poet and is loved by practically all people in the world. Many of those present were not Scotch and could claim no Scotch ancestors, but they all showed their love for Scotland and the great poet, who was born there 148 years ago. To the Scotch themselves, the affair was a chance to show their love for their native land, and to meet their neighbors and clanmen now of the new world.

A sprig of heather and a handsome program, with a picture of Burns, were at each plate when the feasting began at about 8:30. The only other decoration was the life-sized portrait of the Scottish bard hanging at one end of the hall.

The invocation was delivered by Rev. A. W. Ryan of St. Paul's Episcopal church and was followed by the chairman's address of welcome, delivered by John G. Ross. He stated that the purpose of the meeting was to honor the memory of Scotland and history is full of their brave deeds. Although no true Scotchman will ever cease to love his native land, America also claims his allegiance now that he has been transplanted, and we are all glad that we live in the new land.

The final toast "To the Lassies" was responded to by Hugh J. McClean in a clever and happy manner. Mr. McClean stated that he had attempted to shirk his duty when asked to deliver a toast on such a delicate subject but when the committee would not let him, he went about trying to find some light on the subject.

In his brief toast, "The City of Duluth," Mayor M. B. Cullen paid a high tribute to the Scotch who made their homes in this city, its progress being due largely to their courageous efforts and persistence. He congratulated the city upon having the honor of such a clan as Clan Stewart, being the center of the curling interests of the Northwest.

During his address, the mayor took the opportunity for a little fun at the expense of the reformers. "It has been said of Burns that one of his greatest wishes was that he might see himself as others saw him," said the mayor. "Now, I think that if he was mayor of Duluth at this time and in my shoes, he would no longer care to see himself as pictured by those around him."

Rev. John A. Powell of the Endless Method church, with a toast to the great poet, told of the qualities of Robert Burns which had so endeared him to his people and to the world. By some authors Burns has been placed among the great poets of the world, and his poetry was the basis of such a clan as Clan Stewart, being the center of the curling interests of the Northwest.

During his address, the mayor took the opportunity for a little fun at the expense of the reformers. "It has been said of Burns that one of his greatest wishes was that he might see himself as others saw him," said the mayor. "Now, I think that if he was mayor of Duluth at this time and in my shoes, he would no longer care to see himself as pictured by those around him."

ELECTRIC SUBURBAN ROADS.

Next to good roads, the greatest influence for the upbuilding of city and surrounding territory alike has been the electric suburban railway. New England, Indiana, Ohio, Southern Michigan, New Jersey and Delaware have made a thorough test of this latest method of intercommunication and all, city and town and country alike, have found it good.

President A. B. Stickney of the Chicago Great Western railroad endorses the electric interurban system in the strongest terms in a letter to the Des Moines Register. He holds that nothing so easily and effectively increases the trade of a city and, at the same time, builds up the entire country for miles around. He advises cities along the route of his railroad to encourage the electric lines in every way possible.

Experience has shown invariably that the objection sometimes advanced to the putting of capital into an electric road, that a territory is too sparsely settled to justify the expenditure, has never proved true. On the contrary, without exception, the interurban trolleys have been a grand factor in promoting the growth of truck and dairy farms all along the lines and making of the smaller towns attractive residence places and sites for factories.

A network of electric roads, extending from Duluth to the West and Northwest and through the range country, would unquestionably result in bringing thousands of truck and dairy farmers into this section, would solve the present problems of high cost of living and would build up summer resorts for hosts of Easterners about the many pretty little lakes of St. Louis county. Trolleys and good roads combined would transform the face of St. Louis county and double Duluth's population before the next census.

PLEA FOR LIGHTKEEPERS.

The general movement for increases in the salaries of employees of the national government, beginning with the cabinet and congress and extending through the diplomatic service and the army to letter carriers and clerks, has overlooked completely a most deserving, self-sacrificing body of men. These are the lightkeepers and their assistants, from whose ranks each year many an humble hero steps forth into momentary public acclaim—and then is forgotten again.

The scale of wages fixed for these men, on whose faithfulness to duty depends, all through the season of navigation, especially in times of storm and fog, the safety of hundreds of human lives and vessels and cargoes valued at millions on millions of dollars, was fixed about half a century ago. Though the cost of living has increased greatly since then and their responsibilities are ten thousand fold larger, they are today actually no better off than many laborers on railroads and in factories.

And yet these men, especially those whose lights are at lonely points, must either be bachelors without the joys and privileges of homes or must keep up two establishments and, during the greater portion of the year, must submit to practically continuous separations from their families. All of them have charge of valuable and high-grade machinery and illuminating apparatus. All are held to strictest responsibility. Any of them may at any moment, while on service, leap into fame as the heroes of some marine adventure, either by averting a disaster or by saving men's lives.

These humble heroes have no champions in high official circles for few even of those who benefit by their constant self-sacrifices and unceasing alertness, realize or seem to care what pay is given to the men behind the beacon lights. It is, however, sincerely to be hoped that some member of congress will champion their cause, to the end that the next appropriation for the lighthouse service will contain a provision for adequate increases of the salaries of the men whose lights shine forth as warnings, guides and comforts night after night, through fair weather and foul.

THE MONEY MADNESS.

If, as a great New York scientist declares, the struggle for wealth is a species of insanity, nine-hundred-and-ninety-nine out of every thousand Americans are afflicted with the disease. Nowhere in this great land, whether in Duluth or the woods of Northern Minnesota, the towns or farms of the South or West, or New York or Chicago, can men be found today who are not battling, with all the power that is in them, for more and more riches. It may be that great wealth brings great and ever growing burdens, that the craving for an enormous fortune is irrational and that the man who has far more than he can ever enjoy usefully and yet keeps on striving for still more, has a "screw loose somewhere in his cerebellum," as the scientist claims. But all of these things do not alter the fact that the race for riches is more extensive today than at any time in the world's history. And Americans are by no means the only ones afflicted with the gold madness.

But, on the other side, fairness forces consideration of the motives stimulating the acquisition of vast riches. Most men seek what brings them the greatest satisfaction and there is no question that an untold number find their supreme pleasure in the simple pursuit of the nimble dollar. Others seek to amass wealth because of the power that, rightly or wrongly is to be secured through it. Still others, but they are lamentably few, strive to gather up large fortunes with benevolent or charitable aims in view.

There are, of course, men who may be said to eat riches, drink riches, sleep riches and think riches, who are selfish and sordid. To these money-making is a monomania. But these are fortunately not really numerous.

That the time will come when men will cease to

struggle for great wealth and the present inequalities so destructive to the brotherhood of man will pass away is confidently predicted by students of human life. And that time may be much nearer than any suppose.

NORTH DAKOTA'S ONLY NEED.

North Dakotans are in absolutely no need of charity in any sense of the word whatsoever. They are far from being in a condition similar to that of the famine-stricken hordes of Russia and China. They have great crops that ordinarily would have been turned into millions of dollars cash long ere this. They have money in bank to buy all of the fuel and provisions they can possibly need. They ask for proper railroad service, not financial aid.

Whatever troubles North Dakota has experienced this year have been due, not to poverty but to superabundance of prosperity. If the railroads, which were big with promises when they induced the rapid settlement of the state and spurred the farmers on to the production of enormous crops, had kept those promises, the people would today be laughing at the cold snaps that have followed one another with unusual frequency and severity.

If there shall be a terrible tale of death at the close of winter, the blame will rest on the railroads. They knew what to expect in the way of handling the great crops and supplying the coal dealers for the winter. It is no valid excuse that the weather has been unusually severe and has crippled them. The managements are no tyroes without knowledge of the weather conditions to be looked for even in a mild winter. They should have seen to it that ample supplies of coal were laid down all over the state in ample time.

With cold snap following cold snap and the worst month of the winter yet to come, the railroads will have to bear a fearful burden of responsibility if they do not strain every nerve to fill the coal yards and coal bins of North Dakota at once and keep them well filled for the next two months.

DULUTH, HEALTHIEST CITY.

The people of Duluth may well congratulate themselves that they are living in the healthiest city in the United States, if not, indeed, in the entire world. The official estimate of the health department for last year of 7.49 deaths per 1,000 of population is so far below the record of any other place that the claim of superlative health is not to be denied.

Compare Duluth's 7.49 with the last census returns of Washington of 22.8, of Boston of 20.1, of Denver with its boasted fine climate of 18.6, of New York of 20.4, of Chicago of 16.2, of St. Louis of 17.9, of Pittsburgh of 25.1 and of Milwaukee of 15.9 and the good people of Duluth cannot but rejoice that their lines are cast in such a pleasant place.

The only other cities that anywhere near approach Duluth in healthfulness are St. Joseph, Mo., with 9.1, St. Paul with 9.7 and Minneapolis with 10.8 deaths per 1,000 population. This again is a matter for congratulation, for it shows that Minnesota is the best state in the union in which to live.

It is worthy of note also that, of the deaths of last year, 546 were single and 262 married—a strong argument in favor of the healthfulness of the married state. 585 deaths of males as against 255 of females shows further that the fair sex take the better care of its health.

The record of 1,517 births against the 840 deaths is one more matter for congratulation. It proves conclusively that, whatever may be the perils of race suicide in other cities, there are none here. Looked at, therefore, from whatever standpoint one may, Duluth's vital statistics are such as the people may be proud to exhibit to the whole world.

THE PASSING SHOW.

Governor Swettenham ought to make a capital low comedian for some comic opera troupe.

The "January thaw," even at its worst, is not likely to be so unpleasant nor so long continued as the scandalous thaw that has just begun in New York.

Mayor Schmitz of San Francisco, even as corrupt as he is alleged to be, was a vastly better man in time of calamity than Governor Swettenham of Jamaica.

New York's senatorial delegation is giving renewed signs of life. Dewey has made a new after-dinner speech and Platt has secured a raise in salary for a friend.

"Jack" Morgan, son of John Pierpont, may be a "chip of the old block," but it is a question whether one "chip" can ever stack up with the original "block."

The Duluth Street Railway company carried 11,537,775 passengers last year. A good many people would like to know what proportion was carried in the dirty ice-box cars.

The railroads keep on piling up new work for the interstate commerce commission. The wonder now is how the people let them run along as they did for so many years.

"Secretary Root Leaves Canada" is a head in the Boston Globe. We are glad to hear it, for there was an impression that he was going to bring the Dominion back with him.

General Grosvenor of Ohio has broken forth again with a fulsome eulogy of high protection. Let him talk in peace now for the muzzle of the "ex" will go on in about five weeks.

New England is bound to cinch the cold snap championship belt. Last Wednesday temperatures of from 38 to 50 below zero were common in Maine, Vermont and New Hampshire.

"What is congress for?" asks the Philadelphia Ledger—and not in its conundrum column either. So far as this congress is concerned, the answer is easy. It is to "make a minstrel show" of the senate and to give future members a raise in wages.

Strap hanging street car worms have turned at last. A "No Seat, No Pay" league has been organized in San Francisco and no conductor dares touch a man with a red button. May the movement spread until all street railway companies cease trying to carry 150 passengers in cars built for 50.

Secretary Taft accused Chief Engineer John F. Wallace of the Panama canal of being a "traitor for mere lucre." Why is he so conspicuously silent as to Theodore P. Shonts, whose resignation comes under precisely the same designation? Can it be that consistency is not one of Mr. Taft's jewels?

HOTEL GOSSIP.

"In the more thickly settled parts of Canada general stores of greater or less dimensions are replacing the old trading posts of the Hudson's Bay company, and competition is keen," said T. L. Ensign of Winnipeg at the St. Louis. "All the necessities and some of the luxuries of life are within the reach of even the Indians in the far interior if they will bestir themselves in search of pelts, so that instead of being compelled to hunt for food a part of the time they may devote all their attention to the pursuit of fur-bearing animals, for which there is always a market."

Some of the Indians make big money in this manner, and spend it with the most remarkable extravagance. They have no sense of values, and buy anything that happens to take their fancy, from grand pianos down. Edmonton, where so many Americans are now going to stake out in search of fortune, is quite a center for the sale of furs. Not many of the native trappers come in to Edmonton, however. The others go only to the primitive and isolated posts or landings farther north. There they trade with traders, some of whom represent the great companies. Pelts are exchanged for supplies and, occasionally, a bank note or a few pieces of silver. But it is little enough the Indian gets at best. The market value of a beaver skin is about \$100 each year, exclusive of those of the Hudson's Bay company, is between \$100 and \$200,000, and the value of that amount goes to the trappers. Those who are not members of the company are satisfied with nothing less than a very large one.

Indiana, however, seems to wish for nothing more than a little coarse fur to carry on his business with. He would not know what to do with more if he had it. The winter has made his attention in this fact, and to his credit may be said that he has not allowed a hungry Indian to go without food, or falls to provide food for the sick. Fur hunters and trappers are doing more purely selfish motives, but they are doing, and it is the biggest reason for the success of the fur trade.

"Some of the Indians in the more northern sections, where the furs are finest because of the greater cold, seldom or never see a white man or any sign of civilization. They remain in the woods from year's end to year's end, and the Indians are very honest in their dealing with the traders, and many curious instances of this honesty are known. In the matter of price, the traders deal fairly with the trappers, and ordinarily not much profit is obtained between the two classes."

THE WEATHER.

A part of the promised let up in the severity of the weather came late last night and this morning it was considerably less arduous to be on the streets. It was, however, chilly and raw and far from being what could be called a decided change for the better, for the temperature was still down about the zero point. Further, there were not lacking signs from the northwest and Manitoba that this let up might prove to be loosening of the grip merely to permit cold winds to get a fresh Arctic hold. The promised snow flurries were also on hand during the morning, but the fall of the snow was far from enthusiastic and it was scarcely perceptible much of the time. Last night's lowest temperature was 14 degrees below zero and yesterday's highest was 4 degrees, also below the dead line. The weather man promises snow and moderating temperature tonight and tomorrow with northerly winds.

The sun set at 5:06 o'clock this afternoon and will rise at 7:35 tomorrow morning. Tomorrow will gain two minutes of daylight at both ends of the day. Twenty years ago today was at almost April-like mildness with the lowest temperature 26 degrees above zero and warm, snowmelted run.

Says Mr. Richardson of conditions: "The weather bureau has moved its center to Wyoming, preceded by generally higher temperatures and decreasing pressure throughout the eastern slopes. This storm condition caused some snow in the Pacific states and rain in the Pacific states districts during Monday or last night. Zero weather continues in Canada, northern Michigan, Wisconsin, Minnesota, the Dakotas and Montana, although the weather is moderating in the Northwest. In western Canada, however, severe cold still rules. The coldest was 42 degrees below zero at Edmonton, where the temperature is falling to 50 degrees below zero. A high pressure area there the easterly movement of the Wyoming storm favors snow flurries and rising temperature in this locality tonight and Wednesday."

Following were last night's lowest temperatures, as recorded by the weather bureau:

Ableton	46	Madison	4
Ashville	29	Marquette	4
Atlanta	28	Memphis	30
Baltimore	28	Minneapolis	30
Bismarck	14	Milwaukee	6
Boston	12	Minneapolis	31
Buffalo	12	Minneapolis	31
Calgary	28	Montgomery	34
Charleston	30	New Orleans	48
Chicago	10	New York	29
Cincinnati	22	Norfolk	26
Concordia	22	Northfield	26
Denver	30	Oklahoma	14
Detroit	10	Oklahoma	14
Dodge	22	Pierre	6
Edmonton	42	Port Arthur	22
El Paso	44	Portland, Ore.	22
Galveston	52	St. Paul	2
Havana	52	St. Paul	2
Green Bay	0	San Francisco	40
Hayes	0	Santa Fe	28
Houston	0	St. Louis	28
Houghton	2	Shreveport	18
Hull	2	Spokane	18
Huntsville	2	Swift Current	18
Kankakee	2	Wichita	18
Knoxville	2	Wichita	18
La Crosse	2	Winnipeg	28
Little Rock	28	Winnipeg	28
London	28	Winnipeg	28

Department of Agriculture, Weather Bureau, Duluth, Jan. 28.—Local forecast for twenty-four hours ending at 7 p. m. Wednesday: Wisconsin, Minnesota, Iowa, Missouri, Arkansas, Louisiana and vicinity, including the Mesaba and Vermilion ranges: Snow or rain, with light to moderate winds. Lowest temperature about 10 degrees below.

H. V. RICHARDSON, Local Forecaster.

Chicago, Jan. 28.—Forecasts until 7 p. m. Wednesday: Wisconsin, Minnesota, Iowa, Missouri, Arkansas, Louisiana and vicinity, including the Mesaba and Vermilion ranges: Snow or rain, with light to moderate winds. Lowest temperature about 10 degrees below.

Legislative Bills.
 Kansas City Journal: The thousands of bills being introduced in the legislature will be thinned out later by the standing committees. The few that get through will afterwards be thinned out by the supreme court.

Smiling Remarks.
 Baltimore American: Railroad Magazine—How can you account for the fact that the majority of railroad men are so fat?

Philadelphia Press: "He's about the best theatrical manager," a regular Detroit man said.

Washington Herald: "What was the next laborer of Hercules?"

Chicago News: The Doctor—Professor, speaking as a thinker and a man of science, would you call this age of the world?

Cleveland Plain Dealer: "He is a good deal of a motor enthusiast himself, isn't he?"

Washington Herald: "What was the next laborer of Hercules?"

Chicago News: The Doctor—Professor, speaking as a thinker and a man of science, would you call this age of the world?

Cleveland Plain Dealer: "He is a good deal of a motor enthusiast himself, isn't he?"

Washington Herald: "What was the next laborer of Hercules?"

Chicago News: The Doctor—Professor, speaking as a thinker and a man of science, would you call this age of the world?

Cleveland Plain Dealer: "He is a good deal of a motor enthusiast himself, isn't he?"

Washington Herald: "What was the next laborer of Hercules?"

TWENTY YEARS AGO.

Taken From the Columns of The Herald of This Date, 1887.

"When Thomas Lowry returns from Europe," said one who ought to know, this morning, "you will hear something about a cable railway up the hill."

"Vermilion lake is to have a new boat, Capt. Coty of this city having concluded to take the Minnie Lamont up there."

"A musical association, christened Concordia, has been formed, embracing the best German talent of the city."

"The Burlington & Northern Railway company is said to be condemning property at West Superior, and it is believed work on the new line to Duluth will begin immediately."

"The Fergus Falls-Perham road is outlined to run from Duluth to a point near Wahpeton on the Fargo branch of the Milwaukee."

"The Omaha Railroad company expects this year to bring to Duluth more corn than was ever before brought in five years."

"Mrs. E. A. Leidel, who was slightly injured by a sugar exploser a short time ago, is about again and will receive no permanent injury from the accident."

"Mrs. J. Stanton and her sister, Mrs. Ready, left today on a trip to St. Paul."

"Senator Whitman is determined that Duluth shall have an industrial and mining school and introduced a bill to that effect today."

MINNESOTA OPINIONS.

Floodwood Broadaxe: If the representatives from the southern part of the state, don't give us northern people this winter, we will be compelled to go down there and lick them back into the Union.

Hibbing Tribune: The man who has to pay \$100,000 for a stolen car, is not the state to pay such a tax on.

Rochester Post and Record: It seems singular to the Post and Record that no steps have been taken to compel a reduction in express charges. Now, wouldn't it be systematic and continuous robbery if it were perpetrated by the express companies.

St. Hilaire Spectator: St. Hilaire is the only town in the northern part of the state that is not making a bid for the new Normal school.

Owantonian Journal-Chronicle: The Auditor General's report on the state's finances is a masterpiece of bookkeeping. The retiring state treasurer because when his accounts were checked the state was found to be in debt.

Carleton County Vista: Being rich in this country has long ceased to be a distinction, and even being indicted for it is rapidly becoming vulgar and commonplace.

Eveleth News: The Custom Tailors' association at its twenty-seventh annual convention in Chicago decreed that men to be correctly dressed in 1907 shall wear a waist coat and bloomers. Now, wouldn't it be some of us look sweet wearing such togs?

o not. If he does, then use his kin
no secrets! We publish J. C. Ayer &
of all our preparations Lowell, Ma

CONCERNING TANGUY

Eva Tanguay just won't be interviewed. That's all there is about it, and it doesn't make a particle of difference who or what or why you come, she won't see anybody. Think of that, now. At least that is what an advance man said, and so when one sent up one's card one scarcely expected to hear a perfect rush of tempestuous frow-frow and a shockingly warm greeting, but the very ladylike and almost too cool Gibsonique "How do you do?" was equally unexpected. The welcome could not be called eager nor exactly warm, but she contradicted nothing so it was quite a pleasure. The silence of one who has nothing to say is hardly inspiring, but one occasionally enjoys an interview where one's own views are received in stony silence.

"Being such an exponent of the stermous," the interviewer so framed the first sentence, "there is doubtless much of interest that you can tell the people who are so interested in a young woman who has gone and done something so completely out of the beaten track."

A pause. That was Miss Tanguay's cue to be responsive and interesting, but her stage experience did not come to her rescue and she missed it entirely. The interviewer waited a while and tried to kick a part of the pattern out of the carpet. It's hard to sit still and say nothing gracefully.

"It's funny, isn't it, how people take a notion to one sort of thing? Now for a while the simple life was in vogue and I suppose if anyone had originated a very simple style and act, it would have been taken immensely. Not that everybody doesn't think you were awfully clever to think of doing such strenuous things. My, yes! They are just grand and everybody talks about them, but one kind of wonders that somebody else doesn't think of it sooner. It is a man-and-a-half idea, isn't it? Not that you are interrupting me at all, but aren't you a little bit afraid that some day some young and good looking man to whom you play directly, you know that little old trick that my grandmamma said, poor old lady she is dead, long ago, was old and time worn in her early youth—as I was saying I should think that some time she would be making them conspicuous and ridiculous. But I suppose, as your silence intimates, that he personally feels so elated at your notice of him, that he wouldn't, and that everybody else who complains, are a little envious. Personally I don't think much of the trick, but one ought to have the right to run one's own play just as you were about to say, I am sure."

A pause. The interviewer tied knots in a handkerchief and avoided Miss Tanguay's glance. "Conversation is nice, isn't it? Of course, one sometimes gets, just for a minute, where they don't think of anything to say, but that doesn't last long. For there's always the weather, you know. I'll bet you haven't had so much weather for a long time as you have had these last few hours in Duluth."

There was no reply to the stake, and Miss Tanguay did not take it up. Anyhow that was betting on a sure thing and no one but a fool would bet on anything but a sure thing. "Almost everybody has a story about the weather that they like to tell. I'll wait right here for you to tell me only it's that you have told me so many times that I don't want to hear it again. I'm going to try that myself some day. It seems to work with you although really now—"

The last words were murmured as the elevator, suddenly called a lift, descended to the street floor.

Club Reception.

The members of the women's clubs of the city will be the guests at a reception, this evening, at the Bishop's club rooms, at the corner of Second avenue west and Fourth street. Bishop McCorquodale will be the guest of honor. The guests will be received by the president of the Bishop's club, Mrs. H. E. Ely, assisted by the former presidents, Mrs. L. H. H. and Mrs. J. F. Killorin.

Hay Hair Health

Miss Fannie McWane, Lake Geneva, W.Va., writes: "My hair had been gray ever since I was sixteen years old. It started to get gray right in the crown of my head, and I was full of dandruff, and my scalp itched dreadfully. I used HAY HAIR RESTORER, and my hair is now soft and glossy, and my scalp is clear. I am sure that HAY HAIR RESTORER is the best hair dressing now, for it is such a fine hair dressing."

Guaranteed perfectly pure.

Philo-Hay Spec. Co. Newark, N. J.

60c At W. A. ABETTS'S.

Matinee Musicales.

The regular meeting of the Matinee Musicales was held yesterday afternoon at St. Joseph's hall. The program was arranged by Mrs. K. A. Ostergren and Emily Ellis Woodward, and the selections were from the compositions of Schumann, Franz and Schubert. The members were much disappointed in not hearing Mrs. C. B. Morgan who was unable to be present. The program was presented by Mrs. Percy A. Gough, Mrs. Andrew Gibson, Emily Ellis Woodward, Miss Bradshaw and Miss Ruth Rogers. The accompanists were Miss Rogers and Mrs. Gibson.

Card Parties.

The Misses Grace and Mabel Duncan entertained at cards last evening at their home, 121 West Third street. Five hundred was played at eight tables, and the favors were won by Miss Florence Brewer and Mrs. E. C. Collins, and the men's favors went to George Sufell and Ray Higgins.

Mrs. A. C. Hubbell entertained at bridge this afternoon at her home on East First street.

Mrs. J. T. Armistead was hostess this afternoon at cards at her home on West First street. She was assisted by Marion Allen and Mrs. Low Staples. Mrs. Armistead will entertain again tomorrow afternoon, and on Friday evening of this week Mr. and Mrs. Armistead will be hosts at cards.

Tootle-Larkie.

Invitations have been received in this city from Mr. and Mrs. Harry McCord Tootle of St. Joseph, Mo., for the wedding of their daughter, Miss Lillian Ogden Tootle, and George Harris Larkie, formerly of this city. The wedding will take place Tuesday evening, Feb. 12, the service being read at 6 o'clock. A reception will follow the ceremony.

Mr. Larkie, who is widely known in Duluth, was formerly connected with the editorial department of The Herald.

What Retail Markets Offer

A lot of tulips.
Spinach, 50 cents a peck.
New beets, 12 cents a bunch.
Cauliflower, 10 cents a bunch.
Bunnies, 20 and 25 cents each.
Leaf lamb, 12 cents a lb.
Hot soup and other things that are warm and filling, may be the things that you most long for, but the emblem of the soul's desire flaunts its gentle beauty from the florist's window. Tulips, we mean. They may not be appearing at an especially early day, but almost everybody has a story about the weather that they like to tell. I'll wait right here for you to tell me only it's that you have told me so many times that I don't want to hear it again. I'm going to try that myself some day. It seems to work with you although really now—"

The last words were murmured as the elevator, suddenly called a lift, descended to the street floor.

MUSIC AND THE DRAMA

TONIGHT'S ATTRACTIONS.

LYCEUM—Eva Tanguay in "A Good Fellow."

METROPOLITAN—Burlesque.

BIJOU—Vaudeville.

PLAY FALLS FLAT.

"A Good Fellow" Not Good Vehicle for Eva Tanguay.

It may be the fault of the play and the settings, but the audience at the Lyceum last evening didn't want to see Eva Tanguay and her "Good Fellow." They went with very pleasant anticipations, and the memory of the cyclone sea and the newspaper's statements that Miss Tanguay is still cyclonic, but even her energy could not make the production a go.

"A Good Fellow" was probably meant by the author to be a screaming farce, but the screen wasn't much more than a whisper. The poor, weak thing, but by courtesy is called a plot, has to do with a secret marriage and the visit of the bride to her husband's apartments. A police raid on a gambling game causes further complications, and some impossible situations are developed. It is a crime to harness Miss Tanguay to such a weak farce comedy.

The play is bolstered up with some interpolated songs by Miss Tanguay and other members of the company, but even in the songs Miss Tanguay appears at a disadvantage without the chorus at a scenic settings of a musical comedy.

In some happy era yet to come, managers will realize that the old, old feature of singing to the boxes, has been relegated to the burlesque houses, and that even in the smoke laden atmosphere of those places of amusement, a song addressed to the occupants of the boxes is considered neither new, nor funny, nor in the best of taste, even though the occupant of the box may be an employee of the theater or a member of the company.

Richard Humes, as Sam Pollock, the junior, has a rather startling makeup, and he is funny. He and Miss Tanguay are about all there is to the show and with them it would fall flat. The other members of the company are passable, but the play and the settings would discourage a Francis Wilson or a Marie Dressler.

GOOD BILL AT BIJOU.

Eddie Leslie Heads Vaudeville Program With Clever Act.

The Bijou theater scored another hit with its vaudeville bill this week, and the audiences which saw it at the opening performance yesterday, showed their appreciation.

Eddie Leslie, the well known monologist heads the bill. He has a number of quaint sayings and his imitations

and, and left here to accept the management of the State Journal at Columbus, Ohio. He is at present part owner and business manager of the St. Joseph Gazette. He will be at home with his bride after March 15 at 509 North Ninth street, St. Joseph.

Church Meetings.

The Women's Alliance of the United church will meet tomorrow afternoon, at 2:30 o'clock, with Mrs. J. P. Warren of 2 Munger terrace.

The Ladies' Aid society of the Merritt Memorial church will meet tomorrow afternoon with Mrs. Kerr of 403 West Fourth street. The place of meeting has been changed because of illness at the home of Mrs. Warren, where the meeting was to have originally been held.

Evening Lecture.

The severe weather undoubtedly was the cause of the rather small audience which greeted the lecture of the library when he spoke on "Japan: The Key to the Heart of Asia." The lecture was one of the series which has been arranged for the evening department and those who braved the weather were amply rewarded.

Mr. Merrill delivered a most entertaining and instructive talk on the interesting country of the East and its relations to the rest of Asia.

The next lecture in the course will be given Monday evening, Feb. 11, when Rev. John W. Powell, Jr., will continue his talks on Browning.

Personal Mention.

Mr. and Mrs. A. M. Maxwell and family will leave Friday of this week for a four months' trip to Southern California.

Mr. and Mrs. E. C. Blanchard will leave about Feb. 10 for a month's Southern trip. Mrs. Blanchard and son will return early in February to Omaha.

Mrs. H. K. Brearley of 1222 East Third street is ill at her home.

Mr. and Mrs. John F. Dennis of 329 West Fourth street have as their guest Mr. Dennis' mother, Mrs. Florence Dennis of Western Canada, formerly of this city.

MEMBER OF REGIMENT

George W. Newton One of Discharged Brownsville Soldiers.

Living in Duluth—Says President's Action Was Unjust.

George W. Newton, who was a member of the Twenty-fifth Infantry, colored, at the time three companies were discharged by President Roosevelt, as a result of the shooting up of Brownsville, Tex., supposedly by the soldiers, is now a resident of Duluth. His home is at the corner of Second avenue west and First street. Mr. Newton feels that the president acted altogether too hastily in ordering the discharge of the men, and says the act was a great injustice.

"Personally I feel the disgrace of the affair keenly," said Mr. Newton yesterday. "If there had been any truth in the charges brought against us, it would have been an entirely different matter, and the chief executive of the nation would have had some reason for the summary dismissal of the men. But there was no truth to them, so far as I have been able to learn."

"In the first place, it is claimed that colored soldiers, members of our company, were shot. I do not believe they did. Secondly, it is asserted that the innocent members of the regiment, who were not guilty of the crime, were really implicated in the trouble. I know this is not true. I have been in the whole regiment during the shooting and I never heard of it, and I have not heard of a single person who has been implicated in the crime."

"I would not more think of shielding a colored man guilty of murder than I would of shielding a white man guilty of the same offense. The other boys feel the same way about it. If they really knew who the guilty ones were, they would not have hesitated to make their names public under the circumstances, for it would certainly have been an injustice to the whole regiment if it had been so. The soldiers refused to sell the colored men liquor, and the dislike of the whites was shown in many ways."

It is my opinion, and the opinion of the companies, that the shooting was done by white men or half-breed Mexicans, and that the colored men were really innocent. The whole regiment at the time was in the city, and it became evident that our presence there was not agreeable to the Brownsville people. The soldiers refused to sell the colored men liquor, and the dislike of the whites was shown in many ways."

Of the 940 deaths in Duluth last year, pneumonia, which leads the list of diseases in the health department's annual report, carried off 112, and the "white plague" is a close second, with 106. The death rate in Duluth, during the city last fall, diphtheria carried off nineteen persons, and the report states that it was with the greatest difficulty, and only after making several arrests for violation of quarantine, that the department succeeded in stamping out the disease. The city is practically free from the disease at present.

Heart disease is set down as third on the list, with sixty-eight victims and forty-two persons died of cancer during the year.

The death rate in Duluth, figured on a population of 75,000, after deducting all deaths of infants under one year of age and the 147 cases brought here for treatment from outside towns, is figured by the health department at 14.4 per cent, a very slight decrease over 1905, when the rate was estimated at 14.7.

There were fifty-one cases of scarlet fever in the city during the year as compared with 1905, when there were ninety-six cases.

January claimed the greatest number of fatalities with ninety deaths on its records, and July was the most healthful month, only fifty-one persons passing away.

Of the 940 deaths, 585 were males, and 355 females. The 137 births during the year 789 were males and 728 females. September was the biggest birth month, with 107 babies.

Dr. Murray speaks in the highest terms of the city water supply, and says that only one case in forty is typhoid in Duluth is local, and that it can nearly always be directly traced to some other source than the city water.

He also recommended a systematic collection of garbage throughout the city, and said that the city is doing well in its efforts to keep the streets clean and the water pure.

BUSINESS AFFECTED

Duluth Commercial Travelers Are Snowbound in North Dakota.

Blockade Keeps Them From Going From Town to Town.

The business of Duluth wholesale and jobbing houses is being seriously interfered with by the big snow storm through the Dakotas. Because of the difficulty attendant upon traveling through that section of the country, the representatives of the local houses are lying idle in many instances, and their services, under existing conditions, are of no value to their employers.

One Duluth house at present has fifteen salesmen in North Dakota who haven't been able to sell any goods, or try to sell any, for the past week. Railroad tracks are so blocked with snow that they cannot travel from town to town. Every Duluth house of any consequence is in the same predicament, with a greater or less number of men in the Dakota field. They write to the employing company that conditions are the worst ever known in the West, and that it is an utter impossibility to even try and sell goods, for they are unable to reach the towns they are supposed to make.

Even in the towns where they are stalled, the traveling salesmen cannot take any orders, for the merchants are at a loss when it comes to knowing when to expect an order of goods ordered now. These goods may not arrive until the snow leaves the ground in the spring, because of the congested condition of the roads, and the dealers figure there is no use ordering anything for immediate use when the chances are the shipment will not be received until well along in the spring. In a few of the larger main line towns, conditions are not so bad, but the villages along the branch lines, many of which lines have been abandoned altogether for the time being, are the ones which are suffering the most.

Some of the letters received in Duluth from the traveling men paint vivid pictures of the situation. Snow banks are described as being seventy-five feet deep in places, with a place for a train to pass, cut through them. The snow is light and drifts easily, so that every wind fills the cuts full, and snow shovels and men have to clear the tracks again before traffic can be resumed.

There is still a fuel shortage in Western Minnesota and the Dakotas. The operation of trains is made more difficult by the last cold spell. Nearly all the manufacturing industries in the Dakotas are running light or are closed up entirely, and the farmers are in a sad plight for want of fuel. The railroads claim to be doing all they can to relieve the situation.

Minneapolis came very near running out of coal a few days ago. Last Saturday it was unexpectedly discovered that there was practically no hard coal for sale in Minneapolis, and rush orders were sent to Duluth, The Great Northern, Northern Pacific, and Ogish roads all came to the rescue in one style, and within twenty-four hours had 200 cars of anthracite on their way to the Twin Cities. The long cold spell caused a sudden dip in the price of the stocks in Minneapolis.

BACK BROKEN, ASKS DAMAGES

Jacob Jacobson Sues Hobart Iron Company for \$40,350.

In point of damages asked the suit of Jacob Jacobson against the Hobart Iron company, for \$40,350 now on trial before Judge Dill, is one of the largest personal injury cases that has been tried in the district court for some time.

Jacobson, who is represented by Theodore Hollister and John R. Helms, claims to have received his injuries while working in the Mineco mine near Virginia, May 21, 1906. The complaint alleges that Jacobson and a companion were working in a crosscut where the level makes a curve back to the shaft, and that the shaft boss would not permit them to construct what is known in mine circles as an "open rock" safety device. It is claimed that while the men were at work a body of ore dislodged by a heavy explosion, fell on Jacobson, breaking his back and paralyzing one arm and both legs, making him a cripple for life.

Jacobson claims that the company was negligent through its agents, in not taking the proper precautions to protect the miners from a fall of frozen ore. It is further alleged that Jacobson and his companion were working forty or fifty feet from another crew of men who were blasting, but that no warning was given them of the explosion.

TAKES POISON.

Colored Woman Swallows Acid in a Superior Street Car.

Mrs. M. G. Johnson, colored, the wife of a bootblack, swallowed a dose of nitrochloride acid while riding on a street car in Superior, yesterday morning, and died last evening.

to her place of employment on Cumming avenue, but did not get off at her destination after the car had gone around the loop to Tower avenue again.

At Seventh street and Tower the conductor heard the woman moaning, but before he could render her assistance she had fainted and fallen to the floor. She was carried into a drug store and a stomach pump was used. Afterward Mrs. Johnson was removed to her home, but the poison had done its work and she died last evening. Her husband scouted the suicide theory.

WILL HONOR BISHOP MORRISON

Reception Will be Held at Crosby Home Saturday Evening.

A reception in honor of the Rt. Rev. J. D. Morrison will be given at the home of Mr. and Mrs. George H. Crosby, 309 East Superior street, Saturday evening, between the hours of 8 and 10.

Saturday will mark the tenth anniversary of Bishop Morrison as a bishop, the ceremony having taken place in Albany, N. Y., in 1897.

The Feast of the Purification will be held Saturday, holy communion being celebrated in the morning, probably in the basement of the new pro-cathedral, Bishop Morrison officiating. It will be the first service held in the edifice.

It is expected that a large number of outside clergy will be present at the morning service and at the reception. Last Sunday a general invitation was extended to the Episcopal clergy and to the church people of the city.

Peter Van Vooren failed to recover any damages in his suit against the Duluth Brewing & Malting company. The trial of the case was finished yesterday afternoon and the jury returned a verdict in favor of the brewing company.

Van Vooren, who was formerly employed as a teamster by the company, claimed that he was injured by a sack of sorghum which was thrown over a platform over his head and which struck him as he sat in his wagon below. He claimed the company was liable for the carelessness of its employee. The company maintained that the sack had been warned to pile the sacks carefully and that if the warning was not heeded the man who threw the sack was responsible for any accident.

THEY WED SISTERS.

They Had Robbed and Leave Bond for Them to Pay.

Hattiesburg, Miss., Jan. 23.—Will Saunders of New Augusta was brought here to serve thirty days for intimidating a witness in a justice court. Will and Bud Saunders were arrested on a charge of larceny, their victims being two elderly sisters of New Augusta.

While lying in jail the brothers sent for the sisters and a double wedding was arranged and carried out. The wives then went their husbands' bonds for \$500 each.

Upon gaining their liberty the husbands fled, deserting their wives and defaulting their bonds. Will Saunders was subsequently arrested at Ellenville and brought back. He then committed the offence for which he has now been convicted.

After serving his present sentence he is to be taken back for trial on the old charge of larceny.

A NEW BILL WOULD GIVE BACK STATE SWAMP LANDS TO NATIONAL GOVERNMENT

To Hold as Long as It Maintains Forest Reserve.

Also Provides That State May Select Other Lands.

Women's Suffrage Provided In a Constitutional Amendment.

(From a Staff Correspondent.)

St. Paul, Jan. 30.—(Special to The Herald.)—Senator Hackney of St. Paul, whose seat is being contested, presented in the senate this morning a bill to provide that the state shall give back to the government the state swamp lands in the Cass Lake forest reserve, which have been acquired after hard work against the opposition of the forestry people, and that the state shall not sell any of them, but have them under the control of the government so long as it maintains the forest reserve.

BEMIDJI WANTS NORMAL SCHOOL

Meeting Held and Committee Named to Go to St. Paul.

Bemidji, Minn., Jan. 30.—(Special to The Herald.)—If enthusiasm, determination and unity of purpose count for anything in an undertaking, the meeting held Monday evening at the Masonic hall for the purpose of discussing the proposition for the establishing of a sixth state normal school augurs well for the location of the institution at Bemidji, should the bill providing for the school become a law. The meeting, which was a very harmonious one, was attended by representatives of nearly every line of business, profession, calling and trade, including the clergy of the city. The meeting was called to order by Mayor A. A. Carter, who was unanimously elected chairman, and W. B. Stewart was chosen secretary. Numerous speeches were made, and a suggestion that a committee of six be appointed to go to St. Paul resulted in the selection of E. J. Swedberg, W. A. Gould, P. J. Russell, A. P. Ritchie, A. A. Carter and C. J. Smith, with E. E. McDonald as alternate for Mr. Gould.

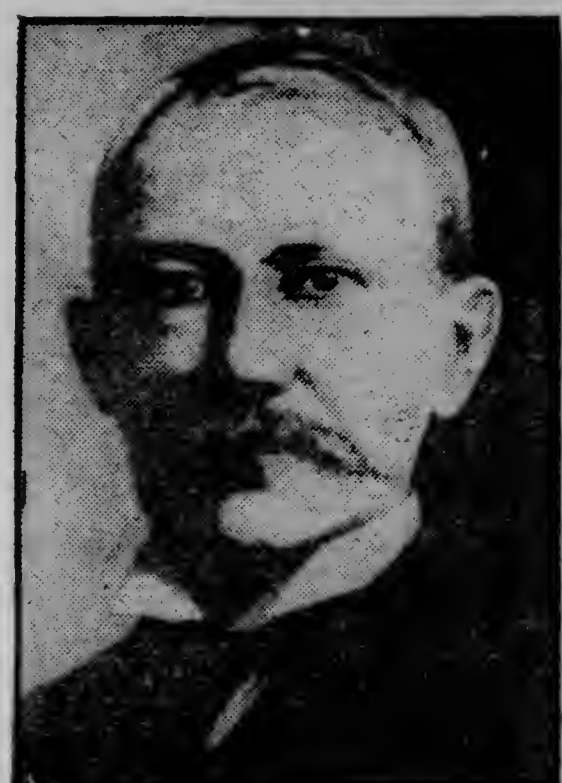

THEIR FATE IS UNKNOWN

Impossible as Yet for Rescuers to Enter Stuart Mine.

Barely Possible That Some of Miners May Yet Survive.

Charlestown, W. Va., Jan. 30.—Little additional had been learned here today regarding yesterday's dust explosion in the Stuart mine, near Thurmond, W. Va., in which eighty or more miners are believed to have lost their lives. The Stuart mine adjoins the Paria mine, in which an explosion caused the death of twenty-two men last February, and an attempt to connect the workings of the two mines was under way when the explosion occurred.

Physicians were hurried to the mine from this city and from the hospital at Hinton, but there is little for them to do until the shaft has been sufficiently cleared of gas to permit the entry of rescuers. Three men were overcome in the air shaft last night, on the first attempt at rescue, but they revived when brought into the open air. As a precautionary measure the air pumps are being put in shape for effective service before another party is sent down into the mine. There is still hope that some of the entombed miners may have escaped the explosion, and still survive, in some of the inner chambers of the mine, where the air has not yet been exhausted. The fact that part of the work was being done by contract, and new men had been recently secured by the contractors, adds to the difficulty of learning just how many men were in the mine at the time of the disaster. It was not believed that rescuers would be able to reach the bottom of the shaft until late in the day, and some hours must elapse after that before the fate of the entombed miners is positively known.

RICHARD A. BALLINGER, Appointed Commissioner of the General Land Office to Succeed W. A. Richards.

TAXING THE RAILROADS

Amendment to Constitution Proposed by Senator Fosseen.

Roads Would Pay Local Assessments for Improvements.

(From a Staff Correspondent.)

St. Paul, Jan. 30.—(Special to The Herald.)—Senator Manley L. Fosseen of Minneapolis has prepared an amendment to the constitution which will, if it is adopted, bring the railroads directly under the control of the legislature in matters of taxation, and that will provide that they shall pay local assessments for public improvements of whatever nature.

As The Herald recently explained, in discussing railroad taxation in general, the constitutional amendment of 1871 provided that the system of taxing the railroads under the gross earnings plan could not be changed or repealed without the assent of the legislature. It is necessary every time the legislature wants to make any change, to submit the proposed law to the people, because the constitution provides that any change in the system of taxation shall be made by a referendum.

OUTDOOR WORK IS SUSPENDED

The People of La Crosse Unable to Stand Wintery Blasts.

La Crosse, Wis., Jan. 30.—This was the coldest day of the winter, thermometers going down to 22 below zero. All outdoor work was suspended, it being even too cold to harvest ice, which falls to pieces when taken out of the river at this temperature.

Sioux Falls, S. D., Jan. 30.—It was 21 below zero last night by the government thermometer. This is the coldest record yet this winter.

Norfolk, Neb., Jan. 30.—The cold wave from the Northwest has settled down over Northern Nebraska and South Dakota, the temperature falling to 23 below zero at Bonestell, S. D.; 8 below at Chadron, 15 below at Norfolk and 5 below at Fremont. The low pressure from the Southwest arrived today with rise in temperature.

HURLED UNDER TRAIN.

Recklessness of John Daggett Caused Death Near Dodge Center.

Dodge Center, Minn., Jan. 30.—John Daggett, who lived about five miles west of town, was killed Monday night by a freight train, midway between here and Kasson. He was with Riley McKean, and they were overtaken by a freight train and both stepped to one side while it passed. Daggett then called out: "Let's catch on," which he tried to do. Losing his hold, he fell under the train, both legs being cut off, and he was also bruised about the head, and died instantly. McKean came on to town, notifying citizens, who went and brought the body back.

CUT HIS THROAT.

La Crosse, Wis., Jan. 30.—Lars Thompson, at one time a business man of this city, committed suicide at the county poor farm by cutting his throat with a razor. Brooding over the fact that he was a county charge is given as the cause for the deed.

CONDITIONS APPALLING

Four Millions of Chinese Said to be Actually Starving.

The Danger of an Epidemic Confronts Relief Workers.

Washington, Jan. 30.—The appalling conditions in China, as the result of the famine, as told in Chinese newspapers and other mail advices reaching the state department, coupled with the warning given by Consul General Rodgers, of the possible effects of the outbreaks which are daily occurring in the famine districts have attracted the attention of the government authorities, and developments will be closely watched.

One of the greatest dangers which the relief workers confront is an epidemic. In the great concentration camps, which have been formed by refugees, who have fled from the stricken districts to the south by the tens of thousands, the people live, some of them only partially clothed, others entirely naked, in mud huts, held together by matting. Medical supplies and skill are badly needed in these self-formed camps, as well as food and clothing.

The native officials and authorities

(Continued on page 11, first column.)

BUT FEW WANT TO BE CONSULS

Outcome of Coming Examinations is Awaited With Interest.

Washington, Jan. 30.—The first of the examinations for the consular service under the new rules laid down by Secretary Root has been fixed for March 14 next and the result is awaited with a good deal of anxiety by persons interested in the development of the consular service on civil service lines. So far, scarcely more than half a dozen persons have been designated for the examination, though it is expected that more than twice that number of vacancies in the consular service will exist by the date named. The trouble has already been indicated. It lies in the difficulty of finding applicants properly equipped technically with the necessary knowledge of two or more languages and at the same time possessing an acquaintance with worldly affairs and business methods likely to make them good consuls. It is probable that some changes of more or less importance may be made in the scheme for examinations already laid down before the applicants are actually called before the examiners of the state department.

V. McNEIL ARRESTED

At Big Falls on a Charge of Stealing a Watch.

Bemidji, Minn., Jan. 30.—(Special to The Herald.)—P. A. Walsh, sheriff of the county of Koochiching, this morning brought down from Big Falls V. McNeil, charged with grand larceny, and lodged him in the Beltrami county jail.

McNeil is said to have stolen a watch from John Hultipok, at Big Falls. He was given a hearing before George P. Watson, justice of the peace, McNeil waived examination and was bound over to await the action of the grand jury.

LUMBERJACK FROZEN.

Hayward, Wis., Jan. 30.—William Dugan, a lumberjack, was found on the lower Chippewa river in the southeastern part of the county, frozen to death. He became intoxicated and attempted to walk to the logging camp. His body lay in the snow several days before it was found.

MYSTERIOUS DEATH OF A MOTHER AND HER BABY PUZZLES THE OFFICIALS

A VICTIM OF TERRORISTS

Governor of Political Prison Killed at St. Petersburg.

Merciless Use of Lash Cause of His Assassination.

St. Petersburg, Jan. 30.—M. Guidema, governor of the political prison on Vasil Ostroff, a suburb of this city, was shot in the main street of the island today and died almost immediately.

The assassin, who was a youth of 18, dressed as a workman, emerged from a tea house as M. Guidema passed on his way home, and shot him twice in the stomach. The youth also shot and mortally wounded a prison warden who accompanied M. Guidema, and who pursued the assassin. The latter disappeared, and the police have been unable to find any trace of him, owing to the fact that the population of the island generally sympathize with the revolutionists.

Guidema was sentenced to death by the local group of terrorists for the merciless use of the lash in suppressing the "hunger strike," which the prisoners were making in protest against the killing by a guard of a prisoner who was leaning out of a window. Guidema caused the prisoners to be flogged in order to force them to eat.

Fortifications SHOULD BE READY

Secretary Taft Asks More Money for Hawaiian Islands.

Washington, Jan. 30.—"There is every reason why the fortifications at Hawaii should be made ready," Secretary Taft thus expressed himself today in an urgent letter to Senator Allison, chairman of the committee on appropriations, renewing his request for an additional appropriation of \$350,000 for the purpose of fortifying Pearl Harbor, Hawaii. Late yesterday the senate passed an appropriation bill for fortifications, which contained an allowance of but \$100,000, which is \$250,000 less than the secretary asked for. There is now \$250,000 available under last year's appropriation, and it is the secretary's desire to expend at least \$600,000 for fortifications in Hawaii. But the secretary refrains from stating, in his letter, any reason why he deems it necessary to immediately fortify the Hawaiian islands.

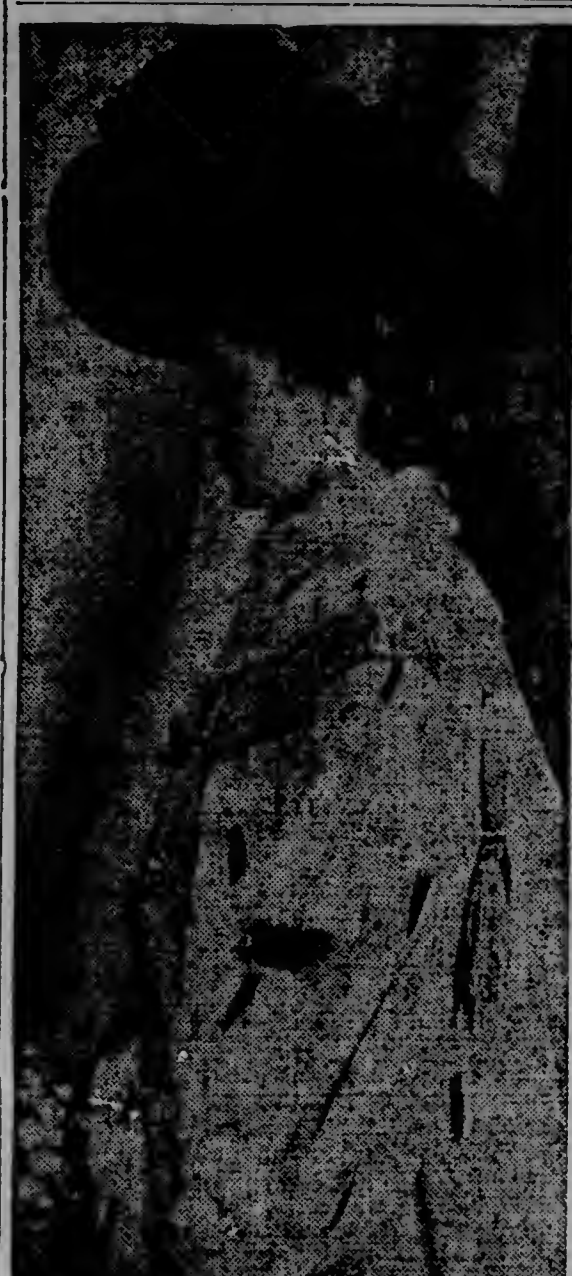

Wife and Daughter of Washington Census Clerk Are Dead.

Husband Reports That His Wife Had Committed Suicide.

He is Arrested by the Police on Suspicion.

Washington, Jan. 30.—Washington police officials are busy today trying to solve the mystery as to whether Mrs. Amanda M. Copeley and her three-months-old baby, Ruth, who were found dead in bed shortly after midnight, were murdered or whether Mrs. Copeley shot the infant and then committed suicide. The latter theory is the explanation given by the husband, William G. Copeley, a clerk in the census office, who is held at the Ninth precinct police station pending an investigation. Lieut. Falvey after examination of the body of the infant, (Continued on page 11, third column.)

ANOTHER PANEL OF 100 TALESMEN ORDERED FROM WHICH TO SELECT A JURY

MRS. EVELYN THAW, New Picture of Former Actress Taken by Marceau of New York.

HITCHCOCK CRITICISED

For His Order Holding Up Patents to Public Lands.

Carter Says the Order is Without Precedent in Country.

Washington, Jan. 30.—Severe criticism of Secretary Hitchcock was made in the senate today by Senator Carter of Montana. The criticism was based on the order of the secretary, last December, which prohibits the issuance of a patent to land under any of the land laws until after examination on the ground by a special agent. Senator Carter, some time ago presented a resolution, which denies the right of any executive officer to prevent the granting of a patent when the law under which it is claimed, has been carried out.

Mr. Carter began by asserting that the order referred to expressed the final estimate of the secretary as to the truth and veracity, the honor and integrity and the good faith of all settlers on the public domain of the United States. "It likewise arraigns," he added, "all other persons

(Continued on page 11, sixth column.)

LONG TOURS FOR GENERAL BOOTH

Aged Head of Salvation Army to Visit United States Twice.

London, Jan. 30.—Gen. William Booth, the aged founder and head of the Salvation Army, has mapped out travel tours for this year, including two visits to the United States, that might well tax the strength of a much younger man.

Last evening the general left for Denmark, Norway and Sweden, where for two weeks he will address two or three meetings a day. On Feb. 23 he will leave London on the steamer Minneapolis for New York. He will spend two weeks in the American metropolis before proceeding by way of Canada to take the steamer Minneapolis, on April 1, for Japan. After traveling through the empire of the mikado, Gen. Booth will go to Pekin. He has not yet decided whether he will return to England by the Siberian railroad or via the Suez canal. In any event he will be back in London by July to commence another automobile campaign through the British Isles. At the conclusion of this trip in the month of October, he will again cross the Atlantic for a two months' tour of the United States.

DEAD AT ALEXANDRIA.

Alexandria, Minn., Jan. 30.—Francis B. Van Hoesen is dead at his home in this city. He was one of the early residents of Alexandria, coming here in 1867. He engaged in the practice of law and afterward established a private bank. Later this institution became the First National Bank of Alexandria, with Mr. Van Hoesen as president. This position was held until his death.

Will Make 400 Men Summoned in the Thaw Case.

Jurors Chosen Again Number Ten After Two Dismissals.

One Juror May Demand the Cause of Dismissal.

New York, Jan. 30.—A new panel of 100 talesmen has been ordered for the Thaw trial.

New York, Jan. 30.—The vacant chairs in the jury box this morning appeared as a formidable barrier to a beginning of the taking of testimony before (tomorrow afternoon or Friday morning, in the trial of Harry K. Thaw for the murder of Stanford White. The average of jury selection has heretofore been two a day. The action of the court in excusing two of the sworn jurors, yesterday afternoon, has lent an air of uncertainty to the proceedings, and even the attorneys in the case are not willing to hazard a guess as to when the jury may be completed. Justice Fitzgerald threw something of a bombshell into the camp of the newspaper artists in the court this morning by announcing, through the court officer, that no more sketches should be made during the trial.

(Continued on page 11, third column.)

BARNEY KEITH LOSES A LEG

Slipped While Alighting From Train When in Motion.

Two Harbors, Minn., Jan. 30.—(Special to The Herald.)—Barney Keith, a laborer going to Hornby on the passenger train from Duluth last evening, alighting from the train at that place, before it had stopped, slipped under the wheels and had one of his legs so badly crushed it was necessary to amputate the injured member at the Bryn Mawr, Minn., where he was taken for treatment.

Ruby, the 3-year-old daughter of Mr. and Mrs. Joseph Le Page, is very low and not expected to live the result of burns received Monday evening. While Mrs. Le Page was outside, a paper on the stove caught fire and an older sister pulled it off the stove. It fell under the younger one's dress, setting fire to it. The mother, attracted by the cries, rushed in and extinguished the flames with a shawl, but not until the little one's breast and face were almost cooked and her eyes burned so she will be blind if she recovers.

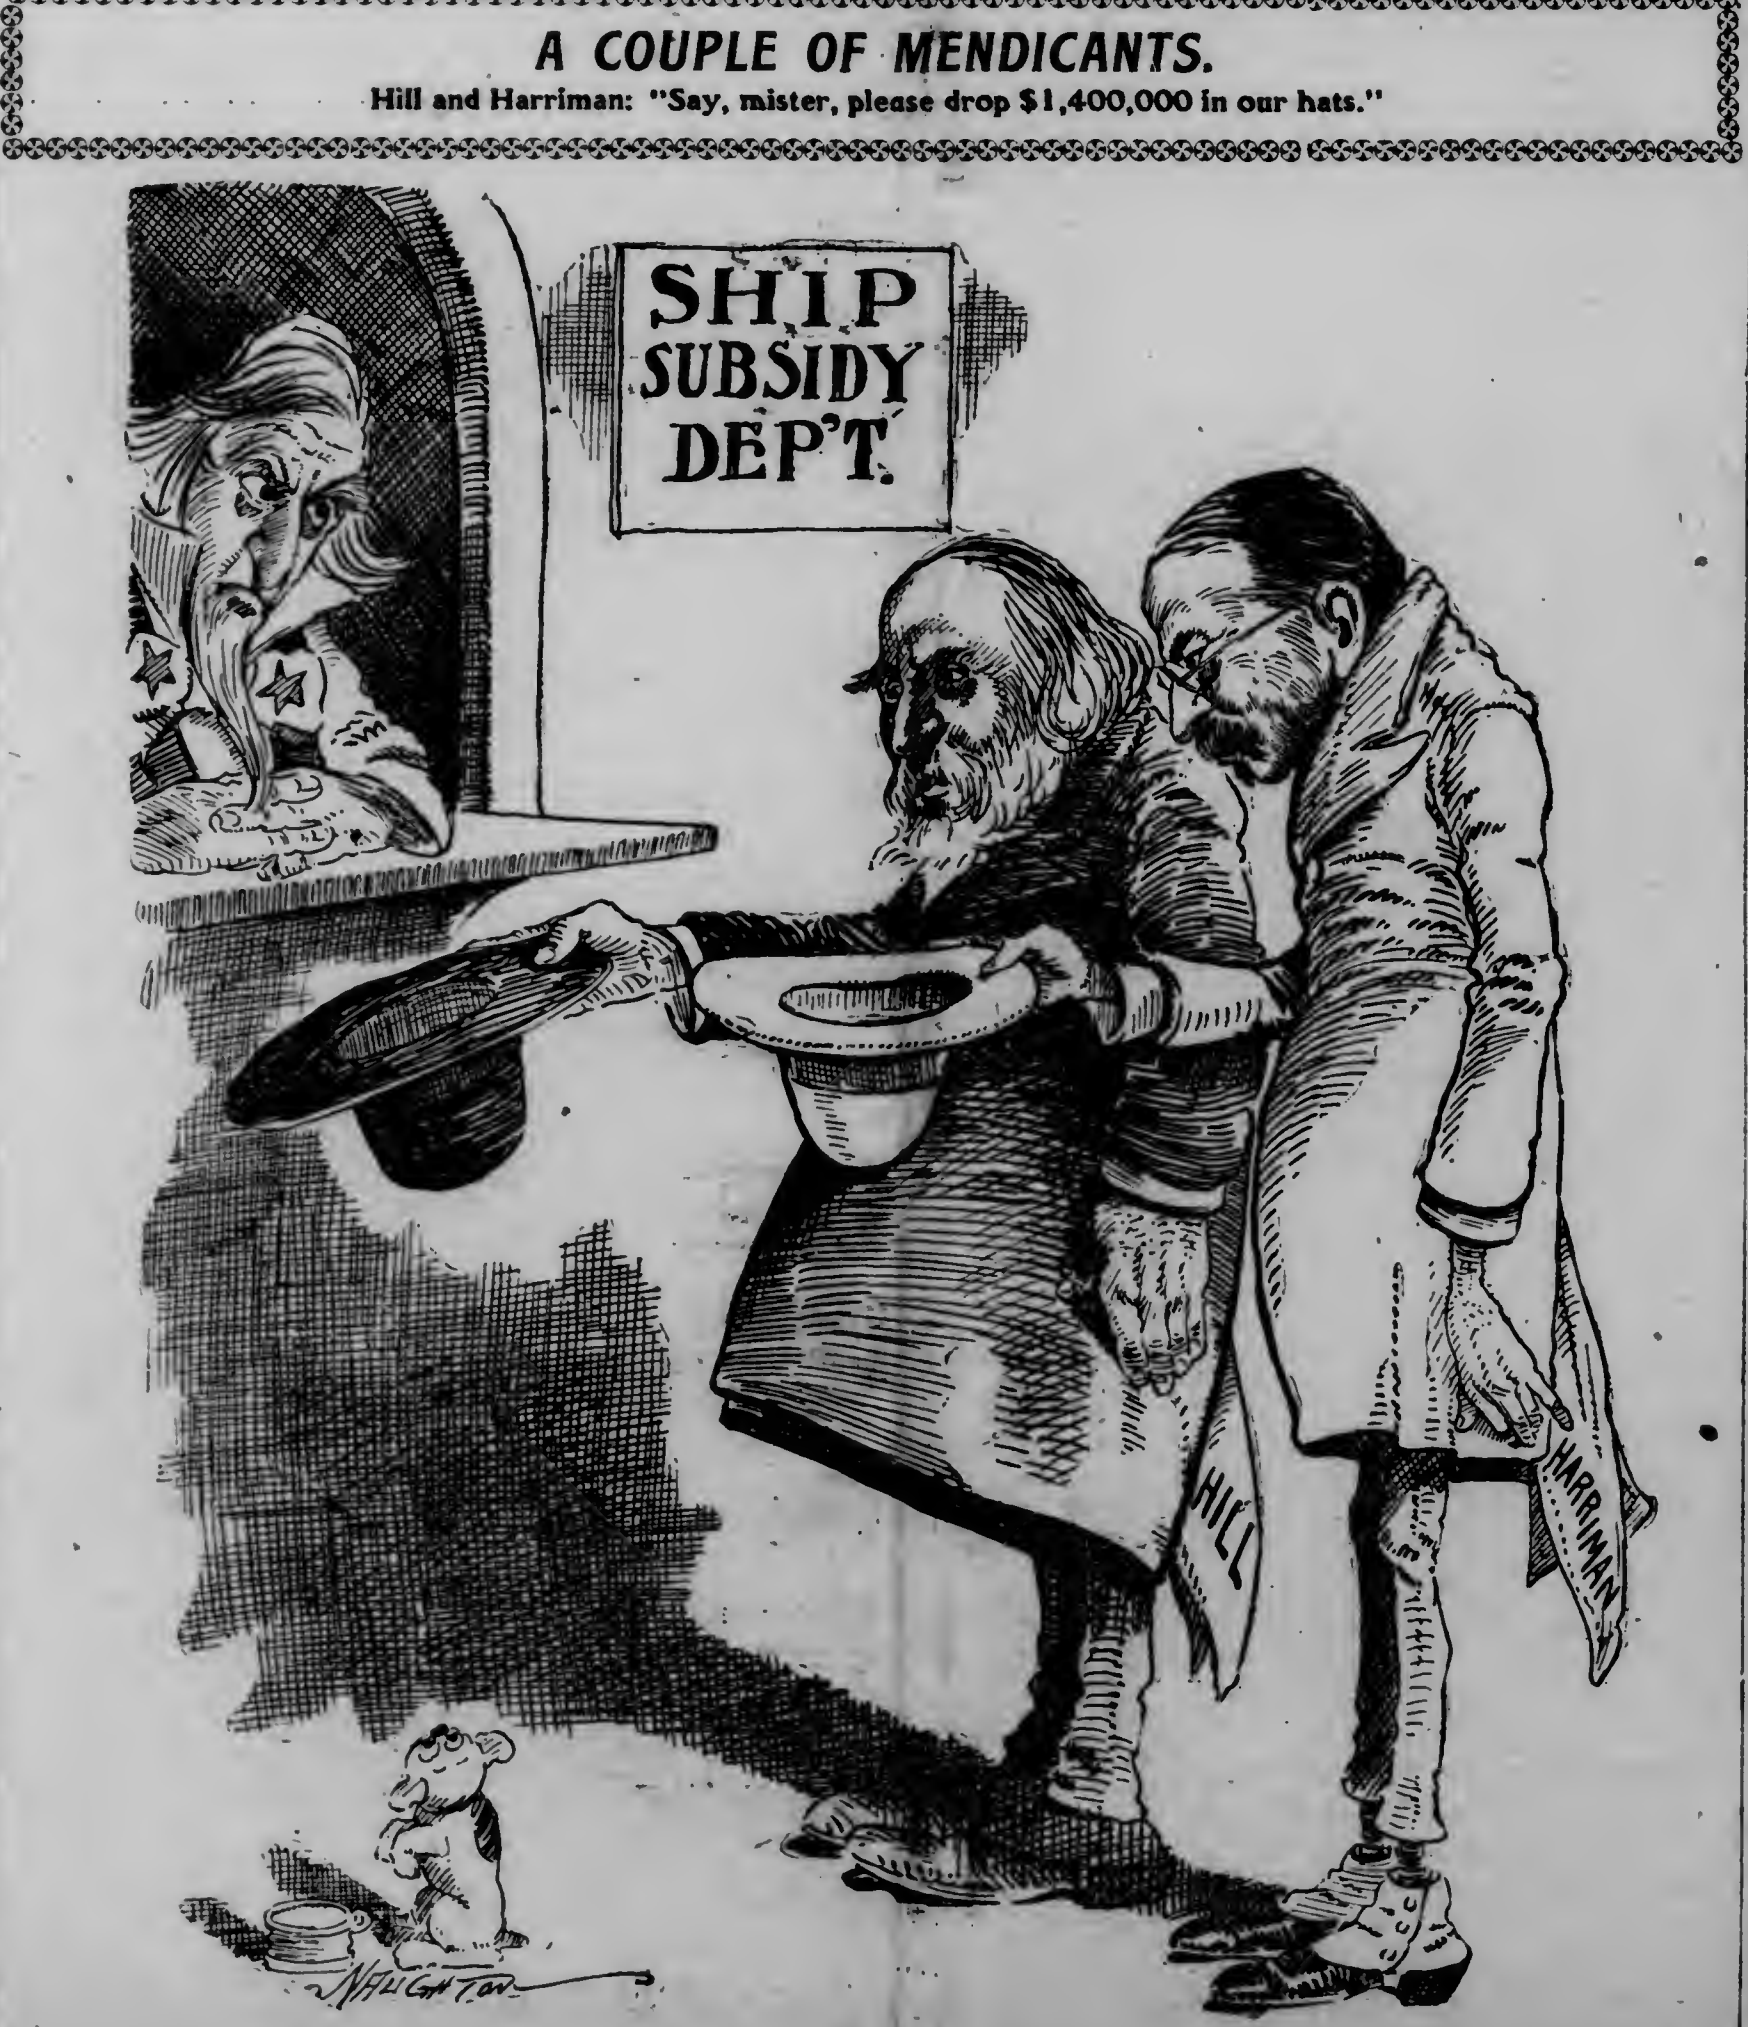

The steamer Bon Ami returned from her north shore trip last evening. If the ice permits will make another trip or two. The tug Edna G is in commission and is now keeping the ice in the harbor broke up so boats can get to the dock.

CABINET IS SURPRISED

By Proposition of the Catholics to Lease the Churches.

Paris, Jan. 30.—The French cabinet has hardly recovered from its surprise at the proposition which the bishops, with the approval of the pope, submitted to the government for a modus vivendi on the basis of a virtual lease of the churches in perpetuity to the parish priests by the mayors, and apparently some confusion exists as to what course to adopt. While the off-hand remarks of Minister of Education Briand in the chamber of deputies last night that the conditions proposed in behalf of the episcopate were unacceptable, he does not necessarily exclude the possibility of a compromise, the attitude of the Extreme Radicals, who are incensed at the peremptory tone of the communication and at the dispatches from Rome representing the Vatican as being determined, unless the bishops' proposition is immediately and unanimously accepted, to order the parish priests to leave their churches and suspend public worship, greatly embarrass the Moderates. The latter believe that the government, having accomplished the separation of church and state, should not be so easily

ORGANIZE BIG BANK

Copper Magnates Behind New Institution in New York.

Unlisted Stocks Have Weaker Tone in Duluth Market.

Dispatches from Boston are to the effect that the application to organize the National Copper Bank of New York, made by T. F. Cole, J. D. Ryan, William A. Palmer and other figures prominent in the copper world, has been approved by the controller of the treasury at Washington. The capital of the new institution will be \$2,000,000. The officers are not yet known. The incorporators, besides those mentioned above, are U. H. Broughton and W. B. Dickson.

The copper stocks market started off with a stronger tone at the opening today but declined afterward, the closing prices being weaker. There was a considerable activity in a number of the cheaper local stocks, but the general list was off.

North Butte opened at \$112, advanced to \$112.12½, declined to \$109.50 and closed at \$110 bid and \$110.50 asked. Anaconda opened at \$112.50, advanced to \$112.87½, declined to \$110.37½ and closed at \$111 bid. Anaconda opened at \$27½, advanced to \$27½, declined to \$27½, and closed at \$27 bid. Butte Consolidated opened at \$47½, advanced to \$48, declined to \$47½, and closed at \$47 bid and \$47.50 asked. Calumet & Arizona opened at \$182, advanced to \$184, declined to \$181 and closed at \$180 bid and \$181 asked. Greene-Canaan opened at \$22.75 and closed at \$22.37½ bid and \$22.50 asked. Greene Consolidated opened at \$30.50, advanced to \$30.75, declined to \$29.75 and closed at \$30 bid and \$30.25 asked. Cananea Central sold at \$29.25, advanced to \$30 and closed at \$29.25 bid and \$29.50 asked. Deam-Arizona was quiet and closed at \$100 asked. Denn mining stock was \$30 asked. Globe Consolidated sold at \$18.20, declined to \$17.50 and closed at \$18 asked. Superior & Pittsburg sold at \$27, advanced to \$27.25 and closed at \$27.12½ bid and \$27.25 asked. Carman advanced from \$9 to \$14 and closed at \$12 bid. Copper Queen of Idaho sold at \$3.25, advanced to \$3.50 and closed at \$3.25 bid and \$3.50 asked. Calumet & Montana sold at \$5.50 and closed at \$5 bid and \$5.50 asked. Warren sold at \$15.25 and closed at \$15 bid. Keweenaw was inactive and closed at \$12 bid. Hancock at \$15 bid, Cliff at \$4.25 bid and \$4.50 asked, and Calumet & Sonora at \$34 asked. Black Mountain sold at \$8 and closed at \$5 asked.

Letters to stockholders from W. J. Power, president of the Carman Consolidated Copper company, which owns mines in Sonora, Mexico, tell of progress at the property. The working force at the mine has been increased to eighty-five men. Contracts have been made for the delivery of boilers, hoists and pumps and upon the return of General Manager Casey to Chicago, bids will be opened for a smelting plant and the contract let.

T. F. Cole has returned from the East and says there is nothing to the report that the Amalgamated Copper company was behind John D. Ryan and himself in their effort to bring about a consolidation of a number of Lake Superior copper properties. While away Mr. Cole, with Mrs. Cole, attending the launching of the new Pittsburg steamer Thomas F. Cole at Detroit.

LATE DOINGS IN UPPER MICHIGAN

Calumet—Thomas Pengilly of Butte, Mont., came here marrying his own sister last month. Having formerly made Calumet his home Mr. Pengilly acquainted several of his old friends with the story a few days ago, and in this way the do-

CENTRAL ICE RINK.

Singer's dock, Lake avenue south, skating tonight. Good music. Excellent ice.

Wales and she had been adopted by a family named Howell when her parents died, but she was so young at the time she did not remember her early life. Pengilly made a thorough investigation and found she was his own sister. Now he is trying to find the whereabouts of his other sisters and brothers and arrange for a family reunion.

It is said that influential men of Calumet are at the present time interesting themselves in the organization of a national bank in Laurium. The movement has been under way for some time, but the progress has been slow and it is soon expected to reach realization. Laurium at the present time has but one bank, the State Sav-

ing a sister, whom he had given up years ago as dead.

The story which Pengilly wrote to friends here is one which reads like a romance. It seems that some thirty years ago he and his three brothers and two sisters lived with their parents in England happily. Following out the custom in those days young Thomas was bound out for an apprenticeship with a machinist and in due time learned the trade. As he grew older the desire to travel came over him, and he set out for South Africa.

While in Africa Pengilly received word of death of his mother, and this was followed by the announcement of the sudden death of his father. Later he came to America, and after working several years in the mines at Calumet went to Butte. There he met a young lady named Nellie Howell. They were about to be married when he discovered that both had come from the same town in South Africa.

Great Bargain!

Will sell two bed room suits; solid mahogany; also large folding bed with dressing case for \$25.00 each suit. Above goods are good as new and cost over \$100.00. Will also sell solid mahogany sideboard for \$25.00. Duluth Van & Storage Co.

It is said that influential men of Calumet are at the present time interesting themselves in the organization of a national bank in Laurium. The movement has been under way for some time, but the progress has been slow and it is soon expected to reach realization. Laurium at the present time has but one bank, the State Sav-

ings bank, which is enjoying a good business.

Lake Linden—The condition of Henry Hess, the man who was injured at the Calumet & Hecla smelter Saturday is reported as greatly improved. For a time it was thought that he would lose his sight but it has been found that he will get around again and although seriously burned will still be able to see. The condition of Mr. Painter is also improved.

Marquette—James L. Stiles, who first came to the Lake Superior region in 1845, died here yesterday, aged 81. He was stricken with paralysis Monday night. Stiles was the only white man living who came to what is now Marquette sixty-two years ago.

Minneapolis' pure food product—Hunt's Perfect Baking Powder—is made under the supervision of expert chemists. Order a can today.

INSANE MAN

Believes He Has Mission to Burn Town of Smithfield, W. Va.

New Martinsville, W. Va., Jan. 30.—Claiming that God had instructed him to burn the town of Smithfield, W. Va., thirty miles from here, a man who gave the name of Harry Howard, was arrested here last evening. He was emerging from the Bane hotel. It was ascertained that an attempt had been made to fire the hotel, and with the same time three other buildings. The fires, however, were extinguished with small loss. Howard resisted arrest, and before he was captured, shot four men, two of whom, it is said, received fatal wounds.

After he had been placed in the lockup a mob lynchings him, but the

COMPANY PUTS IN DEFENSE

Jacob Jacobson, who is suing the Hobart Iron company for \$40,350 damages for a broken back received in an accident at the Minneca mine some time ago, finished introducing evidence in support of his claim at noon today. This afternoon the company began introducing testimony in its defense with a view of contradicting the claim

of Jacobson that it is responsible and liable for his injuries.

The case is being tried in Judge Dill's room.

The trial of the damage action of John Beckman, as guardian of a minor claimant, against the Duluth Log company, was started before a jury in Judge Cant's room.

The guardian is represented by Sheehan & Keefe of St. Paul, and the log company by Wilson & Morgan.

"I had tried everything for my baby until Dr. Lyle recommended Cascasweet. I can truthfully say it is the best medicine I ever used for babies."

Nannie L. Taylor, Bedford, Va. Cascasweet is sold by all druggists.

NOT AFTER NATIONAL

Ishpeming Does Not Want the Big 1908 Tournament.

Kickers Back Down Gracefully--Duluth's Chances Very Bright.

The Marquette Mining Journal prints the Ishpeming ski riders' reply to the storm of protest which has been arising in this city as a result of the publication of some statements made by the Ishpeming riders, as to unfairness on the part of the Duluth judges in the late tournament here.

While the article includes a very graceful backdown on the part of the Ishpeming men on the kick question, as they say they simply reported something someone else had told them, and didn't see anything wrong themselves, the important part of it to Duluthians is the statement that Ishpeming is not out for the national tournament in 1908 and will probably support Duluth in her contest for the honor.

This will be welcome news here, as Ishpeming practically leads the Michigan delegation of association representatives and it brightens the Duluth prospects in no small degree, not only to be positive that Ishpeming is not in line for the affair but to have some hope of securing the votes which they control in the big meeting.

While nothing definite was learned, it is rather understood that Duluth will get the support of the St. Paul delegation, and with the range and Minnesota towns already in line, the local chances for landing the big contest look brighter than ever before.

The following is from the "Mining Journal":

"This city will not be a candidate for the honor, nor will the representatives of the local club do anything to interfere with Duluth's chances of capturing the prize. Ishpeming was in favor of Duluth last year for this year's tournament, and its representatives voted for that city. It is quite likely that Ishpeming will favor Duluth for the 1908 tournament, as this city will continue to have its own big show on Washington's birthday. When the local men feel that it is again Ishpeming's turn to have the national event, they will go after it, and it's ten to one that they will win out, but at present it is doubtful if any of the club members want the national meet in 1908."

Ishpeming was in favor of Duluth last year for this year's tournament, and its representatives voted for that city. It is quite likely that Ishpeming will favor Duluth for the 1908 tournament, as this city will continue to have its own big show on Washington's birthday. When the local men feel that it is again Ishpeming's turn to have the national event, they will go after it, and it's ten to one that they will win out, but at present it is doubtful if any of the club members want the national meet in 1908."

chances for landing the big contest look brighter than ever before.

The following is from the "Mining Journal":

"This city will not be a candidate for the honor, nor will the representatives of the local club do anything to interfere with Duluth's chances of capturing the prize. Ishpeming was in favor of Duluth last year for this year's tournament, and its representatives voted for that city. At present Rev. Hulse is working in the interests of the big Episcopal anniversary at Richmond, Va., next fall.

ALMOST THICK ENOUGH TO CUT

According to measurements taken yesterday, ice on the lake opposite Thirty-second street, Park point, measures eleven inches in thickness.

This is rapidly being increased, and the ice companies expect to be able to begin cutting operations within the next week or two.

The Duluth company is today moving its outfit from Spirit Lake to town and will begin cutting ice on the bay for storage purposes this week. The lake ice will be of an excellent quality this winter, and, unless there is a very sudden change in the weather, the companies will have plenty of time to lay in as large a supply as desired. Usually operations are not begun until the ice is twelve or fifteen inches thick.

The harbor ice now measures twelve to thirty-six inches in thickness.

It's healthful, wholesome. It's good for one as the other. The more you take the better you sleep and eat. Makes people happy. That's what Hollister's Rocky Mountain Tea does. 25c, Tea or Tablets. Ask your druggist.

IF YOU NEED A MEDICINE, YOU SHOULD HAVE THE BEST.

We ask you to consider the fact, that although there are hundreds of preparations advertised, there is only one that really stands out pre-eminent as a remedy for all diseases of the kidneys, liver and bladder.

Dr. Kilmer's Swamp Root stands the highest, for the reason that its remarkable curative power has been proven in thousands of even the most distressing cases.

Swamp-Root makes friends quickly because its mild and immediate effect is soon realized. It is a gentle, healing vegetable compound—a specialist's prescription for a special disease.

Swamp-Root is not recommended for everything.

A Sworn Certificate of Purity is with every bottle.

For sale at all drug stores, in bottles of two sizes—fifty cents and one dollar.

Sample Bottle of Swamp-Root Free by Mail.

In order to prove what Swamp-Root, the great kidney, liver and bladder remedy will do for you, every reader of the Duluth Daily Herald, who has not already tried it, may receive a sample bottle by mail absolutely free. Address Dr. Kilmer & Co., Binghamton, N. Y. Write today.

TOO STEEP FOR TEAMS

Proposed Viaduct Would
Have Too Heavy a
Grade.

Could Not be Used by
the Principal Jobbing
Houses.

While at first thought the viaduct over Fifth avenue west from Michigan to Commerce streets, bridging the railroad tracks there, looks like a very good proposition, a little investigation of the subject shows some impractical features to the improvement, according to local engineers.

In the first place if the viaduct were to end at Commerce street, the approach would have to be made too steep to be practicable, in order to maintain the required height of 22 feet above the tracks. The top of the viaduct would have to be twenty-four feet above the street level, and the drop would have to be made in about 100 feet, practically 15 per cent grade. This is just twice as steep as the east approach to the Sixth avenue viaduct, four times as steep as the approach to the Lake avenue viaduct, and twice as steep as Third avenue west. There is no grade in the city to equal it, except Fourth avenue east between First and Second streets where a rise of seventeen feet in 100 is maintained. This is almost level used by teams, and its impracticability for use by the heavy delivery wagons of the wholesalers is very evident.

If the lower end of the approach were moved farther down the avenue, Patrick's and Stone-Driscoll-Wells would be cut out and be forced to use the Sixth avenue viaduct over its east approach as at present, and these firms, with the Lethbridge Drug Co., which would also be excluded, represent the bulk of the business which would use the bridge.

The cutting off of light would not be an inconsiderable item and however the viaduct is constructed it is bound to shut off the Union depot and the Northern Pacific freight sheds across the street, while the Omaha traffic would gain no advantage from the improvement whatever.

A bridge half the width of the street has been discussed and would appear to be more feasible than any other plan suggested, but it would also have to be built with an approach cutting off the principal wholesalers, and it is doubtful whether their teamsters would on many occasions, drive back down the avenue in order to cross the tracks on the viaduct.

All the railroad tracks but the Omaha can be crossed under the present arrangement by means of the Sixth avenue viaduct and its eastern approach which reaches Fifth avenue between the Omaha and the Northern Pacific tracks.

In addition to this it is pointed out that in 1895 Fifth avenue west was paved with sandstone blocks, at an approximate cost, for the district to be spanned by the proposed viaduct, of \$3,000. Of this the various railroads, though not required by law to do so, furnish nearly 50 per cent, and it is very doubtful whether they could now be compelled to stand any portion of the expense of a viaduct over the district paved.

Though the plans which the city engineer has been ordered to draft by the council for the new structure may contain some innovation which will make the proposed bridge practical, it does not look like a very sound proposition as yet.

The Right Name.

Mr. August Sherpe, the popular overseer of the poor, at Ponchartraine, La., is the author of the new life pills, which he has named "Dr. King's New Life Pills" after his own name. They are not more agreeable, do more good and make one feel better than any other laxative. Guaranteed to cure biliousness and constipation. 25c at all druggists.

BREAKS DEADLOCK.

Governor Appoints Fifth Commissioner for Itasca County.

St. Paul, Jan. 30.—Governor Johnson has signed the bill, aimed to break the deadlock in the Itasca county board, and appointed C. M. King of Effie as the fifth commissioner at large, until the next election.

Edward W. Johnson of Fairbault was appointed a member of the board of trustees for the state insane asylum at Killip, also for Fairbault.

VERY POPULAR

Were the Copeleys When They Lived at Walnut, Iowa.

Omaha, Jan. 30.—A special to the Bee from Walnut, Iowa, says: The report of the death of Mrs. Amanda Copeley and her infant child, with the arrest of her husband, created profound surprise here, where the parties have resided since infancy, and stood high in public estimation. No more highly respected people reside here than the Copeleys and Bunkers. Will Copeley, in particular, was popular. After their marriage, Mr. and Mrs. Copeley lived together about a year, and their married life was so harmonious that the story of their quarreling came as a severe shock to friends and relatives.

Mothers who give their children Kennedy's Laxative Cough Syrup invariably find it contains Honey and Tar, conforming to the National Pure Food and Drug Law. Sold by all druggists.

MORE BODIES ARE RECOVERED

From the Galleries of
Reden Mine Where Explosion Occurred.

Saarbrueck, Rhenish Prussia, Jan. 30.—The search of the galleries of the Reden mine at St. Johann-on-Saar, where the explosion occurred Jan. 28, continued throughout the night. More bodies were brought up and identified as being among the list of 148 men already given up for dead. The fire has been extinguished and the work of clearing the encumbered galleries is proceeding.

Herf Dullbrueck, the minister of commerce, who has been inquiring into the only disaster today telegraphed as follows to the appropriations committee of the Prussian diet:

"It is probable that the cause of the Reden explosion was coal dust. Up to the present sixty-two bodies and twenty-seven injured men have been recovered from the mine and there are eighty-six miners missing. So far as can be ascertained, all the missing men are dead."

Old miners express the opinion that the cause of the explosion was the carelessness of a miner in smoking in the galleries. It has developed that there was a good deal of pipe smoking in the deep level galleries in spite of the fact that smoking was severely prohibited.

DULUTH'S PRIZE BOOZER

Olaf Lindberg Back Again After Two Hours of Freedom.

Olaf Lindberg, a big, good natured Swede, with a mustache that would credit to "Der Kaiser," and oratorical abilities of no small extent, breaks the record in local court for persistent booze fighting.

Given a sixty-day sentence last November, he was released yesterday afternoon from the county jail, and after scarcely two hours' absence from the jail, was in the lockup again on the same charge.

Lindberg's addiction to drink has been considered a mania by the probate court and he was a short time ago committed to the insane asylum at Fergus Falls, from where he was released after a short stay.

"Ay be out of town by tonight, you let me alone," Lindberg assured the judge in evident sincerity and proudly announced that he had a nickel left after yesterday's disposition.

Capl. Resche agreed that he would get Lindberg as far as Proctor by tonight if the judge let him off, so a sixty-day sentence was suspended on this condition.

Rich! Rich! Rich!—Scratch! Scratch! The more you scratch the worse the itch. Try Doan's Ointment. It cures piles, eczema, any skin itching. All druggists sell it.

TRIAL OF LIEUT. DRURY RAPIDLY NEARS ITS CLOSE.

Pittsburg, Jan. 30.—When the trial of Lieut. Ralph W. Drury and Private John Dowd, U. S. A., charged with killing William H. Crowley, was resumed today, Assistant United States District Attorney Nathan Williams offered in evidence the finding of the court martial held in the case of Dowd, wherein he was acquitted by a properly constituted court martial of the United States.

After some discussion, Judge O'Connor admitted the evidence, the supreme court having decided that such evidence could be used in civil courts. Private Dowd then took the stand in his own defense. The case will probably go to the jury this evening.

DIETZ A GOOD SHOT.

Bags a Silver Gray Fox and Several Other Bounty Animals.

Chippewa Falls, Wis., Jan. 30.—John F. Dietz, the alleged outlaw of Cameron Dam, has shot several wolves and other bounty animals this winter. The most valuable animal to fall before his rifle was a silver gray fox, the fur of which is listed at from \$200 to \$300.

COLD WILL MODERATE

Storm Area in the West
Will Bring Mild
Spell.

What Duluth May Expect
for Month of
February.

The cold weather is still hanging on with the buldog grip and Duluthians are beginning to doubt if there is ever going to be a letup. It was noticed yesterday morning that the temperature had moderated just a trifle but last evening the mercury again sought the bottom of the tube and went down to the 22 below mark.

Including today, there have now been ten days in succession which have had temperatures of anywhere from 10 to 25 below zero. The lowest of the winter was reached Monday morning, when it was 27½ degrees below. Yesterday the weather showed signs of getting milder and the official thermometer registered only 14 below at 7 a. m. During the day the temperature got up to about the zero mark but could not get above it. The mercury was back to the low mark again this morning and at 7 o'clock the official temperature was 22 below.

Weather Observer Richardson stated this afternoon, however, that he truthfully expects a moderation tomorrow. He says that there is a storm area extending from Oregon on the Pacific coast into the interior as far as Wyoming, which is coming this way and which will have a tendency to bring warmer weather. The weather man monthly record shows that the warmest it will be or how long the warm spell will remain.

The following data for the month of February for the past thirty-six years have been compiled from the weather bureau records, and while they are not to be construed as a forecast of the weather for the coming month, they show the conditions that have prevailed during the month in years past.

The mean or normal temperature for February has been 18 degrees above zero in Duluth for the past thirty-six years. The warmest February was that of 1877 when the average temperature was 22 degrees. The coldest month was that of 1875 when the average was 2 degrees below zero. The highest temperature was that of Feb. 21, 1887, when the thermometers recorded 57 degrees above. The lowest was reached on Feb. 9, 1889, when there was a record of 39 below.

The average precipitation for the Februarys of the past thirty-six years has been 1.02 inches. The greatest was 2.71 inches in 1884, while the least was .10 inches in 1877. The greatest amount of snowfall recorded in any twenty-four consecutive hours was 8 inches on Feb. 24, 1871. The greatest amount of snowfall recorded in a twenty-four hour consecutive hours was 8 inches on Feb. 19 and 20, 1881.

The average during the past thirty-six years, the average number of clear days has been nine, partly cloudy days, ten; and cloudy days, fifteen. Prevailing winds have been from the northeast, and the average hourly velocity of the wind is 8.5 miles. The highest velocity was reached on Feb. 18, 1903, when the wind blew at the rate of fifty-six miles an hour.

Purity is our watchword. Selecting only the choicest herbs and roots known to the pharmacists of the most famous of the world's medicinal plants. Holister's Rocky Mountain Tea is purity itself. 35 cents, Tea or Tablets. Ask your druggist.

MYERS GRANTED THE FRANCHISE

By Virginia City Council to Build Street Railway.

Virginia, Minn., Jan. 30.—(Special to the Herald.)—The city council, at its meeting last evening, decided by a unanimous vote to grant a street railway franchise to the Mesaba Traction company, promoted by F. B. Myers and associates of Eveleth. While the franchise of this company was less liberal than that offered by the Northern Traction company of Hibbing, the council decided that the Mesaba Traction company gave the best assurance of actually constructing the line. Several amendments were agreed to and adopted, which makes the franchise more favorable to the city than the one presented a week ago.

President Myers assured the council that the work of construction would begin in the near future, and that the line would be rapidly pushed to completion.

NECK BROKEN.

Strawberry Point, Iowa, Jan. 30.—John Wagar, a farmer, fell and broke his neck. He and his wife had just returned from church and while un-

hitching his team he slipped on the ice.

F. A. WILDES, SR., DEAD.

Passed Away in California as Result of General Debility.

Mankato, Minn., Jan. 30.—Word has been received in this city of the death of Frank A. Wildes, Sr., which occurred at Riverside, Cal., Thursday morning, of general debility. He was 64 years of age. His wife died some years ago, but he is survived by several sons and daughters. Frank A. Wildes, Jr., of St. Paul, who is state inspector of mines; Miss Jennie Wildes of Hibbing, Miss May Wildes, who was living with her father in California; Mrs. Hattie J. Poehler of Minneapolis; George Wildes of Howell, Mich.; Miss Lydia Wildes and Samuel Wildes of California.

Mr. Wildes formerly lived at Lake Washington, but moved to California about twelve years ago. The remains will be interred at St. Peter, Thursday afternoon.

WALKER COMMERCIAL CLUB

To Work for Appropriation for the State Sanatorium.

Walker, Minn., Jan. 30.—(Special to the Herald.)—The annual meeting of the Walker Commercial club was held last evening and an immense amount of business transacted. Among the important measures taken up was that of outlining work to do to secure an appropriation for the state sanatorium, located near the village. Every effort will be made to go-operate with

There Never Was an Under- muslin Sale to Match This!

One of the strongest features of this sale is the choiceness of the merchandise, the correctness of the styles, the dependability of the garments in every particular. There's a point in quality where cheapness ceases to be economy, and it is policy to avoid this extreme. Our good name and the feeling of entire security when shopping here are worth more to us than a few cents of immediate profit which would come from selling poor merchandise. Quality is especially noticeable throughout every garment in our Undermuslin sale. Here are Undermuslins that mean life, service, economy and satisfaction. You can afford to be quite extravagant in buying when it means such economy. Trouseaus for brides, Undermuslins for sweet girl graduates, vacation-seeking school teachers, summer supplies for all women in this great sale of white. It's a most favorable buying time now—only once a year such values as are being offered now at Freimuth's.

It's the Convent-Made Lingerie We're Selling!

The Great Annual Sale of Linens is attracting big crowds. Big values for users of Linens, White Waistings and Towelings.

Black Kersey and Broadcloth Coats at Almost Half Price!

A fortunate purchase of 50 long, loose and tight-fitting Coats enables us to offer them to you at almost HALF the FORMER PRICES. A prominent New York maker, anxious to close his winter's business offered them to us at a liberal discount. We knew that a low price would sell them—therefore accepted. We divide them into three lots for quick selling—Get in early—Sizes 34 to 42. None will be sent out on approval.

15 Black Coats—of fine Broadcloth—satin-lined throughout—50 inches long—some lined throughout—others lined to waist—\$29.50 value	25 Black Coats—Loose and tight-fitting—Kersey and Broadcloth—52 inches long—some lined throughout—others lined to waist—\$29.50 value	10 Handsome Coats—Black Kersey and Broadcloth—lined with genuine Skinner's satin, beautifully braided—52 inches long—very dressy—\$30.00 values for
\$12.50	\$15.00	\$17.50

Pretty 1907 Dress Goods!

The cotton weaves of 1907 are remarkably beautiful and effective. We are now showing the handsomest things in sheer dress goods ever seen at the Head of the Lakes. Many of the patterns and fabrics are exclusive with us.

Beautiful Orchid Batistes, in figures and flowers. Silk-finished Cotton Foulards—in medium, dark and small effects. New Gingham, new Zephyrs, new Percales—in the stylish coin spots and nobby plaids. Tailored Suitings, in grays, broken checks, contrasting plaids—54 inches wide—at \$1.25 per yard.

Rheumatism

Is one of the constitutional diseases. It manifests itself in local aches and pains,—inflamed joints and stiff muscles,—but it cannot be cured by local applications. It requires constitutional treatment acting through the blood, and the best is a course of the great medicine

Hood's Sarsaparilla which has permanently cured thousands of cases.

For testimonials of remarkable cures send for Book on Rheumatism, No. 7, C. I. Hood Co., Lowell, Mass.

BELL KILLED DR. TOWNSEND

Big Sensation Promised at the Inquest by Coroner.

New York, Jan. 30.—The examination by the police of Staten Island of persons supposed to have knowledge touching upon the murder of Dr. C. W. Townsend early Saturday morning, conducted throughout last night and until 3 o'clock this morning. As a result two sisters, a brother and a brother-in-law of John Bell, the suspect who is now under arrest, were put under \$1,000 bonds to appear as witnesses. The coroner's inquest probably will be held today.

Police Inspector McLaughlin said today: "Howard Bell, half-brother of John Bell, broke down and made a full confession to District Attorney Kenney, who he reported how John had confessed to him that he had entered Dr. Townsend's house and shot him."

"In all my experience," said Inspector McLaughlin, "I have never seen a man exactly like this man Bell. He is a man, a maniac and the subject of the most serious investigation in the history of the state. There is a big sensation behind this, but it will not come out until the inquest."

FILES CURED IN 4 TO 14 DAYS. PAIN EXTINGUISHED. No need of any care of itching, blind, bleeding or protruding files in 4 to 14 days or money refunded. 50c.

MOTION OF THE DEFENDANTS

To Set Aside Suit in Alleged Oil Monopoly is Heard.

St. Louis, Jan. 30.—The hearing on the motion of the principal defendants in the government's suit against the alleged Standard Oil monopoly to set aside the order of service under which they were brought into the jurisdiction of the United States circuit court at St. Louis, was begun today before United States Judge James M. McDaniel. Adams and Vandewater. Practically all the seventy corporations and individuals named in the government's suit are parties to the motion which challenges the validity of the order made in accordance with the provisions of the Sherman anti-trust act, upon the government's suit was instituted. John G. Milburn of New York, and John G. Johnson of Philadelphia, counsel for the Standard Oil company, arrived last night to be present at the hearing. The government is represented by Assistant United States Attorney Gen. Milton D. Purdy and Special Counsel Frank B. Kellogg of St. Paul.

STAPLES TO HAVE A NEW NATIONAL BANK.

Washington, Jan. 30.—(Special to The Herald).—The comptroller of the currency has issued a certificate authorizing the City National Bank of St. Paul, Minn., to begin business. This new national bank is chartered under the laws of a conversion of the Citizens' State bank of Staples. Its officers under its national bank charter are: John D. Harris, president; William Dover, vice president; E. E. Groves, cashier; George E. Harris, assistant cashier.

FIRE AT DEXTER. Austin, Minn., Jan. 30.—Fire at Dexter village, about eighteen miles east of Austin, Monday night destroyed the fine double brick block belonging to Medberry Bros., general merchants. The total loss is estimated at \$20,000.

SOME PEOPLE KNOW

The Facts About Coffee.

Perhaps you know coffee contains the same kind of a drug as cocaine, morphine, strychnine—any alkaloid? Perhaps you know tea contains the same thing and that neither coffee nor tea are foods?

Foods are necessary to do two things: Repair tissue waste from day to day, and furnish the individual with heat and energy. Tea and coffee do not do the first and only make believe they do the last.

A N. Y. lady found out the cause of her and her husband's trouble. She writes:

"Using tea and coffee from childhood up it was a hard thing to give them up, but my doctor told me they were killing me. Of late years I have trouble with my head, my memory was poor and my nervous system entirely upset. At last I was forced to keep my head."

"My husband, also, had to give up coffee—he was a nervous wreck from drinking it."

"Postum was then brought into our household and while on my sick bed I drank it, and it was merely a substitute for coffee. I drank it for breakfast and supper, and slowly but surely began to regain my health."

"I soon found out it was Postum that was doing the work. Now I am well and my nerves are stronger than I ever dared hope. My husband found Postum was a great benefit to him. He is now a strong man."

"If people knew that the dreadful diseases some of them suffer from, could easily be prevented by banishing that poisonous thing named coffee, and use in its stead a pure, healthful drink like Postum, I am sure there would be fewer sick and miserable creatures." Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Wellville," in pkgs. "There's a reason."

RAILROADS**IS HARD ON THE TRAINS**

Duluth Passenger Service Seriously Affected by Cold Weather.

Risk in Running Trains at High Rate of Speed.

The cold weather is still having its effect on passenger train service into Duluth and nearly every incoming train is late. The shorter hauls are made in from one to two or three hours longer than the regular schedule, while the longer hauls often run five and six hours over, with a few greater delays. Real cold weather without snow is almost as bad as warm weather with snow, for, with the mercury 20 degrees or more below the zero mark, the equipment freezes up in such a fashion that it is impossible to make good time. There are numerous little unlooked-for delays resulting from different parts of the car and engine equipment getting out of order because of the extreme cold, and the locomotive cannot handle as heavy a load as it can under normal conditions.

"The traveling public expresses great annoyance at the delays," said a local railroad man this morning, "but if the people were wise they would not ask the roads to try and have their trains make up time that has been lost. Some railroads issue positive orders that no attempt shall be made to make up lost time, no matter how late a train may be. This is done in the cause of safety. There is always danger in running a train at an unusually high rate of speed, and it is much better for everyone to be sure of getting to the city in two or three hours late rather than run the risk of killing it up in the ditch and killing half the passengers."

The biggest part of disastrous railroad wrecks in the past have been because of trains that were behind their schedule. "Particularly does this rule hold true in the winter time, during such a cold spell as now here, the Northwest in its grasp. The heavy snow has been packed down and along side of the rails until only their tops are visible. The section men are of little use, for all they can do is to dig the snow out of the tracks. It would be an impossible thing to dig the snow out of the tracks clear down to the ties. They trust to the frozen roadbed to keep things in place of course, when they find the rails out of line or a sag in the track, they rest busy and do the work, but at best they are apt to overlook some defect."

"We all know that extreme cold has the effect of making steel brittle. With the thermometer registering 25 or 30 degrees below zero some of the bolts connecting and holding the rails are liable to be clipped off, as they are under the snow no one is the wiser until the rails begin to sag. At times, as in Minneapolis two weeks ago was caused by the spreading of the rails as the result of the heaving of a number of these bolts being broken off. Thus, you see, it is just as well not to put too big a strain on the rails."

GRAND MASQUERADE!

Given by the Sons of Hermann Lodge.

Thursday, Jan. 31

AT THE ARCADE.

\$25.00 cash and other prizes will be awarded to the finest costumes, best stunts and best masks; no children will be allowed on floor. Music by the Philharmonic Orchestra. Tickets, 50c. Come all and enjoy a good time.

WILL ATTEND CONVENTION

Duluth to be Represented at Y. M. C. A. State Meeting.

Members of the local Y. M. C. A. are taking considerable interest in the thirty-third annual state convention to be held at Owatonna from Feb. 7 to 10, and this city will be well represented at the meeting. Several members of the association proper will go down and others will represent the boys department.

A paper will be read at the convention by Secretary Phil Bevis of the local association on the subject "Development of Practical Committee Service," and Conductor Jim Burwick of Two Harbors will read a paper on "Is Christianity Practical for the Modern Men?" He will also take part in the devotional service. Norman D. McLeod, secretary of the Duluth Boys' department, will read a paper on "Some Gains Done in Minnesota."

An interesting address will be delivered on Friday evening Feb. 8, by Governor Johnson. The governor is a favorite among the Y. M. C. A. workers and his talk will be greatly appreciated by them.

Aside from the foregoing, the program will be enriched by papers from various sources. The boys department, including Prof. R. Watson Cooper of Hamline university; J. E. Brown, state secretary of Minnesota; S. Wirt Wiley, secretary of Minnesota; Fred B. Smith, international secretary in the religious work department, New York; Charles Cranston Hovey of Minneapolis; George D. McGill, international secretary railroad department, Chicago; E. W. Van Aken, president of Parker college; Fred M. Hanson of Iowa, and W. G. Farwell, secretary of the Boys' department, Minneapolis.

The famous male quartet, comprising Paul C. Gillett, formerly of Duluth, but now of St. Joseph, first tenor; Arthur H. St. John, second tenor; E. W. Van Aken, bass; and E. W. Peck, of Minneapolis, basso, will be heard in several selections daily throughout the sessions.

One of the features of the convention is the singing of hymns.

FUNERAL OF WHITELEY OCCURS IN LONDON.

London, Jan. 30.—The unusual public interest in the Whiteley tragedy was shown by the scenes at the funeral of the merchant today. Long before the hour of the ceremony thousands of people gathered around the Whiteley residence and dense masses lined the streets leading to the church where the service

Panton & White Co. Offer For Thursday Their Entire Stock of Cloth Coats at Half and Less!

A well-timed offer! This cold snap has caused many a wish for heavy coats—and here we are, ready to fulfill that wish. Every cloth coat in the house for half or less—and it meant more than "half" to the makers for materials—or perhaps the labor.

Take fabrics alone—fine broadcloths, kerseys, chevots, tweeds and so on. Coats so elegant of themselves that they are suited for day or evening wear. There are opera coats too, beauties—lowered to the price of the commonplace. Long loose black coats, fancy novelty coats, tight fitting coats, fancy mixture coats.

None Reserved! None Over Half! Many at Less Than Half!

**Those \$4 Waists at \$2.98**

Are new Waists—late models—but a manufacturer's error gave us a price advantage we couldn't otherwise have gotten—so they're offered at \$2.98 instead of \$4.00, the price at which they're made to sell.

Fine Wool Batistes, in plain red, reseda, brown, black, cream and ciel blue. Dozens of ideas in tuckings, pleated effects, buttons, and silk pipings and trimmings.

TO THIS LOT WE'VE ADDED a small lot of beautiful Silk Waists from our own regular stock—selling regularly for prices up to \$6.00—many beautiful and varied styles.

\$2.98 takes choice of the entire collection.

PANTON & WHITE COMPANY

THE BIG GLASS BLOCK STORE

WHERE QUALITY IS PARAMOUNT

was held. Most of the shops in the Westbourne Grove district kept their shutters up and more than 100 carriages followed the hearse to the cemetery. Four of these were laden with floral wreaths.

TWO JURORS EXCUSED.

Surprise Sprung by the Court in the Thaw Trial.

New York, Jan. 30.—The first big surprise of the trial of Harry K. Thaw came yesterday when Justice Pitagore, on the motion of Attorney Jerome, and with the consent of the attorneys for the man accused of the murder of Stanford White, announced that two of the jurors selected in the early days of the proceedings would be excused from further service.

"Without any reflection on the jury-men whatever," said the presiding judge, "jurors Nos. 4 and 6 will be excused."

The men were A. S. Campbell, a superintendent of telephone construction, and Harold R. Fair, a printer and publisher of a pamphlet circulated in Wall street. The courtroom was crowded for the opening of the afternoon session when the announcement was made.

"By agreement," said Mr. Jerome, "the reasons for this action will not be made public, but they are of a business nature. Counsel representing the people and the defendant have conferred with the court in regard to the matter, and a unanimous decision was arrived at."

When the excused jurymen left the courtroom they were besieged by questioners. Mr. Fair created a mild sensation in the corridors when he asserted with positiveness that he was utterly in ignorance of any reason why he should be asked to step down. He said:

"The announcement in court was the first knowledge I had of the intended action. In passing through the courthouse corridors yesterday morning I heard a man remark that two of the Thaw jurors were to be excused. I had no idea that the reason was that they were not to be excused. I had no idea that the reason was that they were not to be excused. I had no idea that the reason was that they were not to be excused."

Mr. Campbell, the second of the excused jurors, declared that he "had too much respect for the court to give an interview." It was generally reported that Mr. Campbell had asked to be relieved. He begged to be excused when first placed on the jury.

HAPPENINGS IN THE DAKOTAS

Freight Hauler Meets Death While Carrying Food Supplies.

NORTH DAKOTA. Imperial—Because of the prolonged snow blockade on the Plaxton-Ambrose line of the Soo line, the life of J. J. Schultz, a farmer of Ambrose, has been offered as a sacrifice. Schultz was hauling food supplies from Plaxton to his home in a blinding snowstorm, and he was killed by a train of the Soo line.

Lewis Johnson, a homesteader, who lives six miles north in Canada, was frozen to death near his shack. His body was found after three days of search. He was making a six-mile trip to his home from the farm of his father.

Four deaths from cold are so far reported in Williams county. The weather is stormy and it is from 20 to 40 degrees below zero.

Jameson-News has reached here from Bowdon, in Wells county, that Sidney Fordyce, well-to-do ranchman living twelve miles south of there, has been found dead in a snowbank, apparently frozen to death. It is supposed he became confused in the blinding blizzard which was raging. After crossing the hills he turned the wrong way and drove into a ravine which was filled with snow.

Minot—Discouraged over the fact that two saws had been discovered in his cell and disheartened because of the death of Duffy, the supposed leader of the gang, McArthur resolution, says participants in the sensational Sawyer county bank robbery, has changed his plea of not guilty to one of guilty.

Judge Goss has ordered that four additional guards be placed in the jail to see that no further attempt at escape is made.

Neché-Sheriff Roadhouse has taken Sheriff G. J. Johnson, an inmate of the Gardner, Pembina county, to the state insane asylum at Jamestown. Giddens' mind is totally unbalanced and he is considered dangerous.

Bismarck—The report of the railroad commissioners sent to the senate in response to the McArthur resolution, says the commission has not been idle. The report is due to the legislature in a few days. The report is due to the legislature in a few days.

SHOE SALE SAVINGS

Are Plentiful, Large, Reliable in these Offers!

OCASIONALLY you've seen as great reductions elsewhere on rather unwanted goods—but this is different! It's all goods you want right now—much of it for outside wear in this nipping, snowy weather; plenty of it for inside wear—by the fire-side in the evening or for "through-the-day" wear—and for men, women and children.

Genuine bargains—as is clearly shown by the constant crowds of shoe buyers. The power of little prices has attracted and held the people—and tomorrow adds new interest to the great sale.

the dealers who, it is claimed, hoped to secure lower rates and delayed ordering. The employees of the railroads are criticized for indifference to the urgent conditions in some instances in moving cars. This condition had been vigorously handled by the commission with the railway management.

The commission takes exception to the sensational feature of the resolution that lives of citizens have been endangered by negligence of the companies. The report shows that the dealers were notified by the companies of danger of freight congestion, and ignored the same.

The grain congestion is shown to be a yearly occurrence, and the cause for the present aggravated condition is assigned to the rapid development of the wheat growing area and the lack of terminal facilities.

SOUTH DAKOTA. Watertown—Tom Johnson, a conductor on the Minneapolis & St. Louis railway, was stabbed by Bob Jackson, a negro, in this city Monday evening. The conductor and another railroad man were eating in the Eagle cafe when the colored man came in and sat down beside them. Mr. Johnson's companion objected to the presence of the negro, and the latter went out. The men finished their meal and dropped to a table next door to get a cigar. The colored man was in the saloon, and sprang upon Mr. Johnson's companion, and in trying to separate

them Johnson received a deep stab in the back of the neck with a knife. The veins were severed and he nearly bled to death in the night. The attending physicians have hopes of his recovery. The negro was promptly arrested.

Sioux Falls—Frank Smith, a life prisoner in the penitentiary here, attempted suicide Monday by jumping head first from the fourth cell gallery to the cement floor below, a distance of thirty-five feet. Smith's body turned three times in the air and instead of striking on his head as intended he landed on his hip and elbow. His hip was broken and his arm badly injured, and while severely hurt he will survive. Smith's home is at Atlanta, Ga. He was received at the penitentiary Nov. 23 last, having been convicted of the killing of a saloonkeeper at Pierre.

Treasures Found in Our American Forests.

That our American forests abound in plants which possess the most valuable medicinal virtues is abundantly attested by scores of the most eminent medical writers and teachers of this and other countries. Even the untamed Indians had discovered the usefulness of many native plants before the advent of the white race. This information, imparted freely to the whites, led the latter to continue investigations until to-day we have a rich assortment of most valuable American medicinal roots.

Dr. Pierce, of Buffalo, N. Y., believes that our American forests abound in medicinal roots for the cure of most obstinate and fatal diseases, if we would properly investigate them, and, in confirmation of this conviction, he points with pride to the most marvelous cures effected by his "Golden Medical Discovery," which has proven itself to be the most efficient stomach tonic, liver invigorator, heart tonic and regulator, and blood cleanser known to medical science. Dyspepsia, or indigestion, torpid liver, functional and even valvular and other affections of the heart yield to its curative action.

The reason why "Golden Medical Discovery" cures these and many other affections, is clearly shown in a little book of extracts from the standard medical works which is made free to any address by Dr. R. V. Pierce, of Buffalo, N. Y., to all sending request for the same.

To aid in healing old sores, or ulcers, apply Dr. Pierce's All-Healing Salve to them while taking the "Golden Medical Discovery" to purify and enrich the blood. Dr. Pierce's All-Healing Salve is cleansing and pain relieving. It destroys the bad odors arising from suppurating, or running, sores and puts them in the best possible condition for healing.

The "All-Healing Salve" is a superior dressing for all open, running, or suppurating, sores or ulcers. For healing open wounds, cuts and scratches it is unsurpassed.

If your medical dealer does not have the "All-Healing Salve" in stock mail 50 cents in postage stamps to Dr. R. V. Pierce, Buffalo, N. Y., and you will receive it by return post.

In treating all open sores, or ulcers, boils, carbuncles and other swellings, it is important that Dr. Pierce's Golden Medical Discovery be taken persistently to purify the blood and thereby remove the cause of the trouble. It is in the blood that the great battle of health has to be fought. The ulcer and the sore are simply the scarlet flowers of disease, with roots running down into the blood. These roots must be eradicated or the disease will break out afresh. "Golden Medical Discovery" cleanses the blood of all foul and poisonous accumulations, purifies the dead and waste matter, and thus purifies the entire life current. Diseases in the flesh must die when the blood is no longer fed by foul blood. "Golden Medical Discovery" effectively cures disease in the flesh by curing its cause in the blood.

Not less marvelous, in the unparalleled cures it is constantly making of woman's many peculiar affections, weaknesses and distressing derangements, is Dr. Pierce's "Golden Medical Discovery," as is amply attested by thousands of unsolicited testimonials contributed by grateful patients who have been cured by it of catarrhal pelvic drains, painful periods, irregularities, prolapsus

and other displacements caused by weakness, ulceration of uterus and kindred affections, often after many other advertised medicines and physicians had failed.

Nursing mothers and over-burdened women in all stations of life, whose vigor and vitality may have been undermined and broken down by over-exertion, excessive social duties, the frequent bearing of children, or other causes, will find in Dr. Pierce's Favorite Prescription the most potent, invigorating, restorative strength-giver ever devised for their special benefit. Nursing mothers will find it especially valuable in sustaining their strength and promoting an abundant nourishment of the child. Expectant mothers too will find it a priceless boon to prepare the system for baby's coming and rendering the ordeal comparatively painless. It is unsurpassed.

Delicate, nervous, weak women, who suffer from frequent headaches, backache, dragging-down distress low down in the abdomen, or from painful or irregular monthly periods, gnawing or distressing sensation in stomach, dizziness or faint spells, see imaginary specks or spots floating before eyes, have a disagreeable pelvic catarrhal drain, prolapsus, anteversion or retroversion or other displacements of womanly organs, from weakness of parts, will, whether they experience many or only a few of the above symptoms, find relief and a permanent cure by using faithfully, and fairly persistently, Dr. Pierce's Favorite Prescription.

Both the above mentioned medicines are wholly made up from the glyceric extracts of native medicinal roots. The processes employed in their manufacture were original with Dr. Pierce, and they are carried on by skilled chemists and pharmacists with the aid of apparatus and appliances specially designed and built for this purpose.

Both medicines are entirely free from alcohol and all other harmful, habit-forming drugs. A full list of their ingredients is printed on each bottle wrapper.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. Easy to take as candy.

CABINET IS SURPRISED

(Continued from page 1.)

and state, can afford to accept any definite solution of the difficulties in the interest of peace. Commenting on the situation, the Herald today says: "The moment for action has arrived. The cabinet has made the most of feeding each starving person and the total amount will reach close to \$300,000. This estimate is based upon a calculation that 4,000,000 people are actually starving."

Some of the incidents of the famine related in the Chinese press are most revolting. A story is told of one family in which mother and father and two children, the mother left home on a search for food. While she was away the father, despairing of all, threw both children into the river. The mother returned and, learning what happened, threw herself in the river and drowned. The girl-stricken father followed, and the whole family perished.

The government is selling grain and salt where it can, in some instances the public selling places had to be closed, because of the great rush of natives to buy. In December, three or four women were crushed to death in the mad rush for food. The price of vegetables has doubled, and coal and coke cost more than ever before.

The government is selling grain and salt where it can, in some instances the public selling places had to be closed, because of the great rush of natives to buy. In December, three or four women were crushed to death in the mad rush for food. The price of vegetables has doubled, and coal and coke cost more than ever before.

The Aurors asserts that the bishops' proposition is an ultimatum. Adding: "If it is accepted, who will guarantee that the government will not next be summoned to Canosa?"

The Radical press, which hope that Premier Clemenceau and Mr. Briand will avoid the trap, and continue the prudent and liberal policy which the Republican majority approves."

The Lanterne expresses the opinion that the bishops' proposition is "a new defiance of the law."

CONDITIONS APALLING

(Continued from page 1.)

are doing their utmost to control the situation, but the task is now far beyond them and outside aid is badly needed. Relief committees have been formed in various centers, composed of high native officials and foreigners. Everything possible is being done, but the task appears so

gigantic that most serious conditions will persist before any headway can be made. The government has opened public relief works, where men can secure employment. The grand canal has been started at Kaifeng, the work on the improvement being started merely to give employment to some of the starving. The famine has been made of the most of feeding each starving person and the total amount will reach close to \$300,000. This estimate is based upon a calculation that 4,000,000 people are actually starving."

ANOTHER PANEL OF 100

(Continued from page 1.)

trial. This came as a complete surprise. Artists from most of the principal cities of the East have been in court from day to day, and have not been restricted hitherto in any way whatever.

Evelyn Nesbit Thaw and May McKenzle were again early arrivals in the courtroom today. When Clifford Harbridge, Thaw's leading counsel, came into court, young Mrs. Thaw rose and greeted him cordially. After a brief chat, Mr. Harbridge escorted Mrs. Thaw and her companion into the prisoner's pen, where there was a touching scene between the accused man and his wife. The two sat together for ten minutes or more exchanging confidences, and the women had not returned to the courtroom when Justice Fitzgerald took his place on the bench.

Thaw was disappointed on entering the courtroom to find that his wife was the only member of his family present. The others, it is said, had been delayed by the heavy snowstorm, which began early last night and continued today.

There was a wall story going the rounds of the press, that the jury today to the effect that there was a fund of \$100,000, for use in compensating a jury of the jurors.

It was given no credence whatever in any responsible quarter. It was also stated that the taleman who are yet to be examined by the jury, the taleman of county detectives, but this could not be verified. The statement of Harold R. Fuller, one of the jurors excused yesterday, that he could offer no explanation as to why he was replaced in the jury box, was repeated on many sides today and it was rumored that he might demand in court an explanation of the action taken in his case.

For the first time today talemen were asked if they had been approached by anyone in connection with the case since being summoned. Heretofore talemen have been asked no by anyone, but today the case with anyone after coming to court. None of the talemen said the had been approached in any way. The first taleman called today was the nineteenth of the second panel. Only sixty men remained in this panel of 100 men when today's proceedings began. Some had failed to respond to the summons either through illness or absence from the city. The possibility of having to call a third panel was therefore not far away.

Edward Thaw and Mrs. George L. Carnegie reached the courtroom at 10 o'clock and the proceedings began. Neither the prisoner's mother nor his older sister, the Countess of D'Almeida, had been permitted to attend. Attorney Delmas of the Thaw counsel is still confined to his apartments with a severe cold.

The first taleman to prove acceptable as a juror today was Harry C. Bearley, an attorney at law, who is married, and with the one secured yesterday afternoon, again brings the panel to twenty. The second taleman, a collector, also was peremptorily challenged by Mr. Jerome. Brennan said he had read but little of the case and had no opinion to offer. He was then peremptorily challenged by Mr. Jerome. Brennan said he had read but little of the case and had no opinion to offer. He was then peremptorily challenged by Mr. Jerome.

John W. Gannon, president of a railway construction company, satisfied Mr. Jerome and the court as to his competency. He was then peremptorily challenged by Mr. Jerome. Brennan said he had read but little of the case and had no opinion to offer. He was then peremptorily challenged by Mr. Jerome.

William H. Kinna, manager of a watch concern, asserted that his opinion was to vote for the defendant. He was then peremptorily challenged by Mr. Jerome. Brennan said he had read but little of the case and had no opinion to offer. He was then peremptorily challenged by Mr. Jerome.

After the first twelve talemen had been disposed of, Mr. Garvan no longer pursued his questioning as to whether or not the men under examination had any objection to being sworn. He was then peremptorily challenged by Mr. Jerome. Brennan said he had read but little of the case and had no opinion to offer. He was then peremptorily challenged by Mr. Jerome.

John B. McCafferty, a retired manufacturer, also was peremptorily challenged by Mr. Jerome. Brennan said he had read but little of the case and had no opinion to offer. He was then peremptorily challenged by Mr. Jerome.

William P. Howe, who said he was connected with the Standard Oil company, was allowed to go because of his acquaintance with a member of the defendant's family.

Stephen H. Goddard, a publisher, was allowed to go when he said he was connected with the Standard Oil company, was allowed to go because of his acquaintance with a member of the defendant's family.

William R. Jarrell was peremptorily challenged by the state. He was then peremptorily challenged by Mr. Jerome. Brennan said he had read but little of the case and had no opinion to offer. He was then peremptorily challenged by Mr. Jerome.

TAXING THE RAILROADS

(Continued from page 1.)

vide that that shall be the only method of amending or changing the system.

When the rate was raised from 3 per cent to 4 per cent the law providing for it was submitted to the people, and of course it carried. If it were proposed to raise the tax 8 per cent or to abolish the grade earnings system and substitute some other method of taxation for it, it would again be necessary to submit whatever plan was proposed to the people.

Senator Fosseen's plan is to submit to the people a constitutional amendment that will deprive the railroads of this shelter, and that will leave the manner and amount of railroad taxation entirely in the hands of the legislature. There really does not appear to be any valid reason why a change in the railroad tax should be forced through such a difficult process any more than there is why the tax on any other class of property should be restricted. Doubtless, the railroads would prefer to leave it the way it is, but the legislature has the right to get a change through the legislature, and that the necessity of submitting it to the people involves delay and increased chances of defeat.

If the Fosseen bill goes through, it will at once provide that railroads shall pay the assessments for local improvements, as they do already in every other state but this. Besides, it will not be like the legislature to change the system, if it thinks best, to any other that it pleases, without being forced to go to the people every time.

Many people suppose that the state is bound up irrevocably to the present system of taxation, but this is not true. The only way to change it is through the method suggested in the Fosseen bill, which will be introduced shortly. The railroads, as they are, are bound to the old system, but their charter makes it impossible for them to change the system, if it thinks best, to any other that it pleases, without being forced to go to the people every time.

Don't Be Fat.

(Continued from page 1.)

There is talk now about making a compromise on the 2-cent rate law, and fixing it at 2 1/2 cents. This is a real danger to the people, but it is doubtful whether the people would accept it with very good grace. They very obviously want the rate fixed at 2 cents a mile, and they would probably be as disappointed if a 2 1/2-cent rate law as if no action was taken at all.

One feature of the bill that has been introduced providing for a state immigration bureau is the provision that the state shall claim in one country for immigrants. Many doubt the advisability of this. In view of the growing fear that immigration is too numerous, everybody will approve a campaign anywhere in this country to attract settlers, but to attract and drum up more immigration might prove unworkable.

Yesterday was McKinley day, and it was a Democrat, Dr. J. H. Dorsey of Glenwood, who was thoughtful enough to buy a bunch of carnations for the speaker's desk in honor of the occasion. Representative Harrison White of Lawrence gave a eulogy of the late president.

Practically all of the lawyers in the house yesterday opposed the Hollister bill prohibiting courts from granting new trials on technicalities, and their influence was so strong that only a few laymen voted for the bill, which was killed. The lawyers said that the courts do not grant new trials on technicalities, but many of the laymen thought differently. Some of them inquired why, if the bill did not change things, the lawyers opposed it so bitterly.

The legislature will hear about taxation from an expert at the business next Tuesday. Yesterday an invitation was extended to Lawson Purdy of New York, a well known authority on taxation, to address both houses in the house chamber. He happened to be passing this way at the largest of the Sanborn resolution, and was asked to give the legislature the benefit of his ideas.

Attorney Manning, whom the railroad and warehouse commission disbanded practices before it because of his energy in seeking to reduce the rates, will have a chance now. The senate committee adopted yesterday to probe into railroad rates is understood to have been proposed and arranged by friends of his, and that he may be the clerk. The commission is now working on the exact information called for by the Sanborn resolution, but it was pointed out that the commission might be unable to get into

years ago, but did not get through the senate.

RAILROADS

MANY MEN
WANT JOBS

Duluth Well Supplied
With Idle Firemen
Just Now.

Big Scarcity of Men
for Other Railroad
Work.

Just now the Duluth labor market is flooded with firemen, both locomotive and stationary. There are a good many more of the latter than the former, however. The closing of the range mines, and the consequent lessening in the number of trains operated on the iron ore roads, throw many men out of employment, including a number of firemen.

A local employment office advertised for a fireman the other day, and about twenty-five men answered the advertisement. The same office advertised for an engineer to run a certain kind of engine on a Northern Wisconsin logging road, and was unable for two or three days to find a man suitable for the place, showing that locomotive engineers are not finding any trouble in getting work. Probably the surplus firemen, who really have had experience on locomotives could find work if they tried hard enough. Questions applied at the employment office elicited information from applicants to the effect that in almost all cases the experience of the men had been with stationary engines around the mines.

There has been a scarcity all winter of men for other classes of work about the railroads. Switchmen have been hard to get, and operations in the yards have at times been seriously handicapped because of this fact. Car repairers have also been hard to find to supply the demand, and the roads have some of them suffered in consequence. Men for the railroad shops have been insufficient in number to supply the demand.

Work in the shops does not appeal to the average man so strongly now as it did a few years ago. This class of labor generally commands a small daily wage to begin with, as compared with the money paid for work in other lines, and therefore the able-bodied man passes it by in favor of a better paid job, where formerly the wages paid by the railroad company would have proven satisfactory.

RESIST LOW FARE.

Rock Island Officials Put Up Fight in
Kansas Assembly.

Chicago, Jan. 31.—John Sebastian, passenger traffic manager, L. M. Allen, general passenger agent, and Frank Ney, general auditor of the Rock Island line, returned yesterday from Topeka, Kan., where they appeared before

the joint railroad committee in combating the passage of the 2-cent fare bill now before the Kansas legislature. W. J. Black, passenger traffic manager, Kansas Pacific, and C. Townsend, general manager, Missouri Pacific, and J. H. Frisco also appeared before the committee.

It was pointed out to the committee that a further reduction in the Kansas rate would place a hardship on the railroads and retard the progress in the building of new and contemplated extensions of lines. It was shown by the accounts of the railroads that an operated mile in the last ten years and owing to hostile legislation it was impossible at this time for the railroads to sell bonds for contemplated improvements.

Some of the executive officials of Chicago roads are inclined to view the pessimism bordering on abandoned constitution makers by the railroads in regard to corporations in general as a sign of weakness. It is reported that the constitution will contain the most drastic provisions on the subject of corporations of any state in the Union. Constitutional provision has already been made for the abolition of the fellow servant doctrine so far as it relates to common carriers and mine operators, the establishment of a 2-cent passenger fare, and other reforms equally strenuous.

It is reported that the constitution will contain the most drastic provisions on the subject of corporations of any state in the Union. Constitutional provision has already been made for the abolition of the fellow servant doctrine so far as it relates to common carriers and mine operators, the establishment of a 2-cent passenger fare, and other reforms equally strenuous.

MRS.
ELLEN
NAGLE

HON.
C.C.
BROOKS

MRS.
H.A.S.
MARSH

Mrs. Ellen Nagle, 414 4th St., Green Bay, Wis., writes: "I have often heard Peruna praised and it is more widely known than other medicines, but I never knew what a splendid medicine it really was until I caught a bad cold which settled all over me.

The doctor wanted to prescribe, but I told him I was going to try Peruna and sent for a bottle and tried it. I felt much better the next morning and within five days I had not a trace of any lameness or cough.

MRS. S.M.
MORRIS

PRINCE JONAH
KALANIANAOLE

Malarial Fever For Several Months.

Mrs. Sue M. Morris, 2114 Patterson Street, Nashville, Tenn., writes:

"Last fall a severe attack of malarial fever laid me up for some months. My condition was serious for a time and the doctor who was attending me did not seem able to cope with the trouble.

"A neighbor advised me to let the doctor's prescription alone and try Peruna, extolling its virtues to the skies, and I am now ready to do the same, and in ten days I was able to be up and in two weeks every trace of malaria had left my system.

"I now use Peruna off and on when in need of a tonic and it braces me up wonderfully."

"The Doctors Gave Me Up."

Mr. Lewis Kitchen, Hurlington, Ohio, writes:

"I cannot thank you enough for the good your Peruna has done me. About six months ago I could not leave my bed, and the doctors gave me up saying that I had consumption and could not live. Then a friend recommended Peruna to me, and I commenced using it.

"When I started to use your Peruna I weighed 117 pounds, and now I weigh 172 pounds. I had been sick for ten years, and was so sick I could not turn over in bed when I began the use of Peruna. I think it is the greatest medicine of its time."

"I am now feeling well and hearty and would not be without Peruna."

Prince Jonah Kalanianoale, Dewey Hotel, Washington, D. C., Delegate to Congress from Hawaii, writes:

"I can cheerfully recommend your Peruna as a very effective remedy for coughs, colds and catarrhal trouble."

True Cause of Disease.

In these days almost every ailment is supposed to be caused by disease germs.

The medical profession as well as the people, seem to have gone mad over the germ theory of disease.

The universal fear and dread of disease germs is becoming a very serious matter to the welfare and happiness of the people.

Dr. Hartman has consistently contended through all the rise and spread of the germ theory, that most diseases are caused by climatic influences.

For instance, catching cold is responsible for more than one-half of the ill to which human beings are subject.

Danger of Neglected Colds.

A person catches cold easily, thinks nothing about it, neglects it, when it finally becomes settled in some organ of the body, and chronic disease is the result.

A few doses of Peruna in the beginning of the cold would have saved months of suffering, as well as great expense for treatment.

Peruna is a reliable relief for cold. Almost everybody knows this.

Instead of trying to dislodge or kill some imaginary germ, if Peruna was used at the proper time its tonic properties and anti-catarrhal qualities would soon convince the patient that he has found the right remedy.

A multitude of letters are received testifying to this fact.

Keep Peruna in the house. Use it whenever cold or climatic affections assail, and sickness in the household will be come greatly lessened, if not entirely prevented.

Catarrh of the Stomach.

Mr. Christian Hoffman, R. F. D. 1, Slatkington, Pa., writes:

"For many years I suffered with catarrh of the stomach. I was coughing, dry and hoarse. After having tried three doctors and many remedies, one of your almanacs came to my hand, and I bought some Peruna. So far I have taken six bottles, and I have not suffered with catarrh this summer. I am cured and Peruna did it. I give Peruna to my children when they get bad and you should see how healthy they are."

Nose, Throat and Stomach.

Mr. Delbert B. Craft, Lowell, Ind., writes:

"For a long time I suffered with chronic catarrh of the nose, throat and stomach. I would continually take cold and my stomach was in bad condition. I truly suffered untold misery. I took various medicines and tried the treatment of several physicians, but I felt no better. A friend advised me to take Peruna. I wrote to Dr. Hartman, who prescribed treatment. As soon as I commenced to take Peruna I was surprised at the relief it gave me. A few bottles of Peruna cured me, after I had considered it impossible to ever be cured again. I now always keep Peruna in the house, and recommend it to every one suffering from catarrh as a good remedy."

SYSTEMATIC CATARRH.

Miss Marie Lesser, 928 W. 36th street, Chicago, Ill., writes:

"I am glad to give a good word for Peruna, and I hope that all who see this who are troubled with systematic catarrh as I was for years, will profit by it. I had tried many remedies, but none did more than give me temporary relief and some did not even do that. Then a friend told me to take Peruna. I took Peruna at the suggestion of a friend and was more than pleased and surprised at the results. I am now perfectly well and strong."

committed to await developments as to whether he was wanted at Grand Forks or Duluth.

BRIEF TELEGRAMS.

The crest of the flood stage of the Ohio has been reached at Shawneetown, Ill., and the river is receding rapidly. The stage registered fifty-two feet, indicating a fall of almost a foot during the day. Army guards continue to guard the levee.

Henry Miller, an Appleton, Wis., farmer, Wednesday night 2:40 shot against the Chicago & Northwestern Railway company for \$2,400 or \$30 for every locomotive that crossed his farm since he would construct a new culvert and crossing at the point. The complaints fill about 60 typewritten pages.

John D. Rockefeller, an actor, was killed on the stairs of a theater at Chicago, Wednesday, when a falling gun, which was used during a routine, fell on him and fractured his skull. Rockefeller was assisting to remove the gun from a temporary platform. His home was in New York.

John Rodriguez, an Italian, was taken to Eaton, N. M., Wednesday on the charge of having fired Willow mine No. 3 at Vanhook, N. M., Monday morning. The alleged crime is said to have been committed to avenge a fancied wrong. The three miners entombed are believed to be dead.

The plant of the White Eagle Brewing company and an adjoining dance hall at Chicago were practically destroyed by fire Wednesday night entailing a loss estimated at \$100,000. A fireman was seriously injured by falling from a ladder.

An expenditure of nearly a million dollars for cattle to supply Indian reservations in North and South Dakota, Montana and Arizona will be made by the interior department within a short time.

SNOW AT DEATH VALLEY.

San Francisco, Jan. 31.—Death Valley, Cal., which is normally the hottest place in North America, is now covered with ten inches of snow. This is the first time on record that snow has fallen in the Death Valley.

Notice to Contractors

The scale of wages for Journeymen Painters of Duluth, from April 1, 1907, will be as follows:

J. H. POWERS,
Recording Secretary, Local No. 106.

THE TERMS OF
THE FRANCHISE

Granted by Virginia to
the Mesaba Traction
Company.

Virginia, Minn., Jan. 31.—(Special to The Herald.)—After designating the Mesaba Traction company as the one with which it desired to deal, by unanimous vote at Tuesday evening's meeting, the city council named the streets over which the proposed line shall run.

The council then proceeded to begin the intersection of the country road leading from Eleventh and Hickory street, thence east on Hickory to Central avenue, thence north on Central to Union street, thence west on Union to Lake boulevard, thence north on the boulevard to Crescent avenue, thence northwest on Crescent to Virginia avenue, thence north on Virginia avenue to the intersection of Mountain road, also from the corner of Central avenue and Chestnut street east on Chestnut street to the Mesaba railroad right-of-way. It is proposed to put in a T at the east end of Chestnut street, where the cars can be turned around.

There were present at the meeting Mr. Myers and Attorney Ross, representing the Mesaba Traction company; R. F. Berntson, John M. Martin of Virginia, representing the Northern Traction company; and a number of Virginia citizens.

City Attorney Silva reported the result of his efforts to confirm the reports made by the two companies as to their financial backing. He said that he had failed to get into communication with Messrs. Killorin and Chisholm, but read a letter received from Gust Carlson of the Carlson Exploration company of Hibbing, stating that he was interested in the Northern Traction company and would give it the money to go into the general fund of the city.

When the city shall hereafter pave any street upon which the rails of the company are laid, the city shall pay the cost of paving a strip eight feet wide at the street intersections, the money to go into the general fund of the city.

In addition to the requirement that the company shall run a sufficient number of cars to reasonably accommo-

VIRGINIA SELECTED

As Distributing Point for Meat Business by Mankato Firm.

Virginia, Minn., Jan. 31.—(Special to The Herald.)—C. E. Pigott & Co. have sold their meat market to Macbeth & Gardner of Mankato, Minn., and the new owners began shipping in goods yesterday. The firm operates a packing establishment at Mankato, where they slaughter and prepare meats for the market. They intend to carry on a wholesale as well as retail business and will make Virginia the distributing point for wholesale trade in goods.

The firm has a number of retail markets throughout the state and has decided upon Virginia as the best distributing point for the range and adjacent territory.

The meat dealers of Virginia and Mountain Iron held a meeting here Tuesday evening and decided that in future they would not extend credit to patrons longer than thirty days.

It is understood that the grocers will take similar action within a few days.

BEMIDJI PRISONER

Who is Said to Have Police Record in Duluth.

Bemidji, Minn., Jan. 31.—(Special to The Herald.)—Yesterday the police arrested a negro, who gave his name as "Dan Thomas," on the charge of being a vag, and last evening Judge Skinkvick sentenced him to ten days in the county jail. It is said that "Thomas" had a police record at Duluth. He claims to have spent four rounds at Duluth recently with Joe Gans, the colored lightweight

champion pugilist. "Thomas" was committed to await developments as to whether he was wanted at Grand Forks or Duluth.

CATARRH OF HEAD AND THROAT

Mrs. William H. Hinchliffe, 20 Myrtle street, Beverly, Mass., writes:

"I have taken four bottles of Peruna, and I can say that it has done me a great deal of good for catarrh of the head and throat. I recommend Peruna to all sufferers with catarrh. I do not think I ever felt much better. I am really surprised at the work it can do. I do not think too much praise can be said of Peruna."

Used Peruna For Bronchitis.

Mr. Frank Battle, Jr., First street, near Charlotte Ave., West Nashville, Tenn., writes:

"I desire to say for the benefit of others that your Peruna has unquestionably cured me of chronic bronchitis. It is the greatest discovery of the age for throat and lungs."

Peruna is not simply a palliative to relieve some of the distressing symptoms. It brings permanent relief.

Suffered With La Grippe.

Mrs. H. A. S. Marsh, 2128 Reservoir St., Los Angeles, Cal., President Women's Benevolent association, writes:

"I suffered with la grippe for seven weeks, and nothing I could do or take helped me until I tried Peruna. I felt at once that I had at last secured the right medicine and I kept steadily improving. Within three weeks I was fully restored, and I am glad that I gave that truly simple remedy a trial."

"I will never be without it again."

The first taleman called was excused by consent.

The juryman promptly complied with the command. Their going left three vacant chairs, and the time of reaching the taking of testimony in the famous case was again indefinitely postponed.

Four sworn jurors in the Thaw case have now been summarily excused within three days.

It was reported that Thaw's counsel did not really consent to the release of the two jurors today. Mr. Jerome was insistent, however, and after he had argued the matter for some time before Justice Fitzgerald, in the conference room, he gained the consent of the defendant's counsel.

Walker and Haas were two of the three unnamed men on the jury. The excuse of the two jurors, making it necessary to fill three places in the trial panel, completely upset the theory that the case might progress today to the opening address of the prosecution.

Thaw was visibly disappointed at the turn of affairs, though he had been appraised in advance of the decision to release Messrs. Walker and Haas. It was precisely what he had predicted that Mr. Walker was first accepted.

Both of the released jurors seemed taken by surprise at the proceedings, and quickly left the courthouse. As the two jurors departed, Haas said he had nothing to say. Walker said he had no dream of being excused.

"I took me of my duty, and I had no prejudice against inanity as a defense," he said, in response to a question asked by Mr. Gleason. Justice Fitzgerald ordered a new panel of 100 talemen to be summoned to appear in court tomorrow morning.

The loss of the two sworn jurors was offset before the luncheon recess was ordered by the selection of two new men, leaving but one vacant place in the trial panel to be filled this afternoon. The new jurors are: Oscar A. Pink, a salesman, who replaced Mr. Walker as No. 4, and Wilbur S. Steele, a manufacturer, who succeeded Haas as juror No. 9. Both new men are married. Mr. Pink being about 45 years old and Mr. Steele 60.

HUSBAND EXONERATED.

Analysis of Drug Clears Superior Man of Suspicion.

M. G. Johnson, the colored man who was held by the Superior police department pending the analysis of the drug taken from the pocket of his wife, has been released from custody. The chemist found that there was no poisonous matter other than the natural constituents in the drug which Mrs. Johnson swallowed on a street car, and which caused her death early this week.

The report of the chemist in connection with the statement of a physician that he had treated the woman for heart trouble exonerated Johnson and there is no further suspicion that he had anything to do with the death of his wife.

NINETY STREET CARS

\$16.50 FOR SATIN LINED BLACK COATS, Worth \$35.

Our Mr. J. M. Gidding, who is now in the East, has rushed on to us about 35 Black Coats, lined throughout with finest Skinner's satin and trimmed with the richest of velvet and braid, while the materials used for the garment are the best imported broadcloths. INSANE ALIENS ARE NUMEROUS

Inspector Dean Busy Investigating Several Deportation Cases.

Crazy aliens are making life a burden for United States Immigrant Inspector William H. Dean these days. He has half a dozen deportation cases of this class on tap now, where, under ordinary circumstances, the number of insane men returned to their old homes from Duluth does

not reach this figure in an entire year. New cases are developing frequently. Inspector Dean yesterday investigated the case of Alois Frank Leary, a Finn, who landed at New York late in July, 1906. The man is violently insane, and doubtless will be ordered returned to his former home in Wassau, where he has three sisters and a brother. He has no relatives in the United States. Inspector Dean is conducting an investigation in another case today, that of M. Lingui, another Finlander, who arrived in this country only a few weeks ago. Both men are in the St. Louis county jail, and both are violently insane.

It's healthful, wholesome. It's good for one as the other. The more you take the better you sleep and eat. Takes people happy. That's what Hollister's Rocky Mountain Tea does. 35 cents. Tea or Tablets. Ask your druggist.

BOB DUNBAR'S CONQUEROR

Goes Down to Defeat Before Novice Rink 20 to 10.

A. H. Smith, conqueror of Bob Dunbar, the unconquered, went down to defeat last evening in the Manley McLennan trophy contest to the "kid" rink sketched by Phelps, the novice, rubbing it into the old timers by the overwhelming score of 20 to 10.

Just how it happened, nobody knows, but the score tells the awful and somewhat surprising story better than any description can. It was the youngsters' game from start to finish, and the veterans never had a look in after the first few ends. The directors of the curling club will meet this afternoon and pick the rinks which will represent the club at the Winnipeg spiel. At least three rinks are sure of attending, and in all probability about twenty-five curlers will represent the Duluth club on the Canadian ice.

Other games played last evening were as follows:
 A. H. Smith trophy—Myron, 14; Woodruff, 7.
 Herald event—Grady, 11; G. F. Smith, 6.
 Manley McLennan event—MacRae, 13; Dunlop, 11; Erick, 13; West, 6.

Basketball Games.
 In the interscholastic series of basketball games yesterday afternoon the Endon school defeated the Lincoln by a score of 11 to 3. The first half closed with a tie score, but in the second half the Endons took the lead. The lineup was as follows:

Lincoln—Lincoln, Hansen, Chamberlain, Hayden, Olson, Helm, Pillsbury.
 Saturday afternoon at 2 o'clock, the Jefferson and the Emerson school teams will come together.
 In the High School league the Juniors will play the Freshmen Friday afternoon at 2:30. This promises to be one of the best games in the league season, both teams have been victorious so far and the game Friday will be closely contested.
 Friday evening at 8 o'clock the University school will play the Jefferson school. The lineup—Jefferson School—Campbell, Merritt, Bevis, Alex McLeod, Alphonse Walter, Victor Amcke, Percious Landfield, Royal Alworth, David McLeod, Cecil Day, Herbert Helmer.

FORTUNE WAS LEFT TO VICTIM OF LYNCHERS.

Des Moines, Iowa, Jan. 31.—James Cullen, lynched at Charles City, was a brother of R. C. Cullen, formerly a banker at Warren, Ill. R. C. Cullen's will, which was filed Tuesday, leaves an estate worth \$100,000, to the man who was lynched. Years ago James Cullen lived near Warren, Ill., and was forced to leave town for brutal treatment of his wife and daughter.

Charles City, Iowa, Jan. 31.—The filing here of a will left by James Cullen, lynched by a mob after having murdered his wife and her son, created some surprise, as it was not known he had left such a document. The will was filed by Mrs. Mary E. Cullen of Oia, Mich., a daughter of Cullen by a former marriage, who arrived here Tuesday to look after her father's estate.

Martin Wilbur was appointed special administrator of the estate, which is variously estimated at from \$40,000 to \$60,000, and the bulk of which is left to his daughter.

ROAD WILL USE STEAM

Line to Twin Cities Will Not be Electric One.

Promotion Company Stock Has All Been Subscribed For.

It is now understood that the new railroad planned to connect Duluth with the Twin Cities will be steam instead of electric. B. B. Haugen of Minneapolis, who has been most active in pushing the new company, is again in Duluth today, looking after the affairs of the company at the head of the line.

The line, it is claimed, will be the shortest between Duluth and St. Paul and Minneapolis, being only 120 miles in length, which is thirty miles less than any other road. A promotion company for pushing the project has been organized, and its \$100,000 issue of stock was all subscribed for in Minneapolis and St. Paul. Some of the stock was resold in Duluth, however, to stir up a more active interest here. A railroad company is now being organized, and the holders of promotion company stock will have first choice of the new issue, a good portion of which will be placed on sale in Duluth. Steps are being taken to acquire a right-of-way, and already thirty miles of it has been secured. The promotion company men will have a good deal to say concerning the location of town-sites along the new line. The special purpose of the railroad organization will be to furnish fast passenger and freight service between the head of the lakes and the Twin Cities. It is claimed that the amount of traffic now passing between these two points is sufficient to make a steam line a more profitable venture than are now in operation. The lines at present in use have more business than they can handle. It is believed the short line will be a paying proposition from the start. The business to and from the head of the lakes is increasing at a rapid rate every year and it is expected that the new project will turn out to be a good investment within a short time.

To Our Patrons.

Our rooms were untouched by last night's fire, we are, as usual, prepared to give your orders, prompt and careful attention. Do not miss our 25 per cent discount sale. Bren-ton, Tallon, Phoenix block.

NEGRO CONSIDERED

For Position of Surveyor of Customs at Cincinnati.

Washington, Jan. 31.—It was admitted at the White House today, that the president has under consideration the name of Ralph Tyler, a negro of Columbus, Ohio, for the position of surveyor of customs of Cincinnati. It was stated that up to this time no decision had been reached.

PROTECTION FOR POINT

Matter of Leasing Car Discussed at Fire Board Meeting.

Board Will Purchase 5,000 Feet of New Hose.

At the meeting of the board of fire commissioners, which was held this afternoon, several important matters were scheduled to be discussed. One of the most important of these is the question of securing fire protection for Park Point residents, where lack of road facilities make the use of ordinary fire apparatus impracticable.

A communication from the Park Point Civic club will be presented before the board, asking that some measure be taken to afford proper fire protection to the residents of the Point, and suggesting the leasing of a car belonging to the street railway company on the Point, and the installing of the hose and other company apparatus on it. This could be run near enough to almost any of the cottages or other structures on the Point to enable the firemen to operate from it, and with a proper hose equipment, considering the high pressure of city water available on the Point, and this rapid means of getting the apparatus to the scene of the fire, the Park Pointers could feel reasonably secure in their fire protection.

The communication to the board is included an offer from President O. C. Hartman, offering to lease the street car company's open freight car for the installation of the apparatus for the nominal consideration of \$1 per day, the car to be operated by the company in case of fire without extra charge. This merely nominal charge, the Park Point people think, ought to be submitted to, and they are especially anxious that the board take immediate action on the proposition.

The need of more hose for the various companies throughout the city has been becoming more marked for some time, and this afternoon the question of the purchase of 5,000 feet of hose will be considered by the commissioners. The aggregate cost of this will probably be about \$1 a foot.

NEW POSTMASTERS:

Washington, Jan. 31.—The president sent to the senate the following nominations for postmasters: Minnesota—M. J. Taylor, Deer River, Wisconsin—W. W. White, Algoma; F. M. Griswold, La. Miller; James McGinty, Darling-ton.

HOME FOR THE FEEBLE MINDED

Dr. Rogers Makes Report for the Past Two Years.

St. Paul, Jan. 31.—(Special to The Herald.)—Dr. A. C. Rogers, superintendent of the Minnesota School for Feeble Minded and Colony for Epileptics, has issued the biennial report of that institution, covering the two years ending July 31, of last year.

The institution is situated on the east bluff of the Straight river, overlooking the city of Faribault. It really performs the functions of a school, a home and a hospital. It is divided into three departments, quite distinct in their nature, yet mutually connected. The departments are the school and training department, the custodia or

home and epileptic hospital. The school has for its object the training of such feeble minded children as are capable of improvement, and the care and comfort of such as cannot be improved. The former is accomplished by regular school and industrial work adapted to this class.

The report enumerates the improvements which have been made since the last report, and states the improvements which are desired to increase the facilities and capacity of the institution. The legislature will be asked to make an appropriation of \$75,000 to make the new improvements. This includes the sum desired for several changes to the present buildings. The improvements which have recently been added to the institution are a central cottage for male epileptics, a tuberculosis hospital, a complete shop and equipment and several changes in the arrangements of the laundry. The last legislature also appropriated certain funds for the erection of a central kitchen, but, owing to the advance in labor and building material, it was found impossible to erect the building with the money on hand, and the construction was therefore postponed until further action can be taken.

HANNAH APPOINTED

On Game and Fish Commission to Succeed H. E. Smith.

St. Paul, Jan. 31.—(Special to The Herald.)—Governor Johnson today announced the appointment of Robert Hannah of Fergus Falls as a member of the board of state game and fish commissioners to succeed H. E. Smith of Winona. The term is for four years.

King of All Cough Medicines

Mr. E. G. Case, a mail carrier of Canton Center, Conn., who has been in the U. S. service for about sixteen years, says: "We have tried many cough medicines for croup, but

Chamberlain's Cough Remedy

is king of all and one to be relied upon every time. We also find it is the best remedy for coughs and colds, giving certain results and leaving no bad aftereffects. We are never without it in the house

See About The Piano

You Have
Promised
The Little
Ones.

KORBEY PIANO CO. makes the best piano offer in town. If we did not firmly believe this we would not say it. Our business is conducted strictly on lines that enable us to make the above statement a fact beyond peradventure.

Waste in Business Saved

It is not that we sell you a cheaper piano for less money but saving the waste in business, in manufacturing, buying and selling, giving you this waste saving, enables us to offer the best pianos for the least money and on easier payments than you can get elsewhere.

What About Your Promise?

It is the time of the year when you must be seriously considering your promise or thought of purchasing the little ones a piano.

The long winter evenings are here, a time of the year when you and your family will enjoy music in your home more than any other, a time of the year when home entertainment is most necessary and when the children will do best in practicing their lessons.

Investigate Our Plan.

If you are not acquainted with our plan of selling, our prices and terms, etc., then you do not know the best that can be had in the way of a piano offer.

Our plan does not only make it easy and pleasant for you to buy a piano; but it saves you money.

Many makes and styles of pianos are here for your choosing, such as Kimball, Wissner Grand and Upright Grands, Hobart M. Cable, Becker Bros., Chase Bros., Whitney, Hinze, Reinhard, Hackley and others.

Used Pianos at Bargains.

J. P. Hale, Kranich & Bach, Stone & Co., Kembel-Warde. Prices ranging from \$125.00 and up. Payments \$5, \$6, \$8 upward monthly to suit your convenience.

KORBEY PIANO CO.,

201 East Superior St., Duluth

Made by Hood & Co., Lowell, Mass.

"The Help to the Hoorah" is a title that might give many a wrong impression of the play, giving the idea of a performance of lower tone. As a matter of fact it is a characterful, pleasing production, with humor, a trifle broad at intervals, but nothing to offend.

Mr. Post is an extremely easy and resourceful actor. There is no pose, no straining after effects, no apparent centering of attention upon himself, in Mr. Post's work. He plays the character entrusted to him with agreeable vigor.

their coats or else leave the premises. This, Chairman Jenkins remarks, was not a discrimination against the guests in question, but was an objection to their mode of dress, a position in which he thinks the proprietors were justified.

However, acting on Chairman Jenkins suggestion, the whole subject has been referred to the attorney general for his action.

Section 22 of the bill of state

fully bearing in mind the right of parliament in regard to legislation, the voting of estimates and interpellations, the government intends steadfastly to adhere to the existing laws, as a strict observance of them is the only way by which the confidence of the sovereign in the government and parliament can be preserved.

Proceeding, the premier refers to the "falseness of the rumors credit-

SAYS SHE DREW A REVOLVER

Alfred Faurrier Claims Mrs. Probeck Threatened His Life.

Charging her with pointing a gun at him and attempting to shoot him, Alfred Faurrier yesterday afternoon swore out a warrant for Mrs. Lena Probeck of 101 East Fourth street.

According to Faurrier's story, Mrs. Probeck on last Tuesday evening gave him 10 cents to get some beer for her, and when he persistently refused, she first ordered him to leave the house and then got the gun, and, he says, might have killed him had it not been for the intervention of Mrs. Probeck's sister.

Mrs. Probeck admitted having trouble with Faurrier, who has roomed with her for the past three months, but she asserted that he had insulted her mother, and had given her just cause for anger. She denied the revolver part of Faurrier's tale absolutely, however, and the hearing will be held tomorrow afternoon at 2 o'clock.

THE COLUMN FOR KICKERS.

"Conductors should be instructed not to let men who are at all intoxicated in the street cars, and the police should follow up these cases and see that the men are punished to a limit of the law," said an East end woman, as she fearfully eyed a "jag" who was doing in a corner of the car.

"A drunken man can make a car full of people suffer untold torments of embarrassment. You never know when he is going to roll out a torrent of profanity or indecent language. A woman is seldom physically afraid of a drunken man, but she is afraid of being insulted by one."

"I think that the police and the judges should see that every drunken man who makes a scene in a public place should get the extreme penalty of the law. This might help some to keep them from taking chances on becoming disorderly by getting intoxicated."

"Above all things, I think the conductors should be instructed to keep drunken men off the cars. If they see that a man is intoxicated they should not let him on the car, and if he gets on when they do notice him, it is their place to immediately call an officer and have him arrested. It is not fair to the other passengers on the car to risk a disagreeable scene with some drunken beast."

FISH CULTURE STATION

For Minnesota Provided for in Bill Reported to Congress.

Washington, Jan. 31.—(Special to The Herald).—The house committee on merchant marine and fisheries today made a favorable report on the omnibus bill to establish fish hatchery and fish culture stations in various parts of the country, at suitable points to be selected by the secretary of commerce and labor. The bill carries an appropriation of \$25,000 for a fish culture station in Minnesota.

THE THEATRICAL TRUST INDICTED.

New York, Jan. 31.—The grand jury today returned an indictment against the so called theatrical trust charging conspiracy and restraint of trade.

Piles Sufferer

Saved From An Operation By a Half Box of the Pyramid Pile Cure. You Can Try It Free.

"I cannot help writing to you about your wonderful cure for piles. When I wrote to you for a sample I was thinking of going through an operation. But I thought I would give your remedies a trial. I am so happy that I did for I am cured and only used half a box. I wish to write this for humanity's sake. I had piles ever since the year 1891. I wish you would publish my name through the Duluth paper for I am well known in the Marine Corps. Use my name the best way you know how. Thanking you for your advice. Yours truly, Cleophas Porto, Marine Barracks, U. S. Training Station, San Francisco, Cal."

What should induce this United States seaman to write in this manner if not gratitude for being cured of a disease which had tortured him for fifteen years? Mr. Porto was positively unknown to us until he wrote for the sample of our wonderful remedy. Possibly you too are driven nearly to madness with piles and have thought an operation the only cure. Let us urge you before going to this expense and suffering and submitting to this humiliation, write us today for the free trial package of the Pyramid Pile Cure. Its action is immediate and relief is a guarantee of its freedom from harmful ingredients. There is nothing in it but healing, soothing elements which work upon the fevered tissues, bring new life to the bowel and make its action painless and natural.

The sample we send you contains exactly the same remedy as you buy at drug stores at 50 cts. per box. Send today and see what wonderful results this sample will bring. It costs you nothing to try. Pyramid Drug Co., 78 Pyramid Bldg., Marshall, Mich.

ONLY CIVIL CASES LEFT

District Court Has Disposed of All Criminal Hearings.

Damage Actions Comprise Larger Part of Remaining Calendar.

The Doyle bigamy case being the last criminal action for disposal this term, the district court has settled back into the trial of the remaining civil actions, of which there are still quite a number to be heard by jury.

The damage case of Jacob Jacobson against the Hobart Iron company is making progress in Judge Diboll's room, but there is still much testimony to be introduced by the defense, some of the examinations and cross-examinations consuming considerable time.

Jacobson is suing for \$40,500 damages for a broken back received in an accident at the Minnora mine. He claims negligence on the part of the iron company, through its employees. The company seeks to establish its counter claim of contributory negligence.

In Judge Cant's room there was some expert medical testimony this morning in the case of John Beckman, by his guardian, against the Duluth Log company. Beckman claims to have had his hip fractured, his spine injured, and to have been otherwise permanently injured by a log that fell on him while he was employed by the company in the Garfield avenue yards. It is claimed that after a log has been swung in the air by a derrick, the base of the derrick gave way and the log dropped on Beckman, who was standing underneath, guiding the log to the place where it was destined.

Beckman was stripped before the jury this morning, while two physicians gave him an examination and testified as to his present physical condition. The action has been brought to recover \$200 damages as Beckman claims that he has been permanently incapacitated from performing any manual labor.

In Judge Ensign's room the trial of the civil action of the Forman Ford company against the Paine & Nixon company of this city, was started this morning. The Forman Ford company seeks to recover a balance of \$1,025 alleged to be the balance due on a contract to furnish the local company with a large consignment of glass from the factory. Paine & Nixon have a counter claim of the same amount against the Forman Ford company, in which it is alleged that the shipments of glass were not delivered at the agreed time and that by reason of a drop in prices the local concern lost money by not having its stock on hand to dispose of to the trade.

PRESIDENT TO WRITE LETTER

In Line With Senator La Follette's Advanced Railroad Views.

Washington, Jan. 31.—President Roosevelt is preparing the draft of a momentous letter to the interstate commerce commission. It is calculated to jolt James J. Hill, E. H. Harriman and other railroad magnates who have been attempting to stem the Roosevelt tide of corporation regulation, because the letter is expected to show that the president has become a convert of certain of the advanced La Follette railroad views.

The president wants a thorough investigation to be made of certain important phases of railroad management, and suggestions for legislation. In addition, he desires the interstate commerce commission to draft amendments to the existing rate law, with a view to perfecting the features that have shown weakness and otherwise strengthening it.

The president has all along told his friends that the rate law was but a beginning. Now he is prepared to go on with the second part of his railroad program. Those who have talked with the president say that the apprehension of Morgan Hill and others regarding the president's railroad views is well founded.

It is asserted by those in a position to know the facts that the president's letter will deal chiefly with the car shortage problem, the question of railroad valuation and overcapitalization. Senator La Follette has been a frequent caller at the White House of late and, it is believed, has convinced the president that it is impossible to fix a reasonable railroad rate so long as the government lacks definite information about railroad valuations.

Compulsory adoption of the automatic block signal system by railroads will be recommended by the commission. Similar recommendations have been made before by the same body, but they were embodied in annual reports and absolutely no attempt was paid to them. Last spring, however, the commission was ordered to investigate the causes of railroad accidents, with special relation to the adoption of block signal systems and other safety devices.

SENIORITAS NOT TO BE FOUND

Charles A. Marshall Says Cuban Beauties Are a Myth.

The beautiful Cuban and Spanish senioritas of whom so much is heard in song and story, are a myth, according to Charles A. Marshall, manager of the Lyceum theater, who is now traveling in Cuba.

They are black, flat nosed, imps, instead, writes Mr. Marshall to a friend in Duluth, "although maybe I've been on the wrong streets."

More castle also failed to arouse the proper degree of respect in Mr. Marshall. "Famous old Morro castle is not

motor cars underground and in some cases was ascertained the complaint was changed to assault with intent to do great bodily harm, much more serious.

Houghton—Hancock and Houghton people were somewhat astonished when the news of the marriage of Morton C. Getchell of Hancock and Mrs. Therese Monroe of Houghton was made known. They were quietly married in Detroit Monday night. Mr. Getchell is cashier of the Superior Savings bank of Hancock and is a rising man in financial affairs. The wedding was news to even Mr. Getchell's most intimate friends, and as they are many he will be besieged with congratulations on his return, which is eagerly awaited.

Miss Maud Mitchell, who recently resigned her position as cashier at the Douglass house, Houghton, left Tuesday to visit her brother in Akron, Ohio.

Thomas Cowley, who has been visiting in Calumet his brother, Fred L. Cowley, manager of the Calumet & Hecla mine, has returned to his home in Canada.

Jeremiah O'Rourke of Hancock died yesterday aged 102 years. He was prominently connected with the progress of the Copper country.

In the death of Mrs. Mary Daley, which occurred in the family home in East Houghton Tuesday morning, Houghton lost another of its pioneer and highly respected residents. Mrs. Daley had been ill for several months with a complication of diseases and the news of her death came as no surprise to her many friends throughout the Copper country. Mrs. Daley was 65 years old and was born in New Jersey. She came to the Copper

country about forty years ago.

Ironwood—The lid has been put on and fastened down in Gogebic county and at present the liquor dealers are all strictly observing the state law, so far at least as regards the hours of closing. The orders which have brought about this state of affairs are the result of the activity of the Ironwood Finnish Temperance society, in connection with Rev. C. H. Rutledge of Ishpeming Upper peninsula, representative of the Anti-Saloon league, whose co-operation was solicited and secured. Rev. Rutledge arrived at Ironwood, preparatory to begin war on the saloonkeepers whereupon the authorities themselves took a hand. A committee of the Finnish society has been appointed to see that the liquor laws are enforced.

Guaranteed under the Pure Food and Drugs Law—Serial No. 65.

Omega Oil

For Sprains and Bruises

It would hardly be truthful to say Omega Oil cures Bruises and Sprains and Strains. Nature herself does most of the curing, but the Oil stops the pain while the bruised place is being cured. The pain is what annoys you, and Omega Oil must be given the credit for fixing you up so you will not suffer. Omega Oil soothes, softens and comforts any pain you apply it to. If the pain is not too great, the Oil is to be well rubbed in. This sets up a good circulation of the blood, and the result is always beneficial. Besides rubbing, some of the Oil should be bound around the ailing part. Three sizes: 10c., 25c., 50c.

Omega Oil is also good for Rheumatism, Neuralgia, Sore Throat and Cold in Chest. Free sample Omega Oil Soap in every bottle of Omega Oil.

HIS SIGHT RESTORED

Blind Preacher Sees Again After Fall on the Ice. Says World Has Turned Into Sort of Phantasmagoria.

Baltimore, Md., Jan. 31.—Rev. Samuel H. Cummings, the blind preacher, is a well known figure in Baltimore. He has been blind since he was a child, having been a member of the local conference for a half century. For more than twenty-five years he has been blind. Last Saturday afternoon he slipped on the pavement and fell face downward to the ground. A bit of ice struck his eye with painful force, and the clergyman lay stunned for a moment. But when he got up he found that in some miraculous way the blow had shocked the blind eye into setting itself indistinctly.

Today Mr. Cummings picked up a periodical and slowly spelled out the words "Scribner's Magazine." "I can see white here and yellow there," he said, picking out the colors correctly. "That window shines like a silver shield; I can see the white of your skirt." This is something he has not been able to do for years and years.

"But things are all mixed up," he continued. "They are all admiral, exaggerated, inverted. Coming downtown this morning, I could see men rushing hither and thither, and yet could not make out distinctly. It confuses me."

Mr. Cummings preached at Columbia Avenue Methodist Episcopal church Sunday morning, and his auditors noted a strange jubilation in his tone. They told him afterward that it was the best sermon he had ever preached. This is his story.

"When I was 14 years old, a small boy shot an arrow into my left eye in this city. I lost sight at once in that eye, although I could distinguish night and day with it. The sight of the other eye weakened and a few years later I was obliged to wear glasses. I studied at Dickinson college on account of my eyesight. I entered the ministry and joined the Baltimore conference in 1857, when I was 20 years old. A part of Virginia was then included in the Baltimore conference, and I served several circuits in Virginia and in Maryland. Then I came to Baltimore and was stationed at Hanover street.

Up to this time I had been able to distinguish night and day out of my punctured eye. But, one day a pall settled over that eye and I knew it was gone for good. In a few weeks the

sight of the other eye began to weaken greatly, and in a short while that, too, was gone, and I was totally blind. That was more than twenty-five years ago.

Last Saturday I was walking on Druid Hill avenue, near North, when I slipped on one of these sliding places the boys have, I fell heavily on my face, and a piece of ice or snow on the ground hit my eye with awful force. My whole head, indeed, received an awful blow, and I lay stunned for a moment. Then I arose and found to my astonishment that a strange new light was visible through the eye which the ice had struck.

"In the past years I have had some of the most prominent oculists of the city examine my eyes. They told me that there was a polar cataract on the back wall of the eye, which was unreachably, and therefore, incurable. They said it was a case of incurable blindness. I have tried everything—orthodox doctors, magnetism, electricity. Nothing has done me any good. I can see people today but they are out of all proportion and are all mixed up. The whole world has turned into a sort of phantasmagoria for me—a sort of bedlam. My explanation is that the veil which descended over my eyes was shattered by the shock of Saturday, and I am seeing through it. I see things as they are, but they reflect things abnormally and curiously."

Despite his blindness Mr. Cummings has been an active worker in the church for the last quarter century. When he was compelled to give up his regular charge he became a city missionary under the direction of the Church Extension society, organizing city evangelistic work. He started ten meetings throughout the city, which were a great success, and became an important feature in the city evangelistic work. He has become editor of the National Pulpit, a religious publication which he has edited for two years. Since then he has been engaged in various forms of church work, and he is well known throughout the city. He has consulted a prominent oculist about his case, and he is working upon it with the idea of performing an operation, possibly, which will restore the clergyman's sight.

Why Suffer from Rheumatism? Do you know that rheumatic pains can be relieved? If you doubt this try one application of Chamberlain's Pain Balm. It will make rest and sleep possible, and that certainly means a great deal to any one afflicted with rheumatism. For sale by all druggists.

You can transmute the "baser metals," and many other things into gold by the publicity process.

COURTS HIS EX-WIFE.

Montana Divorce Plunks and Now Faces Breach of Promise Suit.

Glendale, Mont., Jan. 31.—Miles Benson, promises to shine not only in the light of a divorce but of a breach of promise suit defendant, and all in relation to the same woman. Fifteen years ago Benson divorced his wife. Of late he resumed correspondence with her and finally proposed marriage, which she accepted. Now Benson wants to back out and the woman threatens to hold him to his promise or sue him for damage to her feelings.

The Benson suit will run the gamut of the law so far as it concerns conjugal relations, actual or intended.

BECOMING A MOTHER

Is an ordeal which all women approach with indescribable fear, for nothing compares with the pain and horror of child-birth. The thought of the suffering and pain in store for her, robs the expectant mother of all pleasant anticipations of the coming event, and casts over her a shadow of gloom which cannot be shaken off. Thousands of women have found that the use of Mother's Friend during pregnancy robs confinement of all pain and danger, and insures safety to life of mother and child. This scientific liniment is a god-send to all women at the time of their most critical trial. Not only does Mother's Friend carry women safely through the perils of child-birth, but its use gently prepares the system for the coming event, prevents "morning sickness," and other discomforts of this period. Sold by all druggists at \$1.00 per bottle. Book containing valuable information free. The Bradford Regulator Co., Atlanta, Ga.

MOTHER'S FRIEND

PLEADS FOR CLEMENCY

Jeremiah Dowd, Forger, Claims His Wife Needs Him.

Appeals Cause Authorities to Suspect a Pre-concerted Plan.

Jeremiah T. Dowd, who pleaded guilty during the present term of district court to an indictment for forgery, and who is awaiting sentence, is making a strong effort to secure clemency and to secure his release from the county jail.

Dowd passed two forged checks, purporting to have been issued by the Webster Manufacturing company of South Superior, Wis., in the amount of \$83.50 and \$75 respectively. Although a man well advanced in years, Dowd, according to the information obtained concerning him by the local police department, has a very bad record. He is said to have been implicated in other transactions of similar nature in other places where he has resided, and the authorities have not thus far received very much information in his favor.

Since his commitment to the county jail awaiting sentence, Dowd has addressed the court, and has written County Attorney John H. Norton, pleading for clemency, not for himself, he claims, but in behalf of a young wife, said to reside in Hancock, Mich. In a recent letter to the county attorney, Dowd begs that something be done in his case right away. He claimed that his wife's mother was very sick, and that his wife is in a delicate condition and has nobody now to whom she can look for care and support.

Dowd says that his wife is writing him daily, expressing her anguish, and pleading that he influence somebody in his behalf so that he can be set free to return to her. Inclosed in his letter to the county attorney was a letter purporting to have been written from Mrs. Dowd, at Hancock, in which she pours out her troubles in a heart-rending manner, and declares that she is almost insane from worry as to what will become of her if Dowd does not soon return. Dowd notes that not soon return. Dowd notes that not soon return.

It is believed that Dowd is attempting to get more definite knowledge from Hancock concerning Dowd's record there, and the condition of his family. Based on what they have already learned, they have suspected that the efforts the forger is now making for clemency are part of a pre-concerted plan to influence the court in letting him out. It is believed that his record would seem to warrant.

It is likely that Dowd will be taken to the district court for sentence just as soon as something is heard from Hancock parleys who have been written concerning his case.

MOST OF SHAFTS ARE PRODUCING

Large Output Estimated in 1907 for Superior & Pittsburg.

All of the Superior & Pittsburg shafts at Blaine, Ariz., with the exception of the Calumet & Pittsburg, are producing. The Junction being the last to enter the producing list. This is according to a Boston News Bureau dispatch to Gay & Sturges.

"It is estimated that during 1907, the Superior & Pittsburg properties will produce 30,000,000 pounds of copper, at the minimum," says the dispatch. "Last year this company produced about 12,000,000 pounds. Its ores was treated at the Calumet & Arizona smelter. By the first of March, the fifth smelting unit should be in operation in this smelter. This furnishing will be confined to the treatment of Superior & Pittsburg ores.

With an average of 20 cents for copper during 1907, the Superior & Pittsburg company, on a production of 30,000,000 pounds, should derive profits of \$2,000,000, or a share of \$200,000 shares. Some leading interests in Superior & Pittsburg are looking for a small dividend before the close of 1907."

MORE RED TAPE.

Postoffice Clerks Are Now Paid on Thirty-Day Basis.

Postoffice clerks and officials all over the country are having no end of trouble over a recent ruling of the postmaster general in regard to the manner in which they shall be compensated on the basis of a thirty-day month so that the unfortunate employee gets no pay at all for the thirty-first day of the seven months which contain that number. The queer complications arising from the ruling are very numerous and cause considerable trouble. For instance if a clerk should be sick on the last day of January and should provide a substitute, the substitute would get no pay at all for his day's work, and the clerk would be docked for the time he was absent. A case of this kind has happened in Duluth, and the clerk is ready since the law went into effect and the uninformed substitute worked one day for nothing.

If a clerk works thirty-one days in the month, he is paid only thirty. But if he works only thirty days in that month, he is docked a day's pay. February is the only month which brings consolation to the clerks, for they are paid for a thirty-day month and only work twenty-eight days.

APPOINTED REGENTS. Madison, Wis., Jan. 31.—Governor Davidson has reappointed Dunbar McGreggor of Pineville and John H. Roemer of Milwaukee, normal school regents.

FRATS AND ANTI-FRATS

Bill Now Before Legislature Interests Students in Duluth.

Would Do Away With Local High School Societies.

The bill presented to the legislature by Representative C. L. Sawyer, principal of the South side high school in Minneapolis, to prevent the formation and existence of fraternities and secret societies in the high schools of the state, and forbidding the formation of secret societies in Minnesota schools, except through permission of the school authorities, on penalty of dismissal from school, has some little interest locally.

The bill is the outcome of a long fight between the fraternity and anti-frat factions in the Twin Cities, centering chiefly around Minneapolis Central, and the contest has been bitter in the extreme. At Central, the fraternity members have been kept from playing on the various athletic teams representing the school, from holding class office and from taking part in graduation exercises. The frats held out, however, and with one exception the societies are almost as large and flourishing today as they were before the fight began.

Locally the school board, while having expressed itself as opposed on general principles to the fraternities, has taken no decisive action along this line, except to request parents to forbid their children to join the societies. Principal Smith ordered that there should be no department in the "Zenith," the school publication, devoted to the fraternities, and that at 4 o'clock on said day policy has since been carried out, but this and the fact that the societies are not recognized by the school authorities are the only echoes which have been reached here of the bitter anti-frat war which has been raging in other cities.

MAYOR VANISHES.

Bloomington's Chief Executive Disappears—Thought Temporarily Deranged.

Bloomington, Ill., Jan. 30.—Mayor Alfred G. Erickson has mysteriously disappeared and his whereabouts are unknown. It is believed he has become temporarily deranged by worry. Last Saturday morning Erickson told Alderman George Freese that he had decided to go to Sweden, his native land, and that he would leave on the next day. Erickson had been expected to spend on his trip. He asked his family to be sure to take care of his affairs. Soon afterwards he met his son, and then he disappeared. He was last seen at 123 p. m. Since then he has not been seen.

It is believed that Mayor Erickson has been given up to this matter and that unless the order was modified so as not to interfere with appropriation bills he should object. Later he made this objection positive.

The subject of the resolution, expressed the hope that the objection would be withdrawn. Personally he continued, "I should like to have a vote on this matter and will be only too pleased to vote it up early day. I would further state that rather than take any further time of the senate, I will be perfectly willing to have it come to a vote without further discussion."

New Cure For Rupture

New Scientific Appliance, Always a Perfect Fit—Adjustable to Any Size Person—Easy, Comfortable, Never Hurts—Keeps the Rupture from Fading—Costs Less Than Many Common Treatments of Rupture. Men, Women or Children.

I Send It On Approval—You Wear It—If You Are Not Satisfied, I Refund Your Money.

I have invented a rupture appliance that I can safely say, by thirty years' experience in the rupture business, is the only one that will absolutely hold the rupture and never slip and yet is cool, comfortable, corrects the rupture of the body without chafing or hurting.

Philadelphia, Jan. 30.—Chaplain Dudley Chase, U. S. A., retired, is dead in this city, aged 81 years.

London, Jan. 30.—Sir Michael Foster, Unionist member of parliament from London, died yesterday. He had been in ill-health for some time. He was a professor of physiology at Cambridge university from 1883 to 1893 and in 1899 he was president of the British Association for the Advancement of Science.

Adrian, Mich., Jan. 30.—Dr. George B. McElroy, Emeritus professor of Adrian college, died yesterday. He had been held every position in Adrian college and had been connected with the college since 1866. In test some years ago he was credited with being the second best mathematician in the United States and fourth in the world.

THOSE WHO HAVE PASSED BEYOND

Those who have passed beyond the veil of life are now in the hands of the great spirit.

Man Said They Dropped Like Balls of Iron.

Decatur, Ala., Jan. 30.—James J. Edwards, ex-city clerk, has found fragments of the large and brilliant meteor of last Sunday night in his front yard. They look like slag from an iron furnace, and some of them are as large as goose eggs. Mr. Edwards' wife and children heard the explosion of the meteor and heard these fragments when they fell. He was on Bank street when the meteor passed over, and thought it was going to strike. "It looked as though some one was dumping balls of red hot iron from a basket," said Mr. Edwards. A telephone message from Moulton in Lawrence county, twenty miles away, said that the meteor had been seen there and precipitated fragments. From what can be learned these fragments were precipitated for fifty miles or more as the meteor crossed over north Alabama, going from east to west.

KIDNAPED BY WOMAN LOVE

Then Married to Her, Story of New York Detective.

New York, Jan. 30.—Kidnaped by the woman now his wife is what the police say has happened to George Rhodius, a wealthy young man of Indianapolis. A score of detectives are searching New York hotels and Broadway restaurants for the couple. Werner Amiel, attorney,

Fresh, Clean—Just Like You Want It

The fine, sweet fragrance and absolute purity and cleanliness of the famous Gail & Ax

"NAVY" LONG CUT TOBACCO

is safely protected from dryness, dampness, dust and deteriorating influences in **FOUR WRAPPINGS**—more than any other tobacco—making sure it reaches you fresh, clean and sweet, just like you want it, for a cool smoke or a tasty, satisfying chew.

5c Buys it Anywhere

SMOOT WILL KNOW FEB. 20.

Whether He is to Remain a Member of the Senate.

Washington, Jan. 30.—The senate has agreed to vote on the resolution declaring Senator Smoot not entitled to his salary for the month of February 20. Senator Burrows presented the proposition to vote in the form of a resolution, which provided that the resolution declaring Senator Smoot not entitled to his salary should be taken up for consideration immediately after morning business on Feb. 20, and that at 4 o'clock on said day the senate shall proceed to vote on any amendments and upon the resolution itself without further debate.

Senator Allison suggested that considering the present condition of business a whole day ought not to be given up to this matter and that unless the order was modified so as not to interfere with appropriation bills he should object. Later he made this objection positive.

The subject of the resolution, expressed the hope that the objection would be withdrawn. Personally he continued, "I should like to have a vote on this matter and will be only too pleased to vote it up early day. I would further state that rather than take any further time of the senate, I will be perfectly willing to have it come to a vote without further discussion."

"WHERE DIRT GATHERS, WASTE RULES."

GREAT SAVING RESULTS FROM THE USE OF

SAPOLIC

acting for the young man's relatives, is here to identify him if found. The woman in the case was known in Indianapolis as "Elma Dodesworth" and "Elmer Dares." Six months ago she and Rhodius went to Europe, where they registered as husband and wife. It was on the strength of a claim to a common law marriage that the woman last summer forced settlement for \$20,000 on the understanding that she would renounce her claim and leave Rhodius Monday night, and it is reported that she and the woman were married in Louisville.

REFUSES ESTATE

Will to Him, Saying His Benefactor Was Not Sane.

Boston, Jan. 30.—Although Ignaz Marcel Gaugengigl, the Boston artist, is made the sole beneficiary under the will of Mrs. Phoebe A. Pickering Jenks, the portrait painter who died a few days ago, he will not accept the gift. He is quoted as saying:

"There is little doubt that Mrs. Jenks was not in her right mind when she made this will. She had been under the influence of morphine for weeks to leaden the pain she was suffering."

The will was made on Jan. 9 of this year. It gives Mr. Gaugengigl \$50,000 and Bartor P. Jenks, her son, \$5,000. Mr. Gaugengigl and Mrs. Jenks had been close friends for many years, as had Mr. Gaugengigl and Mr. Jenks, the son.

RESIGNATION ACCEPTED.

Believed That Governor Swettenham Will Soon Leave Jamaica.

London, Jan. 30.—There is reason to believe that the resignation of Sir Alexander Swettenham as governor of Jamaica has been accepted, though the officials of the foreign office refuse all information on the subject. This official reticence is attributed to a desire to postpone the announcement of the resignation to the post before announcing the latter will leave the island as soon as details can be completed regarding the affairs of his office.

OFFICES FOR THE LAWMAKERS

Detached Wing to the Capitol for Use of Legislators.

Washington, Jan. 31.—Uncle Sam is supplying his lawmakers with offices. Two of the most magnificent buildings in the country are being put up by the national government for the exclusive use of senators and representatives in congress. Each will occupy a block and will cost \$2,500,000. One of the twin structures will be for the house, the other for the senate, and they will form detached wings to the capitol. Heretofore, the congressmen have had no regular offices, each has had his headquarters in whatever place pleased him most. There has been no system about the accommodations. Now each branch of congress will have a handsome office building, with uniformed attendants, a post office and telephone and telegraph service.

The southern building, for the house, will have 420 rooms, one for every one of the 420 representatives and nineteen for future growth in the membership. On account of their smaller number, the senators will be better off in the bargain in the matter of space, every senator having a room for himself, one for his secretary, and a bathroom. In designing these congressional offices the architects put particular emphasis upon safety from fire, and

REVIVO RESTORES VITALITY

"Made a Well Man of Me."

THE GREAT REVIVO REMEDY produces fine results in 30 days. It acts powerfully and quickly. Cures when others fail. Young men can regain their lost manhood and men can recover their youthful vigor by using REVIVO. It quickly and quietly removes Nervousness, Lost Vitality, Sexual Weakness, Loss of Power, Failing Memory, Wasting Diseases, and effects of self-abuse or excess. It restores vitality, builds up the system, business or marriage. It not only cures by starting at the seat of disease, but is a great nerve tonic and blood builder, bringing back the pink glow to pale cheeks and restoring the fire of youth. It wards off all approaching disease. Insist on having REVIVO, no other can be carried in vest pocket. By mail \$1.00 per package, or six for \$5.00. We give free advice and counsel to all who wish it. Write for circulars. Circulars free. Address: ROYAL MEDICINE CO., Marine Bldg., Chicago, Ill. For sale in Duluth, Minn., by S. F. Boyce and Max Wirth.

Banish the Blues

nourish the nerves.

Palmo Tablets

do this and dispel the worry wrinkles.

50 cents. Guaranteed. Book free.

For sale by Max Wirth, Druggist.

BLOOD POISON

Have You Sore Throat, Pimples, Copper-Colored Spots, Itches, Ulcers, Bores, Glands, Blotchy Skin, Falling Out Hair, or any of the above? If so, you have blood poisoning. Write for proof of it. Capital \$100,000. 100-page book FREE. No branch office.

COOK REMEDY CO., 114 N. WABASH ST., CHICAGO, ILL.

ALLEN'S ULCERINE SALVE

Is a sure cure for Chronic Ulcers, Bone Ulcers, Scalds, Burns, Ulcers, Varicose Ulcers, Mercurochrome Ulcers, Fever Sores, Gangrenes, Blood Poisoning, White Swelling, Poisoned Wounds, Abscesses of long standing. Positively never fails. Cures Sore Gums, Burns, Boils, Pimples, Itch, Hives, Abscesses. For sale by druggists. Mail 25c and 50c. J. F. ALLEN MEDICINE CO., ST. PAUL, MINN.

OLD REMEDY NEW FORM

NEVER KNOWN TO FAIL. TARRANT'S EXTRACT OF CUBOBS AND CAPSULES.

Throat, chest and throat care for coughs, colds, whooping cough, etc. Easy to take, pleasant to carry. Fifty cents. Write for proof of it. Capital \$100,000. 100-page book FREE. No branch office.

W. Superior St., Duluth, or by mail from The Tarrant Co., 41 Hudson St., New York.

the specifications call for 220,000 square feet of terra cotta hollow tile for the building. Though only four-story high, each of them will have as great a quantity of hollow tile brick in it as many a skyscraper. The height, which makes fireproofing an absolute necessity. Thus, while the character of Washington architecture demands that the buildings be low, they are made just as safe as if they were high. Fire will have no chance against them. The exterior of these capitol wings will be white marble. They will be connected with the capitol by arcades reaching from floor to floor and capped by a great dome, seventy feet in diameter; a caucus room, 68x14 feet wide; and a dining room, 65x30 feet, finished in ornamental plaster.

IS GUILTY OF BIGAMY

Jury Convicts James C. Doyle, But Recommends Mercy.

Accused Had No Defense But Claim of Good Faith.

James C. Doyle is convicted on an indictment charging him with bigamy. The verdict determining his guilt, but recommending Doyle to the mercy of the court, was returned at 7:40 o'clock last evening, the jury having been out about three hours. Doyle and a large number of those who listened to the trial of the case yesterday were present in court last evening when the verdict was read. Sentence may be imposed some time this week. The maximum penalty is six years imprisonment in the state penitentiary. Practically all the evidence was in by noon yesterday, as reported in the Herald. During this afternoon session Doyle furnished his testimony in six days before noon. Practically the only thing new in his testimony was a statement concerning some letters he claims to have written the first Mrs. Doyle at various times when she was in Port Wayne and in Grand Rapids, in one of which he bade her farewell, saying that he was about to start for Australia to be some several years, and that he would not trouble her again.

Doyle made no denial of his marriage to Katherine Kamp, at Chicago, March 15, 1892, and to Joseph D. Caulkins, at Duluth, June 13, 1896. His only defense was that he contracted the second marriage under the belief that his first wife was dead and that he was free to marry again. Robert Idell, who represented Doyle, made a strong plea to the jury for clemency, based on the testimony of Doyle that he had been told by two friends that his first wife was dead, and the letter addressed to her which was returned unanswered four days before he married a second time. Beyond producing the envelope of the letter he claims to have mailed, Doyle's testimony was practically uncorroborated, and the fact that he was in such haste to contract his second marriage only a few days after hearing that his first wife was dead, may have had some influence with the jury in arriving at the verdict.

Madam, if you are a good cook you will appreciate Hunt's Perfect Baking Powder. If you are learning to be a good cook, it will help.

DELIVERIES ARE BETTER

**Foundries and Steel Works
Getting Material to
Work With.**

New York, Jan. 31.—The Iron Age says: Deliveries of pig iron to foundries and steel works have been better, particularly north of the Potomac and east of the Allegheny mountains, and the demand for spot and prompt iron has much lessened. The territory more directly dependent upon Southern iron seems still to be suffering from inadequate shipments. Generally speaking foundries have been much exasperated during the past few months over the inability to get iron on old lower-priced contracts, while a stiff premium, when paid for spot, brought the same iron to the foundry. Foundries, too, are exercised all over the country over the action of the railroads in demanding an advance of 25 cents per ton freight on pig iron from Southern furnaces, effective Feb. 1, when the very iron was due them months ago, and did not reach them because the railroads could not handle it. Prices abroad have weakened and Middleborough today was reported at 56 shillings, 10½ pence. This means that No. 3 Middleborough can be laid down, duty paid, at \$19.50 to \$20. Last week some foreign iron was sold on arrivals at a concession in preference to storing.

There is still considerable foreign iron to come, practically all of it sold. At least one large inquiry for foreign iron is in the market, but that is for a consumer who would use it for export goods.

There has been quite a movement in the Central West. Cincinnati reporting sales of 15,000 tons for the second half to a large implement maker, a total of 16,000 tons to two malleable foundries, and 8,000 tons to a car builder.

The condition of the finished iron and steel markets is well reflected in the large amount of orders which the steel companies have on their books. No particularly large sales of steel rails are reported, but it is a fact that premiums are being offered to the mills to secure deliveries during the first half of the year. The same is true of plates.

The supply of steel from outside sources is growing slightly better. The steel corporation itself is suffering of shortage as keenly as ever, and the Ohio mills have been put on sheet bars for a week, to help out in that direction.

Orders continue to flow into the structural mills, both for buildings and for bridges. Among the former is 4,500 tons out of a total of 12,000 tons required for the Corn Products company, and 5,000 tons for the Steel corporation improvements at Lorain and elsewhere. The St. Paul road has ordered 3,000 tons more of bridge work.

The Philadelphia foundry was the lowest bidder on the 35,000 ton-pipe contract for New Orleans. No award has yet been made.

MAYOR CARTER IS PETITIONED To Again be Candidate for Chief Executive of Bemidji.

Bemidji, Minn., Jan. 31.—(Special to The Herald.)—A petition has been circulated during the past two days for the candidacy of A. A. Carter to succeed himself as mayor of the city of Bemidji, and is being very generously signed. During the first two hours the petition was in circulation, nearly 200 voters attached their names and many others are signing today, indicating a general demand for the reelection of Mayor Carter. A petition for Mr. Gould to remain as alderman-at-large is also being generally signed. Deputy Sheriff John Bailey has received a letter from his father, Thomas Bailey, sheriff of Beltrami county, in which the latter states that he is stopping at Hot Springs, Ark., for the present, but will leave in a month for Pensacola, Fla., to spend the balance of the winter. "There are no violations of the

WEST DULUTH HOUSES FOR WORKMEN

Cottages Will be Furnished
Proctor Railway
Shop Employees.

About Fifty Lots Pur-
chased by Railway for
This Purpose.

Workmen employed in the shops of the Duluth, Missabe & Northern railroad at Proctor will soon be provided with cottages within a few blocks of the shops, according to the plans which the railroad company has decided upon.

A deal was closed during the latter part of December whereby the company purchased a considerable tract of land in what is known as Norton's addition to Proctor, and the cottages will be erected on this tract. There are about fifty lots or more included and there is room for a large number of cottages.

It is only a distance of about a block and a half from the place where the cottages will be built to the shops and as soon as the bridge, which the company is contemplating, is completed over the railway tracks, it will be very handy for the workmen. The number of cottages to be built has not yet been decided, but enough to accommodate all the workmen who wish them will probably be erected.

The rent to be charged by the railroad company for the cottages will be as low as possible, and the cottages will probably be ready by early summer.

CO-OPERATIVE STORE.

Progressive Finns About to Form Mercantile Company.

If the present plans of about thirty-five of the progressive Finns are carried out, West Duluth will soon have a new

co-operative grocery store and meat market. The Finns have been considering the project for several weeks and have about concluded to put it through. Several meetings have been held by them and they have gone over the details of the matter thoroughly. It is the wish of the Finns that they may have a store run by themselves upon which they may get the lowest of prices and still realize a small profit. A meeting was held last evening but no definite action was taken, and the names of the leaders in the movement have not yet been given out.

AFTER NEW MEMBERS.

West Duluth Commercial Club Will Add to Its Roll.

Nearly a score of citizens of West Duluth and other sections of the city will become members of the West Duluth Commercial club at the weekly meeting tomorrow evening. According to the progress already made considerable strength will be added to the organization.

A smoker and social will be held by the club members tomorrow evening.

The regular business of the meeting will be transacted first, and will be followed by the smoker, after which refreshments will be served.

The banquet matter will be one of the principal matters to come up at the meeting, and the members will hear the report of the committee appointed to get bids for furnishing the feast. Other details in regard to the big affair will be discussed at the best date may be decided. There are several other important questions which will be discussed, and the officials hope there will be a large attendance.

MAY GO TO WINNIPEG.

Western Club May be Represented at Bonspiel Next Week.

President H. W. of the Western Curling club will call a meeting of the club for next Saturday evening, at which time it will be decided whether or not a rink will be sent by the club to represent it at the Winnipeg bonspiel, next week. Several members have said they would be willing to go, and it is quite likely that at least one rink will participate in the bonspiel.

Two contests in the Smith trophy were pulled off last evening at the Western rink. The rink skipped by Macaulay won out last evening, and will be one of the two to represent the club at the contest at Duluth. Two contests will be played this evening between the rinks skipped by McInnam and Hewitt and Boutin against McDonald.

The line-up and score for last evening's games were as follows:

Sorenson 1115

Hamilton 1115

Ruckley 1115

McDonald 1115

Hewitt 1115

John Engman Dies.

The death of John Engman, a blacksmith by trade, occurred last evening at his home, 41 North Sixth street west. Mr. Engman was 62 years old, and had lived in West Duluth for about fifteen years. He was born in Europe and emigrated to this country several years before coming to West Duluth. Consumption was the cause of death.

Injured in Mill.

While working in the Alger-Smith mill last Tuesday, Lewis King, a sawyer, and his son, David, were badly injured, the elder sustaining a broken leg and the son having several of his toes crushed so that they had to be amputated. David King was working on the carriage at the time, but further details of the accident have not been learned. Both men were taken to their home at 407 Fifty-seventh avenue west, where they will be confined by their injuries for several weeks.

Two Minor Accidents.

Peter Dorey, 326 Sixtieth avenue west, one of the employees at the carbolic works, fell on the sidewalk at Fifty-fifth and Polk last evening while returning to his home after working hours. A result his leg was broken, and he was carried to his home by a

patrolman. A physician was immediately summoned, and the broken bone was set. Another workman at the carbolic plant was badly injured yesterday. Steve Smith had several ribs broken, but the details of the accident could not be learned.

Monthly Dance.

The Royal League dance, the date for which had been set for Feb. 11, will be given at Wade's hall next Wednesday evening instead. The committee decided upon the change at a meeting last evening and will have everything in readiness for the affair by next week.

Queen Esther Circle.

The Queen Esther Circle of the Assembly M. E. church was entertained last evening by Miss Lou Remphrey at the home of her parents, Mr. and Mrs. Andrew Remphrey, 612 North Fifty-seventh avenue west. There were about thirty-five young people present and the evening was pleasantly spent in playing games and with music. Ray Abbott favored the company with a vocal solo. Refreshments were served.

Call is Extended.

At a meeting of the congregation of the Third Swedish Baptist church, a call was extended to Rev. C. A. Sahlin, pastor of Minneapolis, to take the place made vacant by the resignation of Rev. C. A. Alden a month ago. Rev. Sahlin, who preached at the church three weeks ago, and made a good impression upon the congregation, will be in West Duluth the coming Sunday and will preach at both the morning and evening service.

Farewell Reception.

A meeting of the Ladies' Guild of the Holy Apostles' Episcopal church was held yesterday afternoon at the home of Mrs. Sydney T. Manchett, 229 North Fifty-ninth avenue west. The company of ladies tendered Mrs. Hanchett a farewell reception as she will leave within a few weeks for her new home in Barrows, Saskatchewan, Can. The afternoon was passed with a short musical program and short talks by the ladies.

West Duluth Briefs.

Charles H. Lowe, No. 11 North Fifty-third avenue west, left today for Jefferson, Wis., to attend the funeral of his father who died early Tuesday morning.

Andrew D. Wilson of Stillwater is spending a few days visiting friends here.

Fred Ceyboriski and son, who have spent the last few days at Ashawa, have returned to West Duluth.

The Longfellow school will have their sleigh party Saturday evening. The party will go to New Duluth and then return to the school building where the remainder of the evening will be spent socially.

Miss Clara Juvstad, who teaches at Biwabik, is in West Duluth for a few days, visiting relatives. She will take the teachers' examination at Duluth today.

W. Pollock, who is down from Virginia visiting his family for a few days, is recovering from an illness, which kept him confined to his home for several days.

Misses Laura Govett and Helen Hartley are down from their school at Midway in order to take the teachers' examinations. They will visit relatives in West Duluth until Monday.

Mr. and Mrs. August Kruger, 6402 Warden street, the parents of a son, born yesterday.

Mr. and Mrs. Edward Miles, of Butte, Mont., arrived yesterday for a two weeks' visit at the home of Mr. Miles' brother, Andrew Miles, 424 North Fifty-eighth avenue west.

Mrs. W. E. Kern, who has been acting as installing officer in the W. C. O. F., in the range town, has returned to West Duluth.

A short business meeting of the Young Ladies' Guild of the Holy Apostles' Episcopal church was held at the home of Mr. and Mrs. L. R. Clark, 5711 Huntington street last evening. Card playing and dancing were enjoyed by the company, and refreshments were served.

Mabel Fulton concert, in Great Eastern hall, Friday evening.

HEAVIEST SNOW

Seen in the City of Berlin for a Generation.

Berlin, Jan. 31.—The city of Berlin was snowed up this morning. Eighteen inches of snow fell during the night, and not a street car moved before noon. Even the downtown thoroughfares were impassable for cabs or omnibuses, and the electric elevated road was partially interrupted. Nothing like it had been witnessed here in a generation. Trains on the railroads were hours late, and the telegraph and tele-

phone lines were interrupted over a wide area of Central Europe.

CALIFORNIANS WELL PLEASED

With Result of Conference
With President and
Japanese.

Washington, Jan. 31.—Representative Hayes today made the following additional statement concerning the conference held at the White House yesterday between the president and members of his cabinet with the California delegation:

"The California delegation is pleased with the situation with reference to Japan as developed from the conference. I feel very hopeful that the result of this conference and of others that will follow will be solution of the Japanese difficulty that will be perfectly satisfactory to the people of the island."

Speaking for himself Mr. Hayes said: "I have no fear of any diplomatic crisis of any kind with that nation."

It is stated at the department that no reports have been received from any source indicating that the Japanese in Hawaii have organized secret military organizations and are drilling with the military and naval officers charged with the duty of defending the country.

COMPANY C HOLDS SHOOT

Second Platoon Defeats
First Division 391-362
in Good Contest.

Athletic rivalry between the two platoons in Company C, is becoming very warm and contests between Lieut. Hanson's division and that led by Lieut. Plodin are becoming frequent and hot.

Last week Hanson's platoon lost to Plodin's platoon at indoor baseball by the close score of 8 to 5, and in order to soothe their feelings they challenged their rivals to a shoot last night after drill which resulted in a victory for Hanson's men by a score of 391 to 362.

The scores of the shoot were as follows:

First Platoon. Second Platoon.

THOSE WHO HAVE PASSED BEYOND

Bryan Webster, Prominent Democrat of Iowa, is Dead.

Marshalltown, Iowa, Jan. 31.—Byron Webster, former editor of the Marshalltown Statesman, died today. He was the first editor to suggest the name of Grover Cleveland for the presidency, upon the election of Mr. Cleveland as governor of New York, in 1884. Mr. Webster, after being elected president of the Iowa Democratic party, was the famous campaign, in which Ben T. Frederick was elected congressman over "Tama" Jim Wilson, now

D. E. H., Jan. 31, '07.

COLUMBIA AFTER-INVENTORY TIPS.

TOMORROW!

Our second series of After-Inventory Price Surprises will be launched tomorrow morning. Our honest determination to rid the store of all the odds and ends which a big and busy establishment naturally finds accumulated at inventory time will not be doubted by any one who investigates our offerings. We take our loss in a lump, take it good naturedly and make many new customers every time we have such an unusual sale.

Suits for young fellows, odds and ends in the shoe section and fine suspenders will have the call tomorrow, but the other big rebates advertised during January will be granted in February until further notice.

Suits for Youths \$5.00 Sizes 32 to 36 at

These are for young fellows, ages 16 to 20, and are the famous kinds the boys like so well. The original prices were \$12 to \$22.50 and the reason for the incredible price cut is the fact that the suits are odds and a trifle shorter than the extreme style of this season. Black and fancy patterns in the lot.

MOTHERS OF BIG BOYS! Please take notice of this opportunity to save \$7.50 to \$17.50 on a good suit for the boy. See the corner window.

Shoe Section 90c to \$1.75

Here we propose to clean up all that the inventory revealed to be in the way of calling our stock worth 100 cents on the dollar.

The bargain table is loaded with 50 pairs of Men's \$2.50 and \$3.00 plain toe shoes; with 25 pairs of boys' lace and button shoes of the same values, with a hundred women's \$3 to \$5 shoes, oxfords and slippers, and with about 75 high grade shoes for misses and children. All of these will be closed out on Feb. 1st and 2nd at—

90c

A small lot of Boys' Arctics goes at 48c. \$1.75—is the low price placed upon about 100 pairs of Men's high-grade \$3.50 to \$6.00 shoes.

Suspender Special at 18c

One of those extraordinary offerings for which The Columbia is famous. These are 50 cent to \$1.50 values taken from Wilson Brothers' sample racks and are of their own well-known make.

COLUMBIA CLOTHING CO.

The Store That Does Things.

United States secretary of agriculture.

Milwaukee, Jan. 31.—A special from Racine, Wis., says: Leonard W. Bullock, undoubtedly the oldest locomotive engineer in point of service on the Chicago, Milwaukee & St. Paul railway, died suddenly of heart failure today. Mr. Bullock was made an engineer in 1884 and had been in the service since that time.

CHICAGO'S EPIDEMIC.

Number of Contagious Diseases in City is Now 4,977.

Chicago, Jan. 31.—Officials of the health department today estimated the number of cases of contagious diseases in the city at 4,977. Of these 5,038 are scarlet fever. Today 251 new cases of fever were reported against 314 yesterday.

SON FOLLOWS FATHER.

Same Pallbearers Carry Rev. Humphrey to the Grave.

Hudson, Wis., Jan. 31.—The funeral of the late Rev. William H. Humphrey, who died at Ashland, Wis., was held from his old home in this city. There was a very large attendance of mourners, including many from outside of Hudson. Rev. C. T. Burnley, pastor of the Presbyterian church, of Hudson, of which the deceased was once a member, preached the funeral sermon. The remains were interred in the Willow River cemetery, and despite the bitter weather a large concourse of friends followed the dead pastor to the grave.

With one exception, the pallbearers were the same as those who carried to his final rest, a few days ago, the late Congressman H. L. Humphrey, father of Rev. Humphrey—namely, Judge E. W. Helms, Judge O. W. Arndquist, Hon. S. J. Bradford, Spencer Haven, H. K. Hutton and C. A. Cross, all of Hudson.

The following ministers participated in the funeral services: Rev. L. C. Smith, D. D., of Waukesha, Wis.; Rev. J. C. Paries, of Duluth, Minn.; Rev. W. H. Kirkwood, D. D., of Macalester college, St. Paul; Rev. John McCoy, of Eau Claire, Wis.; and Rev. W. R. Reynolds, D. D., of Shattfield, Minn. The officers of the Ashland Presbyterian church, of which Rev. Humphrey was pastor, attended in a body, they being J. F. Scott, Emil Darrich, J. H. Krueger, J. A. Watson and Archie Donald.

The late Rev. Humphrey was a native of Hudson, where he was held in the highest esteem. He was the son of the late Judge Humphrey, one of the city's most prominent residents, who served for six years in congress and for a long period on the bench of the circuit court.

Rev. Humphrey was educated in the Hudson schools, at Macalester college, Princeton university and the McCoy theological seminary, of Chicago. He has served congregations at Clinton, Ohio, and Ashland, Wis. Last year he was elected moderator of the Presbyterian synod of Wisconsin, which decides the conference reported in him by his church associates.

THE EARTH QUAKES.

St. Louis, Jan. 31.—Specials from Highland and Greenville, Ill., report severe earthquake shocks at 11:30 o'clock last night. The vibrations seemed to be from east to west and continued about five seconds. In many homes dishes were shaken from shelves.

TO WHOM IT MAY CONCERN—

TAKE NOTICE—That the undersigned, Clyde Iron Works, a corporation, will, at the Court House in the City of Duluth, St. Louis County, Minnesota, at Special term of the District Court for said County and State, to be held on Saturday, March 2nd, 1907, at the hour of 2:30 o'clock A. M., or as soon thereafter as a petition can be heard, make application to said court for an order and decree vesting the real part of Thirtieth Avenue West in Marine Division of Duluth lying between Huron Street and Michigan Street and that part of the alley between Michigan Street and Huron Street in said Marine Division of Duluth extending from Twenty-ninth Avenue West to Twenty-first Avenue West, all according to the recorded said Marine Division.

ATTEMPT TO INSTRUCT CONGRESSMEN ON SHIP SUBSIDY BILL FAILS

Elaborate Speeches in State Senate for and Against.

Resolution for Pin Money Appears in Another Form.

House Adjourns Until Monday Night, Senate Tuesday Morning.

(From a Staff Correspondent.)

St. Paul, Feb. 1.—(Special to The Herald.)—The senate looked like a lesser edition of congress for an hour this morning when the debate began on Senator Sageng's resolution, asking the Minnesota congressional delegation to oppose the ship subsidy bill. There were elaborate speeches for and against it, with the author, a Populist, and the Democrats on one side, and the Republicans on the other. Speeches for the resolution were made by Senators Sageng, Witherspoon, Schaller and others, and against it by Senators Laybourn, Thorpe, Stephens and Wilson. The friends of the resolution said the ship subsidy was a steal, and its opponents said that it was wrong to spend political questions there and to inject partisan arguments into a session.

ANTI-MOSQUITO CAMPAIGN OPENS

Will be Waged in New Orleans Until Next November.

New Orleans, La., Feb. 1.—The second annual anti-mosquito campaign, the object of which is to prevent an outbreak of yellow fever in New Orleans, began today, and will continue until the first of next November. Because of the fact that there was not a single case of fever here in 1905, great medical and public interest is attached to the campaign.

Two hundred men will be employed in inspecting cisterns and searching for sink holes or ponds where mosquitoes might propagate. Advice to the state board of health from Central America say that the state of cleanliness and sanitation there make it probable that no danger is to be anticipated from that section this year.

RAILROADS IN POLITICS

Is What Brings Them Into Dispute With the People.

Commissioner Lane Addresses San Francisco People.

San Francisco, Feb. 1.—The directors of the San Francisco chamber of commerce yesterday gave a luncheon to Interstate Commerce Commissioner Franklin K. Lane. In an address, Mr. Lane said that William Jennings Bryan recently told him that eventually the United States would come to government ownership of railroads. But the commissioner gave it as his opinion that the day would remain far off if the interstate commerce commission had proper powers and treated all problems in the spirit of a trial court.

"If railroads will only keep out of politics," said he, "that practice which brings them more into dispute with the people than anything else they do, I think government ownership will continue to remain a long way off."

J. C. Stubbs, speaking for the railroads, said: "We can stand any law that may be enacted by congress, provided it be also enforced against our competitors. There is more trouble over the alleged favoritism shown cities than that shown individual citizens. Everywhere in the West cities are trying to be distributing centers and receive the advantage over the cities in their zone. If the commission desire to sit as a judge it will have the support of shippers and of every honest railroad man in the United States, and if there be anything in the way of skill and experience in railroading that can be put at their disposal, it would be theirs without price."

SENATOR S. D. WORKS Of Mankato, One of the Leading First Term Democrats in the Senate.

TAXING OF IRON MINES

First Meeting of Joint Legislative Committee Being Held.

Very Likely That Members Will Visit St. Louis County.

(From a Staff Correspondent.)

St. Paul, Feb. 1.—(Special to The Herald.)—The first meeting of the committee from the senate and house of representatives appointed to investigate the taxation of iron mines will be held this afternoon, arrangements for a joint meeting having been made by Chairman Cooke of the senate committee and Zech of the house committee.

This afternoon's meeting will be principally, if not entirely, a preliminary affair. An organization will be made, and plans for the proposed investigation will be discussed. Nothing can be done until the committee completes an organization. It will probably take another meeting to outline a plan of campaign.

Whether or not the committee will visit St. Louis county has not been determined, of course, because there has not yet been even an informal consultation between the members. However, it is practically impossible to make any thorough and satisfactory investigation without such a visit.

J. P. QUIRK GETS FIFTEEN YEARS

For Murder of William Dowell, Minneapolis Newspaper Man.

Minneapolis, Feb. 1.—(Special to The Herald.)—John P. Quirk, convicted of manslaughter for killing W. A. Dowell, a Minneapolis newspaper man, was today sentenced to fifteen years in state's prison.

TRAINMEN ARE KILLED

By Plunging of Two Engines Over Bank Into River.

Nearly a Score Are Seriously Injured in the Accident.

Missoula, Mont., Feb. 1.—The engine, upon which was riding a large number of men who had been engaged in breaking the snow blockade near Sateez, Mont., plunged over an embankment yesterday, killing two men and injuring nearly a score, some of them seriously. The dead: D. H. McDONALD, conductor. LEVI BUREIS, fireman. Conductor McDonald's death occurred last night, after he had lain for ten hours pinned beneath a boiler with his body partly submerged in the icy waters of the river. His fellow workmen unable to help him, kept his head above water until he died. He steadfastly refused to have his leg amputated.

HEAVIEST RECORDED

Great Earthquake Occurred on Solomon Islands Few Months Ago.

Entire Appearance of Land Changed But No Lives Lost.

San Francisco, Feb. 1.—The Solomon Islands, in the South Seas, were visited by a fearful earthquake several months ago, and so heavy was the force of the tremor that the earth was opened and deep gorges created. The entire appearance of the islands was changed by the great upheaval, but as far as can be ascertained there was no loss of life. The news was brought here by Governor C. B. L. Moore, who arrived on the Oceanic company's steamer Sierra, yesterday, from Samoa. He stated that a trading schooner came into Apia from the Solomon group shortly before he left for this country with news of the tremor. The details brought by the trade were meager. It is deemed probable that the earthquake that was experienced in the Solomon Islands was the one recorded on the seismographs in various parts of the world. According to the instrument at Apia, Samoa, it lasted for several minutes, and was said to be the heaviest shock ever recorded. It was figured that it took place somewhere in the South Seas, but as no report came from any civilized islands, it was believed that it took place at sea.

CONFERENCE OF JAPANESE

To Discuss Questions of Interest to the Race in America.

Los Angeles, Cal., Feb. 1.—Gourou Ikida, of San Francisco, secretary of the Japanese Association of America, a prime mover in the Japanese school controversy at San Francisco, is here to meet with twenty-three representatives of the association for a two-day conference on questions of interest to the Japanese.

"We have organized to promote Japanese welfare in America, and this is our third conference," said Ikida. "There are 60,000 Japanese in this country and there is necessarily much of importance to be discussed. We expect to take up the discussion of the advisability of excluding the Japanese merchants who go to Honolulu as laborers from the mainland. I believe that if only the best class of Japanese merchants come to California there could be no objection. We want to build up our trade and see no reason why we should not bring much that is good to America."

CITY OF HARRISBURG, PA., HAS BIG CONFLAGRATION CAUSING \$1,000,000 LOSS

ISRAEL W. DURHAM Whose Filtration Contract With Philadelphia Has Been Pronounced Illegal.

MUST RETURN FIVE MILLION

Court Decides Famous Filtration Suit by City of Philadelphia.

Philadelphia, Feb. 1.—Judge Beller has handed down a decision for the city in the suits against D. J. McNichol & Co. to recover \$5,000,000, which, it was alleged, had been fraudulently received by the firm on contracts for the construction of the city's filtration plant. The members of the firm at the time the original contracts were awarded were Mrs. McNichol, wife of State Senator James P. McNichol; Israel W. Durham, the Republican leader; John M. Mack and D. J. McNichol. Sixteen contracts, amounting to about \$10,000,000, were involved. Judge Beller declares null and void the contracts aggregating \$2,745,492, which were awarded when Senator McNichol was a member of the council, which bodies ratified the contract. He decided that they were obtained illegally, sustaining the contention of the city that Mrs. McNichol and D. J. McNichol were never more than figureheads in the firm. The court instructs the contractors to give an accounting of the actual cost of material and work done on these contracts and to refund to the city any profit. Five other contracts for \$1,200,000 were sustained and six were not ruled on, having already been nullified by the city.

Eight Buildings in Business Center of City Are Burned.

Nothing Standing But Walls of Grand Opera House.

One Actor Has a Narrow Escape From Death.

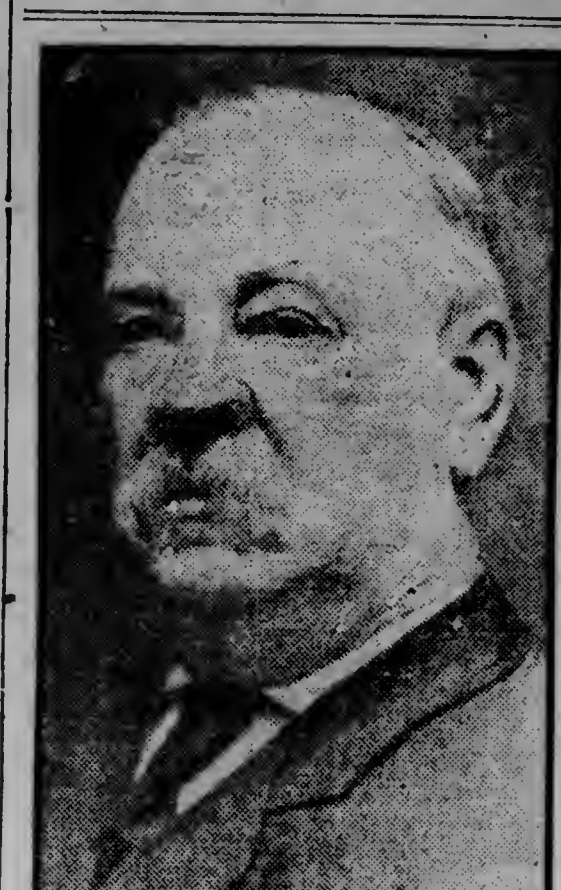

Harrisburg, Pa., Feb. 1.—Eight buildings in the center of the business district of Harrisburg were either destroyed or badly damaged by a fire, early today, involving a loss estimated at \$1,000,000. The Grand Opera House block at Third and Walnut streets, in which there were five stores, was destroyed and nothing is standing but the walls. The Duncan building, on the opposite side of Third street, occupied by three stores and a pool room, was also destroyed. The Park hotel and the Columbus hotel were badly damaged by fire and water. The United Telephone company building, the Security Trust building, the Bijou theater, Roshon's photograph studio, College block, the Harrisburg Gas company building and (Continued on page 14, fourth column.)

MANGLED BEYOND ALL RECOGNITION

Are the Bodies Which Have Been Removed From Mine.

Charleston, W. Va., Feb. 1.—Twenty-four bodies, all mangled beyond recognition, have been removed from the Stuart mine at Oak Hall, and it is expected that the officials soon will have the new cage in running shape, and that it will be possible to get out at least a good portion of the other fifty bodies, which are certain of being in the mine. There is now no hope that any of the men in the mine at the time of the explosion are alive. About thirty bodies are believed to be at the bottom of the shaft, and all of these are being removed today. Officials place the number of dead at between seventy-five and eighty.

FORENOON'S WORK FAILS TO SECURE THE TWELFTH JUROR FOR THAW TRIAL

GROVER CLEVELAND, Elected Chairman of the Association of Life Insurance Presidents. From a Late Photograph.

MONSTROUS, SAYS JONES

Are Charges Made Against Him of Inhuman Treatment.

Says He Did All He Could for Kingston Sufferers.

London, Feb. 1.—Sir Alfred Jones, president of the Liverpool chamber of commerce; John Heniker, M. P., and other prominent men arrived at Bristol today on board the steamer Port Kingston, from Kingston, Jamaica, by way of Barbados. They gave vivid details of the earthquake and protested against the charges widely circulated that Sir Alfred's party inhumanly treated Americans at Kingston. In an interview, Sir Alfred said it was a "monstrous" statement, adding: "The ship was crowded from end to end with dead and dying. In order to provide for these we had to keep all our own passengers ashore at a hotel for two days. Several injured Americans were treated on board the Port Kingston and we provided other Americans, who sought shelter under the shed of our wharf, with mattresses and supplies from the ship and an armed guard to insure their safety. Several Americans came and asked us what they had to pay, but we told them they were welcome to everything we could do."

Sir Alfred said he considered that the levee at Hollybush remains intact, although a break is expected. The water is lapping the top of the structure and a large force of men is engaged in strengthening it. "Should a crevasse occur," he said, "the entire basin would receive the rush of waters. At Helena the main levee remains intact. The northern part of that city is flooded from the break in the auxiliary levee which occurred yesterday. There was a steady downpour of rain in this vicinity last night. The river this morning marks 28 1/2 feet, a rise of eight-tenths since yesterday."

Twice During Session Defendant's Attorneys Peremptorily Challenged.

The Eleven Jurors in Box Are Likely to Remain.

District Attorney Jerome Again Shows Evidence of Temper.

New York, Feb. 1.—There was more or less of an atmosphere of uncertainty in the courtroom as the hour for resuming the Thaw trial approached. The reports which had held over from yesterday, to the effect that there might be a further wedding of the jury, were again in circulation as the eleven men now on the trial panel filed in to take their places in the jury box. The courtroom was crowded with talemen, the new fourth panel of 100 having reported, and about sixty remaining of the panel which reported yesterday. Some of the talemen found their way into the seats reserved for the members of the Thaw family, but they were unconsciously routed out when Evelyn Nesbit Thaw and May McKenzie arrived, shortly before 10:30 o'clock. There was no indication on the surface of any further upheavals as Justice Fitzgerald took his place, and Clerk Penny began to call the roll of the new jury panel.

The countess of Yarmouth, Mrs. George Carnegie, Josiah Thaw and Mr. Carnegie arrived during the roll call. Mrs. William Thaw, the prisoner's mother, remained indoors today because of the inclement weather. She was greatly fatigued at the end of yesterday's long drawn out proceedings. Before any talesmen were called to the stand, District Attorney Jerome, (Continued on page 14, fourth column.)

PRIESTS SUBMIT THE CONTRACTS

For Leasing of Churches to Mayors of French Cities.

Paris, Feb. 1.—The parish priests, in obedience to the instructions of the bishops, are submitting to the mayors 18-year contracts for the lease of the churches, and are giving the officials four days in which to reply. The mayors of Catholic communities immediately signed the documents, but the papers must still be countersigned by the prefects, who are awaiting the government's decision in the matter. Archbishop Villate, the American prelate who is assisting in the formation of the new French National church, has lodged a formal complaint against the Society of the Militant Catholics of the neighborhood of the church of the Apostles, where the services of the new church will begin on Sunday next, charging that they are preparing to create a disturbance on that occasion.

LEVEES ARE WEAKENING FOLLOWS BROTHER

Edward P. Hipple of Philadelphia Takes His Life.

Brother of Bank Wrecker Who Also Committed Suicide.

Philadelphia, Feb. 1.—Edward P. Hipple, a brother of Frank Hipple, who ended his life last summer after wrecking the Real Estate Trust company of this city, of which he was president, committed suicide at his home here today with a revolver. Mr. Hipple's family was at breakfast when he committed the deed. His wife heard an unusual noise, and sending her son up stairs to investigate they found their father in his bedroom with a bullet wound in his head. He was hurried to a hospital, but died on the way. Mr. Hipple was about 70 years of age and had been in the real estate business. The police say they have not yet learned the cause for the suicide, but believe he brooded over the tragic ending of his brother's life.

ENGINEERS ARE OPPOSED To Plan of Turning Course of Calumet River Backward.

Washington, Feb. 1.—If the Calumet river is to be turned backward in its course from Lake Michigan to form a drainage canal into the Mississippi, as planned by the sanitary board of Chicago, the international waterway commission insists that the cost of the project shall be increased by \$5,000,000. The local Illinois board estimated that the sum of \$12,000,000 would cover the

cost of this great work, but the international board, including in its membership some of the ablest army engineers in the country, regard that project as crude and certain to be insufficient to meet the needs of the future. They say it can scarcely dispose of the flood water of the section to be drained even in its present sparsely populated condition, while if the inhabitants multiply as expected, the Calumet river would practically be forced backward and into Lake Michigan, just as it does now, in spite of all the expensive improvements. So the international board is prepared to recommend a project costing in the aggregate \$17,000,000.

While prepared in this way to meet any decision on the part of congress, or the war department as to the construction of this improvement, the international board is really very much opposed to it, taking the ground there is other and better ways of disposing of the sewage of the tract sought to be drained than by the adoption of a

plan which is certain to considerably reduce the level of Lake Michigan and so injuriously affect the immense navigation of the whole chain of lakes.

Secretary Taft has not yet passed upon the recommendation of the chief of engineers that he deny the application of the Chicago authorities for permission to divert the waters of Lake Michigan into the Calumet river. It is possible, indeed, that it may be necessary to call upon the attorney general, the executive authority in a case of this kind for an opinion.

Excursion Rates to Coleraine, D. M. & N. Railway.

Account second annual tournament of the Tascas Coleraine and Bovey, the Duluth, Missabe & Northern railway will have a special train leaving Union depot, Duluth, February 2nd, at 8:00 a. m.

Returning, leave Coleraine that night. Round trip tickets good returning on either special train or regular train following morning, \$3.00.

SCHOOLBOY A THIEF.

Over \$400 Worth of Booty Cashed by an Ellsworth Lad.

Ellsworth, Wis., Feb. 1.—Carl Julson, a clerk in the Foss-Amstrong Hardware company's store, captured a thief Wednesday night. For several nights Julson had been on the lookout for the robber, and was returning from a basketball game when he noticed that a rear window was open. He stationed some of his companions there to prevent any one escaping, and entered the building by the front door.

The thief, who is Vernon Scheide, a schoolboy of about 16 years, was found under a table. Search of the house, where the boy lives with his widowed mother, brought to light over \$400 worth of hardware, electric light and telephone supplies, which have been missed from time to time by the telephone and light companies. Two complete telephone outfits and enough material to wire and light a house were among the booty.

The boy's mother disclaims all knowledge of her son's thefts; all the articles found had been cleverly hidden by him.

Use a little Kodak after your meals and it will be found to afford a prompt and efficient relief. It digests what you eat. It is sold on a guaranteed relief plan. Sold here by all druggists.

POLICE PREVENT RIOT.

Rochester, N. Y., Feb. 1.—Two hundred striking Italian laborers marched this morning on the Grand Electric Signal company's building in course of construction here. Guns and clubs were flourished and threats to kill workmen were freely made, but the opportune arrival of a platoon of police prevented a riot.

COLD WAVE ON THE WAY

Warm Spell Will be of But Brief Duration.

Mercury Will Once More Drop Below Zero Mark.

Below zero weather will again hold Duluth in its grip by tomorrow morning, according to the forecast of Observer Richardson of the local weather bureau. The spell of mild weather which set in yesterday is to be short-lived and the temperature will again begin to drop this evening.

Instead of passing eastward as was expected yesterday, the area of low barometric pressure which caused the moderation in the weather a couple of days ago passed north into Canada and on this account there will be a renewal of the severe cold weather.

For the first time in a period of almost two weeks the thermometer yesterday morning registered above zero and the mercury remained above zero all day and last night remained at about the even zero mark. This morning it had risen considerably above the mark and at noon the temperature was between 20 and 30 degs. above. It is not expected to commence to fall until late this afternoon.

The expected cold wave will prevail over the entire state tonight and Saturday and there will probably be a fall of something over 20 degs. in temperature this evening. Mr. Richardson predicts that the thermometers will register 20 degs. below zero by tomorrow morning.

North Dakota was in the midst of one of the worst blizzards of the winter yesterday and Duluth and Northern Minnesota may get a taste of the same tomorrow. The snow that was predicted yesterday did not materialize and it is not likely that there will be much snowfall except in light flurries.

PILES CURED IN 6 TO 14 DAYS. PAZOLINEMENT is guaranteed to cure any case of itching, bleeding or protruding Piles in 6 to 14 days or money refunded. 50c

A LIGHTHOUSE AT SPLIT ROCK

Provided in Bill Favorably Reported by House Committee.

Washington, Feb. 1.—Appropriations aggregating \$1,640,000 are carried in a bill favorably reported today by the house committee on commerce and foreign commerce for the lighthouse establishments.

The following are among the large items in the bill: Light and fog signal station at White Shoal, north end of Lake Michigan, \$250,000; light and fog signal station at Split Rock, near Beaver Bay, Lake Superior, \$75,000; tender for the Upper Mississippi, \$80,000.

The bill authorizes the secretary of commerce and labor to establish lightkeepers' dwellings at thirty lighthouses, the cost not to exceed \$5,000 each.

PROMOTION FOR MACKENZIE

Former Duluthian Assumes Responsible Position at Winnipeg.

Many Duluth people will be interested in the following clipping from a Winnipeg paper:

"George F. Mackenzie, manager of the Port William branch of the Northern bank, has been promoted to the important office of assistant general manager, with headquarters in Winnipeg, and is expected to arrive here tomorrow and to take the current week to assume the duties of his new position. He will be accompanied by his family."

"Mr. Mackenzie joined the staff of the Northern bank about a year ago, coming to Port William from Duluth, when he had previously been teller in the American Exchange bank and the end of the current week to assume the duties of his new position. He will be accompanied by his family."

"Mr. Mackenzie, outside of his popularity in business associations and social circles is widely known among the banking fraternity, being an enthusiastic lover of the game of golf and a member of the Duluth club and the Northern western hospital, and at one time skipped a rink from the Zenith, which he attended the Winnipegspiel. Mr. Mackenzie also enjoyed the honor of being regarded the best curler in his club."

LONGFELLOW ALUMNI!

Meet at Spencer's corner, West Duluth, for Sleighride Saturday Night, 8 o'clock.

Committee.

DECISIONS BY SUPREME COURT

Five Opinions Filed, All But One Affirming Lower Court.

St. Paul, Minn., Feb. 1.—(Special to The Herald).—Five opinions were filed by the state supreme court. All but one were affirmatives of lower court orders.

Paul Olsen, et al. respondents, vs. the Court of Claims. The respondents sought an order that "fraternal insurance" order cannot make changes in an insurance policy without the agreement of a member insured.

Thomas T. Trevelyan, appellant, vs. David Maturin, respondent, Itasca county order affirmed.

Joseph W. Reynolds, vs. Emil Finch, affirmed.

MURDERED IN THEATER.

Whipple Shot Down by Drunken Man Whom He Reprimanded.

Green Bay, Wis., Feb. 1.—Word has been received here that Frank W. Whipple, eldest son of C. V. Whipple of this city, was shot and killed by a drunken man in Nevada, Mo. Whipple is an actor, and the company to which he belonged was giving a performance at Nevada. A man in the audience created a disturbance and Whipple reprimanded him. The man drew a revolver and shot Whipple in the back as he returned to the stage. The body was brought here for burial.

COASTING IS FATAL.

Loaded Sleds Come Together With Frightful Results at Appleton.

Appleton, Wis., Feb. 1.—Two bob-sleighs, coasting on Packard street hill Thursday night at 9 o'clock, collided when going at lightning speed, and Gertrude Ebbens will die from her injuries, while Herbert Selk had three ribs and his left leg broken, and Roy Myse had his left leg broken.

The hill has a drop and a rise of a quarter mile each, and 200 coasters were sliding from either direction. The parties, with ten on each sled, came together in the ravine and many others sustained minor injuries. Miss Ebbens had her right limb fractured in two places, the left limb horribly mangled and suffered internal injuries.

MOTORMAN WHO HAS KEEN SIGHT

Wonderful Eyes of Trolley Car Motorman in Atlanta.

Atlanta, Ga., Feb. 1.—There is a trolley car motorman in Atlanta who has most wonderful eyes. Fifteen years of constant watching in front of a moving car has trained eyes which were naturally far-seeing and piercing, and he is today possessed of a pair of optics which can best a magnifying glass or a telescope in some respects.

The motorman with the wonderful eyes is William L. Tumlin and he runs a car on the Woodward avenue route. Besides being possessed of wonderful optics, Mr. Tumlin is one of the best motormen now working for the Georgia Railway & Electric company. He never misses a schedule, has never had an accident, knows how to stop a car in the outskirts of the city to keep "my lady" from getting her boots muddy, and takes as much pride in running a car as a jockey does in riding a thoroughbred on a race track.

But about those wonderful eyes, Mr. Tumlin can see further and quicker than any living man. All the street car men who know him will vouch for this statement. He has to keep a close watchout as a motorman for "things ahead." And his eyes have been so long riveted on what is before his car that he sees everything that lies in the streets or on the sidewalks.

Not a day passes but what he sees something of value. Nearly every day he finds pocketknives, handkerchiefs and pencils. He often picks up money and other valuables.

One day last week he saw a dollar bill lying in a rut in the street, waded up and covered with mud. It had been run over by several wagons. A man walking over it would not have noticed it, yet Mr. Tumlin, from a fast moving car, saw it and knew where it was. He was soon a dollar better off.

Just Saturday he saw a chicken in a gutter. His wonderfully trained eyes

showed him that the fowl was tied by the feet. It had been dropped from some delivery wagon. Mr. Tumlin had fired chicken for dinner the next day. One morning he saw a tin bucket on the sidewalk, where some workman had dropped it. He soon saw it and it contained turkey, buttered bread and cake. In one week he found eight pocket-

knives, ten lead pencils, 20 cents in money, a gold watch chain, a stickpin, a pocketbook, a parcel containing a silk handkerchief and a finger ring. He does not look for such things. He merely sees them while watching out from the front of his car. He is a wonder to his fellow workmen and they never tire talking about what "Bill Tumlin finds."

THE MARKET IS ERRATIC

Egg Prices Are as Uncertain as Copper Stocks.

Potatoes and Apples Are Getting Stronger in Price.

The egg market lately has been about as erratic as copper stocks. One day the price will be up at a discouragingly high notch, and the next day it will be within the reach of ordinary mortals. The wholesale price of cold storage eggs has advanced 5 cents a dozen during the last week, and fresh eggs are also at a premium, although not so high as they were a while ago. The supply of the cold storage product is getting rather scanty, and will not last much longer. Butter also has taken on a stronger tone this week.

The cold weather is blamed for a further increase in the price of potatoes. The commission dealers issued a warning two weeks ago that there would likely be an advance in the price of the tubers, and predictions made in this direction are being fulfilled. In excessively cold weather it is not safe to ship vegetables a long distance, and this fact has caused a reduced supply in Duluth. If below zero temperature continues long enough, potatoes may be classed among the luxuries, except for those who are willing to eat the frozen vegetables.

Colorado, one of the leading potato producing states of the Union, has come forward with a statement of its 1906 crop. For the northern part of the state it totaled 500 carloads, which was 600 carloads less than that of 1905, which had a crop that was unusually small. After the harvest last year's crop was estimated at \$2,000,000, but shortage of cars to carry the crop when demand and prices for it were high, will lose the community at least \$500,000, it is claimed.

Thirty thousand acres in Northern Colorado were planted to potatoes in 1906, and the average yield was seventy-nine sacks of two bushels each to the acre. The quality was the best ever grown. It has been figured that the cost of growing a sack of potatoes is 25 cents, which makes the cost of producing the full crop \$31,250, leaving the growers about \$18,750. Though many farmers will cut down their potato acreage in 1907, others will increase their acreage, and the 1907 crop will probably be bigger than the one raised in 1906. From the above figures the women folk interested can figure just what profit goes to the railroads and middlemen.

Apples show indications of an increased price. The market has been firm all the week, with a good demand. The fruit now being disposed of is of excellent quality. The supply is rapidly being exhausted, despite the fact that there was a large stock on hand at the close of navigation, when the fruit from the East stopped coming forward.

Green stuff in considerable variety is in evidence along the commission at low winter prices prevail. Green lettuce heads are at a premium. Practically none is to be had, in fact.

Oranges of fine quality and unusual size are plentiful, but the price holds firm, with a good demand. Other kinds of fruit, usually to be had at this season of the year, are offered at what may be considered reasonable prices.

While eggs have advanced in price recently, poultry has slumped off. Not that there is anything particularly strange concerning this feature of the market, for the price of one does not necessarily influence the price of the other. Poultry of all kinds is to be had in liberal quantities, and at a cost which need not worry the housewife who is anxious to purchase such fare for the family.

The fish market still has its disagreeable features from the consumers' standpoint. The dealers are also dissatisfied with it, for when they have to pay such high prices as now prevail to get any fish at all, it means a real loss. Results in little stock being disposed of. Whitefish, pike and some of the other good varieties are very hard to get in quantities that would warrant sales at what is generally considered a fair price. The fish market condition has prevailed for several weeks now, and there are no indications of immediate relief being afforded the situation.

GIFT TO HARLAN BY SONS.

Handsome Home at Washington Presented to the Justice.

Washington, Feb. 1. Richard D. James S. and John M. Harlan have given to their father and mother, Justice and Mrs. John Marshall Harlan, the handsome Washington home in which the justice and his wife reside. With the home goes a large tract of valuable city property which adjoins it. The gift is to mark the family's rejoicing over the golden jubilee of the marriage of the justice and his wife.

SERVED IN ONE PLACE 24 YEARS

For Forty-One Years Lived With Only Two Families.

Boston, Mass., Feb. 1.—Bridget Driscoll, who for forty-one years has been continuously in the employ of the Sprague and Cabot families in this city, died last week at the home of Mrs. Joseph S. Cabot, 28 Beacon street, where she had been at service for twenty-four years. She was 72 years old at the time of her death, and had been ill for a long time. She was born in Ireland, and settled first in Baltimore, Md., finding service in a Southern family. She later moved to Boston in 1866, and found employment in the family of the late Judge Sprague, judge of the Massachusetts district court. After the death of Judge Sprague she continued in the service of the family until Mrs. Sprague's death.

CLEVELAND AT HEAD

Of Association of Life Insurance Presidents of United States.

New York, Feb. 1.—Grover Cleveland, former president of the United States, was elected chairman of the Association of Life Insurance Presidents at its meeting of the executive committee of the organization yesterday in this city.

Mr. Cleveland has accepted the position.

The Association of Life Insurance Presidents, which recently was organized, is composed of the executives of the principal life insurance companies of the country. The object of the organization is to co-operate for all kinds of reforms, which, the members claim, will increase dividends to policyholders.

Mr. Cleveland will also act as chief counsel for the association. In addition to these duties, Mr. Cleveland will act as referee in cases of dispute between the companies. For these ser-

vices he will receive \$25,000 a year.

It was announced that Mr. Cleveland will remain a trustee of the majority stock of the Equitable Life Assurance society, but for these services he will receive no compensation. The position of secretary of the association has been tendered to J. V. Barry, at present state superintendent of insurance of Michigan.

WEDDING CAKE MAKES FEAST FOR MOURNERS.

London, Feb. 1.—A funeral of an unusual character has taken place at Regent.

All the preparations had been made for the marriage of E. W. Shade and Miss Alice Lily Wilson, when, on the wedding eve, the bride was taken ill and died.

Her body was followed to the grave by the wedding cake.

Willie wailed and Winnie wheezed, while wintry winds whined woe. He wriggled while Winnie weezed wretchedly. Wisdom whispers, wintry winds work woe. Wherefore we write, "Use Kennedy's Laxative Cough Syrup." Nothing else so good. Sold by all druggists.

unless Lieutenant Governor MacArthur decided to surrender his present command at San Francisco for that position.

Rising From the Grave.

A prominent manufacturer, William A. Perwell of Lucama, N. C., relates a most remarkable experience. He says: "After taking less than three bottles of Electric Bitters, I feel like one rising from the grave. My trouble is Bright's disease, the Diabetes stage. I fully believe Electric Bitters will cure me permanently, for it has already stopped the liver and bladder complications which have troubled me for years." Guaranteed by all druggists. Price only 50¢.

STEAMER BUNTS INTO BIG WHALE

Leviathan of the Deep is Cut Almost in Two.

New York, Feb. 1.—A tussle with a huge waterpout and the running down of a mammoth hammerhead whale were two incidents of the passage of the Belgian steamship from Antwerp. The steamship had been making a fine trip across the Atlantic up to Wednesday morning, when a terrific jar and a lurch of the vessel caused everybody aboard to run up to the deck.

It was found that the St. Andrew had fouled a huge whale, and in the dim light of the early dawn the sea could be seen streaked with blood. The ship was stopped and one of the lifeboats taken

from the davits. At the end of the davit rope two sailors lowered themselves down to the water's surface, where floated the carcass of a huge whale. The animal had been cut almost in half, but in its dying struggle so lashed the stern of the liner that one of the propeller blades was later found bent and twisted under the great blows of the dying whale. For an hour the ship's crew labored at cutting off the head of the whale, which was found to be of the hammerhead variety and between eighty and ninety feet in length. The head was brought to the deck, pickled and brought to this port. It will be presented to the Museum of Natural History.

At 2 o'clock on the afternoon of the same day Chief Officer William B. Spicer sighted from the bridge a great waterpout three lengths off the starboard bow. The spout was, according to Mr. Spicer and Capt. Fitzgerald, who was hastily summoned, fully 1,000 feet in circumference at the base. The spout was destroyed by shots from a six-pounder.

EMBASSY SECRETARY

From Spain Badly Wounded by Danseuse at a Dinner.

Rome, Feb. 1.—Scandal arising from the farewell dinner given in honor of a departing diplomat is the latest sensation of Rome and it may end in a charge of murder against Vera Sylvas, a danseuse. A dinner was given to the diplomat and the secretary of the embassy, who were to be represented by the ambassador's secretary to the quiral and the Vatican.

After midnight, it is said, the dinner became a brawl. Two diners seized Vera Sylvas, a danseuse, and tossed her upon a table. The diners pelted her with eggs, bread and lump of sugar. One diner tossed a salt cellar at the young woman. The salt entered her eye, whereupon the danseuse, it is said, seized a champagne bottle and struck senior Diaz, secretary of the Spanish embassy to the

Vatican, on the head. Diaz fell to the floor in a pool of blood. The guests took flight for their lives, and a fight ensued. The restaurant bill for the damages was \$60.

Prof. Mazzoni, the pope's physician, found that the diplomat's skull had been fractured and one eye destroyed. He may die. Vera Sylvas fled and police are pursuing her.

Curses baby's cough, Willie's daily cuts and bruises, mama's sore throat, grandma's lameness—Dr. Thomas' Electric Oil—the great household remedy.

EVIDENCE DESTROYED.

"Hell Fire" Is Placed in Safe of the Mine Owners.

Cripple Creek, Feb. 1.—Through a fire yesterday alleged to have been caused by "hell fire," a combustible liquid, certain documentary evidence, photographs and other valuable papers that were to be used as evidence against Moyer, Heywood and Pettibone, officers of the Western Federation of Miners, charged with complicity in the murder of Former Governor Steunenberg of Idaho, which had been placed in the safe of the Mine Owners' association in this city, are believed to have been destroyed. The liquid will ignite by spontaneous combustion if kept in a place free from air. The combination on the safe has been affected by the heat, and it is impossible to open it and ascertain the extent of the damage.

English Spavin Liniment removes all Hard, Soft or Calous Lumps and Blisters from Horses, Blood Spavins, Curbs, Splints, Sweeney, Ring Bone, Stiffness, Sprains, all Swollen Throats, Coughs, etc. Save \$50 by use of one bottle. Warrenton, Ore. Beware of cheap imitations. Sold by all druggists.

IS SECURING RIGHT-OF-WAY New Railroad Company Securing Concessions in Pine County.

North Branch, Minn., Feb. 1.—(Special to The Herald.)—The towns of Sunrise, Kost and Alameda, a few miles east of here, are in a turo of excitement over the possibility of securing a railroad in the near future. Representatives of a promising company, who are undoubtedly backed by some of the big railway interests of the country, were at Sunrise Wednesday and called a meeting of the citizens for the purpose of securing a right-of-way through the town. Following the old Milwaukee survey made about five years ago. Several right-of-ways were offered and \$300 in cash was subscribed towards the expenses of putting the road through the town. Another meeting was held at Kost yesterday, and about the same thing happened there.

This is the third time that the people of that section have had hopes of securing a road within the last few years, but this is the first time that anything definite has been done. In consideration of the granting of the right-of-way and the payment of the money subscribed, the promising company promises to have rolling stock running by Dec. 31, 1908. If this is not done, the agreements entered into with the residents are void.

The project has been kept very quiet, but it is learned that the new road will come in through Anoka county and the Twin Cities, crossing the Northern Pacific's Duluth Short line at Stacey, eight miles south of here, running thence to the St. Croix river and then heading straight for the head of Lake Superior. It is said that this will be shorter than the present Northern Pacific line.

DIGS FOR GOLD IN ICY WATERS

Wonderful Submarine
Mining of Manistee
Life Saving Captain.

Manistee, Mich., Feb. 1.—Capt. Henry Finch, who, formerly commanded the life-saving crew here, is portrayed by Rex Beach, author of "The Spoilers," in his story appearing in the Saturday Evening Post. The story relates to Capt. Finch's gold mining, the most unique in the world, for it is carried on in the waters of the Bering sea off the coast of Alaska, where the mercury freezes. Capt. Finch does his mining by sand sucking action, and he performs the work of diver, going down through six feet of ice into water that so chills him that he says he often hugs the stove for hours after he gets up. And that he gets warm enough to sleep, and that he has shattered the channel off his teeth.

Author Rex Beach says: "Undoubtedly the cry of 'Gold' makes hot the blood of men, and no matter where the metal hides, some headstrong one will search it out. This miner friend of mine puts on his rubber suit, connects his air pump, and, sinking into the icy waters, wanders on the bottom of the Bering sea, his nose without let or hindrance across the untrodden domain of ice. Some of his claims are never jumped; he takes his time, for no other is there to hurry or pester him, he has no competition, there are no trucks but his."

"Capt. Finch, being a diver all his life, has seen death at close range so often and in such ugly form that he takes it by the hand. "First he built a portable pumping plant on runners, housed in like a freight car, containing engine and centrifugal sand-sucker. Attached to this he raised a line of sluices for washing the sand and separating it from its values. Within the shack he also placed an air pump, and with it men he could count upon, for this was the breath of his nostrils. Child in heavy woolens underneath his armor, the little gentleman walked down his ladder, through six feet of ice, and entered the waters, and rang to start the engine."

"Capt. Finch manages the suction of his pump by hand, moving about, freeing it from rocks and sandbars. On his sides, he prefers to dig far in under the ice, where no machinery could reach."

"As a protection to the life which he has gambled so lightly for these many years, he has invented a submarine telephone, through which he talks to his helpers and regulates his machinery."

"When working under the ice, close in toward the shore, it becomes necessary for the captain to lie flat, or crouch double, and always the line is the burden of countless tons above him, the ever-creeching child that slows his blood, and the ever-constant danger, waiting, waiting patiently."

"To me, this seems the most perilous mining I have ever seen. At best, the task is cruel and deserving of a big reward. He says that his customers have been successful, and that the game looks good to him."

"TOO MUCH LYING."

So Said Judge and Dismisses the Divorce Litigants.

Corvina, Mich., Feb. 1.—Judge Miner became disgusted with the principals in the divorce case of Earl Hinchey, of Owosso, and Earl Hinchey, of Owosso, and dismissed the case. There has been altogether too much lying in this case, and the ends of justice would be best conserved by leaving you together, but will not finally dispose of the case at this time.

The woman swore at the preliminary hearing that she was far under age when she secured a license, but did so by putting the figures in her shoe, and sweating that she was "over 18." She has been married four years, is but 19 years old now and charges her husband with cruelty.

HARD LUCK FOLLOWS HIM.

Death and Various Misfortunes in a Rich Man's Family.

Columbus, Ind., Feb. 1.—The troubles of Job pale into insignificance beside those of Christopher Vollmer, a financially prosperous merchant of this place. The boy who has just died, fell on the ice a few days ago and injured his knee, from which blood poison set in, and death followed.

Three years ago their daughter Una fell while at play and sustained an injury which made her a cripple for life. The mother lost one of her eyes five years ago from an injury inflicted by a blow. The injury affected the other eye, and it too is almost sightless as a result. About a month ago a piece of steel accidentally entered one of the father's eyes, and a result he has lost the eye, and is in great danger of losing the other one.

For the past five years their daughter Edna has been almost blind, from an injury to her eyes. Three years ago she shot her sweetheart, Otto Judd, because she surprised him in company with another girl. She was tried and acquitted. During a flood three years ago Vollmer lost his business, which was swept away by high water, leaving him in the Indiana reform school at Jeffersonville, for highway robbery, and their second son, George Vollmer, is in the reform school for boys at Plainfield, for theft of merchandise from his father. Still another son is in a

home for the feeble-minded, at Fort Wayne. A few weeks ago Vollmer filed suit in the courts against his wife for divorce, and the case has been set for trial at the February term of the court. Twice within the last five years Vollmer made the race for sheriff of Bartholomew county, but was defeated in both races,

as he was also when he made the race for re-election to the office of city marshal within the same time. WRECK BLOCKS TUNNEL. Quincy, Ill., Feb. 1.—The Wabash tunnel at the west approach of the Mississippi river bridge at Hannibal, is choked with the wreckage of a double header westbound freight, which left the track because of spreading rails late last night. The train was partly in the tunnel and partly on the bridge when the accident occurred. No one was injured. It will take twelve to eighteen hours to clear away the wreck.

THE CHADWICK HOME AT CLEVELAND SOLD.

Cleveland, Ohio, Feb. 1.—The Chadwick home on Euclid avenue, the scene

of many of Mrs. Cassie L. Chadwick's social entertainments and her place of residence at the time of her arrest, and for some years prior to her financial troubles, was sold yesterday. The residence became the property of the Savings Depositors' Banking & Trust

company of Elyria, under foreclosure of a mortgage some time ago, and the bank disposed of it yesterday to investors who will tear away the house and erect an apartment house on the site.

Just about 100 books in the "What is Worth While" series—for grown-ups and older children—practical, interesting books by such authors as Elliott, Emerson, Ruskin, Van Dyke, Drummond, etc. They're published at 35c—this is all we have left of an immense lot—and so we offer them Saturday, while the lot holds out, at only..... 21c

First Arrival of 1907's Waists

We'd like to picture to you all the attractiveness—the "taking points" which women of taste and refinement will find in this showing of beautiful Wash Waists. The picture gives merely a suggestion—yet we can do no more.

Suffice it to say that the new styles show entirely new effects in lace and embroidery trimmings, edges and insertions, yoke effects, panels, tucks, etc., etc. But come and see them and know wherein their beauty lies—\$1.25, \$2.49, \$2.75, \$3.00, \$3.98 prices up to \$12.50 each.

Horse Blankets

Money to Save!

A horse needs winter clothing—(blankets)—as positively as do men and women—and appreciates the warmth they give.

You can buy street and stable blankets—or any sort of a sleigh, carriage or auto robe—here, now at prices which you cannot duplicate anywhere in Duluth—by long odds. Not "cut prices," but prices that will draw you this way for blankets and robes, if you're willing to save.

THESE ARE TAKEN FROM A FULL LINE.

\$2.95 Stable Blankets—double warp wool filled, 78 inches long—as good a blanket as you'll find in harness shops at any price at \$3.75—here \$2.95.

75c Street Blankets of striped wool filled mixture, of good weight, good size (6 feet to be exact)—you'll pay \$1.25 anywhere else—75c here.

Bee Hive Sensational Closing Out Sale

115 EAST SUPERIOR STREET.

DULUTH, MINNESOTA.

RELIEVES RHEUMATISM

This Simple Home Mixture is Said to Overcome Most Cases.

Cures by Making the Kidneys Filter the Uric Acid From the Blood.

To make up enough of the "vegetable treatment," which is claimed to be relieving nearly every sufferer who uses it for backache, kidney complaint, sore weak bladder and rheumatism; get from any good prescription pharmacy one-half ounce Fluid Extract Dandelion, one ounce Compound Kargon and three ounces Compound Syrup of Sarsaparilla. Shake well in a bottle and take in teaspoonful doses after each meal and again at night.

Those who have tried it claim that it acts gently but thoroughly on the kidneys, relieving backache and bladder trouble and urinary difficulties almost instantly. Many cases of rheumatism are known to have been relieved within a few days, the pain and swelling diminishing with each dose.

A well-known local druggist, who is in a position to know, asserts that this prescription, wherever it becomes known, always ruins the sale of the numerous patent medicine rheumatism cures, kidney cures, etc. It is a prescription which the majority of patent medicine manufacturers, and even certain physicians dislike to acknowledge.

BOY OF THIRTEEN SHOT HIS MOTHER

And Tells the Story With-out Any Concern or Emotion.

Portland, Or., Feb. 1.—Elbert Olman, aged 13, who, because his foster mother spanked him, shot and instantly killed her while she sat sewing, sits unemotionally in the county jail here, showing no emotion, particularly regret or fear of the consequences of his crime.

On the evening of the 28th, while the head of the Ayres home was absent in the hills, it became the duty of the boy to attend to certain chores. He did the work unwillingly and in an unsatisfactory manner. Mrs. Ayres scolded him for this and when he answered her insolently she spanked him and sent him upstairs to bed. Instead of undressing, he took downstair again, after taking off his shoes, seized a gun from his room, entered the hall and, as Mrs. Ayres sat sewing in the adjoining room by the light of a lamp, fired at her, the bullet striking her in the back. She fell to the floor without outcry, and the boy went to her room, ran to the nearest neighbor's home, where he said his mother had been shot, and that, hearing the noise, he had run down stairs and had seen a man running away by the door.

No footprints were found to uphold his story, and when he was ordered to confess what had actually happened, the boy coolly told the truth.

"She hit me and I made me mad," he said. "I don't think I meant to hurt her until I had slipped downstairs. Then all of a sudden I saw the gun and I took it down, and the next thing I know I just shot her dead. That's all there is to it."

This story the boy still tells, through the bars, to anyone who questions him, and in telling, shows no more concern or emotion than if he were mentioning a game of marbles which he had played. It is a remarkably bright little fellow, with a pretty face. But there seems to be something—an occasional steady shift of the eye and his great protruding ears—that baffles the best criminologists in the Northwest.

BRIEF TELEGRAMS.

The Minnesota society of New York held its annual dinner Thursday at the Waldorf Astoria. It was the most pretentious gathering in the history of the organization. Fully 100 men, natives of the state, most of them business men in New York, were present. In addition there were present fifty of the wives of the members.

At the farm of James Meeson, near Princeton, Mo., Fred Brooks, aged 14, hanged himself from a barn rafter with a dog chain, for the amusement of his playmates. His feet slipped from a support and he strangled to death.

Mrs. George Brink of Evansville, Wis., mistook a can of gasoline for kerosene Thursday. The can exploded, burning her so severely that she will probably die.

The Springfield, Ohio, grand jury has returned an indictment against Madeline Bailey and Martin Myers, on the charge of assault with intent to kill in burying alive the baby of their 15-year-old granddaughter, Mary Bailey. The baby was found buried in the back yard by the authorities. It was taken alive and is now in good health.

The Missouri society of New York gave its annual banquet at the Waldorf Astoria hotel Thursday night. Three hundred and fifty sons of Missouri were present. The principal guest of honor was Secretary of the Treasurer Leslie M. Shaw. Secretary Shaw spoke on "Pending Financial Legislation."

SPANKED THE TEACHER.

Iowa Fond Mother is Arrested for Using Retaliatory Measures.

Sioux City, Iowa, Feb. 1.—For spanking her child, who attended school near Horick, this county, Mrs. Fannie M. Thompson, visited the schoolhouse the following day and taking the teacher, Miss Alice Hersher, across her knee, administered like punishment.

The teacher, who is frail and lame, immediately caused the arrest of Mrs. Thompson for assault and battery and conviction followed. An appeal was taken and the case will be tried in district court.

WEST END CHURCHES AGAINST IT

Do Not Want Western Police Station on First Street.

More Runaways in the West End—Other News.

It seems that the majority of the people of the West end will have not have the proposed police station located on First street.

Alderman Mark and others have been thinking a great deal of late, about a site for a West end home for the police department. One to two property holders, who want to dispose of lots to the city for police station purposes, want to see the lot located on First street, between Nineteenth and Twentieth avenues, but this plan has met with great opposition.

The churches, of which there are several in the immediate neighborhood, are protesting vehemently against securing a lot on First street, averring that with most other West enders, that the station should be located on Michigan street.

"West enders are practically unanimous in the opinion that the station should be located on Michigan street rather than on First," said Alderman Mark today. "I know of only two men who are enthusiastic over a station on First street. One owns property which he is anxious to sell to the city for police station purposes and the other owns a building on an adjoining lot and is anxious to have a small police station situated on the next lot in order that light into his building may not be shut out."

Now the question to decide is whether to buy the old horse shoe factory or erect a new building on another lot. Personally, I would favor the purchase of the horse shoe factory. The price asked is not exorbitant. Two thousand dollars is asked for the adjoining lot, and it is a swamp. It would have to be filled in and piles driven, if a building were put on it. The city building inspector has looked over the horse shoe building and says it can be used. The chief of police has looked at the building and he says it can be used.

It is out of the question to put the station on First street, when the churches and so many individuals have signed petitions against it.

The horse shoe factory, now vacant, is located on Michigan street, near Twenty-first avenue west.

SOME MORE RUNAWAYS.

Two West End Nags Decide to Try for Freedom.

The West end has had another epidemic of runaways this week. Ed Hart's horse took flight Wednesday afternoon and ran away. The affair took place at Twenty-eighth avenue west and first street and involved the breaking of the cutter and an injury to the horse. The animal was cut by a broken shaft. Hart escaped unhurt, the terrified beast was stopped in its wild flight by the mounted police.

The delivery wagon owned by the Gold Star Furniture company, made a sensational trip down Superior street yesterday afternoon, propelled by a frenzied horse and driven by a man who had been running from the police.

The wagon was loaded with furniture, some of which fell off.

MISSIONARY SESSION.

Ladies of Second Presbyterian Church Have an Enjoyable Time.

The Women's Home and Foreign Missionary society of the Second Presbyterian church held a very enjoyable session Wednesday afternoon at the home of Mrs. S. F. Sharpless.

Miss McGaughey, a returned missionary, gave a very interesting talk and vocal solos were given by Miss Nellie Gorbey and Mrs. David Adams. Refreshments were served.

LEAVES NEXT WEEK.

Rev. S. F. Sharpless Will Take Family to New Home Then.

Rev. S. F. Sharpless, who resigned the pastorate of the Second Presbyterian church the first of the year to become pastor-in-charge of the Red River valley presbytery, is in the city, arranging for the removal of his household goods to Fargo, Minn., where he will make his headquarters.

He will leave Duluth with his family next week. Sunday he will occupy the pulpit at the First Presbyterian church.

West End Shortfalls.

Mrs. T. B. Perry of Twenty-ninth avenue west and Third street, has been ill at her home for the past three weeks.

The young people of the Second Presbyterian church went skiing Wednesday evening, having a most enjoyable time.

about 2:30, they assembled at the home of one of the members of the party and partook of refreshments.

Axel Johnson was severely cut about the head in an accident at the new freight elevator on Rice's Point yesterday. A tile fell on him. He resides in West Duluth.

Walter Burton of Clouet is at the Esmond.

N. F. Hubbard of Little Falls, Minn., is registered at the Esmond.

city will be held this evening at Sloan's hall. Committees have been making elaborate preparations for the affair and it is expected to be a great success. As was last year's festival. The speakers will be Andrew Nelson of Minneapolis, Rev. John M. E. church, and A. Thoren, president of the society. After the program, there will be a social time and refreshments will be served.

The Young People's Society of St. Peter's Episcopal church, gave an address at the meeting of the Young People's Society of St. Peter's Episcopal church last evening. The topic was "The Powers of the Earth Against the Powers of God." Several recitations and musical numbers were given. In two weeks Rev. C. A. Hennings, D.D., of St. Albans, Neb., and president of the Iowa conference, will give a lecture here under the auspices of the society.

Mrs. John A. Johnson and Mrs. H. P. Johnson will leave tomorrow for Coleraine, Minn., where they will be the guests of Mrs. Alfred Peterson.

The Ladies Aid Society of the First Swedish M. E. church met yesterday afternoon at the home of Mrs. David Larson.

Miss Lena Pearson leaves today for the range, to take a position as bookkeeper with a mining company.

Mrs. John A. Johnson and Mrs. H. P. Johnson will leave tomorrow for Coleraine, Minn., where they will be the guests of Mrs. Alfred Peterson.

Telling Comparisons!

Zero Fahrenheit and Centigrade!

The cables say that it has been bitter cold in France—it was 17 degs. below zero.

That sounds cold until you remember that the French use the Centigrade thermometer, in which 17 degs. below zero would mean about 1 1/2 degs. above zero Fahrenheit, as any high school boy or girl will say.

Fur Prices Here and Elsewhere!

When a store advertises reduced prices—just consider what the original prices were in comparison with ours.

The other day a lady compared the so-called \$25 fur scarf offered her elsewhere at half price (\$12.50), with our \$15.00 scarf offered at \$11.00 and bought here because our scarf was both best and cheapest!

Make Some Close Comparisons on These Furs and These Prices!

RESTORES your HAIR to its NATURAL COLOR.

Miss Fannie McWane, Lake Geneva, Wis. writes of HAIR HEALTH: "My hair had been gray ever since I was old. It started to get gray right on the crown of my head, was dry and full of dandruff, and my scalp itched dreadfully. I used HAIR HEALTH according to directions, and my hair is now soft and glossy, and very few gray hairs left. I do not think I could get along without HAIR HEALTH now, for it is such a fine hair dressing. Guaranteed perfectly pure. Philo-Hay Spec. Co., Newark, N. J. 50c At W. A. ABBETT'S.

Sale Commences Tomorrow Morning Feb., 2

SLAUGHTER SALE**FORCED TO RAISE MONEY AT ONCE!**

We are forced to raise \$10,000.00 cash within ten days. Positively no longer time. Our entire \$25,000 stock must go. No matter how big the loss may be, we must reduce the stock and the amount. To make a long story short, we must dispose of the greater part of the goods bought for this season's business. A glance at the prices below will convince you that this sale will eclipse anything of its kind ever attempted in this city. Everything just as advertised.

FREE FOR THE LADIES

Saturday, between the hours of 8:30 to 11, we will give away with every ladies' Suit or Coat of \$5 and over, a beautiful, trimmed ready-to-wear Hat worth \$5 absolutely free. 200 Hats to choose from.

FREE FOR THE GIRLS

With each and every Girls' Coat of \$2.00 and over we will give a fine Winter Hat free of charge. There are 350 of these hats to choose from.

RHEUMATISM

AN ACID BLOOD POISON

Rheumatism is an acid blood poison, and the causes that produce it are often silently accumulating in the system for years. Poor digestion, stomach troubles, weak kidneys, torpid liver, and a general inactive condition of the system leave the refuse and waste matter, which should be carried off, to sour and form uric acid, which is absorbed into the blood. When the blood is in this acid-charged condition, it deposits the poisons and irritating particles with which it is loaded in the muscles, nerves, joints and bones. Then Rheumatism, with its possession of the system, and its life is made miserable by its pains, aches and discomforts. The changing of the weather, exposure to cold and dampness, etc., always increase the trouble, and so severe does the pain become that quick relief must be had. A good liniment or plaster is often helpful, but it should be remembered that relief from such treatment is only temporary, because the trouble is in the blood and cannot be removed by external applications. S. S. S. cures Rheumatism by ridding the blood of the cause. It goes down into the circulation and by invigorating and purifying the blood of the acid-poison and sending a stream of fresh, rich blood to all parts, relieves the pain, reduces the inflammation, and permanently cures this painful disease. S. S. S. is the only cure treatment for Rheumatism, because it does not contain a particle of mineral in any form to damage the system. Book on Rheumatism and any medical advice desired sent free.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

SNOW BANK SAVES LIFE.

Man Tossed Fifty Feet by Railroad Plow Is Little Hurt.

Ashland, Wis., Feb. 1.—Only a deep snowbank saved the life of Emil Lundquist, of Beloit, who in the hospital here is suffering from injuries received when he was struck by a snow plow on the railroad tracks here last night. The 35-year-old head foreman in the deep snow at the side of the roadbed. Only his feet were visible, and his head and arms were in snow drift. He was unconscious when he was found, but regained consciousness when he was brought to the hospital where a sprained ankle and a few bruises.

FOUR OF TEXAS FAMILY DIE FEW DAYS APART.

Denison, Tex., Feb. 1.—A strange case of fatality in one family has developed in connection with the death of John W. Winsett, the 12-year-old sister of G. T. Winsett, who, at 12:50 p. m., the mother of the little girl died in bed of influenza, brain fever, and at the same hour and place the next day the father died of congestive chill. Lillie had been sick for several days, but only died last night. Wednesday, G. T. Winsett has received intelligence that Mrs. C. A. Combs, the mother of the little girl, died of P. M.

Vienna, Feb. 1.—In several towns in Silesia the snowdrifts are so great in

articles, but he must agree to dispense

The Bethesda society, an acre and a half of land having just been purchased in the northern part of the city, near the city hospital, will be modern in every way and will be the finest in the district. The private garage, large, commodious wards, it is given out that Dr. E. W. Brown, who is in charge, will have a garage in charge.

Work is now growing at a much faster rate than ever, according to a representative of the local directory company, who said that the new directory of the two cities. The last directory was compiled nearly two years ago, and its accuracy was attested the census reports of the same year.

It is said that the late Dr. J. B. Brato & Sweet, who were burned out in Fargo last year, have been building a new place on the Hansen block at the corner Front and Fourth streets in this city. It is to be a large building, with a garage and installing new machinery, possibly a garage, and will employ twenty persons. They employed about fifty persons.

Blackman has interfered with the work of excavating the big reservoir for the city of Moorhead. It was originally

The great efficiency and reliability of Dandine as a hair grower and scalp regenerator have won the confidence and patronage of millions of people throughout the United States. It has attracted more and more generally used than any other article—toilet or medicinal—that has ever been sold or handled by the Drug trade in this country.

Dr. J. B. BARKER makes the hair grow fast and keeps it so. It is a natural food and a wholesome medicine for the greatest hair-producing remedy the world has ever known. It is a natural food and a wholesome medicine for both the hair and scalp. Even the balding man in your lane can grow hair like any other who has ever made. It shows results from the very start.

NOW at all drug stores in THREE SIZES, 25c, 50c and \$1.00 per bottle.

FREE To receive this valuable Dandine sample absolutely free by return mail to anyone who sends this advertisement to the above named Dandine Company, with name and address and ten cents in silver or stamps to pay postage.

DIVORCED, THEY SEE CHILD DIE

Millionaire and Former
Wife Act as Strangers
at Deathbed.

Pittsburg, Feb. 1.—At the bedside of their dying daughter, Millionaire W. H. Donner and his divorced wife, Mrs. Della M. Donner, met for the first time in two years, not to part again without a word as soon as the little one had died.

In the sick room in the Donner mansion in Morewood avenue a tragedy was enacted. The unrelenting husband, on the other the grief-stricken mother, while between them lay their first born, slowly dying.

The Donners were happy when they were poor. Three children blessed their marriage, but after Donner made \$500,000 with Henry Clay Erick in the sale of the Union Steel company, at Donner, Mrs. Donner wanted to enter society. About two years ago society began to gossip about the attentions Mrs. Donner was said to receive from a prominent young man.

Donner heard the rumors, and a separation followed, he giving his

wife \$200,000 in cash and other valuable property, she agreeing he should have absolute custody of the children.

Mrs. Donner got a divorce in Cleveland last December, on the grounds of "gross neglect of duty." A few days after the divorce was granted 8-year-old Margaret Hall Donner became seriously ill.

Mrs. Donner hastened here from Cleveland, but admittance to her old home was denied her. She took apartments in a hotel and received hourly bulletins from the sick room. Last Sunday at midnight she was summoned to the bedside of her child. The physicians declared the little one could not live through the night.

For four hours she sat in the room with Donner, neither speaking. Little Margaret gradually weaker, and at 4 o'clock in the morning died in her mother's arms. Laying the body of her baby on the bed, Mrs. Donner silently turned and walked from the house.

PARLOR GAMBLING

Scores by Presiding Elder of Cincinnati Methodist District.

Cincinnati, Ohio, Feb. 1.—The Methodist ministers of Cincinnati, who attended the weekly meeting of the pastors of that denomination, were surprised by the declaration of the Rev. R. C. Jamieson, the presiding elder of the district, in denouncing "parlor gambling" he declared:

"I love a fine horse, and I would rather bet \$5 on a horse that I can run a

mile in one and one-quarter minutes than in a game of euchre for a prize of a blue bowl costing \$5, where the players quarrel with each other about cheating. Yet people who sit in church and pat the preacher on the back when he cries down horse racing are often the ones who will go and buy a blue bowl for a euchre party. After it has been lost or won they will gossip about how many times their neighbors cheated in the game."

CHILDREN BLESSED THEM.

Eloping Parents Returned to Chicago and Were Forgiveness.

Chicago, Feb. 1.—Departing from the usual order in runaway marriages which end with parental forgiveness, which end with parental forgiveness, Mr. and Mrs. William H. Rich upon their return from Kenosha, Wis., where they were married, The bride, who was Mrs. Sarah Cook, and Mr. Rich had been on friendly terms for several years, and the "children," both suspected a wedding was not far distant. When Mr. Rich told his son that a business deal demanded their presence in Aurora, and Mrs. Cook informed her son and daughter that she had suddenly to visit friends out of town, suspicions were aroused. The children arranged over the telephone to gather in the evening to extend their blessings and felicitations.

BULGARIA'S RULER IS HUNTING FOR A WIFE.

Sofia, Bulgaria, Feb. 1.—"Will no princess marry me?" This is the pathetic appeal of Prince Ferdinand, the ruler of Bulgaria, who has been eight years a widower, but cannot find a suitable wife to replace the late Princess Marie Louise.

In his fruitless search for a wife the prince has been refused by every royal lady whose hand he sought, among them being Russian grand duchesses, Austrian archduchesses and German princesses.

The prince is a handsome and gallant man of 45, but there seems to be a mysterious something about him which arouses a strange antipathy in every woman he meets. This has naturally formed a bar to his marrying again.

Although Prince Ferdinand at first desired a wife of wealth and influence, his sad experience has made him now willing to marry any suitable princess who will have him. He even asked King Edward for Princess Victoria of England, who is nearly 40 and in poor health, but was told that she had no present intention of marrying.

A POOR COUNT GETS HEIRESS

Sensation in Most Exclusive Circle of Paris Fashionables.

Paris, Feb. 1.—A sensation has been caused in the most exclusive circles of the Paris fashionables by the engagement, just announced, of the fascinating Marguerite Kyle, the noted American heiress and beauty, to Count Bernard de La Fosse, who is penniless. The young heiress, perhaps the most desirable catch in all the ranks of titled American girls, she is only 18 years old, and artists rave over her magnificent chestnut hair. She rejected a following of titled suitors for whom many an ambitious parent had been angling.

THEY WILL NOT TREAT

Non-Convivial Society
Has Been Formed by
Congressmen.

The Need of Amended
Rules is Discovered
Early.

Washington, Feb. 1.—An Anti-Treating society was organized in Washington on New Year's day. The original members formed rather a small group, but now the outfit has become so formidable in numbers that the booze grafters of Washington, who are known as boll weevils, are in despair. The organization now includes a considerable number of senators and representatives.

No member has yet been held up to general vituperation as a deserter from the cause, but many accounts of skillful evasions of the basic principle of the outfit are being whispered about. Two or three prominent congressmen are under suspicion.

One of them is a extremely well known representative from the South, from Mississippi, in fact, who, shortly after the reconvening of congress following in the holidays, was visited by a prominent planter of his state. It was, of course, up to the representative to take his friend around. The representative apprehended how futile it would be for him to endeavor explain to the planter that he was debarred from asking him to a few drinks because he was a member of the Anti-Treating society. So, before starting out, he telephoned to the manager of a Washington house of call, noted throughout the land for the excellence of its liquors, and for the vast network of spider webs that hangs from its rafters.

"Say, George," the representative telephoned, "I'm going to be over there directly with a friend from my state. He likes corn liquor. How are you fixed for corn liquor today?"

"Hogsheads of it, sir," replied the manager at the phone. Smooth as a name velvet, fragrant as a jasmine, mellow as—

"Um—very good," interrupted the representative. "Well you know, George, I'm a member of that Anti—"

"Come right over, sir," broke in the manager. "You'll be taken care of."

So the representative and his planter friend strolled over to the spider web saloon. A number of the anti-treaters were lined up at the bar, buying themselves drinks. The representative's predicament was only momentary.

"I wish you'd try some of this, sir," said the planter, handing over a bottle of bottle of superb corn liquor on the bar. "It's just from North Carolina, been stored in a cellar there for eighteen years."

"Well," said the representative, "I've a friend here from my state who is a connoisseur in liquor and maybe he'll be able to tell you whether this article—"

"The two men poured out their drinks, tossed them away and snacked their lips.

"Very choice, huh," observed the planter, "tastes like mo'."

"Like it," said the manager just then, saving the situation. "Well, our best wishes for a happy New Year go with that. The gentleman who's one of the same that we've put aside for you. Like a little carbonic with it this time."

The anti-treaters viewed the proceedings with some gravity of mind, but it was clearly a case in which the manager of the saloon did the treating, and, as such, called for no notice from the anti-treaters. They gathered and rectified an omission in their one rule. They caused it to be amended so that no member should treat anybody, nor should he accept a treat from anybody.

The representative was informed of the new rule before he had been in the day was over. He had nothing to do but promise that he would abide by the amendment. He did not intend to do so, but he was a politician.

That same evening he again dropped into the spider web oasis with his planter friend. The manager met them as soon as they entered. Again a large number of the anti-treaters

were present, purchasing libations for themselves.

"Here is a package that was left here for you a minute or so after you went out this afternoon by a gentleman who had just arrived from Tennessee," said the manager to the representative. "He said he didn't know your address, but he had such admiration for your work in congress that he was impelled to leave this little gift, in my care," and the manager handed the package over to the representative, who undid it and found it to contain two quarts of an exceedingly rare and choice brand of Tennessee whiskey.

Instantly several of the anti-treaters surrounded the representative, politely but firmly demanding that he return the two quarts of liquor to their donor through the manager. Thus the out was let out of the bag and the planter friend was made aware of the representative's predicament. To the representative's chagrin, the planter friend, instead of siding with the anti-treaters and joined them in insisting that the representative was bound by the amended rule.

The representative sought, by learned quibbling, in which he showed his goods in bulk, or in the original package, could by no process of reasoning be termed a "treat." He maintained that a treat necessarily meant a dram, the dram being of whatever dimensions the user thereof chose to make it.

He sternly declared that it was wholly impossible to regard two quarts of liquor as anything remotely resembling the thing commonly known as a treat. Thus declaring, he stood upon his fundamental right to carry the two quarts over into a corner and, at one of the tables, imbibe the two quarts, or any reasonable amount thereof, with his planter friend.

The voice by the anti-treaters present the representative was beaten in this contention. To his profound depression the planter joined with the anti-treaters voting him down.

Conceding, the representative, with the fighting instinct of a lawyer who resorts to a hole, sought another method to win out.

"Sir," he demanded of the manager, "the spider web saloon is a place of business, and as such, it is not affected by the amended rule."

"About 3 o'clock," replied the manager, "the gentleman from Tennessee deposited this package here for me, in your care."

"At 3 o'clock, sir," replied the manager.

"And, gentlemen," said the representative, addressing the anti-treaters, "at what hour was your amended rule, providing that no member of our esteemed organization should accept a treat, made and passed?"

"About 3 o'clock," replied the spokesman of the protesting anti-treaters.

"Well, gentlemen," said the representative, then, the gleam of triumph in his eye. "It is a matter of fundamental law in this and all other civilized countries that in no matter affecting his person shall the individual be bound by any retroactive law or rule. Thus, this gift is not affected by the amended rule."

The crowd of anti-treaters were cowed by the representative's display of legal knowledge. They allowed him his contention without a vote. But they had their eyes upon him.

Another representative, this one from a Western state, is now under close observation by his fellow members of the Anti-Treating society on account of a circumvention of the rule which he practiced and got away with during the convention of architects in Washington.

Accompanied by an architect from his own state, the representative entered a Washington saloon that has many paintings scattered about its walls, and in alcoves and side rooms. The representative ordered a superior article of old rye and the architect said that his would be the same. Then, although there were several of the anti-treaters lined up at the bar at the time, the representative boldly tossed 40 cents on the bar in payment for the drinks.

"Now, just a minute," said the representative to the anti-treaters. "I'll drink mine first," and he poured out a stiff one and tucked it away. "Now, there's a little animal painting—sheep, cows and such like—away out in the back room yonder that I want to see again. I'll be back presently, and he hurried out the back door.

The architect grinned and poured out a drink for himself and tossed it off. The representative returned to the main room of the saloon within about two minutes. He was instantly surrounded by the anti-treaters and accused of backsliding. He looked gravely surprised.

"No treat anybody!" he exclaimed

with heat. "When? Where? I treated this gentleman who is with me? I did nothing of the sort! Did he take a drink? If he did I didn't see him. I wasn't with him at the time he took a drink, if, as you say, he did take one. How the dickens could I have treated him when I was nowhere near him when he took his drink?"

"But," urged one of the anti-treaters, "how about the 40 cents we all saw you put on the bar in payment for the two drinks?"

"For the one drink—for my own drink—prayer permit me to insist that I disbursed the 40 cents exclusively for my own drink and not for two drinks."

So the representative who gave his architect friend the absent treatment, as it has been called, won out, but the anti-treaters are now engaged in endeavoring to find some method of flagging that absent treatment system, which they fear may endanger the existence of the order if it is not squelched in some way.

These, however, are unusual cases. The vast majority of the anti-treaters are not only biting their thumbs at the thing known as morning katzenjammer, but they are putting by money.

But the crafters of the Boll Weevil association are plunged in profound gloom and they are hoping with all their might for a sudden or even gradual breaking up of the Order of Anti-Treaters.

SENATOR'S DAUGHTER

Who Loves the Country, Will Submit to Social Ordeal.

Boonville, Ind., Feb. 1.—A country lass, who rides a horse because she loves to feel the chill breath of morning on her cheeks, and not because of any decree of fashion, an innocent girl whose friendships are sincere and who knows nothing of the hollowiness of society, is having

her life disturbed by dreams of a great ball to be given by Vice President and Mrs. Fairbanks at Washington, in the very near future.

Miss Louisa Mendenhall, daughter of United States Senator Mendenhall of Indiana, has just been told of the great affair in her honor. Unlike other girls, who envy her, she receives the honor with the greatest modesty, but, like every other woman in the world, sends her time in day-dreaming of the great night when ambassadors, counts, statesmen of all worlds, will do her honors. She talks very little, however, and resents the publicity connected with the affair.

"How I hate to do it," she said. "I will have to submit, however, and I might just as well get it over with."

Now that this child of the West is about to be introduced at Washington, make her debut, as society terms it, she is more friendly than ever to her friends here and at Evansville, where she is quite a favorite. She tells her girl friends of her plans, of course, but she does it in such a way that they love her the more for enjoying something that does not concern them. A choice few, however, will be guests of honor, and attend the grand function.

Itch! Itch! Itch!—Scratch! Scratch! Scratch! The more you scratch the worse the itch. Tre Dandruff. It cures piles, eczema, any skin itching. All druggists sell it.

WILL NOT ALLOW

Gen. Wood to Bring Horse and Dogs From Philippines.

Washington, Feb. 1.—The agricultural department has decided that it cannot permit the bringing into this country from the Philippines of the favorite riding horse and two highly prized dogs owned by Gen. Leonard Wood.

The department does not care to take the risk of having imported into this country that dreaded live stock disease of surra, which is widespread in the Philippines.

One of the most common ways in which the germs are transmitted from one animal to another is by bite.

PURE DRUGS

ACT

June 30, 1906

In Effect January 1, 1907.

A GOOD LAW

terated, impure, worthless and even dangerous drugs.

This sort of thing has been an imposition, fraud and crime against the People, as well as against the responsible manufacturers of honest, reliable remedies, and it was high time for it to be stopped. Misrepresentation and substitution of "something just as good" will now be done away with.

The principles of the Food and Drugs Act have been always favored by conscientious and honorable manufacturers, who recognized that Purity and Quality alone could permanently secure the favor of the nation.

So the makers of Cascarets Candy Cathartic recognized the great principles of PURITY, QUALITY and MEDICINAL MERIT when the first tablet was made, over eleven years ago, and have adhered to them ever since.

Cascarets stand alone on their record, of having gained in that short period of time the friendship, confidence and patronage of millions of people, who are now buying Cascarets at the rate of over a MILLION BOXES A MONTH,—the largest sale of any Bowel Medicine in all the world.

We endorse the Pure Drug Law. It suits us, because we have always stood before our friends unafraid and clear of conscience, made our contracts good to every one, and in the conduct of our business, had the good fortune to help hundreds of thousands of our fellow-citizens back to health and life.

We have no reason to hesitate, and so we do not hesitate, to recommend Cascarets to all sufferers from Constipation and all complications arising therefrom. Also any other diseases of the food-canal. We are advertised by our loving friends and whenever the American people pass judgment in favor of an article after over ten years of investigation, trial and test,—their verdict speaks for itself.

The greatest merit of Cascarets however, is that of being a positive and reliable preventive of disease. The most important function of the human body is to keep its digestive channels and passages, with over thirty-six feet of bowels, strictly clean and disinfected, so that natural operations can take place in a natural manner, and the growth and activity of disease germs can be prevented.

A Cascaret at night before "turning in" will keep your Bowels regular, and your whole digestive canal wholesome, pure and normally active. No matter what you have been taking, buy a little 10c. box TODAY at your own druggist, and let the results tell their own story. It means a lot of health and comfort in store for you.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Is acknowledged to be the most successful remedy in the country for those painful ailments peculiar to women.

For more than 30 years it has been curing Female Complaints, such as Inflammation, and Ulceration, Falling and Displacements, and consequent Spinal Weakness, Backache, and is peculiarly adapted to the Change of Life.

Records show that it has cured more cases of Female Ills than any other one remedy known.

Lydia E. Pinkham's Vegetable Compound dissolves and expels Tumors at an early stage of development. Dragging Sensations causing pain, weight and headache are relieved and permanently cured by its use.

It corrects Irregularities or Painful Functions, Weakness of the Stomach, Indigestion, Bloating, Nervous Prostration, Headache, General Debility; also, Dizziness, Faintness, Extreme Lassitude, "Don't care and want to be left alone" feeling, Irritability, Nervousness, Sleeplessness, Flatulency, Melancholia or the "Blues." These are sure indications of female weakness or some organic derangement.

For Kidney Complaints of either sex Lydia E. Pinkham's Vegetable Compound is a most excellent remedy.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, Lynn, Mass. for advice. She is the Mrs. Pinkham who has been advising sick women free of charge for more than twenty years, and before that she assisted her mother-in-law Lydia E. Pinkham in advising. Thus she is well qualified to guide sick women back to health. Her advice is free and always helpful.

Small Pill. Small Dose. Small Price.

SPORTS OF THE DAY

EVENTS IN PROGRESS

Five Trophies Now Being Competed for by Curlers.

Arrangements Are Being Made for the Midwinter Carnival.

Five trophy events are now in full swing at the Duluth Curling club. The drawings for the Manley-McLennan trophy have been posted, and several games have already been played. The rinks are divided into four squads, and each rink must play every other rink in the squad. The four squad winners then play off for the trophy and the individual prizes accompanying it.

The same system is adopted in the A. H. Smith event. Three of the four squad winners in this event are known, and as the fourth squad completes its games, the final will be played. The four winning rinks will meet in the same manner from the Superior and Western Curling clubs.

The St. Louis hotel event is going slowly, only two or three games having been played in it, and the Herald event is also making but fair progress. The first round in the Meador trophy event has been completed.

The arrangements for the carnival which will be held on Washington's birthday, are being carried out, and it promises to be a big success. The rink will be decorated for the occasion, even more thoroughly than it was for the bonspiel. Flags and bunting will be draped from the rafters, and the electric globes will be covered with Japanese and Chinese lanterns. The three big lights down the center of the rink will give sufficient light, and the Japanese lanterns should add a very pretty effect.

Costumes will be brought to Duluth from Minneapolis and Chicago, and rented to the members at cost.

Some time during the coming year a sensation may be sprung in baseball circles that will be second only to the stir created when Ban Johnson declared war on the National league.

The war cloud at present on the baseball sky is the growth of the Western league and the American association. The big league magnates have done all in their power to stop the growth of these organizations, and it now begins to look as if they would cut loose, and go it alone. By so doing they will, to all intents and purposes, become outlawed, and will not only have all the other minor leagues opposed to them, but the two big major organizations as well.

Maybe that is what they are looking for, as it will place them in a much stronger position than appears at a glance. While they have nothing to fear from the other minor leagues, because the little fellows cannot afford to pay the salaries the American association is paying, and for that reason can take none of their players. As for the big fellows, they will get a battle that will keep them hustling.

The Western and American can pay as high as \$2,000 for players, as the leagues carry any number of men whose salaries range from \$1,200 to \$1,500; they can be induced to jump where their pay will be better. So that for every player the majors take from them the minors will replace him.

Then, too, the American has for a long time been trying to break into Chicago, and just as soon as the break comes the American association will place a club on the North side in the Windy City.

The past two years held an option on a plot of ground there, and need pay the price to take possession. This is something the other Chicago clubs don't care to have happen, and the way things are shaping it looks as if last night's game and their work was very satisfactory.

A return game will be played on this side of the bay, Feb. 15, and with knowledge of the suit proposition which they are up against, the Nelson-Dewey boys intend to show the other Chicago clubs before that date. Frank Newell and Nixon of Superior were the officials at last night's game and their work was very satisfactory.

Y. M. C. A. HAS EASY TIME

Duluth Boys Take Nelson-Dewey Into Camp 40-33.

Locals' Work Has Improved Greatly Since Game With Blaine.

The local Y. M. C. A. basketball team ran up against a soft snap when they met the Nelson-Dewey in the latter's gymnasium at Superior last night and pulled out an easy victory by a final score of 40 to 23.

The Duluthians outplayed the Superior delegation in every department of the game, and established a lead during the first half which was never diminished.

The team work was fine and the seven worked together as a very effective scoring machine. The basket throwing of the locals has improved remarkably during the last week or two, and a try mount success on almost every occasion last evening. Skelton, at center, played the star game of the evening, but his teammates were not, and it was fine quality of basket ball put up by the seven from Superior.

Nelson-Dewey was decidedly ragged at times, and they were decidedly slow for their more active opponents. In the first half the Duluth boys walked all over them, and in the second half they were decidedly ragged at times, and they were decidedly slow for their more active opponents.

A return game will be played on this side of the bay, Feb. 15, and with knowledge of the suit proposition which they are up against, the Nelson-Dewey boys intend to show the other Chicago clubs before that date. BELGIANS SURPRISED

Queen Wilhelmina Has Been Seized With Speed Mania.

Young Ruler Runs Auto From the Hague to Brussels.

Brussels, Belgium, Feb. 1.—Before going from Holland to the milder climate of the Mediterranean shores, by her doctor's advice, Queen Wilhelmina came to Brussels from the Hague with her husband in an automobile, driving it herself with the skill of a professional chauffeur.

She seems to have been bent on showing the people of Brussels that she can rival their own Princess Elizabeth as a motor-car driver, while saying a good deal. During her stay she was seen every morning in the Bois on her 2-horse-power machine, in most of her becoming motoring attire.

She strongly objects to the hideous costumes worn by some women automobilists—green goggles, black mackintoshes and black silk masks. Her 2-horse-power machine, a thick Dutch 2-horse-power machine, is a very smart and becoming motoring costume for women are the rule.

Wilhelmina was among the women pioneers in motoring in Holland, starting at the age of 16, and driving a 4-horse-power French car. The very first day she took the wheel she guided the auto successfully through a thick Dutch 2-horse-power machine, a thick Dutch 2-horse-power machine, is a very smart and becoming motoring costume for women are the rule.

It cannot be said of her that she drives in a manner to rival one of Mark Twain's shot-loaded jumping frogs. She was a car to which she has given the pet name of "Wille in affluence," if it is not a revelation, memory of her great ancestor, William the Silent. Wilhelmina came to Brussels partly to buy some more of her trunks, or Brussels, she is a car to which she has given the pet name of "Wille in affluence," if it is not a revelation, memory of her great ancestor, William the Silent.

Despite her love for the motor car, Queen Wilhelmina has at least forty horses in her stables, and she is so devoted to horses that she has become an enthusiastic amateur.

"Nature," says the queen, "did not intend horses for recreation, but for prolonged use."

Consequently, for long-distance trips the country she uses her motor-car. When at home, for short drives and airings she uses her horses.

HORSE DRUNK ON THE STREET

"Tommy," a Petted Brooklyn Equine, is Frightful Example.

Brooklyn, N. Y., Feb. 1.—Tommy, a carriage horse owned by George S. Sells, a wealthy resident of Richmond Hill, was so gloriously drunk that it lay for hours on the hard frozen ground at Lefferts and Church streets, and refused to get up and go to its stable, only two blocks away.

Tommy was expected to be taken to the stable by a driver, but he refused to get up and go to his stable, only two blocks away.

RANDALL HAS POOR CHANCE

Will be Difficult for Duluth Boy to Hold Job.

Chicago, Jan. 12.—With the time for Chicago's ball teams to start on their annual training, pilgrimages only five weeks away, most of the players have signed contracts for the approaching season.

When the two teams go South for their preliminary practice they will go with practically the same personnel as they had when the last season was finished. The White Sox have only two new men, Welsch of Des Moines and Buck Freeman of Evansville. The former is an out-fielder of quite a reputation, and Pitcher Freeman is well spoken of, too.

The Cubs will take more men South, but not all of them will be retained. Among the nine recruits are two out-fielders, Handford of Denver and Osborne of the Central league team. As the Cubs already have four corking out-fielders—Shackard, Slagle, Schultze and Hofman—it is hard to see what chances the newcomers have of breaking in.

OFFER TO BACHELORS.

License, Free Ceremony and \$5 Judge Prather Will Give.

Kansas City, Feb. 1.—That ought to break that unlucky thirteen, said Judge Van B. Prather of the Wyandotte county courthouse who will wed. Here is his inducement:
"I will not only give the license and perform the ceremony free for the first one of you who can find a wife but I will also make you the present of the \$5 I usually charge as a marriage fee."
The fact that there are thirteen bachelors employed in the various offices in the Wyandotte county courthouse has caused the probate judge considerable worry. "Thirteen is an unlucky number in any place, and if it is allowed to remain unchanged the judge fears some misfortune will befall the Democratic office holders. Perhaps they will be defeated two years hence—no knows."
"All I want to do is to break that thirteen," the judge explained. "Twelve isn't so bad, you know. Of course, I'm not superstitious about it, but everybody else around the place appears to be and there's nothing like being on the safe side, you know."

FALL OF WINONA GIRL MAY CAUSE HER DEATH.

Madison, Wis., Feb. 1.—While test-

WOMAN'S RIGHTS.

The Dignity and Sacredness of Motherhood.

Think of the greatest man who has ever lived upon this earth, and then think of him as he lay an infant, in his mother's arms. Does it seem possible that he should have grown, become great in the world's estimate and perhaps had monuments erected to perpetuate his memory, and yet that the world should have forgotten even the name of the woman who bore him? The son's work is the mother's *primarily* and, therefore, the recognition of the dignity and tender sacredness of motherhood should no longer be delayed. It is high time that this country's greatest treasures—THE WOMEN WHO HAVE CONTRIBUTED LARGELY TO MAKE IT WHAT IT IS—should be recognized.

Why should these good mothers be given the right to vote and have a voice in our government—a right that is accorded to some of the most ignorant, most insignificant and vilest of men?

It has been well said that "for every monument to a great man there should be a monument to his mother and the mother's monument should be built first."

But it is not so much the purpose of this brief article to advocate the just rights and privileges due to the women of this country, although it has afforded the writer great pleasure to pen the foregoing brief tribute to their worth and just deserts, as it is to call attention to the fact that when broken down in health and strength by over-work, the too frequent bearing of children, the never ending toil, worry and care of the household, or by whatever may overtax the strength and delicacy of her sensitive system, there is one, tried and proven, safe remedy upon which she may rely to regain health, strength and the power to fully enjoy life.

That remedy is Dr. Pierce's Favorite Prescription—a remedy made wholly from the roots of native forest plants which have been proven to be most efficacious, reliable and safe in the cure of woman's peculiar weaknesses, periodical pains, irregularities, wasting and weakening catarrhal, pelvic drains and kindred ailments. It is a remedy, the makers of which print its formula on every bottle-wrapper and attest its completeness and correctness under oath; a remedy devised and adapted to woman's delicate constitution by an educated physician—an experienced specialist in woman's diseases; a remedy, every ingredient of which has received the written endorsement of the most eminent medical critics of all the several schools of practice; for the cure of woman's peculiar diseases; a remedy which has made more bone-deep cures to its credit than any other sold by druggists; a remedy of special requirements and the only one which contains no alcohol in its make up.

Delicate, weak, nervous women should especially shun the use of alcoholic medicines which, from their stimulating and exhilarating effects may seem, for a time, to do good, but which, from the inevitable effects of the alcohol in shrinking up the red corpuscles of the blood, are sure to do great and lasting harm in the long run. Besides they beget a craving for stimulants which is most deplorable. "Favorite Prescription" is the one remedy for woman's ills which contains no alcohol.

Only invigorating and nerve strengthening effects can follow the use of this famous medicine for women. It can not possibly do harm in any state or condition of the system.

If a woman has bearing down, or dragging pains, low down in the abdomen, or pelvic, backache, frequent

ing a new fire escape, May Douglass of Winona, Minn., fell from the Gamma Phi Beta sorority house, Wednesday night and sustained injuries that may prove fatal.

The Gamma Phi Beta sorority has its lodge, which goes past the window of Miss Douglass' room. Taking a dare from the other girls, Miss Douglass attempted to climb from her room to the escape and descend to the ground. She succeeded in reaching the landing, but on the first step of the descent she lost her footing on an icy road and fell.

Miss Douglass was injured internally by the fall. The chances for her recovery are slight.

Miss Douglass is from a prominent family in Winona and for some years has been one of the most prominent girl students.

Special services, Methodist Sunday school tonight.

B. & M. REDUCES FARES.

Boston, Feb. 1.—A reduction of from 15 to 25 per cent in the passenger fares were put into effect on the Boston & Maine railroad system today. Upon the Fitchburg division the rate is now 2 cents a mile which is somewhat lower than on some of the Northern divisions where operating expenses are higher and travel lighter.

PRESENT OWNS BONDS

In Old Manitoba Road Sued by Attorney General Young.

Wall Street is Puzzled by His Warfare on Roads.

New York, Feb. 1.—Wall street is interested in learning that Theodore Roosevelt, president of the United States, is the registered holder of \$10,000 of the 6 per cent bonds of the Dakota extension of the St. Paul, Minneapolis & Manitoba railroad, whose charter is now being attacked by Attorney General Young of Minnesota.

President Roosevelt, it seems, has been the owner of these bonds since 1881, when they were purchased for him by his uncle, James Roosevelt. They were bought somewhere in the neighborhood of 100. Since that time they have sold up to 122, and are now selling in the neighborhood of 107, although the bonds have almost run to maturity.

Wall street has tried hard to convince President Roosevelt that his campaign against the railroads was really a campaign against American investors, big and little, but the president was incredulous.

This latest development puzzles the magnates. Some think that he may have forgotten the fact that he owns the bonds and that when he recalls it Roosevelt, the investor, may recall Roosevelt, the president, a lecturer of which Attorney General Young's suit will be the test. The president's admirers, however, maintain that his ownership of bonds would not influence him under any circumstances and see every reason for praising him for his courage in warring on what is bad in the conduct of big business projects. They declare that he knows of these securities, and is to be commended for his conduct and lack of selfishness.

Another angle in the story is the fact that President Roosevelt's railroad program is far from complete. It is said that he favors national law, modeled on the Minnesota statute under which Attorney General Young recently acted against the Great Northern's proposed stock issue. Other reforms as important are said to be wanted.

James J. Hill, who has arrived here in an interview expresses confidence in the ability of his road to carry out its plans, notwithstanding the suits which have been filed against it by the attorney general of Minnesota to enjoin the proposed stock issue and also to annul the charter of the St. Paul, Minneapolis & Manitoba. Mr. Hill expressed the opinion that the supreme court of Minnesota will reverse the order of the lower court.

Concerning the stock issue, he said: "I do not believe that the company stock issue is at all imperiled. If the state seeks to enjoin it I don't believe the people will stand for it. They need further transportation facilities, and know that the company must raise funds to provide them."

Even if the decision should be against the company, and the road is obliged to go before the state road and warehouse commission, Mr. Hill believes the commission would have no alternative but to grant permission to issue the stock.

Regarding the suit to annul the charter of the Manitoba road, Mr. Hill is quoted as follows:

"The state of Minnesota has no rights now that I do not possess thirty years ago. I don't want the case out of court, but I may point out that the suit is not against the Great Northern's charter, but against the Manitoba road. If that is annulled, who owns the road? Naturally the Great Northern."

FIRE AT THE FAYAL.

Shaft-house No. 2 Burned With Underground Powder House.

Eveland, Minn., Feb. 1.—No shaft-house at the Fayal mine was destroyed by fire last evening. The mine fire department was unable to cope with the flames and the city department of Eveland was summoned. The fire had a half mile of hose to obtain water and about 9 o'clock, as the fire had consumed every thing about the shaft-house, the firemen reached the second level, the city firemen went home. When the fire reached the underground powder house on the second level there was a terrific explosion, and all the men were safely out and no lives were lost. The explosion hindered the work of the fire department, and a cloud of gas that was generated, but the fire itself seems to be under control. It is reported that there is no danger of it extending to other parts of the mine.

DRUNKEN LUMBERJACK

Tried to Kill Everybody in Tie Camp Near Lowell.

Hibbing, Minn., Feb. 1.—Isaac Gustafson was brought to town from Laveil and arraigned in municipal court on a charge of assault in the second degree. Gustafson is a giant woodsman, and is accused of attempting to kill everybody at the tie and post camp at Laveil a few days ago. The man is six feet six inches tall and weighs about 250 pounds. In company with Matt Porella, he started from Duluth for Laveil. They had with them two half-gallon jugs of whiskey and Gustafson claims that he remembers nothing after leaving Duluth. According to the testimony of four witnesses, Gustafson had no sooner had a drink of whiskey than he started to create a rough house.

He broke everything he could lay his hands on and pitched the pieces out of the window. The big fellow in a fury was no pleasant sight and everybody who could get away from the scene fled.

Jacobson and Charles Hendrickson were not able to do it and the former was slashed on the head and has an ugly gash four inches long in his head. Gustafson was given a preliminary hearing before Judge Brady and bound over to the district court. Fire in the Pine hotel did damage to the extent of \$75. The fire caught in

the wall from an over-heated stove. The building was insured by the Mutual and the loss is covered by insurance.

CLOSE AGAIN ARRESTED

For Assault in the Second Degree on Clarence Nixon.

Hibbing, Minn., Feb. 1.—A warrant was yesterday sworn out by C. S. Nixon of the firm of Paine & Nixon of Duluth, charging W. G. Close of Hibbing, with assault in the second degree. Mr. Nixon claims that he was knocked down by Close about a year ago when he entered the latter's hardware store here. Nixon has given \$50 damages in a civil action and the criminal case has been pending for over a year and the district court yesterday upholding the contention of Close that the Duluth municipal court had no jurisdiction. The action will be prosecuted by Assistant County Attorney Otto Polier of Virginia.

CITY OF HARRISBURG, PA., HAS BIG CONFLAGRATION

(Continued from page 1.)

The buildings occupied by the Harrisburg Cycle and Typewriter company, the Philadelphia and Albany dentists, and E. G. Hoover, jewelry, were also damaged.

The fire started from an explosion in Payne's hat store in Cope House block at 2 o'clock, and within an hour had destroyed the playhouse and stores in the building and had leaped across the street to the third street to the Columbus hotel and College block. The opera house was owned by a Harrisburg man.

Adjoining the telephone building is the Dauphin county prison, which was not damaged.

The wardrobe and scenery of the Charles K. Champlin stock company, which was playing at the opera house this week, was destroyed, the loss being about \$25,000.

While thick clouds of smoke were coming out of the opera house, a man crawled out on the sill of one of the big windows in the high building. Standing on the window sill, he shrieked for a ladder.

More smoke poured out of the windows and the rescued man jumped and had to be carried the rest of the way. He was hurried to a drug store where it was found that he was not badly injured. His name was John Smith, his home being in New York. He belongs to the fire department and has been sleeping in one of the dressing rooms when the fire started.

FORENOON'S WORK FAILS

(Continued from page 1.)

Mr. Hartbridge and Justice Fitzgerald had an earnest consultation at the judge's desk.

The conversation lasted fifteen minutes, after which the move spread that a juror was to be excused. At the end of the conference, however, the juror was not excused. Mr. Jerome proceeded with the examination of the first witness, Assistant District Attorney Gilbert, hastened from the room on some important errand for his chief.

Joseph B. Boffin, clerk in a steam dining establishment, was accepted as a juror in the Thaw case late yesterday. There are now eleven men in the jury box.

With one vacant seat in the jury this morning, the defense had eleven prospects at work in the jury box. The additional challenges of this character were allowed by the court. The prosecution had twenty challenges at the time when the day began.

Benno Rosenberg, a tobacco dealer, the first witness to be called, was questioned at some length before he finally admitted that he had an opinion too strong to be easily moved by the evidence.

Thaw's array of counsel was com-

A Reasonable Plea For the Stomach

If Your Stomach is Lacking in Digestive Power, Why Not Help the Stomach Do Its Work—Especially When It Costs Nothing to Try?

Not with drugs, but with a reinforcement of digestive agents, such as are found in Stuart's Dyspepsia Tablets (for the purpose), manufactured by the Scientific Analysis shows that digestion requires pepsin, nitropeptogen ferments, and other elements. When your food fails to digest, it is proof positive that some of these agents are lacking in your digestive apparatus.

Stuart's Dyspepsia Tablets contain nothing but these natural elements necessary to digestion and are placed at work in the weak stomach and small intestines, supply what these organs need to stimulate the gastric glands and gradually bring the digestive organs back to their normal condition.

Stuart's Dyspepsia Tablets have been subjected to critical chemical tests at home and abroad and are found to contain nothing but natural digestives. Chemical Laboratory, Telegraphic address, "Difind," London. Telephone No. 11029 Central, 20 Gilling St., Fenchurch St., E. C.

London, 9th Aug. 1905.

I have analyzed most carefully a box of Stuart's Dyspepsia Tablets (which I bought myself at a city chemist's shop for the purpose), manufactured by the F. A. Stuart Co., Temple Chambers, London, E. C., and have to report that I cannot find any trace of vegetable or mineral poisons. Knowing the ingredients of the tablets, I am of opinion that they are admirably adapted for the purpose for which they are intended. (Signed) John R. Brooke, F. I. C., F. C. S.

There is no secret in the preparation of Stuart's Dyspepsia Tablets. Their composition is commonly known among physicians and is shown by the recommendations of 40,000 licensed physicians in the United States and Canada. They are the most potent of all remedies for indigestion, dyspepsia, heartburn, insomnia, loss of appetite, melancholia, constipation, dysentery and kindred diseases originating from improper digestion and assimilation of foods, because they are thoroughly reliable and harmless to man or child.

Stuart's Dyspepsia Tablets are at once a safe and a powerful remedy, one grain of these tablets will strengthen enough (by test) to digest 3,000 grains of steak, eggs and other foods. Stuart's Dyspepsia Tablets will digest your food and make you strong and healthy.

Ask your druggist for a fifty cent package or send us direct for a free trial sample package and you will be surprised at the result. F. A. Stuart Co., 64 Stuart Bldg., Marshall, Mich.

plete today. Mr. Delmas, who appeared yesterday afternoon for the first time after the fact brought out at the trial, He also declared he would convict if every doubt which he considered a reasonable doubt was removed.

Justice Fitzgerald, basing his opinion upon the entire examination, sustained a challenge by Mr. Jerome on the ground that the talesman was more exacting than the law.

David Halsted, and three succeeding talesmen, were excused by consent.

Assistant District Attorney Garvan returned to the court room after an absence of an hour. If his mission had a bearing on the case, it was not apparent.

Solomon E. Blogg, a manufacturer of women's garments, was excused on the plea that his business required him to attend to the case, it was not apparent.

There was a battle between counsel for Charles W. Giffin, a clerk of the American Express company, who was the twelfth talesman of the morning session. Thaw's counsel objected many times to questions propounded by Mr. Jerome and in several instances was sustained. Then there came a flash of the feeling such as has displayed yesterday afternoon. Mr. Jerome said he understood the talesman to mean that

he had no doubt at all of his ability to judge the case impartially.

"I didn't understand it that way at all," objected Mr. Hartbridge.

The district attorney turned sharply on Thaw's counsel and said: "You can't be responsible for your understanding."

The defense won its point and Giffin was let go by consent.

Isaac A. Joseph, an artist, was also excused by consent and then a recess was taken.

The defense again prevented the filing of the jury box by a peremptory challenge against John S. Scher and a dealer, who said the firm of McKim, Mead & White, had been the architects of his residence. He knew Stanford White but the acquaintance was not of a character to embarrass him in serving on the jury.

he had no doubt at all of his ability to judge the case impartially.

Isaac A. Joseph, an artist, was also excused by consent and then a recess was taken.

The defense again prevented the filing of the jury box by a peremptory challenge against John S. Scher and a dealer, who said the firm of McKim, Mead & White, had been the architects of his residence. He knew Stanford White but the acquaintance was not of a character to embarrass him in serving on the jury.

SON KILLS FATHER AT STEUBENVILLE, O.

Steubenville, Ohio, Feb. 1.—In a dispute at the breakfast table today between John Gebhardt and his son, Charles, the father was shot and killed. The elder Gebhardt took his son to task for drinking, and it is alleged the latter procured a gun and shot him.

Long Pants Suits —AT— Shortened Prices

This is an unusual opportunity for mothers of boys, 16 to 20 years of age, to save a big lump of money on a good suit.

\$5.00 a Suit

Of course, we tell you frankly that the main reason for the shortened price is that the coats are a trifle shorter than the latest fashion. Boys not overly tall can be well fitted from this lot, also younger boys who are pretty big for their age. Black as well as fancy patterns, and all from famous makers.

See the window display, and save \$7.50 to \$17.50. On sale on our second floor.

Great Shoe Bargains for Men, Women, Boys and Children—90c and \$1.75.

LATE DOINGS IN UPPER MICHIGAN

John McRae Died From Heart Disease at Mar- quette Hotel.

Marquette, Mich., Feb. 1.—(Special to The Herald.)—John McRae, an extensive operator in Northern Michigan, died from heart disease at a hotel here last night. He came here a few days ago on business and was taken ill.

Mrs. Elizabeth Ann Jilbert died yesterday noon at the home of her daughter, Mrs. Henry Coking, at the Wolverine. She was 67 years of age and was the widow of a Marquette, coming from that city to Wolverine to live with her daughter only three months ago. She is survived by the following children: Mrs. Henry Coking of Wolverine; Mrs. Samuel Hubbard of Wolverine; Mrs. Coking of Danvers; Mrs. Albert Hubbard of Ishpeming; Ed Jilbert of Hancock and John Jilbert of Marquette.

Victor Broad and Miss Josephine E. Bastedo of Champion were married Wednesday afternoon at the home of E. L. Hordell on North Fifth street. Rev. J. M. Rogers, pastor of the Presbyterian church, performed the ceremony in the presence of a few friends of the young people. They will make their home at Champion.

Miss Gertrude M. Martin was Wednesday morning united in marriage to Timothy M. Messier. The ceremony was performed at St. John's church by Rev. J. M. Rogers, pastor of the church, in the presence of a large number of friends. The light and power commission ex-

pects propositions from its engineers, O'Keefe & Orison of Appleton, Wis., this week for the replacing and repair of the present water wheel at the lighting plant. This wheel has a coupled shaft, and its condition has been pronounced dangerous. In order to assure the city against a long interruption of the lighting and power service it has been judged wise to replace it.

Ishpeming—Charles Peterson, a resident of the Winthrop district many years, was killed Wednesday afternoon at the Oliver Iron Mining company's Section 21 mine. He was employed as pick picker at the tram cars on the 25-foot level, and was engaged in this work when some dirt came down on him. The quantity was small, so that the workmen got him out within a few minutes, but he died while he was being brought to the surface. The deceased was over 50 years of age and single. For a number of years past he had boarded with Andrew Hult at the Winthrop. He was well known and popular at the location.

Louis A. Drivell, who has held the position of night operator and ticket agent at the South Shore station here for about four years past, goes to the company's Houston office as day operator and ticket agent.

Sault Ste. Marie—The verdict of the coroner's jury in the Gillespie wreck, which resulted in the death of Sidney Neel, says his death was caused by exposure which was due directly to Capt. Bault of the steamer, who drove Neel from shelter when it might have protected him.

The jury also says that Mate McLeod should be severely censured for not sending prompt assistance to the wrecked steamer after the boat went on the beach last fall. The Canadian government is investigating.

Houghton—The death occurred yesterday morning of James Chinn, at the home of his daughter, Mrs. Alfred Nichols, of Osceola, at the age of 71 years. Congestion of the lungs was the cause.

19 AVENUE WEST AND SUPERIOR ST.

RAILROADS RELIEF IS APPARENT

Warm Weather Has Already Affected Railroad Situation.

Large Amount of Snow Will Mean Many Washouts.

Already a relief is noted in the railroad congestion situation, as a result of two days of warmer weather. The trains, freight and passenger alike, are making better time, and if there is no further drop in temperature the existing conditions will be bettered to a considerable extent within the next few days.

Another big blizzard is reported in the Dakotas, and that will further interfere with the traffic in the West, delaying shipments of coal and other freight from the head of the Lakes. With February here, the snow blockade cannot last much longer. The warm chinook winds will soon be playing havoc with the snow drifts in the western territory, but with them will come the further danger of washouts, which will probably be as bad for the roads as blizzards are now.

The vast amount of snow on the ground will mean an extraordinary amount of water with the first thaw, and creeks will be turned into rivers. It seems likely that the washing away of pieces of track all along the lines will be of frequent occurrence unless the snow disappears very gradually, and even then there is little hope of the railroads escaping without some damage and delay.

Several scores of men have been taken from Duluth as recruits to the army of snow shovellers in the Dakotas, and large crews are at work in various sections of the snow belt. It is most annoying to the roads that there should be another blizzard at this time, just as good progress is being made in clearing the lines and getting trains through on some of the branches.

Attention is centered on the main lines, so that there shall be the least possible delay with the through traffic, but hundreds of laborers are also engaged in clearing the branches. It is the towns on these branch roads that have suffered the most, for the roads consider it impracticable to devote their attention to them while the main lines are blocked. Indeed, there is little use having trains operating on the branches if the main lines do not afford communication with the outside world.

WILL RUN SPECIAL.

Missabe Road Will Carry Ski Enthusiasts to Coleraine Sunday.

The Duluth, Missabe & Northern road will run a special train from Duluth to Coleraine next Sunday, on account of the ski tournament to be held at the latter place Sunday. The train will consist of three coaches and will leave the union depot at 3 a. m. The very low rate of \$3 for the round trip has been made on the occasion, and it is expected quite a crowd will take advantage of it. The special will return in the evening.

Special services, Methodist Sunday school tonight.

SPRINGING SUPPRESSED. Brussels, Feb. 1.—The officials of the Congo administration announced today that the uprising in the Manyanga district had been suppressed and that the native chief who instigated it had been killed.

The revolt was not against the administration, but against the Swedish missionaries at Kinshasa.

NOTICE

All members of the First Methodist Sunday school are requested to be present at the church services this evening at 7:30.

ANTELOPE SAVE SETTLERS' LIVES

Dakota Homesteaders Are Kept From Starvation by Game.

Fargo, N. D., Feb. 1.—To the presence of a herd of antelope many homesteaders in the northern part of the state owe the fact that they have not starved to death during the severe winter. That many homesteaders have suffered from their inability to get supplies has been known, and it has been the general opinion that spring would disclose many homesteaders dead from cold and hunger.

An instance in which the life of a homesteader was preserved by the timely arrival of a herd of antelope is recounted by L. H. Hartman, a Duluth traveling man, who arrived here Tuesday after having been snowbound in the North for a couple of weeks.

The homesteader resides about twenty miles southeast of Minot, and his name is Baker. It appears that he went to his claim late in the fall and found it in a very desolate condition. He had barely sufficient to carry him through a month, expecting that he would be able to replenish his larder when necessary. Long before his slender supply of provisions became exhausted, snow had blocked all the roads, and travel was impossible. It was just when he had eaten his last meal of short rations that the antelope made their appearance in the vicinity of his claim. Two fell an easy prey to his rifle, and upon occupied a

MILD WINTER PREDICTED Consequent Epidemic of Coughs, Colds and More Serious Ailments.

All weather predictions point to an unusual mild winter with intermittent severe cold spells. This always causes innumerable coughs and colds with the train of more serious diseases that follow in the wake of these disorders. A prominent physician of Philadelphia, who has for several years made throat and lung troubles his specialty, declares that two-thirds of the cases of consumption originate in a neglected cough or cold. The lungs thus inflamed and weakened are an easy prey to the dread germ of tuberculosis. He also states that the recent pine preparation, of which a good deal has appeared in print, is undoubtedly the swiftest and most thorough remedy for colds and coughs that can be obtained on account of the peculiar curative and stimulating properties of the pine on the mucous membrane. This pine product is known to the profession as Concentrated oil of pine, and can be secured at any prescription drugist's. The formula for its use for the relief of colds, coughs and lung troubles is as follows:

Mix one-half ounce Concentrated oil of pine with two ounces of glycerine and a half-pint of good whiskey; shake it thoroughly and use in tablespoon doses every four hours. These ingredients can be easily mixed at home. They can be secured from any prescription drugist. The only care necessary is to avoid bulk oils and patent medicines, using a similar name and style of package. Be sure that your drugist supplies you with the genuine article. The name, "Concentrated" oil of pine, is printed plainly on the package. This is one of the very few truly soluble pine products, and opens up a more general use of pine, which for ages has been known to contain more medicinal merit than any other single plant in the vegetable world.

conspicuous place upon Baker's bill of fare until he was able to get to his base of supplies and secure a greater variety of food.

Mr. Hartman says that he has heard of a number of similar cases where homesteaders have been saved from starvation by the timely appearance of herds of antelope, which seem to be unusually numerous this winter.

All headaches go when you grow wiser and learn to use an "Early Riser." DeWitt's Little Early Riser, safe, sure pills. All druggists.

HARD WINTER FOR TRAPPERS

Repeated Falls of Snow Cause Much Extra Work.

Benidji, Minn., Feb. 1.—(Special to The Herald.)—The great amount of snow that has fallen this winter has not only been a detriment to the loggers, but has also been of much damage to the laborers of another class found in the northern woods—the trappers. A trapper who has lived in the vicinity of Benidji for the past fifteen years says of the inconveniences experienced this winter:

"So much snow makes it very bad for the trappers through Northern Minnesota. Most engaged in the business would not mind it so much if the snow would come all at once, but when they object to it is having a fall every day or two, burying the traps out of sight, and making them worthless until dug out and reset. A few inches of snow over the pan makes a trap worth as much as if it were spring, and in the case of a deadfall or other contrivance made of sticks and trees, it doesn't take much snow to put them out of commission. There have been periods this winter when snow fell practically every night, and morning after morning the trappers would go the rounds and get almost nothing but work. Furs command a fair price this year, taken as a whole, and the successful trapper stands to make good profits from his season's work. Mink and marten are in good demand, and there is no trouble in disposing of weasel and muskrat pelts, or any kind of furs in fact."

Neighbors Got Fooled. "I was literally coughing myself to death and had become too weak to leave my bed, and neighbors predicted that I would never leave it alive; but they were fooled, for, thanks to God, I was induced to try Dr. King's New Discovery. It took just four one dollar bottles to completely cure the cough and restore me to good sound health," writes Mrs. Eva Houghton of Grovetown, Stark county, Ind. This King of cough and cold cures, and healer of throat and lungs, is guaranteed by all druggists. 50c and \$1.00. Trial bottle free.

MONTHLY STATEMENT

Of State Treasurer Shows a Good Condition of State Funds.

St. Paul, Feb. 1.—The monthly statement of balances in the state treasury, prepared by the state treasurer shows a much better condition of the state funds than the report of the same date a year ago.

On Jan. 31, 1906, the revenue fund was overdrawn \$56,145, and in addition to this there was loans on banks amounting to about \$100,000. The statement prepared today shows an overdraw in the revenue fund of \$25,715, while the loans on banks are very small this year as compared to last year.

The school and trust funds, on the other hand, do not have as large balances as a year ago. The permanent school fund a year ago at this time had nearly \$200,000, this year it amounts to only a tenth of that amount. But this is no sign of a poor condition of the fund, the statement only means that the treasury and not the amounts which are loaned out and drawing interest for the general school fund.

Purity is our watchword. Selecting only the choicest herbs and roots known to pharmacists. No spirits or harmful drugs. Healers. Rocky Mountain Tea is purely itself. 25 cents. Tea or Tablets. Ask your druggist.

INJUSTICE DONE.

Attorney Park Not Rebuked by Court for His Methods.

An injustice was done Andrew T. Park, the attorney, in the account of the trial of Gust Finesse, published in The Herald Wednesday evening.

Judge Windom addressed his remarks to the prisoner rather than to Mr. Park, and the latter was not rebuked for his methods of handling the case, although the court severely arraigned the prisoner for his attitude toward his wife, whom it was claimed, he had failed to support.

The court further stated that if Mr. Park had been as familiar with the circumstances leading up to the case as the court was, he would have tried to avoid appearing in it.

HE WANTED REVENGE

And Landed Himself in the Meshes of the Law.

Fine River, Minn., Feb. 1.—A peculiar case for Game Warden Saunders of Brainerd, was brought to his attention by telephone from Pequot. Frank Seidl, a young man, piloted Saunders to a lumber camp, fifteen miles west of Pequot, where he showed the warden a deer carcass, which he said was shot by C. E. Ylander and Neil Locke.

Saunders started an investigation, and found that the young man, who had made the complaint really did the shooting, in company with W. C. Cornish, but the men whom he wanted to have punished had stolen the carcass from them after they had shot it. Seidl thought his plan a good way to get even.

Under the circumstances there was only

one thing for the game warden to do and he went to the county seat for a warrant for Seidl, which he served on Wednesday evening. The law prescribes a fine of from \$5 to \$10 and sixty days in jail.

WHIPS CONSORT'S TEMPTER.

Worthington Woman of Spirit Sees Sunday's Revival Work.

Mankato, Minn., Feb. 1.—Worthington is agitated over a horsewhipping affair that was an outcome of the evangelistic work there of Rev. William Sunday. Among Sunday's converts were George Miller and his wife. Miller previously had a weakness for strong drink, but after being converted he sought, with the aid of his wife, to avoid the pitfalls.

When Mr. Wright, who is manager of Miller's bowling alley, induced him to join a convivial party, Mrs. Miller resented the placing of temptation in her husband's way, and gave Wright a horsewhipping. The incident caused much talk, but Mrs. Miller's course is said to be unanimously commended.

KILLED IN A FOUNDRY.

Low, Iowa, Feb. 1.—A work hurried by a circular saw in a foundry killed John Douglas, aged 45, a contractor of Lone Tree. He had a wife and child.

WHITE GIVES DINNER.

Rome, Feb. 1.—The American ambassador, Mr. White, and Mrs. White gave a dinner today in honor of Premier Giolitti. Among the many persons present was Herbert A. Smith, the British chancellor of the exchequer.

HEAVY SNOW IN ALPS. Grenoble, France, Feb. 1.—The snow which has fallen on the Western Alps is the heaviest in twenty years. It is five feet deep here.

Special services, Methodist Sunday school tonight.

THE WHEAT IS WEAKER

Larger Receipts in the Northwest the Cause of Decline.

Flax is Fairly Active and Closes at Lower Prices.

Duluth Board of Trade, Feb. 1.—Wheat declined in all of the American markets today. The opening was easier and prices declined almost steadily to the close, which was considerably lower than yesterday's. The heaviest declines were in Duluth and Minneapolis. The principal bearish factor was the larger receipts. Car receipts in Duluth and Minneapolis were larger than for the same time last year, for the first time this year. Liverpool closed 1 1/2 higher, Berlin 1/2 higher and Budapest 1/2 lower.

The May option closed 1/2 lower in Duluth and Chicago, 1/4 in Minneapolis. The July option closed 1/2 lower in Duluth and Minneapolis, 1/4 in Chicago. The Minneapolis 1 1/2 in New York and St. Louis and 1/2 in Chicago. The Chicago 1/2 in New York and St. Louis and 1/2 in Chicago. The Minneapolis 1 1/2 in New York and St. Louis and 1/2 in Chicago. The Chicago 1/2 in New York and St. Louis and 1/2 in Chicago.

Receipts at Duluth were 37 against 22 last year, at Minneapolis 103 against 101 last year, making a total for the Northwest of 200 against 123 last year. Chicago received 15 against 17 last year. Primary receipts at Duluth were 20,000 bus., last year 24,000 bus. Shipments 100,000 bus., last year 22,000 bus. Clearances of wheat and flour aggregated 650,000 bus.

Argentine shipment of wheat were 2,400,000 bus., against 1,072,000 bus., last year, and 2,500,000 bus. last year. Primary receipts at Duluth were 100,000 bus., last year 24,000 bus. Shipments 100,000 bus., last year 22,000 bus. Clearances of wheat and flour aggregated 650,000 bus.

Wheat trading was fairly active. The foreign grain markets closed 1/2 higher. Argentine shipments of wheat were 2,400,000 bus., against 1,072,000 bus., last year, and 2,500,000 bus. last year. Primary receipts at Duluth were 100,000 bus., last year 24,000 bus. Shipments 100,000 bus., last year 22,000 bus. Clearances of wheat and flour aggregated 650,000 bus.

Cash Sales Friday. No. 2 northern wheat, 1 car, 30.50. No. 2 northern wheat, 1 car, 30.50. No. 2 northern wheat, 1 car, 30.50. No. 2 northern wheat, 1 car, 30.50. No. 2 northern wheat, 1 car, 30.50.

THE CHICAGO MARKET.

Wheat Opens Easier With Northern Receipts Quite Large.

Chicago, Feb. 1.—The wheat market today opened easier. For the first time this year the receipts at Minneapolis and Duluth were larger than for the same time last year. This caused a rise in prices on the curb at Minneapolis and its feeling was reflected in the market at exchange. Argentine shipments were reported as liberal and this also weakened the market. The close was 1/2 lower at 78 1/2 and sold at 78 1/2. Minneapolis 1/2 lower at 78 1/2 and sold at 78 1/2. The close was 1/2 lower at 78 1/2 and sold at 78 1/2.

The market became weaker in the last half of the session, on general selling by shorts and longs. May declined to 77 1/2. The close was 1/2 lower at 77 1/2 and sold at 77 1/2. Minneapolis 1/2 lower at 77 1/2 and sold at 77 1/2. The close was 1/2 lower at 77 1/2 and sold at 77 1/2.

The market was quiet and prices were steady. There was no special news early in the day after the market. May opened a shade to 77 1/2 and sold at 77 1/2. Minneapolis 1/2 lower at 77 1/2 and sold at 77 1/2. The close was 1/2 lower at 77 1/2 and sold at 77 1/2.

Liverpool Grain. Liverpool, Feb. 1.—Wheat, strong; No. 2 western winter, 68 1/2. Futures, steady. March, 69 1/2; July, 69 1/2; May, 69 1/2. Corn, spot firm; American, 24 1/2; No. 2, 24 1/2; American, mixed old, 24 1/2; Futures, quiet; March, 24 1/2; May, 24 1/2.

Minneapolis Flour. Minneapolis, Feb. 1.—The flour market was quiet and prices were steady. There was no special news early in the day after the market. May opened a shade to 77 1/2 and sold at 77 1/2. Minneapolis 1/2 lower at 77 1/2 and sold at 77 1/2. The close was 1/2 lower at 77 1/2 and sold at 77 1/2.

REAPPORTIONMENT TALK IS NOT FAVORABLE BUT DRAINAGE BEING URGED

House Likely to Pass
Bill for Redistrict-
ing State.

Senate May Kill It or
Postpone Its Taking
Effect.

Mixup Over the Senate
Committee on Mining
Taxation.

(From a Staff Correspondent.)

St. Paul, Feb. 2.—(Special to The Herald.)—Drainage and reapportionment, the two measures that are closest to the hearts of those who wish to hasten the development of Northern Minnesota, are beginning to assume more tangible shape, particularly drainage.

The meeting of the senate and house committees on drainage the other evening, where it was voted unanimously to approve the appropriation of \$100,000 a year for the next two years and \$15,000 for a topographical survey of the state in conjunction with the federal authorities, gave great encouragement to those who hope to see something definite in the way of drainage come out of this session of the legislature.

The meeting was full of enthusiasm for the cause of drainage, and the fact that the members from Southern Minnesota seemed as glad to be able to put their shoulders to

WOLF CHASE IN A CITY STREET

Hundred Men at Eau
Claire Joined in
the Pursuit.

Eau Claire, Wis., Feb. 2.—An exciting wolf hunt took place yesterday on one of the main business thoroughfares of the city. The animal was discovered leisurely wending its way down Water street and women and children ran screaming into the nearest houses.

No sooner had the animal been passed than 100 men gave chase to the animal with clubs, axes, Winchester and shotguns, through streets, alleys, snowdrifts and underbrush. The wolf after volleys was sent after the beast till enough powder had been burned to stock a South African company. Finally by a well directed shot, John Lee put an end to the beast.

Business went practically as a standstill in the vicinity of the shooting for over three hours.

The city council in special session voted in favor of the proposed dam at the lower end of the city limits on the Chippewa river; \$500 was voted as an appropriation to begin the work. The project, when carried out, means that there will be a large body of water in the city limits for the purpose of a convenient place for boating and making the city an attractive place for summer visitors.

ALL KINDS OF STORIES

Of Earthquakes and Vol-
canoes Alarm People
of Oshkosh.

Windows Rattle, Dishes
Fall and Wood Piles
Tumble Over.

Milwaukee, Wis., Feb. 2.—A Journal special from Oshkosh, Wis., says: "For several days residents of this city living near Lake Winnebago have been experiencing shocks not unlike those of an earthquake. The shocks have been shaking until windows rattled, dishes have tumbled from shelves and in several places wood piles fell over. At first there were wild stories of a quake, but the most natural theory of the phenomenon is that huge cracks have opened up in the lake. The lake is thirty miles long and twelve miles wide, and the ice is about thirty inches thick. The movement of the earth in the vicinity of the lake. For a time there were wild stories that possibly the shaking was caused by a volcano at the bottom of the lake.

RECORD FOR MOTOR BOAT

Broken by the Dixie
in Palm Beach
Contests.

Makes a Nautical Mile
in 2 Min. 31
Sec.

Palm Beach, Fla., Feb. 2.—An official statement, issued today, declares that the world's record for the motor boat nautical mile was broken by the Dixie in yesterday's competition here. The best previous time recorded for the distance was 2 minutes, 22 seconds. The Dixie's mean corrected time for the distance yesterday is given in the regatta committee's official statement at 2 minutes, 21.3 seconds. The Dixie made six time trials, three with the tide and three against the tide. The best time with the tide was 2 minutes, 19 seconds, and the best time against the tide 2 minutes, 21.3 seconds. The mean corrected time for all trials was 2 minutes, 21.3 seconds, all times being for the nautical mile, flying start and in competition.

MORE BODIES TO BE RECOVERED

Sixty-Four Already Taken
From Mine Near
Thurmond.

Charleston, W. Va., Feb. 2.—With the coming of the fourth day since the mine disaster near Thurmond, the full details of the explosion were lacking. Owing to the fumes of gas in the mine, a full investigation has not yet been possible, but there seems no doubt at least fifteen or twenty more bodies await recovery, while sixty-four have already been recovered. The investigations of the state authorities, corner and of the mine officials are proceeding independently.

RUN ON TRUST COMPANY GRADUALLY CEASES.

New York, Feb. 2.—The run on the Mechanics' Trust company of Bayonne, N. J., which was started yesterday by a false rumor regarding the institution's solvency, continued today. Where hundreds stood in line yesterday, waiting to withdraw their savings, there were only seventy-five today. Officials of the trust company announced that more than \$1,000,000 in cash had been awaiting the pleasure of the depositors.

BARON KANEKO BELIEVES THE JAPANESE QUESTION TO BE A LOCAL MATTER

JOHN W. RIDDLE,
New Ambassador to Russia, Who Ar-
rived at St. Petersburg
on Saturday.

RIDDLE REACHES ST. PETERSBURG

New Ambassador to the
Czar Arrives at Rus-
sian Capital.

St. Petersburg, Feb. 2.—John W. Riddle, ex-American minister at Bucharest, who succeeds George Von L. Meyer as ambassador here, arrived this morning by way of Vienna. He was met at the railroad station by the staff of the embassy, and conducted to the Hotel de France, where he has taken rooms until he is able to secure permanent quarters.

Montgomery Schuyler, Jr., first secretary of the legation at Bucharest, who has been appointed secretary of the embassy here, will remain at Bucharest until the new minister, Horace G. Knowles, recently appointed minister to Roumania and Serbia, arrives there in April.

TO ATTEND PRESIDENT.

Washington, Feb. 2.—Lieut. C. R. Miller and R. C. Bulmer, U. S. N., on duty in this city, have been ordered to additional duty as naval aids to the president at the White House.

Unindorsed by the Gen-
eral American Opinion,
He Says.

Distinguished Peer Has
Made a Study of
the Case.

Praises the President and
School System of
United States.

Tokio, Feb. 2.—Baron Kantaro Kaneko, a distinguished member of the Japanese house of peers and a special ambassador recently detailed by the imperial government to visit America and study political and economic conditions there, has just been interviewed on the San Francisco school question. In the course of the interview, he said: "From the outset, I knew it to be a local question, undisturbed by American public opinion and I have been talking of it to my friends in that light. This is more than confirmed by President Roosevelt's message, which I consider the greatest

ANOTHER PLOT AGAINST CZAR

Uniform of His Majesty's
Own Guard Has Been
Purchased.

St. Petersburg, Feb. 2.—A plot, evidently directed against the emperor, came to light through orders issued to the secret police to use every effort to identify the purchaser of a uniform of his majesty's own Cossack escort, which was captured during a recent raid. Detectives have been directed to visit every tailor in St. Petersburg, and the searches can be extended to the provinces. The use of regulation uniforms is a favorite device of the terrorists. It was employed in the attempt against the life of Premier Stolypin and in the assassination of Military Procurator Pavlov. The Cossack garb is an open sesame to the precincts of the palaces at Tsarskoe-Selo and Peterhof.

INJURED IN COLLISION

Al Abraham and Wife
of This City Slightly
Hurt.

Suffered Sprains Owing
to Sudden Stopping
of Train.

Johnstown, Pa., Feb. 2.—While the first section of train No. 22, Manhattan limited, was speeding east over the Pennsylvania railroad, today, it ran into an empty engine, near Cone-
maugh. Eleven passengers asleep in their berths were injured and four trainmen were hurt. Among the injured passengers, all of whom suffered sprains at either neck or back, or to the sudden stop of the train, which threw them against the end of the berths, are Mr. and Mrs. Albert Abraham of Duluth, Minn.

Al Abraham is president of the Oak Hall Clothing company of this city, and left here a few days ago for the East, accompanied by his wife.

SKATERS NOW INDEPENDENT

Form a New Amateur
Organization of
Their Own.

Montreal, Feb. 2.—The revolt of the National Skating association of the United States against the Amateur Athletic association and the Amateur Skating association of Canada against the control of the Canadian Amateur Athletic union was completed last night when a new association was formed for the purpose of controlling all skating tournaments held on the continent.

The name of the new organization is the International Skating Union of America. Three organizations were represented at the meeting, namely: The National Skating Association of America, the Amateur Skating Association of Canada, and the Western Skating Association of Chicago. The following officers were elected: President, D. H. Slagbaek, Montreal; vice president, Louis Rubenstein, Montreal; secretary-treasurer, Fred Tucker, Brooklyn. Practically all the big skaters who attended the Pontiac meet at Saranac Lake are here for the championships to be held today.

FINDS HIS LOST SISTER AFTER TWENTY-SEVEN YEARS

Twain Bridges, Mont., Feb. 2.—Richard Morrow has discovered that a young woman who applied to him for employment is his sister, who was kidnapped from the home of her parents in Oregon about twenty-seven years ago and has since been mourning as dead. She was kidnapped when only 2 years old by a man named Michael Slattery, who deserted her in a few months.

She was reared in an orphanage and years ago came to Montana. She has gone under the name of Emma Slattery since she was kidnapped. When she told Morrow her name, he instantly recalled that it was a man named Slattery who kidnapped her, and recognizing the striking facial resemblance she bore to his own mother, he began an investigation which resulted in identifying her as his sister.

BAILS HIS CLASSMATE.

Madison, Wis., Feb. 2.—Joseph Me-
dill Patterson, the famous Chicago
millionaire socialist, who is taking a
farm course in the University of
Wisconsin, yesterday paid \$300 bail
for Harold Shaw, of Morris, Ill., who
is charged with stealing \$23. Patterson
and Shaw are classmates.

The District Attorney
Fears Illness May Cause
a Mistrial.

Health of One of the
Panel Said to be
Bad.

Would Get Rid of An-
other Juror for Other
Reasons.

New York, Feb. 2.—Reports that some of the jurors selected for the trial of Harry K. Thaw will be excused from duty when the court resumes its session Monday morning, were in circulation again today. It was rumored that the health of one of the men chosen is so precarious that District Attorney Jerome hesitates to proceed with the case through apprehension that the close confinement of the jury will result in his illness and cause a mistrial. It was reported also that the district attorney is anxious to dispense with the services of another juror for some reasons known only to himself and the employees of his office. The activity of detectives in the employ of the defense and prosecution in seeking witnesses and maintaining a watch upon the movements of the other side is on a par with the care exercised in the selection of the jury. This excites belief that both the prosecution and the defense are preparing to delve deeply into Thaw's record as well as into the circumstances leading up to the shooting of Stanford White. The report today that Assistant District Attorney Marshall has induced Miss Ida Fitch of Pittsburg to promise to come to New York and give evidence for the prosecution was taken as further evidence of the extreme thoroughness with which District Attorney Jerome is preparing his case.

COPPER AND IRON FOUND.

Late Wisconsin Discoveries Are Said to
be Important.

Chippewa Falls, Wis., Feb. 2.—Copper has been discovered near Broder-
ville, and capitalists who have in-
spected the lands say there is every
evidence of copper in paying quantities.
Machinery is being purchased and
work will begin early next spring.
Rich iron discoveries have been made
near Weyerhaeuser, with options on hun-
dreds of acres taken.

TEN-DAY BLOCKADE BROKEN

Northern Pacific Clears a Way Between
Washburn and Iron River.

Washburn, Wis., Feb. 2.—After one
of the worst snow blockades in years
the Northern Pacific is just getting
its line between here and Iron River
opened for traffic. The line, which
is but thirty-five miles in length,
has been blockaded for ten days,
because of heavy snow, with a snow-
plow and a crew of men, have been
at work. The snow in many places
was ten feet deep.

GERMANY IS INTERESTED

In Reported Differences
Between Japan and
United States.

Disquieting Telegrams
Have Depressing In-
fluence on Bourse.

Berlin, Feb. 2.—The foreign office,
which naturally takes the greatest in-
terest in the questions being discussed

does not regard the differences as
having reached a serious point. The
Japanese embassy received today in-

newspapers, and said there was no
reason to consider the relation between
the United States and Japan as be-
ing in any way strained, adding that
President Roosevelt doubtless will
settle the whole matter to the satisfac-
tion of Japan.

Disquieting telegrams sent out early
in the forenoon by the Ticker News
company had a depressing influence on
the bourse.
The Japanese government, appar-
ently did not buy any guns or military
supplies in Germany during recent
months. Japan did purchase some
Krupp guns a year ago to replace
guns which were worn out as a re-
sult of the war with Russia. It is al-
so learned here that Japan bought a con-
siderable quantity of naval armaments
in England, but this intelligence is of
recent date.

My Commission Expires December 22, 19

RAILROAD BLOCKADE IN NORTHWEST COMPLETE

Coast Trains Do Not Even Attempt to Leave Terminals.

Farmers of Dakotas Face Dangers of Cold and Starvation.

According to long-distance telephone advice received by local railroad offices from St. Paul this morning, yesterday saw the worst blizzard of the season raging in the West, extending all the way from Minnesota to the Rocky mountains.

It is reported that none of the through coast trains are leaving the Twin Cities today, because of the most complete snow blockade of the winter. The officials of the different lines figure that it would be foolish to send out trains in the face of the certain knowledge that they will become stalled in the drifts, and perhaps remain there for days at a time.

The blizzard was felt to a certain extent even as far east as Duluth, and all the Twin City trains were late in arriving this morning. The Great Northern passenger, due at 6 a. m., arrived at 8:30 a. m., and the Northern Pacific, due in Duluth at 6:30 p. m., did not arrive until after 10 o'clock. The snow was damp and heavy, and while not much of it fell, there was enough to seriously interfere with the operation of the trains.

Yesterday's storm makes the coal and fuel famine outlook through the Northwest very black, indeed. It means a further delay in getting fuel through to the sections which need it the most, and while none of the people are in danger of starvation, there is a pronounced shortage of several kinds of food generally regarded as being among the necessities. The merchants did not lay in large enough stocks to last them through the winter, for such action had never been necessary in the past, and consequently they have run out of several staple lines.

The farmers are up against it in getting supplies to their homes from town, for in various sections the wagon roads are so deeply covered with snow as to be impassable for a team. The men walk to town on skis and snowshoes, such supplies as they actually need are carried through the backwoods, or else drawn along on toboggans.

The blizzard will result in a further loss to Duluth wholesalers and jobbers for much of their trade. The commercial travelers in the Northwest are helpless, being unable to travel from town to town, and even when they do get out, they are unable to reach their destinations. Some of the roads, in selling tickets and accepting freight shipments, include in the contract that it shall be subject to "extraordinary delay."

LATE DOINGS IN UPPER MICHIGAN

James W. Goggin, Leading Houghton Business Man, Is Dead.

Houghton—James W. Goggin, proprietor of the Houghton principal retail meat market, died at 8 o'clock Thursday morning at the home of his mother, Mrs. Margaret Goggin, Huron, Minn. He had been ill for several weeks with heart and liver trouble, which had frequently attacked him in the past two years. Mr. Goggin's death was not entirely unexpected, as it was known that his malady was one which might at any time prove fatal.

The deceased was 35 years of age, and was a native of Houghton. He learned the meat business in various wholesale and retail houses of Houghton, and ten years ago embarked in business on his own account.

Mr. Goggin is survived by his mother, a brother, Patrick Goggin of Houghton, and two sisters, Mrs. James Siney of Duluth and Miss Margaret Goggin of Huron. He was a member of the Knights of Columbus, and the Hancock council of that order will have charge of his funeral.

Senator Charles Smith, who has been boomed by his friends for United States senator to complete the unexpired term of the late Senator Russell A. Alger, says that under the circumstances, he will leave his position in the state senate, the various committees on which he has been appointed, and the important state duties, to serve in the United States senate for but a few weeks.

Munising—Sheriff John T. Thornton has announced his appointments for the ensuing two years. Joseph J. Munising succeeds John Saul as sheriff. The deputies are as follows: George Shing, Munising; William Leighton, John Speake, and Thomas Vogan, Grand Marais; Joseph Trueschinski and Mike Sippl, Au Train; C. C. Brown and Frank Wolf, Rock River; R. L. Mills, Mathias, and James J. Murray, Grand Island.

Marquette—James L. Stiles, aged 55 years, died here yesterday, the result of a paralytic stroke. Stiles was an old pioneer of the Lake Superior region, having come here sixty-two years ago, when the site of Marquette was a wilderness.

Neglected Colds Threaten Life. (From the Chicago Tribune.) "Don't trifle with a cold," is good advice for present men and women. It may be vital in the case of a child. Proper food, good ventilation, and dry, warm clothing are the proper safeguards against colds. If they are maintained through the changeable weather of autumn, winter and spring, the chances of a surprise from ordinary colds will be slight. But the ordinary light cold will become severe if neglected, and a well established ripe cold is to the germs of diphtheria what honey is to the bee. The greatest menace to child life at this season of the year is the neglected cold. Whether it is a child or adult, the cold slight or severe, the very best treatment that can be adopted is to give Chamberlain's Cough Remedy. It is safe and sure. The greatest popularity and the general sale of this preparation has been attained by its remarkable cures of this ailment. A cold never results in pneumonia when it is given. For sale by all druggists.

SEEK TAX ON BACHELORS. Spinners of Wakefield Present Petition to Bay State Legislature.

Boston, Feb. 2.—An unusual petition has been received by Senator Hayes of Hamden, signed by "the unmarried ladies of the town of Wakefield." It was placed in the cloakroom and eagerly scanned by the senators. The petitioners demand a law levying a tax upon bachelors, said tax to be graduated as follows: For men from 20 to 25 years, \$5; from 25 to 30 years, \$10; from 30 to 35 years, \$15; from 35 to 40 years, \$20; over 40 years, \$25, over 50 years, \$30, over 60 years, \$35, over 70 years, \$40, over 80 years, \$45, over 90 years, \$50, over 100 years, \$55.

HE GOT HIS TICKET. Yankee ticket agents have their troubles, but at least they are spared the annoyances of the "bachelors" as the Advocate of India describes in the following: Mohammed Che apparently is allowed by the particular railway company, whose line passes through his part of the country, to ride without a ticket, for the simple reason that he can always procure a ticket by unknown means if he wishes to. The ticket agents have now given up asking him.

Some years ago he happened to be at a certain station where he was not known, and asked the booking clerk for a ticket to another station a little way up the line. The clerk produced a ticket, which Mohammed Che proceeded to take.

When asked for the money he confessed he had not any with him, whereupon the clerk took back the ticket. Mohammed Che merely shrugged his shoulders and sat down quietly on the platform, waiting every minute the time at which the train was due.

At last Mohammed Che looked up and said that if the clerk would give him his ticket he would see what he could do. The poor man, in despair, consented.

He then turned around, and lo! in one pigeonhole was a single ticket to the place whither the old magician wished to go. Having handed this over, he turned around again, and to his astonishment, every pigeonhole now bulged with tickets.

CARDS TAUGHT IN SCHOOL. London Evening Standard: Card playing has become so general among German women of the upper classes that regular lessons in playing are now given in all fashionable boarding schools for girls.

The education of a German girl is not considered complete unless she has acquired a knowledge how to lose at bridge, cards, or one of the other games now in vogue. Gambling has increased to an alarming extent. Many households, not content with the elements of chance in card playing, have introduced miniature roulette and other Monte Carlo games into their drawing rooms and the stakes are high.

Always the Same

Calumet Baking Powder

The only high grade Baking Powder sold at a moderate price.

WAIT UNTIL NEXT FALL

Ely School May Not be Used Until That Time.

Good Teachers Said to be Very Scarce Just Now.

The best laid plans of contractors and school boards do not materialize as they should, all of which is merely to preface the statement that there is little likelihood that either the new Ely school, in West Duluth, or the Nettleton school, on the hillside, will be used for school purposes before next fall.

They were to have been completed months ago, but one delay followed close upon the heels of another. The contractors' time has been extended several times, it being shown that the delays were unavoidable and not of their making.

As a matter of fact the Ely school is not near completion, that it could be occupied within a week, if desired. At least, part of the building could be utilized for that time. But the board of education, at its meeting last evening, decided not to open the new building just at present, principally for the reason that teachers are scarce, and to redistrict that section of the city during the middle term would upset things too much.

Considerable discussion was held on the matter of the crowded condition of the schools in West Duluth. Supt. Denfeld said, however, that, except in the lowest grade, conditions were not so bad there as in many other localities.

Directors Cobb and Moe said they had been talking over a committee of West Duluth ladies, who were anxious to see the new school opened. Supt. Denfeld was frankly not in favor of opening it now, and stated that in his opinion it would be wiser to wait until next fall.

Denfeld was talking on the subject, and it was decided not to open the school. Directors Cobb and Moe voted in favor of opening it.

Supt. Denfeld said, however, that he had been talking over a committee of West Duluth ladies, who were anxious to see the new school opened. Supt. Denfeld was frankly not in favor of opening it now, and stated that in his opinion it would be wiser to wait until next fall.

SHARTEL HOLDS GOOD MEETING

Invades Enemy's Territory on Park Point Most Successfully.

Joseph Sharitel and his friends in the Fourth ward invaded what was considered the enemy's territory last evening, and held a meeting on Park Point.

Between 100 and 125 voters assembled in the fire hall and listened to the speech of A. Keyes, Porter J. Neff, W. E. McEwen, George Van Burgess, James Walsh and Mr. Sharitel.

Alderman McEwen discussed Mr. Lytle's record in the council, and the presiding officer has not yet decided which committee shall pass upon the merits of the matter.

BISHOP STANG FAILS.

Condition of Distinguished Patient Shows Change for the Worse.

Rochester, Minn., Feb. 2.—The condition of Bishop William Stang of Fall River, Mass., who was brought here for a dangerous operation, changed for the worse Thursday night. A heart difficulty, noticed all the time, is more pronounced, and while the case is said not to be hopeless, the members of the bishop's party are less sanguine of recovery than before.

LITIGANT SENT PRESENT TO DAUGHTER OF JUDGE.

Eufaula, I. T., Feb. 2.—An expensive wedding present sent to Miss Carrie Sulzbacher of Kansas City was the subject of severe comment by Judge J. S. Sulzbacher, her father, in the federal court at Eufaula yesterday. The present was sent by F. W. Sharp, a litigant in the court.

Sharp's gift consisted of a silver dinner and desert set valued at \$2,000. Miss Sulzbacher did not know Sharp. Thinking he was probably a friend of her father's, she immediately informed him of the present. The judge, however, then notified the daughter that the gift could not be accepted. In the meantime, the set had been sent to the bank. It will be returned to Mr. Sharp.

The case in which Sharp is a litigant involves an old lease on 15 acres of land he built on the Green Pool which is estimated to be worth \$100,000.

EMERSON LYCEUM CLUB.

S. M. Spedon, courteous Monday, Feb. 4, Steilway hall, Fourth avenue west and First street. Admission 50 cents.

HALF A LID FOR LA CROSSE.

Slot Machines and Gambling in Back Rooms Must Go.

La Crosse, Wis., Feb. 2.—At a conference between Mayor Torrance, Chief of Police H. H. Byrne, representatives of the La Crosse Brewers' association and the Pastors' union, yesterday an agreement was reached to order all slot machines out of the city and prohibit minors from frequenting saloons and gambling in the back rooms of saloons.

The proposition was made by the pastors to the brewers and was accepted. Mayor Torrance has agreed to issue orders covering the points mentioned. The saloons will be allowed to open on Sundays.

Alkaline—Antiseptic—Makes the gums strong and healthy, gives the teeth a pearly lustre, purifies the breath. What more could you ask of SOZODONT? Do not experiment with dentifrices. The teeth will not stand it.

Stand by SOZODONT and the teeth will stand by you.

SHARTEL HOLDS GOOD MEETING

Invades Enemy's Territory on Park Point Most Successfully.

Joseph Sharitel and his friends in the Fourth ward invaded what was considered the enemy's territory last evening, and held a meeting on Park Point.

Between 100 and 125 voters assembled in the fire hall and listened to the speech of A. Keyes, Porter J. Neff, W. E. McEwen, George Van Burgess, James Walsh and Mr. Sharitel.

Alderman McEwen discussed Mr. Lytle's record in the council, and the presiding officer has not yet decided which committee shall pass upon the merits of the matter.

BISHOP STANG FAILS.

Condition of Distinguished Patient Shows Change for the Worse.

Rochester, Minn., Feb. 2.—The condition of Bishop William Stang of Fall River, Mass., who was brought here for a dangerous operation, changed for the worse Thursday night. A heart difficulty, noticed all the time, is more pronounced, and while the case is said not to be hopeless, the members of the bishop's party are less sanguine of recovery than before.

LITIGANT SENT PRESENT TO DAUGHTER OF JUDGE.

Eufaula, I. T., Feb. 2.—An expensive wedding present sent to Miss Carrie Sulzbacher of Kansas City was the subject of severe comment by Judge J. S. Sulzbacher, her father, in the federal court at Eufaula yesterday. The present was sent by F. W. Sharp, a litigant in the court.

Sharp's gift consisted of a silver dinner and desert set valued at \$2,000. Miss Sulzbacher did not know Sharp. Thinking he was probably a friend of her father's, she immediately informed him of the present. The judge, however, then notified the daughter that the gift could not be accepted. In the meantime, the set had been sent to the bank. It will be returned to Mr. Sharp.

The case in which Sharp is a litigant involves an old lease on 15 acres of land he built on the Green Pool which is estimated to be worth \$100,000.

HALF A LID FOR LA CROSSE.

Slot Machines and Gambling in Back Rooms Must Go.

La Crosse, Wis., Feb. 2.—At a conference between Mayor Torrance, Chief of Police H. H. Byrne, representatives of the La Crosse Brewers' association and the Pastors' union, yesterday an agreement was reached to order all slot machines out of the city and prohibit minors from frequenting saloons and gambling in the back rooms of saloons.

The proposition was made by the pastors to the brewers and was accepted. Mayor Torrance has agreed to issue orders covering the points mentioned. The saloons will be allowed to open on Sundays.

WAIT UNTIL NEXT FALL

Ely School May Not be Used Until That Time.

Good Teachers Said to be Very Scarce Just Now.

The best laid plans of contractors and school boards do not materialize as they should, all of which is merely to preface the statement that there is little likelihood that either the new Ely school, in West Duluth, or the Nettleton school, on the hillside, will be used for school purposes before next fall.

They were to have been completed months ago, but one delay followed close upon the heels of another. The contractors' time has been extended several times, it being shown that the delays were unavoidable and not of their making.

As a matter of fact the Ely school is not near completion, that it could be occupied within a week, if desired. At least, part of the building could be utilized for that time. But the board of education, at its meeting last evening, decided not to open the new building just at present, principally for the reason that teachers are scarce, and to redistrict that section of the city during the middle term would upset things too much.

Considerable discussion was held on the matter of the crowded condition of the schools in West Duluth. Supt. Denfeld said, however, that, except in the lowest grade, conditions were not so bad there as in many other localities.

Directors Cobb and Moe said they had been talking over a committee of West Duluth ladies, who were anxious to see the new school opened. Supt. Denfeld was frankly not in favor of opening it now, and stated that in his opinion it would be wiser to wait until next fall.

Denfeld was talking on the subject, and it was decided not to open the school. Directors Cobb and Moe voted in favor of opening it.

Supt. Denfeld said, however, that he had been talking over a committee of West Duluth ladies, who were anxious to see the new school opened. Supt. Denfeld was frankly not in favor of opening it now, and stated that in his opinion it would be wiser to wait until next fall.

TEARS OF SERVICE

Thousands Have Kidney Trouble and Don't Know It

Work of Bishop Morrison is Appreciated by Parishioners.

In celebration of the tenth anniversary of the consecration of James Dow Morrison as bishop, the first service was held this morning in the basement of the pro cathedral at Twentieth avenue east and Superior street. Although the building is not finished, and services tomorrow will be held in the chapel, a band of worshippers gathered this morning at 10 o'clock for a communion service with Bishop Morrison presiding.

At the close of the service, the bishop was presented with a bishop's staff by Rev. A. A. Fackler. The speech was written on birch bark and mounted on a broad white ribbon and given to Bishop Morrison. It was as follows: "Dear Bishop: Your children in the church unite in extending to you, their chief shepherd, on this, the tenth anniversary of your consecration, their hearty congratulations and sincere affection."

"Ten years ago you turned your back upon home, friends, and congenial surroundings, that you might respond to the church's call to the exalted position you have so ably filled. For a family, you have traveled amidst untold hardships and exposure have not restrained you from going wherever men had made their homes. Forgetting of self, you have carried the message of a loving Saviour to burdened souls throughout your large diocese.

"To your clergy you have been a wise and patient leader. Your larger vision, your unwavering faith, and untiring zeal have given courage to many a despairing pastor who has turned again to you with greater energy, buoyed up by hope. To their short comings, you have addressed yourself with the utmost charity; and whenever the occasion has warranted, you have been unsparing of your praise.

"To the laity you have been a true Father in God, wise in counsel, fearless in rebuke, kind in reproval, loud in praise, always lifting their thoughts from the temporal to the eternal, ever exalting the son of man above all men might be drawn unto Him.

"Accustomed to our own affairs, we have often failed to give expression to the love that has filled our hearts. We have been content to receive from the temporal to the eternal, ever exalting the son of man above all men might be drawn unto Him.

"We esteem it therefore, a blessed privilege that on this occasion we may assure you of our love and present to you this slight token of our esteem. A picture of the staff which will be held of the home of Mr. and Mrs. George H. Crosby of 2023 East Superior street.

Bishop Morrison will also be honored this evening by a reception, which will be held at the home of Mr. and Mrs. George H. Crosby of 2023 East Superior street.

AFTER THE NEW PAPER COMBINE

Federal Government Will Again Put Companies Upon Grill.

Washington, Feb. 2.—Once more the paper combinations of the country are to be placed upon the grill by the federal government. The audacious committee of the house will report favorably the resolution of Representative Williams, directing the commissioner of corporations to make a thorough investigation of these concerns.

The investigation will not only affect newspapers, which pay \$25,000,000 annually for their paper, but book publishers and box board writing and other paper manufacturers, who consume at least \$7,000,000 worth of paper.

The General Paper company of Chicago, which is a selling corporation organized under the laws of the state of Illinois, and the mills controlled by it, scattered among Illinois and other paper-making states of the West, was dissolved some months ago as a result of judicial proceedings instituted in Minnesota. The institution of the suit was followed by a 30 per cent reduction in the price of paper made elsewhere, according to information given to the attorney general. Now the department of justice has been informed the price of paper has gone up again and that a new combination or association has been organized which takes the place of the trust declared unlawful.

The new combine has been formed under what is known as the Parks pooling system. There is no common ownership of property and the penalty plan of insuring against overproduction has been succeeded by a method of paying smaller mills to shut down when the market is so heavily stocked that the price is depressed. Under the old plan a mill was obliged to shut down when the combination said it was surplus. Its pro rata share of the common profits. Under the new plan there is no dictatorial attitude taken by the combine. It is simply made worth while for a millowner to close down when notified, for he can get as much money for standing idle as he can earn by running it. Thus, instead of a penalty, there is a reward, but the effect, so far as the market is concerned, is exactly the same as if the supply were subject to dictation. The originators of the Parks plan insist that it cannot be reached

THOUSANDS HAVE KIDNEY TROUBLE AND DON'T KNOW IT

Weak and unhealthy kidneys are responsible for more sickness and suffering than any other disease, therefore, when through neglect or other causes, kidney trouble is permitted to continue, many fatal results are sure to follow.

Your other organs may need attention—but your kidneys most, because they do most and should have attention first.

If you are sick or "feel badly," begin taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy, because as soon as your kidneys begin to get better they will help all the other organs to health. A trial will convince anyone.

The mild and immediate effect of Swamp-Root the great kidney and bladder remedy is soon realized. It stands the highest because its remarkable curative power has been proven in thousands of the most distressing cases. If you need a medicine, you should have the best.

Wilson, Conn., Feb. 18th, 1906.

Dear Sirs:—A man could not be in any worse condition than I was with kidney and bladder troubles. I doctored with several good doctors and one physician told me I had Bright's Disease and that I would not live over six months. Another told me it was gall stones. I had severe pains in my kidneys all the while, could not sleep over, would be dizzy, could not lie down without someone helping me. My back was weak and pained me; urine was as thick as cream and it would scald me sometimes dreadfully. I had to get up many times in the night to urinate. I took Swamp-Root and after a few days I was well and never felt better. All of my troubles have gone and show no sign of returning. I take my Swamp-Root put me where I am today and I can prove it by acquaintances. Very truly yours, E. H. RAND.

Swamp-Root is not recommended for everything but it promptly over.

EDITORIAL NOTE.—In order to prove the wonderful merits of Swamp-Root you may have a sample bottle and a book of valuable information, both sent absolutely free by mail. The book contains many of the thousands of testimonials received from men and women who have found Swamp-Root to be just the remedy they needed. The value and success of Swamp-Root are so well known that our readers are advised to send for a sample bottle. In sending your address to Dr. Kilmer & Co., Elkhart, N. Y., be sure to say you read this advertisement. The genuineness of this offer is guaranteed.

VILLAGE FOR WAIFS.

Money Left by Henry Seybert Goes to Pennsylvania Poor Children.

Philadelphia, Feb. 2.—By plans for the disposal of the \$1,500,000 fund left by Henry Seybert, in 1883, and which were made known yesterday, a model village for children, covering 300 acres, and the first of its kind in the world, is to be built at Meadowbrook farm, thirteen miles north of Philadelphia. There will be cottages for 1,600 poor children and school training facilities. Other branches of child-saving work will be developed in the future as the need arises under the plan which was created by Seybert in honor of his father and mother.

Self-government will be practiced and various special departments will be run by boys.

NIGHT SHIFT

Scott-Graft mill will start saving Monday night, February 4th.

HAPPENINGS IN THE DAKOTAS

Sentencing of Maj. Murphy Has Been Postponed Second Time.

NORTH DAKOTA. Fargo.—The sentencing of Maj. J. S. Murphy of Minot, convicted here of forging a road tax receipt, has been postponed a second time. He is unable to reach here on account of delayed trains. As soon as sentence is passed it is understood the case will be appealed.

Fargo is going through another mad-dog scare. Several days ago a girl was bitten by her pet spaniel. The dog was killed and an examination plainly showed that it had been suffering from hydrophobia. The little girl has been sent to the Pasteur institute at Chicago. Another mad dog made its appearance on a down town street and is still at large. It has bitten other dogs.

White Earth.—Peter Lakken, who lived on section 5, township 157 of range 20, north seven miles west of White Earth, was frozen to death. Last Wednesday Lakken went to

THE STORY OF YOUR LIFE

New York Professor Perfects System by Which He Quickly Reads the Secret Characteristics and Lives of People Though Thousands of Miles Away.

Men and Women in All Walks of Life Receive Letters From This Great Astrologer in Which He Advises Them on Important Affairs.

Offers Free Readings to All Who Write and Send Date of Birth.

Prof. Albert H. Postel, author, lecturer and traveler, has completed arrangements by which he hopes to render a great service to humanity. Thousands of men and women in all walks of life are seeking the advice of this eminent astrologer, and many voluntarily send thankful letters, highly praising the professor for his kind and helpful services. The following are samples of letters received by Prof. Postel:

Mr. William Payne Cole of Grange, Md., writes: "I do, indeed, thank you for the grand work you have done, things of which you spoke have already come to pass. I feel that if I had had this reading two years ago I would have been better off today. May God bless you and your good work."

From Alvin Wardwell, Converse, Ind.: "I received my Horoscope and I am well pleased with it. You have a wonderful knowledge of human life. It is the best Horoscope I ever had. Please accept my thanks."

While Professor Postel is modest and unassuming, it is clearly seen by a glance at his features that he is a man of keen perception, open-hearted, generous and kind, a kindly feeling toward humanity. The writer has received one of the readings similar to those which Professor Postel is sending to all who write him, indicating the month and year in which they were born, and it is truly amazing how accurately he describes the life of an individual with only the date of birth and his superior knowledge of astrology to guide him.

If you wish a free reading, sit down and write at once, stating the date of your birth, and you will receive a return mail your reading and a copy of Professor Postel's interesting book, "Your Future."

Address your letter plainly to Professor Albert H. Postel, Dept. 27, No. 125 West Thirty-fourth street, New York, N. Y.

BRIEF TELEGRAMS.

A train of twenty cars of Pennsylvania coal is being rushed westward on passenger train schedule for Reno, Nev., to break the fuel famine existing there. Arrangements have been made to place armed guards on the coal cars after the train leaves Ogden to prevent it being confiscated while passing through the famine districts.

Albert Long, a laborer of Chicago, Friday seriously wounded Miss Regina Henderson, and then fired a bullet into his own brain. The girl may recover. Long was arrested at the refusal of the girl to accompany him to the theater last week.

Senators paid tribute Friday to the memory of the late Senator Arthur P. Gorman of Maryland. All business for the day was suspended at 2:30 o'clock according to a special order and eulogies were delivered, expressing the profound sorrow and regret of the senate at the death of the Maryland senator.

In a quarrel over the settlement of an account, at Sidney, Neb., W. D. Stratton, a carpenter, attacked John Bowers, a wealthy ranchman, with a rifle. Bowers secured a shotgun and killed Stratton at the first fire.

Ramon Campol, a Mexican double murderer, was hanged at Karnes City, Tex., Friday. The crime for which Campol paid the extreme penalty, was the murder of two sisters named Mattie and Mary of last year. One of the women had refused to marry him and this so enraged the man that he killed both and tried to kill their little brothers as they were driving along the road in a buggy.

NEWS OF THE WEEK AT THE CENTRAL HIGH SCHOOL

Principal Smith Makes Some Remarks to Budding Orators.

Girls of Different Classes Have Organized Basketball Teams.

The Public Speaking club consisting of the boys of the school who are interested in oratory and debating, held its meeting last Monday. Principal Smith was present and spoke to the boys about the work of the society.

He said that he wished to go at the work in a businesslike way. He said he was sure that there is plenty of ability among the boys of the school and that it is the purpose of the club to bring this out. Mr. Neal, who has been at the head of the society previously, has not been able to devote much time to the work on account of his many other duties. Therefore the services of Mr. Lambert have been secured to help the boys along and promote the interest in this line of work throughout the school.

The other societies of the school are doing very well and Mr. Smith said that there is no reason why the boys should not meet with equal success along literary lines. He also hinted that if the work is taken up with enthusiasm and a desire to work hard, credit may be given in the English mark for this. Mr. Smith then introduced Mr. Lambert to the boys and he spoke a few words.

Mr. Lambert said that he would like to get down to business at once and find out just where things stood. He spoke of the great advantage that it is for a man to be able to get on his feet and speak to an audience in an efficient and cogent manner and said that he presumed that all those who were present were interested in the work and intended to take part.

"It is the intention of this club to perfect your powers of oratory and debating," he said. "We can only do this by hard work and plenty of practice."

Oscar Helm, president of the society told of its purpose and gave an outline of the work and the general plan that is followed. He explained the system of organization by which the members are divided into two rival camps of debaters and spoke of the work which was accomplished last year.

After the close of the regular meeting a short session of the executive committee was held. It was decided to give the first program next Monday. A good debate will be arranged on some question of the present day. Several recitations and orations will also be given. It is planned to interest a large number of the boys of the school in this meeting, as it is thought that they will join after they become acquainted with the work of the club.

David Duncan, captain of the sophomore hockey team, made a few remarks on the hockey situation. He said that only a few have turned out to practice up to the present time, and said that he would like to have all those who are candidates for the team hand in their names to him.

The freshmen tied the sophomores in the annual football contest, and Capt. Duncan thinks that it is up to him to get out a hockey team that will do up the team in classmen. In order to accomplish this, he says, that he will have to have more support from the class.

There are many good players among the members of the class, some of whom have had considerable experience

and if they will work hard they should be able to win. No definite time has been set for the game, but it will probably come off soon, as it is getting pretty well along in the season.

The question of prizes for the Zenith was brought up during the meeting. No prizes have as yet been offered, and the president suggested that the Zenith board hold a meeting in the near future and arrange prizes for the best story, poem, and frontispiece. The decisions will then be brought up at the next meeting of the class, and if satisfactory they will be accepted.

The musical society, to show that it has not forgotten Miss Rena Smith, a former member, decided to buy some flowers for her. The officers will select these and will tie them with the red and white ribbons of the school, and present them to her when she arrives.

The girls' basketball teams have been practicing for some time now and are becoming expert in the art of throwing baskets and other parts of the game. The seniors, juniors and sophomores each gave a team, and the freshmen are endeavoring to organize one. They were planning to play the sophomores but were cut off by the haughty sophs, and will have to go it alone. The captains and managers of the teams will get together soon and arrange the schedule for the season.

The Philomathian society postponed its regular meeting until next Monday. A good program will be prepared for the day and a large attendance is expected.

A meeting of the Zenith board was held last Monday. The cover design and several minor points in regard to the book were discussed and upon.

The changes in the programs for the second semester have been completed and things are again running smoothly.

Now that the debating club is well on its feet and has a strong management, a great many of the boys of the school are expected to add their names to the membership roll.

A few of the seats in the assembly hall have been assigned for the second semester. A very clever mixing of seniors, juniors, sophomores and freshmen has taken place, calculated to prevent disturbances.

Owing to the fact that no program could be prepared for next Monday, the Agassiz club has again postponed its meeting until the beginning of next week.

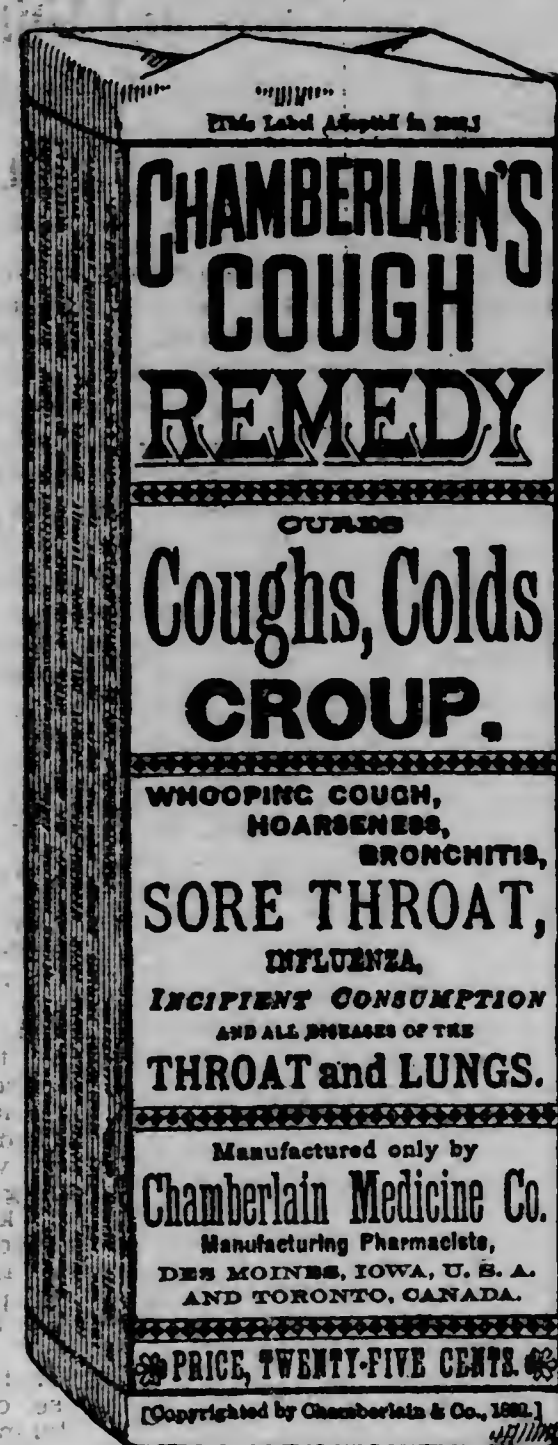

Some of the books for the senior play have arrived and have been handed out to a few of the principal characters. It is planned to begin the rehearsals as soon as possible.

The executive committee of the "Schillerband," or German society, held a meeting Thursday night, and a program was arranged for the next meeting, which will be held Thursday of next week.

WARREN NAMED TO MEET DELEGATES. Washington, Feb. 2.—President Roosevelt has designated Senator Warren to meet with the public lands commission and committees from the American Livestock association and the National Wool Growers association, which are to give consideration to the question of national control of the grazing lands of the West. The meeting is to take place Feb. 11.

It's healthful, wholesome. It's good for one as the other. The more you take the better you sleep and eat. Makes people happy. That's what Hollister's Rocky Mountain Tea does. 35 cents, Tea or Tablets. Ask your druggist.

King of All Cough Medicines

Mr. E. G. Case, a mail carrier of Canton Center, Conn., who has been in the U. S. service for about sixteen years, says: "We have tried many cough medicines for croup, but

Chamberlain's Cough Remedy

is king of all and one to be relied upon every time. We also find it is the best remedy for coughs and colds, giving certain results and leaving no bad aftereffects. We are never without it in the house

NEWS FROM THE NORMAL

Members of Graduate Class Teaching in Model Department.

Seniors Entertain the Juniors at Enjoyable Sleighing Party.

This week ended the first half of the six weeks of the winter term. Most of the members of the senior graduating class have been observing methods of teaching during this time. Dr. Klein, principal of the model department, appointed the members to the following grades: Seventh and eighth grades, Lillian Olsen, Ray Leland; fifth and sixth grades, Elsie Krey, Helen Shaver, Margaret Wolf, Nellie Flynn, Lenora Ulsted, Kathleen Kelley; third and fourth grades, Theresa Hinman, Alice Sand, Margaret Brautigan, Genevieve Ives, Ella Holtorf, Isabel McLean; kindergarten, first and second grades, Gertrude Brown, Louana Phelps, Laura Pepple, Clara Aune, Margaret Mitchell and Hazel Owens. Next term these students, who are observing, will teach in the model department.

The following students are at present teaching the model department: Seventh and eighth grades, Miss Powell, Brett, Chisholm; sixth and seventh grades, Miss Norval, Miss Peterson; fourth and fifth grades, Miss Keehan, Miss Roberts; first and second grades, Miss Taylor and Miss Turnbull.

Friday, the senior class members

entertained the juniors at a sleigh-ride. The day was perfect for such a ride and at 2 o'clock two merry loads left for the Lakewood pumping station.

The seniors served a warm lunch home early in the evening. The juniors present were: Agnes Kinkie, Ruby Harris, Alice Lambert, Mary Carroll, Emily Ray, Claudia Cox, Katherine Porter, Melinda La Yalle, Opal Witte, Eva Hathaway, Hazel McKay, Ethel Swarlow, Vivian Burrell, Blanche Mallory, Sadie Stevens, Florence Nelson, Nell Leranger, Nina Nichols, Marie Schultz, Saile Burton, Julia Leila, Eunice Brotherton, Christman, Eleanor Johnson, Cora Burgher, Elizabeth Johnson, Mary Lindgren, Sophia Soderburg. The seniors present were: Elrose Taylor, Flora Chisholm, Helen Shaver, Louana Phelps, Mildred Shane, Sadie Huntington, Mamie Storch, Amy Forbes, May Quayle, Bessie Heimack, Ella Holtorf, Elsie Krey, Gertrude Brown, Nellie Flynn, Margaret Wolfe, Jane Norval, Mae Brown, Elsie Koathe, Elsie Gandsey, Bessie Turnbull, Anna Peterson, Margaret Yager, Rita Roberts, Ethel Swarlow, Sophia Thomas and Flora Carpenter. Miss Carey, class counselor of the seniors, attended the sleighride.

Each class has held one or more class meetings during the week. The seniors met Monday to make final plans for the Friday sleighride. The juniors and third-year class members met on Monday also. Tuesday the freshmen had an animated meeting, and Thursday the seniors and the third-year members had meetings.

Mr. Bohannon continued last week and this week his reading from Lawrence Hutton's "Talks in a Library."

The second year class had a second class election on Friday. The officers elected were: President, Margaret Grogan; vice president, Hattie Nelson; treasurer, Hazel Hienbaugh; secretary, Grace Moggard. The class met for lunch in Miss Shoemith's, the counselor's, room. The old and the new officers addressed the class members.

Every two weeks the class meets for a reading circle, and Friday one of the class members read "The Love of Parson Lord," by Mary E. Wilkins.

The class members are planning a sleighride, to be given in the near future.

Wednesday the senior geography special class met with Miss Horne of the seventh and eighth grades, model department.

The senior classes in domestic science have been doing work in house-planning. Last week they planned kitchens, and furnished them. This week they brought plans for an eight-room house. The junior classes have been doing analysis work in proteid foods.

Monday the senior play committees met and discussed plays, and suggested names of plays for further consideration. Miss Taylor presided at the meeting.

Monday, Mr. Bohannon spoke of the decision of a state committee with regards to having a "state normal" pin. The committee decided upon a circular gold pin with the state seal engraved on it and the name of the normal school under the seal. Any graduate of one of the five normal schools of the state located at Duluth, Mankato, Winona, St. Cloud and Moorhead, is entitled to one of these pins. Mr. Bohannon took orders for the pins on Tues-

day. About twenty of the Duluth students ordered them.

Among the Monday visitors at the school, was Mrs. Merry, director of music at Superior normal. Mrs. Merry spent the entire day visiting the music classes and chorus.

Miss Babinbridge returned Tuesday after an illness of five days, and has resumed her work.

Within the past two weeks, the library will add 125 bound magazines to its list. This will put them in better condition for use in reference work in the school.

AND STILL PEOPLE DIE. There are 238,234 medical doctors in the world, says L'Illustration. Of these there are in Europe, 162,333, distributed as follows: In England, 24,367; in Ger-

many, 22,518; in Russia, 21,489; in France, 20,348; and in Italy, 18,245. In England the proportion of doctors is 78 to 100,000 of the population. In France it is 51 and in Turkey, 13. In Brussels the proportion is 241 to 100,000 of the population; in Madrid, 209; in Budapest, 198; in Christiana, 151; in Vienna, 140; in Berlin, 132; in Athens, 123; in Paris, 111; in New York 74, and in Constantinople, 35.

HARSH CRITICISM. Ripley Hitchcock, the noted critic of New York, was talking at the Century club about harsh criticisms, says the Los Angeles Times.

"As harsh criticism as I know of," he said, "was compactly and neatly uttered by a bishop last spring. 'A minister wrote commentary on the Lamentations of Jeremiah, and sent it to the bishop, along with a note asking for a few critical words. 'There is but one thing that I regret about this work—namely, that Jeremiah is not living now to compose a fresh hook of lamentations on your commentary.'"

Guaranteed under the Pure Food and Drugs Law—Serial No. 65.

Omega Oil

For Sore Throat and Cold in Chest

Omega Oil is the safest and surest remedy for Sore Throat, Cold in Chest, Quinsy, Swollen Tonsils, and in cases of Asthma and Bronchitis it gives relief when other remedies fail. All throat and chest troubles lead to serious consequences if allowed to continue. Treatment with Omega Oil should begin with the first symptoms. Omega Oil stops all sorts of pains that can be reached externally. You don't have to buy bottle after bottle to get relief. Usually one or two rubbings stop the pain.

Three sizes: 10c., 25c., 50c. Free Sample Omega Oil Soap in Every Bottle.

WRECK OF THE STEAMER MONARCH ON BLAKE'S POINT

THE LAST RESTING PLACE OF THE MONARCH.

The above picture shows all that is left of the steamer Monarch which went ashore on Blake's point on Dec. 8 last. As shown by the picture the vessel is a total loss, her stern being gone, and the rocks on which she struck having plowed their way into her bow.

The accident, it will be remembered, happened during a storm on Jan. 6, when the air was thick with snow, and steam rising from the water increased the difficulty of making out objects in the darkness. There were forty-two persons on board, including eight passengers and one woman, and it was with the greatest difficulty that they got a line ashore and fast and held

down to safety. One of their number hung from a rope and was swung to and fro by his comrades from the bow of the boat until he had gained momentum to leap for shore and secure the rope.

When they reached shore they rescued a sack of flour that had fallen into the water, and with only this food for four days they stayed without shelter among the trees of the island, so that when rescued many of them were so weak from starvation and exposure that they had to be carried to the shore.

Capt. Alec Shaw, keeper of the Passage Island light saw the marooned party's fire, which they built as a

beacon the first night after the boat struck, and says that had he had a launch he could have gotten the party days of suffering, but with only a sailboat at his disposal he was forced to wait.

The wreck was in some ways particularly fortunate. Had the boat struck on the cliff of rocks toward the right of the picture, she would have dropped back and sunk straight into forty feet of water, with probably all on board. There is a similar cliff hard by a hundred yards to the left of where she struck.

The Monarch was a 240-foot boat, belonging to the Northwestern Transit company of Sarnia.

"I should say so. She's always looking around the house for work that should be done."
 "And then?"
 "She lets her mother do it."
Harper's Bazaar: Editor-Threatening to sue us for libel? Good heavens! What a **Manager**—Through some mistake we described her as being in evening dress as a 6 o'clock tea.

Manager—Through some mistake we described her as being in evening dress at a 5 o'clock tea.

TWENTY YEARS AGO.

Taken From the Columns of The Herald of This Date, 1887.

***Mrs. Clarence Doolittle, wife of Cashier Doolittle of the Minneapolis Tribune, is visiting her sister, Mrs. E. C. Holliday.

***Gen. C. J. Anderson of Richmond, Va., the general commanding the militia of Virginia, is in Duluth looking after his real estate interests here, which are extensive. The general is considered to be the finest looking man in the state of Virginia.

***Bob Fitzgerald, the popular traveling man for Allen, Moon & Co. of St. Paul, is at the St. Louis.

***The common council wrestled again with the draft of the new city charter last night. The boundaries of the city were finally fixed to include Oneota and Grassy point on the west and New London on the east.

***Owing to a frozen drip on East Superior street, all the city east of First avenue east was without gas last night, and the electric light, the lamp and the candle had the field all to themselves.

***The Burlington & Northern railroad will come to Duluth by a bridge from Connor's to Rice's point.

***Thomas Dowse and Mrs. Greenwood won the prize at the progressive

cups party at Mrs. F. J. Marsh's last evening.

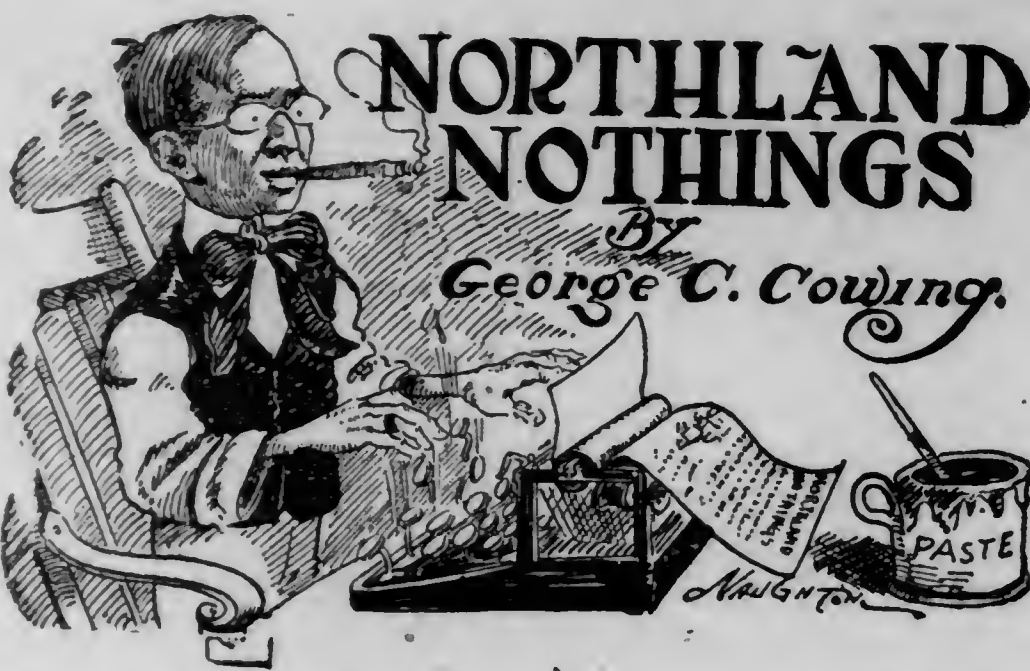

***The work on the St. Paul & Duluth railroad bridge at Grassy point is being pushed forward vigorously.

***The question having come up in the state senate yesterday as to the proper place for a new state reform school, Senator Clark took occasion to remark that Duluth was the proper city for some state institution, as it was rapidly becoming the most important point in the Northwest and would eventually be second only to Chicago. The reform school will in all probability come to Duluth.

***John H. Lee of St. Joe, Mich., is dabbling quite extensively in Duluth real estate, and not merely for speculation either. It is Mr. Lee's intention to establish a soda factory in this city in the spring.

***Mr. Pastoret and Brewer Schiltz of Milwaukee have jointly purchased eight lots on East Superior street between Eighth avenue and will erect thereon an extensive brewery.

***Last evening the residence of Mrs. Green, 1710 West Michigan street, was the scene of a quiet wedding. Edward McLaughlin and Nancy M. Green being the contracting parties.

Vagabond Thoughts.

Where there's a will there is generally a way. A light actor is often the heavy villain.

Some of Duluth's sidewalks need to be mended. It is the early servant girl that catches the milkman.

In the game of frenzied finance, the struggle doesn't seem to be barred.

Millions do not always pay for transportation via the love route. It is hardly any fun calling on a girl when you have a cold sore on your lip.

A girl will hand you a glance that is 90 per cent goo-goo, and when you give her one back she will go home and tell her mother that a man actually tried to flirt with her.

Fashion Note.

Many a dress suit will emerge from the clothes chest and the moth balls

During the engagement of "Madame Butterfly."

Local News.

The officials of the street railway company deny that they are about to put on a dining car service evenings for patrons of the Lakeside line.

Several of our most prominent citizens have been cussing about the cold weather, which prevailed part of the week. They ought to be burned glad they don't live in North Dakota.

A bunch of the boys were looking at Fred Merritt's copper stock quotations the other day and one of them told this one:

"An old boy right here in this town had a bunch of copper stock, and one day he received a notice, which stated that a dividend had been declared. The next day he appeared at a broker's desk, check book in hand."

"What can I do for you?" said the polite broker.

"I'm a stockholder of Proctor Knott & Butte," said the man, getting ready to write out a check. "Is this the place where I pay the dividend?"

Some of the boys said they didn't think it was a true story.

Weather Report.

A miss from that dear Grand Marais

Notice to Contractors

The scale of wages for Journeyman Painters of Duluth, from April 1, 1907, will be 48¢ per hour.

J. H. POWERS, Recording Secretary, Local No. 100.

This notice from the union, published Jan. 31st, means an increase of about 20 per cent over last year. We advise any one contemplating papering or painting this spring to call early and have your work done before this price becomes effective.

HARDSHIPS THAT ARE ENDURED BY RAILROAD AND TIMBER SURVEYORS

TYPICAL SCENE IN WINTER CAMP OF ENGINEERING CREW.

The hardships endured by the railroad surveyor, or the timber land surveyor, the pioneers who plunge into the depths of the wilderness either as the preparers of the path, where a few short months later the president of the road can come gliding by in comfort in his palatial car, or sizing up the timber growth, and determining the lines which limit his master's domain, are not generally appreciated.

to rouse and harness the dogs, break main, can hardly be appreciated by the average city dweller, secure in his street car service, however questionable that commodity may be, and sure of a warm furnace or hot water before he has time to settle down and spend his evening.

The bitter cold of a night in the woods, with only a dimly tent or more often the open sky as a covering, with the only warmth available that furnished by a flickering camp

fire, is pretty likely to dull the sensibilities of any man to the beauties of the snow-laden woods in the morning and the grind of the long day's tramp takes all the romance out of a profession, that to the comfortably housed onlooker must be full of an unequalled pleasure and excitement.

To roll out of a sleeping bag on a frosty morning, this stilted lumberjacks try to revive the dying fire and prepare an eatable breakfast, camp, pack tents and equipment on sleds, with the bitter cold of thirty below nipping at your hands and face, and then perhaps, trot mile after mile on snowshoes, after the rapidly moving sledges, or hack your way slowly through underbrush so thick that it forms an almost impassable barrier to progress and then, with a short break in the middle of the day for a hastily matched lunch, frozen generally, to go through the ever increasing monotony of pitch-

APPEALS TO THE VATICAN

Duchess Wants Husband Who Has Been Taken From Her.

Rome, Feb. 2.—Considerable interest is manifested in high circles here regarding an attempt which is being made to annul the marriage of the young Duke Della Salle. In 1905 the duke, while at Athens, fell in love with a beautiful but poor girl named Maria Karousou, and made preparations to marry her. The duke's father, however, was strongly opposed to the

match and took steps to prevent the union of the young people. While the wedding was in progress the young duke was suddenly called away by an urgent message, and went to the French consulate. What transpired there is not definitely known, but it appears that the young duke was adjudged a lunatic, and as such was conveyed to Vienna. The father of Maria immediately began an investigation of the bridegroom's disappearance, traced him to Vienna and went there and conducted him back to Athens, where the duke and Maria were married according to the rites of both the Greek and Roman churches. Some months later an agent of the old duke succeeded in winning the consent of the newly married couple, and eventually induced the young duke to go to Vienna and live with his father's family. From that time all trace of the young duke has been lost. His authorities applied to the Vatican to annul the marriage, but the Vatican authorities refused to do so. The duke's father, however, is demanding justice for the duke's disappearance, and is offering money, but the duchess refused to accept anything from her husband's father. That is how the affair stands, and the reply from the Vatican is anxiously awaited.

Charcoal Stops Gas On Your Stomach.

Wonderful Absorbing Power of Charcoal When Taken in the Form of Stuart's Charcoal Lozenges.

Trial Package Sent Free.

Charcoal, pure, simple charcoal, absorbs 100 times its own volume of gas. Where does the gas go? It is just absorbed by the charcoal—the gas disappears and there is left a pure, fresh, sweet, atmosphere, free from all impurities and germs.

That's what happens in your stomach when you take one or two of Stuart's Charcoal Lozenges, the most powerful purifiers science has yet discovered.

You betch gas in company, sometimes, by accident, greatly to your own humiliation. That is because there is a great amount of gas in the food you eat, and the charcoal—lozenges—take it out of your stomach by fermenting food.

Your stomach is not digesting your food properly. Gas is in the food, and this happens just take one or two of Stuart's Charcoal Lozenges right after eating, and you will be surprised how quickly they will act. No more belching; no more sour risings. Eat all you want and what you want, and then, if there is any gas going to be formed, one of these wonderful little absorbers, a Stuart Charcoal Lozenge, will take care of all the gas.

And it will do more than that. Every particle of impurity in your stomach and intestines is going to be carried away by the charcoal. No one seems to know why it does this, but it does, and does it wonderfully. You notice the difference in your appetite, general good feeling, and in the purity of your blood, right away.

You'll have no more bad taste in your mouth or bad breath, either from drinking, eating or smoking. Other people will notice your bad breath quicker than you will yourself. Make your breath pure, fresh and sweet, so when you talk to others you won't disgust them. Just one or two Stuart's Charcoal Lozenges will make your breath sweet, and you feel better all over for it. You can eat all the onions and odorous foods you want, and no one can tell the difference.

Besides, charcoal is the best laxative known. You can take a whole box full and no harm will result. It is a wonderfully easy regulator.

And then, too, it filters your blood—every particle of poison or impurity in your blood is destroyed, and you begin to notice the difference in your face first thing—your clear complexion.

Stuart's Charcoal Lozenges are made from purely white charcoal, and just a little honey is put in to make them palatable, but not too sweet.

They work wonders in your stomach, and make you feel fine and fresh. Your blood and breath will be purified.

We want to prove all this to you, so just send for a free sample today. Then after you get it and use it, you will like them so well that you will go to your druggist and get a 25 cent box of these Stuart's Charcoal Lozenges.

Send us your name and address to-day and we will at once send you by mail a sample package free. Address F. A. Stuart Co., 64 Stuart Bldg., Marshall, Mich.

SETTLEMENT IS EFFECTED

Marlboroughs Arrange Their Marital Affairs Without Publicity.

London, Feb. 2.—An authoritative statement embodying what the family has to say on the case of the duke and duchess of Marlborough was given out last night. It is as follows: "The differences between the duke and duchess of Marlborough have been settled privately. The children will arrive at Sunderland house to-day and the duchess and her children will proceed to the continent early next week."

This statement is somewhat ambiguous, owing to the possible interpretation as meaning that the duke and duchess have arranged privately a settlement of terms under which each will have the care of the children for a portion of the year, and other details. In other words, the children will now pass six months of the year with each parent. It is understood that the duchess will continue to make Sunderland house her London home, while the duke will have town headquarters at a West end hotel, as he has done since October last.

King Edward has been made acquainted with the full terms of the settlement through the duke himself, who had an audience with the king yesterday at Buckingham palace. There is great relief in royal and social circles that the affairs of the Marlboroughs will not go into the courts.

The duchess has not been very well lately and as she thinks well of the cure at Montreux, France, she will, after a short sojourn in Paris, proceed to the Riviera with her sons.

It is said that the duchess will have an audience with Queen Alexandra in Paris next week, and this is one of the reasons given for her decision to go abroad now.

MAY BE COFFEE

That Causes all the Trouble.

When the house is afire it's like a body when disease begins to show, it's no time to talk, but time to act—delay is dangerous—remove the cause of the trouble at once.

"For a number of years," says a Kansas lady, "I felt sure that coffee was hurting me, and yet, I was so fond of it, I could not give it up. I suffered with my appetite and, of course, yielded to the temptation to drink more. At last I got so bad that I made up my mind either to quit the use of coffee or die."

"Everything I ate distressed me, and I suffered severely almost all the time with palpitation of the heart. I frequently woke up in the night with a feeling that I was almost gone—my heart seemed so smothered and weak in its action that I feared it would stop beating. My breath grew short and I could not sleep. I was in a state of sleep but little and suffered from rheumatism."

Two years ago I stopped using the old kind of coffee and began to use Postum Food Coffee and from the very first I began to improve. It worked a miracle! Now I can eat anything and digest it without trouble. I sleep like a baby, and my heart beats full, strong and easily. My breathing has become steady and normal, and my rheumatism has left me. I feel like another person, and it is all due to quitting coffee and using Postum Food Coffee. For I haven't used any medicine and none would have done any good as long as I kept drinking with coffee."

Name given by Postum Co., Battle Creek, Mich. "There's a Reason." Read the little book, "The Road to Wellville," in page. All grocers.

TRAVELING INCOGNITO.

King Edward and Queen Alexandra Start on Trip to Paris.

London, Feb. 2.—King Edward and Queen Alexandra left London for Paris this morning, traveling incognito as the duke and duchess of Lancaster. This is the queen's first visit to Paris since 1893, when, as princess of Wales, she visited the exhibition. As their majesties desire the trip to France to be as private as possible, there was almost an entire absence of ceremony on their departure.

DIED FROM HYDROPHOBIA. Brainerd, Minn., Feb. 2.—Gustave Brinkman, a farmer of Sylvan township, aged 50 years, died at St. Joseph's hospital at Brainerd yesterday from hydrophobia. He was bitten by a mad dog about eight months ago. He was very violent before his death, smashing the furniture and trying to beat down the door of the room where he was confined.

THAW JURY COMPLETED

Twelfth Man Selected and Court Adjourns Until Monday.

New York, Feb. 2.—The Thaw jury as completed late yesterday follows: Foreman, Deming B. Smith, 56, retired manufacturer, married; No. 2, George Pratt, 64, hardware, married; No. 3, Charles H. Focke, 45, shipping agent, married; No. 4, Oscar A. Pink, 46, salesman, married; No. 5, Henry C. Barney, 50, piano salesman, married; No. 6, Harry C. Brearley, 35, advertising agent, married; No. 7, Malcolm S. Fraser, 40, salesman, married; No. 8, Charles D. Newton, 35, retired railway official, married; No. 9, Wilbur S. Steel, 60, manufacturer, married; No. 10, John S. Dennee, 38, railway freight agent, unmarried; No. 11, Joseph B. Bolton, 57, clerk, married; No. 12, Bernard Gerstman, 36, manufacturer's agent, married.

The selection of the twelfth juror came as a complete surprise at the end of a long and tedious day—the eighth of the trial, and immediately after this last member of the trial panel had been sworn in Judge Fitzgerald ordered an adjournment of court until 10:30 o'clock Monday morning.

District Attorney Jerome, who has been contending since Monday afternoon for the removal of one of the men now in the jury box, but who has failed to gain the consent of the defendant's counsel to a change, was still reluctant as court adjourned to begin the actual proceedings without a further opportunity to plead with Thaw's attorneys. At his request, therefore, Justice Fitzgerald ordered all talesmen who have not yet been examined to be in court Monday morning ready for jury service in case any are needed.

Mr. Jerome then announced that if there should be no change in the case in the meantime, the jury would proceed to place all its direct evidence before the jury Monday. The defense was notified to be in readiness to proceed by Monday afternoon.

"We are entirely satisfied with the jury," said Clifford W. Harbridge, Thaw's leading counsel, last night, and he added that he would not consent to any further alterations of the personnel.

"The defense will be ready to proceed the minute the prosecution has finished its case," declared John B. Gleason, another of Thaw's attorneys.

JUMPS OFF BRIDGE. Duluth Man Witnesses a Tragedy at St. Louis.

St. Louis, Feb. 2.—M. H. Seaman of Duluth reported to the police last night that while crossing Eads bridge he saw a well dressed man about 50 years of age leap from the bridge. Mr. Seaman watched, but did not see the body come to the surface of the Mississippi, which is about 125 feet below the bridge.

MRS. W. A. FERRIS DEAD. Bemidji Resident Passes Away After Three Years' Illness.

Bemidji, Minn., Feb. 2.—(Special to The Herald).—Mrs. Claudia Ferris, wife of W. A. Ferris of this city, died Thursday night, at the home of Mr. and Mrs. C. S. Ferris, who live at Maltby, ten miles south of Bemidji. Mrs. Ferris, whose maiden name was McCort-

rick, was born in Oshkosh, Wis., thirty-six years ago. She lived at that place with her parents until seven years ago, when she moved to St. Paul, and a few months later came to Walker. On Jan. 10, 1901, she was married, at Walker, to W. A. Ferris and moved to Bemidji to make her home in March of that year. She has been ill for three years past.

Mr. and Mrs. Edward Berg, who left Bemidji two weeks ago for Seattle, Wash., with the intention of remaining there for some time for the benefit of Mr. Berg's health, are snowbound in Montana, with prospects very poor of their getting out of that state westward for several days.

TRIED TO TAKE HIS LIFE. Finlander in Logging Camp Near Chisholm Attempts Suicide.

Chisholm, Minn., Feb. 2.—Jacob Saari, a Finlander, attempted to take his own life at a logging camp operated by J. A. Johnson, four miles north of here, cutting a deep gash in his throat with a pocket knife. Saari arrived from Hibbing Tuesday. He went to work Wednesday, and Thursday evening after supper he was seized. One of the men went outside, and discovered him lying in the snow about fifty feet from camp with the blood oozing from the wound in his throat. He was immediately placed in a sleigh and brought to Chisholm. It is expected he will recover.

TWO JUNKETS Will be Had by Secretary Taft During the Present Year.

Washington, Feb. 2.—Plans for Secretary Taft's visit to Panama in March have not been definitely formulated as yet, but he will probably go into the month and will be accompanied by several army engineers. His visit will be chiefly for the purpose of inspecting the work on the isthmus.

The secretary's visit to the Philippines this fall probably will be made in August or September. He is going for the purpose of being present at the opening of the Philippine assembly and will be accompanied by Mrs. Taft, but will not have a large party with him on this trip.

WHY SO WEAK? Kidney Troubles May Be Sapping Your Life Away, Duluth People Have Learned This Fact.

When a healthy man or woman begins to run down without apparent cause, becomes weak, languid, depressed, suffers backache, headache, dizzy spells and urinary disorders, look to the kidneys for the cause of it all. Keep the kidneys well and they will keep you well. Doan's Kidney Pills cure sick kidneys and keep them well. Here is Duluth testimony to prove it.

J. H. Tomlin, lather and contractor, of 112 West Palmetto street, Duluth Heights, says: "What I said in recommending Doan's Kidney Pills, six years ago, was not only true, but the cure I described at that time has been permanent, and I am pleased to inform other sufferers of this fact. My case was a severe one, and it clung to me persistently for two years. The backache finally got so bad that I was obliged to lay off from work for days at a time, and I suffered such pain that it hurt to bring the slightest strain on the muscles of the back and hips. The kidney secretions were irregular, and I was unable to rest well at night. All these irregularities yielded promptly to the treatment, and the result was a permanent cure."

For sale by all dealers. Price 50 cents. Foster-McLure Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

SPORTS OF THE WEEK

THREE BIG MEN SIGNED

White Sox Will Look Like a Varsity Football Team.

Meeting Again Postponed Because of Illness of Secretary Glass.

While there will be a bunch of old faces back in the lineup of the White Sox when they strike Madison next April, the local management has strings out for new men, and three new acquisitions have been looked during the last week. As the salary limit will have to be observed this year as before, this means the dropping of some of the old players, if these men make good.

All this week's acquisitions are big fellows, tipping the scales in the neighborhood of 200, and have reputations in other leagues and pedigrees as long as Artie O'Den's two baggers. Two of them will go to strengthen the pitching staff. One of these, James Hayney of Milwaukee, who has made his mark in the Three I and Iowa state league, played with Treadway and Krick when they were with Sioux City in the Iowa State, and is recommended by his team mates as a jolly good fellow and a good heady pitcher in the bargain.

J. D. Backus, the other pitcher is a 200 pounder from the Tri-State, having pitched for Saginaw last season, and comes highly recommended. Dick MacDonald, the third addition to the squad, which will show up at the college diamond in Madison next April, is described by McGraw, who directed him and recommended him to the local management, as "a moose, but the fastest big man ever seen outside of Big Lee, MacDonald. If he makes good, will be installed in center field and Barto will be dropped. Dick has had no professional experience, but has earned a reputation playing semi-professional ball in Chicago and is looked upon as a most promising candidate.

McCormack will be back in the right garden again, says Manager Kuehnow, in spite of the fact of his sale to St. Paul last fall. Kelly has paid over no money as yet on the player, and the local management considers the contract off.

With one of the catchers, Holding, or Smiley Smith, in the left meadow, any sky scraper which may go wandering out toward the back fence ought to be well taken care of.

Owing to the serious illness of Secretary Glass with appendicitis, the meeting of the directors of the N. & C. at Calumet tomorrow and Monday, has been postponed again to Sunday and Monday, Feb. 10 and 11. This is the second postponement, as the big meeting was to have been held a week ago.

Nearby Knocks Out Desher.

Milwaukee, Feb. 2.—Charles Nearby of Milwaukee knocked Dave Desher of Boston out in the eighth round of a ten-round fight, before the Badger Athletic club last night.

Nearby had the best of the fight in every round, knocking Desher down for the count in the first round. The bell saved Desher again in the seventh.

George Bree of Chicago was knocked out in the eighth round by Jack Redmond of Milwaukee in an evenly contested fight.

Illini Lose Again.

Madison, Feb. 2.—Wisconsin university, last night, defeated Illinois university a basketball, 39 to 14.

CORNER IN SPORTS

The meeting in the Copper country next Sunday and Monday may see the disruption of the Copper Country and Northern League.

The trouble lies with the Lake Linden and Hancock clubs. Secretary Glass is going ahead signing players, and evidently intends to stay with the league another year. To this, the other clubs will certainly object, and it may mean the reorganization of the old Northern league, and the dropping of the Copper country towns. Lake Linden last year did not pay the visiting clubs enough to cover their board bills. The guaranty was waived and every trip to Lake Linden meant an actual loss. This year the other clubs simply won't consent to such an arrangement. If Lake Linden remains in the league, the others will insist on a \$50 guaranty, which will be sufficient to insure them against loss.

The Lake Linden club could never stand this, and it would probably drop out if the provisions were enforced. Calumet is all right, and perhaps a team in Houghton and Hancock would pay expenses, but three teams in the Copper country are too many, and unless Lake Linden and Hancock are dropped, the Western clubs will probably withdraw and reorganize the old Northern league.

The local ski riders and ski club officials have decided to drop the controversy with ismeping, and none of them want to hear or say anything more about it, as it can only cause friction between the two clubs. Duluth wants to maintain a friendly feeling with the Michigan club, and hopes for its support to land the national tournament.

Eleven Men Will Represent the Club at Ashland Tournament.

At the meeting of the directors of the Duluth Ski club, held last evening, delegations of riders were picked to attend the Bovey and Hibbing club tournaments, both of which are scheduled for tomorrow. The fact that both of these events are scheduled for the same day is rather unfortunate, as nearly all the visiting clubs will split their delegations as Duluth has done. John Evason, Jacob Holm, John Rudd, Peter Rohr and John Mangseth will represent the club at Bovey, while Feiring, Bye and Larson, the club's crack riders, in company with Hans Linnes and J. M. Sveen, will go to Hibbing.

At Bovey the ski club has effected a happy compromise between amateurs sports and professionalism by giving medals for the winners and tacking a \$10 bill on every medal. Hibbing has taken a stand for professionalism, however, and their prizes amount to \$210, ranging from \$50 down.

Of the delegations which will be sent to the range tomorrow, all but one, John Rudd, will represent the club at the Ashland tournament, and two other riders, Peter Burg and Olaf Rygh, have also signified their intention of entering the national. This will make a delegation of eleven riders from the local club, and they ought to be able to make a showing that will make Duluth proud of them and count for a good deal in influencing the votes of the delegates in the big meeting after the tournament.

C. E. Evason, president of the Duluth club, was chosen delegate to the meeting of the association last evening. The local men now fear that the candidacy of Red Wing for the next affair may draw the votes of St. Paul and other southern clubs from the Duluth standard, which would weaken Duluth's showing considerably. At the big meeting, Duluth will base her fight for the tournament next year on her location for all the clubs in the association, while Munising is on the far eastern border of the territory, and Red Wing far to the southwest. The locals are growing more confident every day, however, and feel that with the support of the range, Northern Minnesota and Northern Wisconsin towns, they will be able to pull out an easy victory.

You are an exceptional person if you have "nothing to sell," and an eccentric person if you think to sell to good advantage without using Herald want ads.

MORE GAMES SCHEDULED

Y. M. C. A. Basketball Team Has Three Contests in Sight.

Prospect of Twin City Sport Five Being Brought to Duluth.

Basketball enthusiasts around the Y. M. C. A. are jubilant these days. After winning a majority of the games already played, they will be again, next Thursday night, a series of three games on their own floor. After defeating the Nelson-Dewey bunch handily Thursday night, they look forward to a very successful season.

Probably the game next Thursday night will create more interest than any of the others, for on that night the "Football" bunch of the Blaine high school of Superior will be met.

This is not the regular school team, but is made up of last year's championship basketball team and a number of last season's crack football players. They are all heavy, experienced players and will put up one of the fastest games ever seen in Duluth. The Y. M. C. A. met defeat at their hands early in the season, but are confident of a victory on their own floor. The local five are training hard and will probably put up, even a faster game, than their followers expect.

The Blaine players have been used to winning everything in sight, but the locals are hoping to turn the tables on them Thursday.

The following Thursday, the Prospect city team will come to Duluth for a game. This team is a new organization which promises to eclipse last year's fast five.

Nelson-Dewey will be met in a return game.

Negotiations are on for a big Twin City game later in the season. All things considered, a very successful wind up of the basketball season is assured.

Gotch Wins Again.

Chicago, Feb. 2.—Frank Gotch, the American wrestling champion, won from Charles Hackenschmidt here last night in straight falls, in thirty-six minutes and eighteen minutes, respectively.

This was not Hackenschmidt, the Russian Lion, but the wrestler known as Young Hackenschmidt.

Why Suffer from Rheumatism? Do you know that rheumatic pains can be relieved? If you doubt this just try one application of Chamberlain's Pain Balm. It will make rest and sleep possible, and that certainly means a great deal to any one afflicted with rheumatism. For sale by all druggists.

MILTON HAS NEW GAME

Wants to Race on the Ice With Spiked Shoes.

Sport Will be Novelty at Head of the Lakes.

William Milton of West Duluth has issued a sweeping challenge to all ice runners at the Head of the Lakes for a match at the Central rink, the match to be pulled off at any time agreeable to any who may answer the challenge. He has stated that

he will secure backing for any reasonable amount that his opponent may wish to put up.

Ice running is rather a new game at the Head of the Lakes, but there are said to be a number of sprinters here who have done the trick, and are ready to go after Milton's challenge. Running on the ice, even with spiked shoes, is a far different proposition from the cinder track, and the corners require quite a lot of practice before they can be made in safety at high speed.

If he fails to get an answer to a challenge for an ice race, Milton is ready to take on any of the speed skaters at the Head of the Lakes at a slight handicap, the distance not being over half a mile, and the handicap varying according to the distance. He would much prefer, however, a race with another man on spikes.

Milton has won quite a reputation as a track sprinter as well, having defeated John St. Antoine, the Copper country runner, at Proctor, two years ago in a 100-yard dash, making the distance in 10½ seconds, and last summer, at the Butcher's picnic at Zenith Park, he distanced Gust Bye and Art Champagne, two of the fastest men at the Head of the Lakes, by good margins.

George Riddle, one of the fastest men on the track in Montreal, was in West Duluth last summer, and had a hunch that he could clean out the West Duluth boys. Riddle put up \$10 that he could do it, and Milton took the money easily, pulling away from his opponent at the start.

Last winter, on the ice, Milton went up against a man from Minneapolis and beat him by a good margin in a half-mile race.

Lethbridge, Alta., Feb. 2.—The Lethbridge baseball magnates are wearing broad smiles, for the mails have brought two letters from John W. Morrison, the premier manager of the Northern-Copper Country league last year, containing the signed contract of his engagement and the information that he has a lot of fine players on the string. It appears that Morrison had too great trust in the mail service, hence the stories that come from other places without contradiction, that he was jiggering with other clubs.

With Morrison as manager, Lethbridge is confident of putting up a splendid race for the initial pennant of the Western Canada league.

OLD TIME WEDDING GIFTS.

Country Life: In the list of presents received at the wedding of the daughter of Mr. Moor of Losely, in 1867, from M. Balam, Esq. out of Maryland, in Norfolk, appear the following: "Cranes, nine; heron-shawes, five; curlews, one; ducks, mallards, forty-four; geese, twenty-six; plovers, nine dozen; swannes, nine; larks, thirty-eight dozen; bytters, sixteen; knots, four dozen; god-wytzas, twenty-two."

It is a formidable list, including some of the birds, of which are larks and must, one would imagine, have been something of an embarrassment to Mr. Moor's daughter.

WILLIAM MILTON, Who Wants to Meet All Comers at Ice Running.

MUNCH WINS BOTH RACES

Defeats Wiggins and Robinson Yesterday Afternoon and Evening.

Going the distance in the remarkably fast time of 3:15, Joe Munch took the third and deciding heat from Walter Wiggins at the roller rink last evening, the Twin City crack coming out with a lead of twenty feet at the finish. Wiggins was there with the speed and kept the lead for the first twelve laps, but after that Munch drew steadily and won out on superior endurance, and a sprint in the last lap.

The fact that it was the deciding race of the series got out a good sized crowd, and the contestants were cheered excitedly from start to finish. In the afternoon Robinson, manager of Watson's Burlesques, who are holding forth at the Met this week, took a try at Munch and was defeated in slow time by about ten feet. Robinson was badly out of condition, and Munch had the race from start to finish and it took him 3:37 to finish the mile.

Robinson had a large sized coterie of fair rooters from his company on hand who backed their manager enthusiastically but to no avail. Robinson evidently knows the game, but his in no shape to go up against a man like Munch at present.

Tonight Munch will skate a three mile relay race, Busha going the first two miles and Slink coming in on the last mile.

Lethbridge, Alta., Feb. 2.—The Lethbridge baseball magnates are wearing broad smiles, for the mails have brought two letters from John W. Morrison, the premier manager of the Northern-Copper Country league last year, containing the signed contract of his engagement and the information that he has a lot of fine players on the string. It appears that Morrison had too great trust in the mail service, hence the stories that come from other places without contradiction, that he was jiggering with other clubs.

With Morrison as manager, Lethbridge is confident of putting up a splendid race for the initial pennant of the Western Canada league.

LETHBRIDGE GETS MORRISON

Calumet Manager Will Play With Western Canada Team.

Lethbridge, Alta., Feb. 2.—The Lethbridge baseball magnates are wearing broad smiles, for the mails have brought two letters from John W. Morrison, the premier manager of the Northern-Copper Country league last year, containing the signed contract of his engagement and the information that he has a lot of fine players on the string. It appears that Morrison had too great trust in the mail service, hence the stories that come from other places without contradiction, that he was jiggering with other clubs.

With Morrison as manager, Lethbridge is confident of putting up a splendid race for the initial pennant of the Western Canada league.

Yvette Guilbert, the French actress, now speaks English well enough to joke in it. At a tea given in her honor by a Philadelphia women's club she said: "English is not difficult. But as one word may have so many different meanings. That is sometimes vexing. 'A mother said to her daughter: 'Don't you find Gus rather rough?' 'The daughter answered, with a faint blush: 'Yes, mamma; and yet he says he shaves every day.'"

THREE MEN FROM HERE

Alroth, Larson and Smith Leave for Skating Tournament.

Amateur Championship of Northwest Will be Decided at St. Paul.

Duluth will be well represented at the big skating tournament to be held in St. Paul, under the auspices of the Northwestern Skating association, commencing tomorrow. This morning the local delegation, consisting of Carl Alroth, S. Larson, Ed Smith and Louis West, the coach and manager of the Duluth bunch, left for the Twin Cities, and expect to make a good showing in the races.

Ed Smith will enter only the \$50 yard event, while Alroth and Larson will tackle anything from the \$50 up. West is to take general charge of the delegation and do all the arranging of races and accommodations for the boys.

Charley Rankin will also be in attendance at the tournament, and Alroth hopes to be able to meet him in some of the distances, and show him up. There is no love wasted between these two men and any race in which they are entered will be fought bitterly to the last lap.

The tournament is decided by the number of points each contestant during its progress, the distances counting for more than the shorter sprints, and points being given for second and third places as well as first.

Rankin and Larson are both distance men, and hope to show up well in this department, while Smith has been cleaning up everything in sight at \$50 yards for the past month or so, when he toured the Dakotas and met eight men without being defeated.

The winner of the tournament will receive a gold medal, carrying with it the title of amateur skating champion of the Northwest.

NEW TRACK ON LAKE.

Good Ice Racing Program Scheduled for Sunday Afternoon.

Though local horsemen swore off a week or so ago and took a solemn oath that never again would they go to the trouble and expense of clearing an ice track only to have it buried three feet deep in snow the next day, the fine sheet of ice which has formed over Lake Superior proved too great a temptation, and all this week a crew of men have been at work and now a three-quarter mile, forty-foot track is ready for work on the lake and races are scheduled for tomorrow afternoon.

Hear, Chase and Golbraith have arranged races for their horses for a \$5 purse and Tanner, Beulah Smith and Minnie Mac will get into the game, a \$10 race being the prize.

The old track at the West end is hopelessly snowed under, but the horsemen say that the new one is in every way a better course than the old.

WHEN THE POPE PRESCRIBED.

Among the many stories told of Dr. Lappont, who until his death a couple of weeks ago was chief physician to the pope, is one of an occasion upon which Leo XIII. turned the tables on him. Lappont was a strict disciplinarian in medical matters and Leo was a difficult patient. He often complained of the restraints placed on him and sometimes insisted on having his way a better course than the old.

One day when the pope was suffering from a very severe cold he insisted on having a pronounced and important reception, despite Lappont's protests. When it became plain that the pope's determination could not be shaken the doctor as a last resort handed him a little box with several tablets in it, imploring him to take one whenever the symptoms of the cold became distressing.

The doctor further took up a position in the audience chamber, half hidden behind a tapestry, where he could watch his patient closely and jump to his support if he should show any signs of a collapse.

As the audience proceeded the pope found all about the box of tablets—at least Lappont failed to see him take any of them. Present Lappont thought the pope was becoming hoarse, and he coughed a little as he spoke. The doctor made up his mind that he must act. He coughed rather loudly so as to attract the pope's attention, and when he caught his eye made a gesture suggestive of taking a tablet from the box and swallowing it.

The pope instantly turned to one of his secretaries standing near by. "Call the doctor to me," said he.

Lappont sprang to his side. "Doctor," said the pope, "I notice you have a very severe cough. I am greatly relieved at it. But I have here some tablets—and he produced from the box from the fold of his robes—a which I am told are splendid for a cold. Let me prescribe one for you. You will do me the pleasure of taking it at once."

What could Lappont do but take his medicine. The whole gathering, however, understood the situation, and for once a papal audience was interrupted by a burst of laughter.

ROUGH ON GUS.

Yvette Guilbert, the French actress, now speaks English well enough to joke in it.

At a tea given in her honor by a Philadelphia women's club she said: "English is not difficult. But as one word may have so many different meanings. That is sometimes vexing. 'A mother said to her daughter: 'Don't you find Gus rather rough?' 'The daughter answered, with a faint blush: 'Yes, mamma; and yet he says he shaves every day.'"

For Rheumatic Sufferers. The quick relief from pain afforded by applying Chamberlain's Pain Balm makes it a favorite with sufferers from rheumatism, sciatica, lame back, lumbago, and deep seated and muscular pains. For sale by all druggists.

REAL ESTATE MARKET IS IN GOOD CONDITION

Several Sales of Residence Property Made and a Number of Important Trades Nearly Closed—Howard Investment Company Plans \$60,000 Improvement in East End This Year.

While there has not been a very lively selling movement of Duluth realty this past week, there has been an excellent inquiry, a few trades have been closed up, and there are pending two or three large deals that may come to a head within the next few days.

One is said to involve a well known centrally located flat building, valued in the neighborhood of \$50,000, and the other involves two fine East end properties, one a corner for extensive improvements and the other a handsome residence, valued at from \$12,000 to \$14,000.

Besides the transactions mentioned, a local broker has earned money down on a trade for a \$14,000 property, and another for about \$1,000. In spite of the copper craze, Duluth realty seems to be holding its own pretty well and it is anticipated that more than one of the recent lucky speculators in coppers may invest his profits in a home in one of the several residence-ports of this city.

Mary Fiskett has sold Joseph Rich a residence property on the lower side of Mesaba avenue, between Third and Fourth avenues west, described as the east half of lot 60, block 51, Duluth proper, Third division.

J. T. Michaud, of the St. Louis hotel, S. H. Rothermel has sold the old

The Western Debutante & Realty company, represented by E. D. Field & Co., have purchased from Thomas Owens and others, the residence property at the southwest corner of Second street and Fourteenth avenue east. The property was occupied for some years by J. C. Mishler and family, and is described as lots 7 and 8, block 82, Endon.

Louis Johnson has purchased from P. Bender, for \$1,200, a house and lot on the lower side of Fifth street between Nineteenth and Twentieth avenues west.

E. A. Brewer has purchased from the Van Sant Land company a vacant lot on the lower side of East First street adjoining the Endon Methodist church property. The consideration was \$1,500. The lot is described as lot 7, block 61, Endon.

R. F. Wilson has purchased from K. E. Parker the latter's residence property on Duluth Heights for \$1,400. The property is located in the Fifth division, block 5.

Children's home property on the lower side of Superior street, near Eighteenth avenue east, to Louis Wolfson, for \$7,300. The property, when bought by Mr. Rothermel a few years ago, was remodeled into a double house.

Oliver Selander has sold Jennie Perry a lot on the lower side of Third street, between Seventeenth and Eighteenth avenues east, for \$1,250. The seller was represented by Mendenhall & Hoopes and the buyer by Stryker, Manley & Buck.

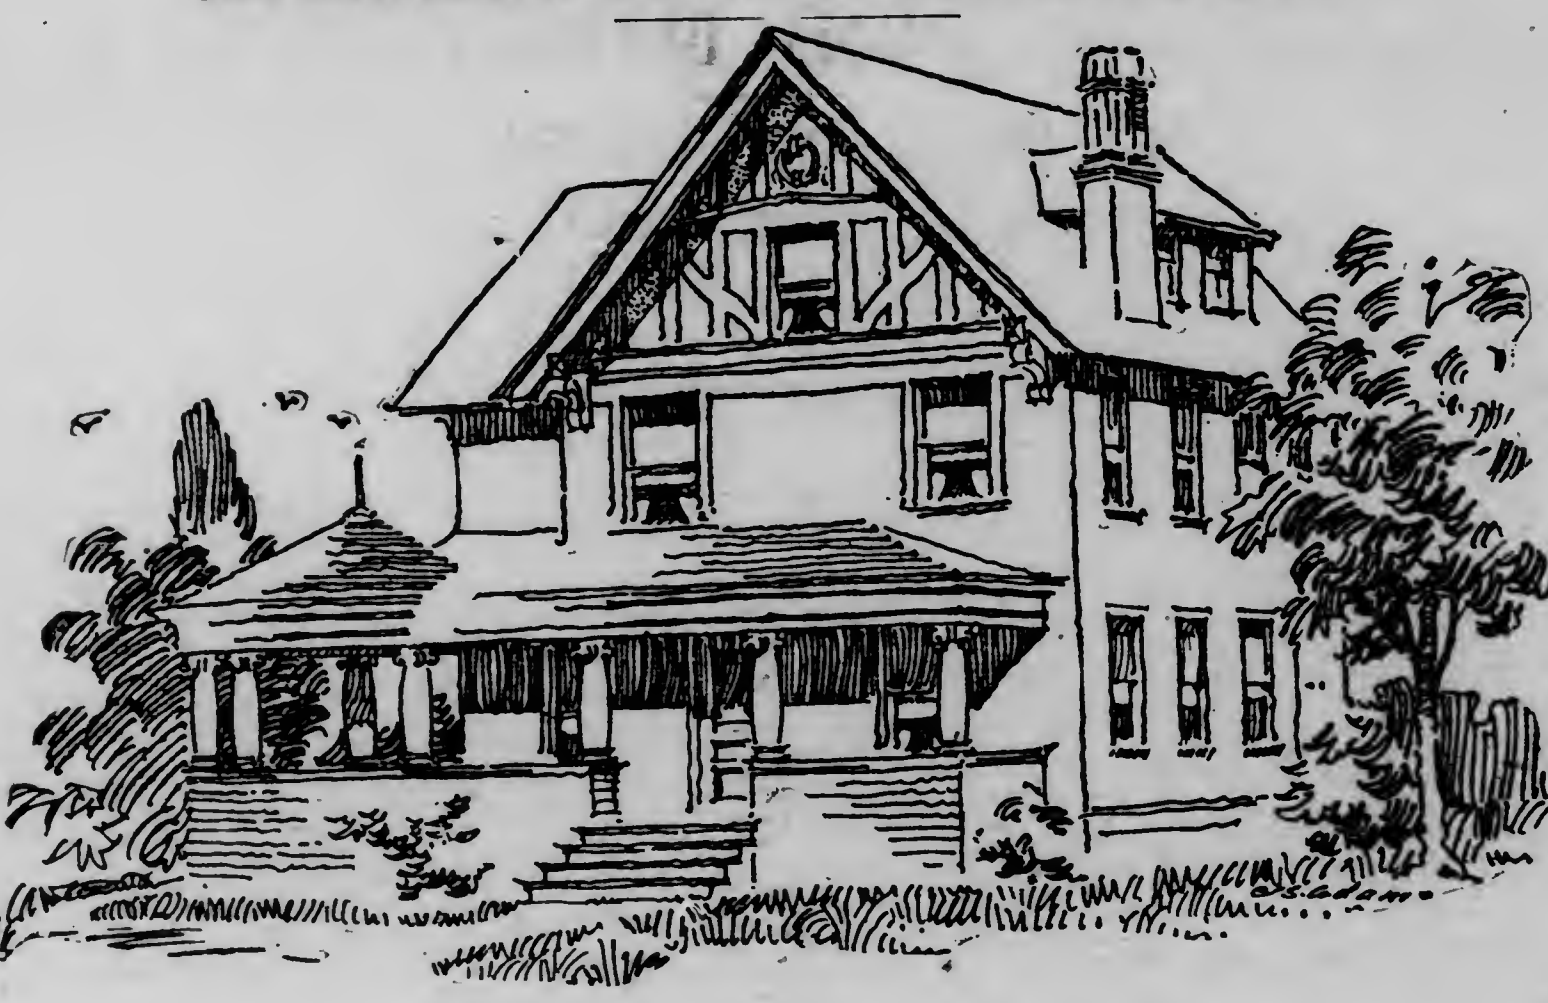

S. H. Rudberg has sold Louis Lindahl the east half of lot 45, block 82, Third division, for \$1,500. The property is located on the upper side of Sixth street, near Third avenue east.

City Attorney Bert Fester has sold Martin Rosendahl the southwest corner of Third street and Twenty-third avenue east for \$3,200. The property fronts 100 feet on Third street, and is described as lots 7 and 8, block 3, Highland Park addition. It is understood that Mr. Rosendahl contemplates the improvement of the corner in the near future with a fine residence. The deal was made through the office of Stryker, Manley & Buck.

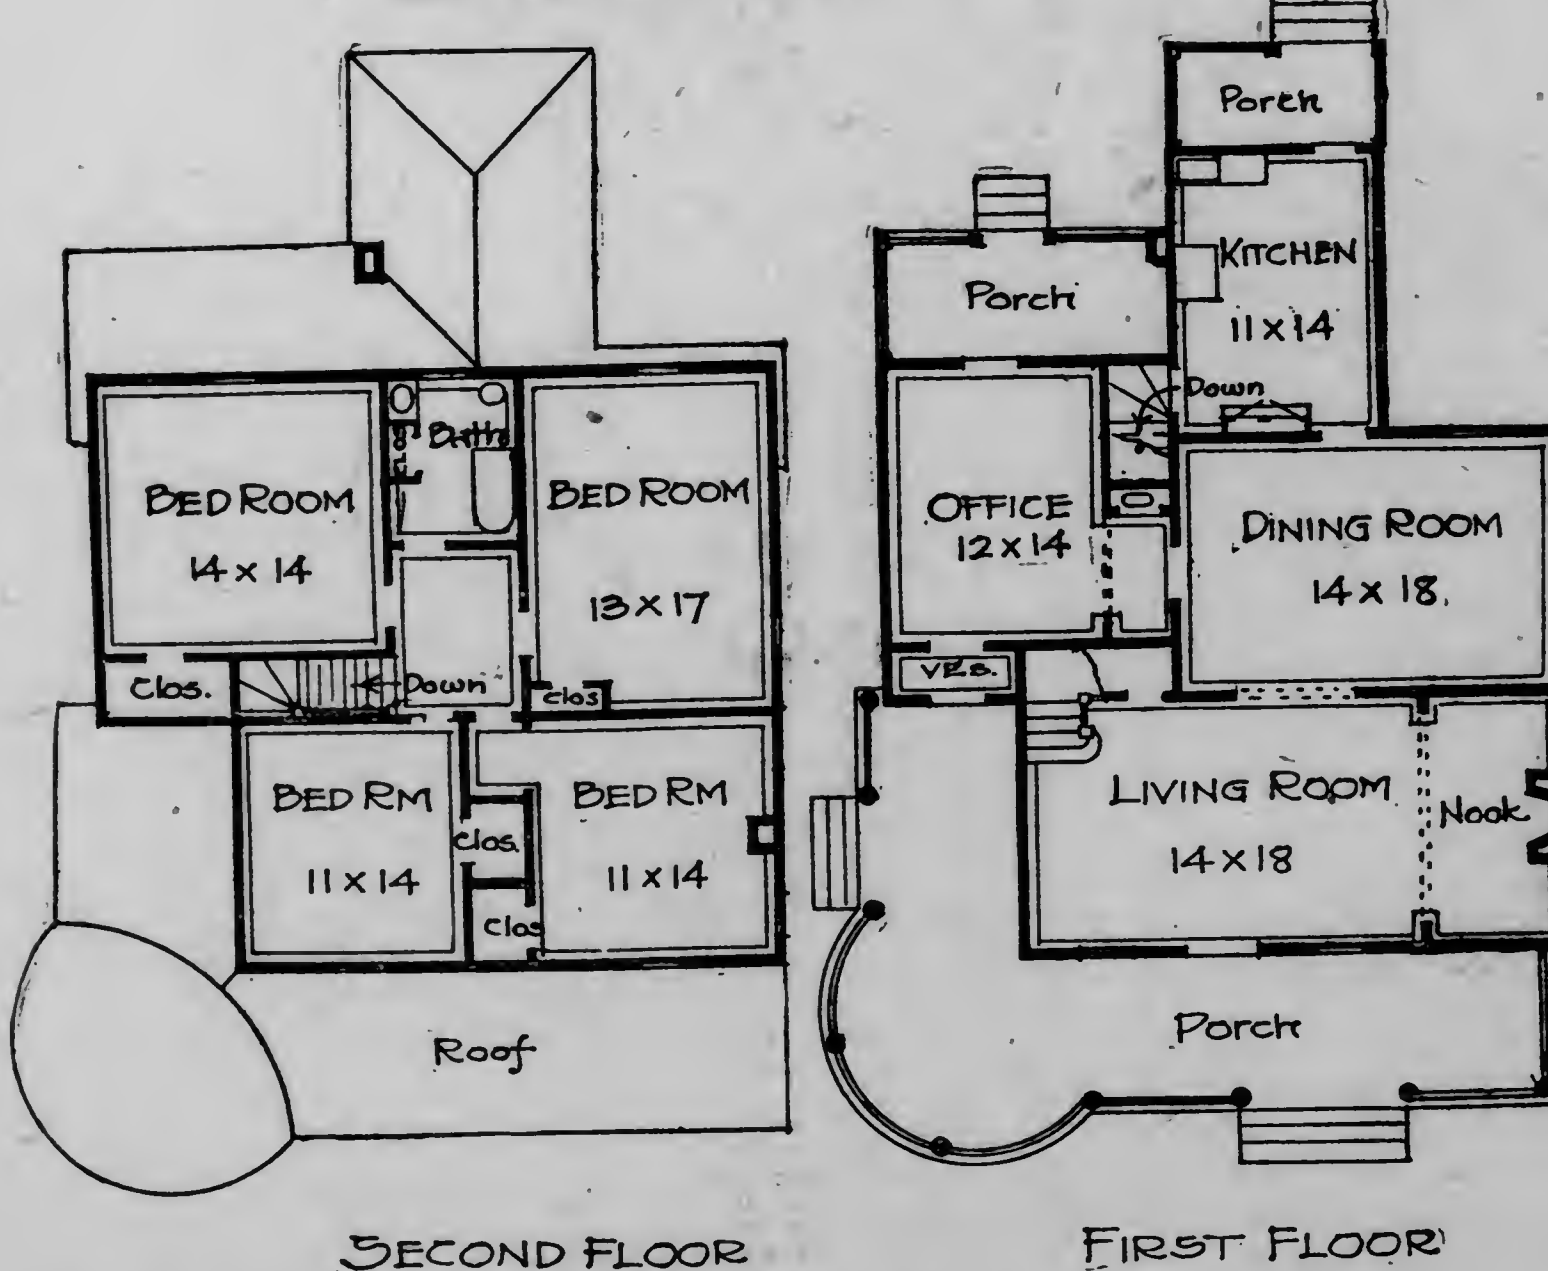

N. J. Upham & Co. reports the sale of the double house property at 120 and 122 Nineteenth avenue west from A. S. Whiting to H. J. Nason for \$3,750. The firm also negotiated the sale of a lot in block 10 of Helm's addition to the Scott-Graft Lumber company.

Architect A. Terryberry is preparing plans for six houses and a large flat building, to be erected at the corner of First street and Fourteenth avenues east, for the Howard Investment company. The houses will face First street and will be similar to those built by the same company, last year, near the corner of Superior street and Sixteenth avenue east. The flat building will face Fourteenth avenue east. It will be four stories high, and will contain eight flats of seven rooms each. The houses and flats are to be strictly modern throughout, and will be heated from one heating plant, located in the flat building. The estimated cost

AN ARTISTIC COTTAGE COSTING \$3,280.

—CLYDE S. ADAMS ARCHITECT—

This suburban residence has well planned interior and an artistic exterior, and is well adapted for the home of a professional man. The porch is generous with a private entrance to the office. The large living room with its nook and fireplace is a charming part of the house. The dining room is spacious and convenient for both the living room and kitchen.

The itemized cost of construction is given below:

Excavation	\$50	Mill work	500	Brickwork	100
Stonework	190	Hardware	75	Plumbing, etc.	75
Carpeting	555	Lumber	625	Hice Air Heating	25
Cement floor	50	Painting and Glass	275	Tile work	25
Plastering	375	Tinwork	500		

HANDSOME BOOKLET FREE!

L. A. LARSEN CO.,
BOTH PHONES 1920. 214-215 PROVIDENCE BLDG.

of the houses and flats is about \$60,000.

Mr. Terryberry is also getting out plans for a row of houses to be erected on London road, between Eleventh and Twelfth avenues east, for Eastern owners. The houses are to have nine rooms and the other two to have six rooms each. The estimated cost is about \$12,000. Next week Mr. Terryberry will open bids for the Dr. E. H. Lower building, on Fourth avenue west, between Third and Fourth streets.

L. A. Larsen & Co. report the following sales closed during the past month: Four tenement houses and lots 1, 2 and 3, block 10, Harrington's addition, from Elizabeth Lynch to local parties for \$4,600; residence at 114 Nineteenth avenue west to W. A. Shaleen for \$1,500; lot 3, block 72, London addition, to E. J. Lynch, for \$400; a 6-acre tract in section 5, 59-15, to Erick J. Sundquist, for \$400; lot 4, block 10, Hazelwood Park addition, to John A. Johnson, for \$300. Mr. Larson says he finds a tendency among outside owners of Duluth realty to advance prices on their holdings.

WAKE UP!

Is your money earning a high rate of interest? If not, let us show you where to invest for big dividends. We can sell you, for \$2,800, about one-third cash, a property bringing in an annual rental of \$500. One double and two single houses. Heart of city. Fine renting locality. Houses never vacant. Ground sure to increase in value. An absolutely safe investment. Wise buyers will do well to consider this offer.

T. W. Wahl & Co.
201 Exchange Building.

Monthly Dividends

We offer for a short time a strictly first class modern double brick building, very central. The best place available for a first class boarding house; 30 rooms, steam heat. Price \$15,000.

D. W. SCOTT,
18 Mesaba Block.

\$1300	Eight-room house, 25x140; well water; Third avenue payments.
\$1500	Seven-room house, 60x75; corner; monthly payments.
\$2700	Store lot, 25x140, East Fourth street, best location.
\$3600	Store and five-room house; East Fourth; 25x140; central location.
\$4000	Two houses, Mesaba avenue and one on Fifth street; 25x140; income \$60.00 per month; all conveniences; easy payments.

M. L. BECK,
423 East Fourth Street.

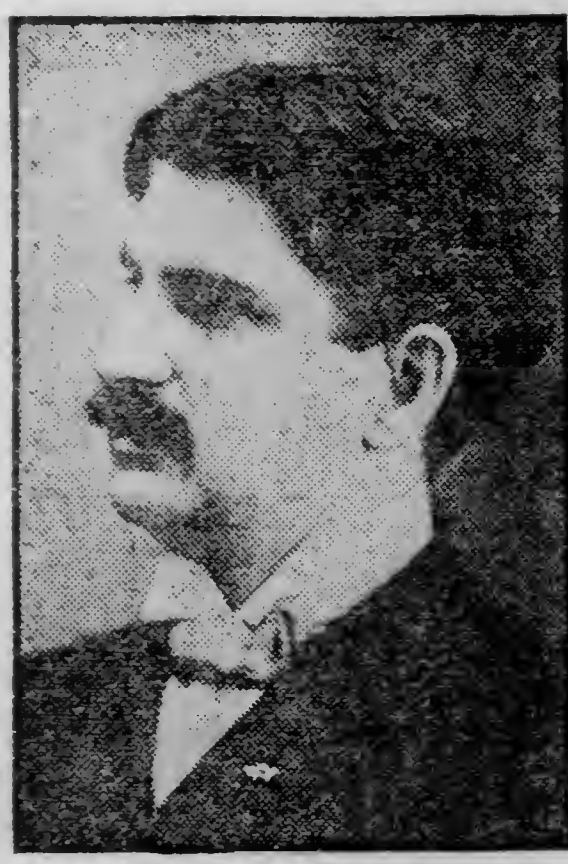

Copper Making Fortunes For All!

The Surest Road to Riches

I Can Show You An Easy Way to Make Some Money!

I have recently been fortunate enough to secure a group of twelve copper claims, comprising a tract of about 640 acres in all, in that wonderful copper district of East Kootenay mining district, province of British Columbia. This district contains the most famous mines of that copper section—said to be the richest in the world.

Lying adjacent to this property are the mines of the famous Granby Copper Company, which is paying 24 per cent yearly on a capitalization of \$15,000,000. The Granby ore body is a much lower grade in copper than ours, averaging only about 2 per cent. A great deal of the copper showings on our claims average as high as 15 per cent in copper. It is a simple matter of arithmetic to figure what we can pay on a capitalization which is only one-third that of the Granby Company when our ore runs from three to five times as rich as theirs.

J. C. KERNOOHAN, M. E.
Vice President of Company and Prominent Mining Engineer.

and that opinion is shared by all of the property, develop an immense amount of copper ore. At an angle of exposure the vein is fully 15 feet wide, and is easily traced on the property by cross-cuts and float for more than 2½ miles. There is between 1 and 2 feet of nearly solid chalcopryite on the foot wall. This part of the vein is ready for shipment to smelter as soon as mining operations are begun. 75 per cent of the world's supply of copper is produced from chalcopryite ores.

The upper end of the vein is covered by a large rockslide, which crossed the vein at right angles, crushing down thousands of tons of solid chalcopryite to the creek bottom. This is ample evidence that a much larger body of high-grade ore exists and is buried under the slide than is apparent on the surface and where the vein has been cross-cut.

THOUSANDS OF TONS OF ORE READY
I was so much interested in the proposition that I went to British Columbia and spent over three weeks there, making a careful study of the conditions, came to the conclusion that thousands of tons of this high-grade ore could be shipped from the surface of these properties before any actual mining was begun. We propose to haul ore over this road to the cars by a traction engine, which we are about ready to install.

A GREAT WATER SUPPLY.
No copper mine can be truly great without plenty of water, and this property has a magnificent supply for all purposes. Warren Creek is a large stream—Canadian Creek flows south of it, and all the claims are situated between Warren Creek and Wells Creek. Wells Creek is another stream flowing across the property from east to west. Any claim is situated between these two creeks. All the needs of the property, but, in addition to the above, there is a natural reservoir, known as Emerald Lake, located on "Paragon No. 1" claim, which is 100 feet above the lowest outcrop. This lake is spring fed and is about 1,000 feet long, 400 feet wide and 40 feet deep. Water could be piped from this lake to a point near where the vein is located, and the water would furnish us power and light in abundance for all the needs of the Company at all times.

TRANSPORTATION FACILITIES AMPLE
There is a wagon road nearly completed connecting our property with the Kootenay Central Railway. This road is designed to be the freight transportation branch for the Canadian Pacific. We propose to haul ore over this road to the cars by a traction engine, which we are about ready to install.

CLEVELAND CAPITAL INTERESTED
Upon my return to Cleveland I at once organized a company known as the British-American Copper Mines & Smelter Co., with a capitalization of Five Million Dollars (\$5,000,000), divided into five million (5,000,000) shares of the par value of One Dollar (\$1.00) each, fully paid, non-forfeitable and non-assessable.

OFFICERS AND DIRECTORS OF THE COMPANY
The following are the officers and directors of the company:

President, CHARLES H. TUCKER, Cleveland, O., Pres. Masonic Temple Association, formerly Gen. Asst. Great Northern Steamship Company.
Vice President, J. C. KERNOOHAN, Cleveland, O., of J. C. Kernoohan Co.
Treasurer, C. H. TAYLOR, Cleveland, O.; Attorney at Law; Secretary Gillette Manufacturing Company.
Secretary, THOMAS G. SELLECK, Cleveland, O.; Public Accountant.
Managing Director and Engineer in Charge, E. AUGUST BRADLEY, E. M. Revelstock, B. C. Mining Engineer of International reputation.
Directors: C. H. Lane, William Cowan, Alexander McPherson, M. M. Cleveland, Thomas G. Selleck, Charles H. Tucker, E. August Bradley, C. H. Taylor, J. C. Kernoohan, Consulting Engineer, Francis J. Peck.
No officer or director but the engineers receive salary.
The Imperial Bank of Canada, at Golden, B. C., is the British Columbia Depository.

WHAT COPPER MINES HAVE PAID INVESTORS
Four years ago the Calumet and Arizona copper property did not present anything like the possibilities of the British-American, yet \$500,000 invested in Calumet and Arizona stock four years ago would be worth \$30,000,000 today. \$500,000 invested in Nevada Consolidated stock only one year ago would be worth today on the market over \$10,000,000. \$500,000 invested in North Butte copper stock a year ago would be worth over \$10,000,000 today.
During the year 1906 the copper mines made a magnificent showing in net earnings, the dividends amounting to more than \$27,000,000.00 against \$2,500,000.

BRIDE IMPRISONED

At Philadelphia for Failure to Pay for Her Hat.

Philadelphia, Feb. 2.—Taken from her husband, to whom she had been married only a few months, imprisoned for two days and released only after the attorney general of Delaware had intervened, was the expert witness of Mrs. Nora Beddell, niece of I.

T. Parker, lieutenant governor of Delaware, Miss Beddell, who belongs to one of the oldest families of Delaware, has been released from the county prison.
The police department is convinced that it was deceived by Chief of Police Black of Wilmington. A hat, valued at \$21, purchased by Mrs. Beddell at a Wilmington store, as part of her wedding trousseau, was the cause of all the trouble. The department story claimed the hat was not paid for. Mrs. Beddell did not deny this. She says she simply overlooked the item.
William Beddell, her husband, is employed in this city, and a few weeks ago came here to live. Tuesday Chief Black of Wilmington secured a warrant charging Mrs. Beddell with false pretenses. Mrs. Beddell pleaded with the detective not to arrest her. She explained that the charge was absurd; but she was arrested.
When young Beddell was informed of his wife's arrest he was frantic.

38.75 paid in 1905. The total copper output of the world in 1906 was estimated at 1,200,000 lbs. of which this country produced a little more than 27 per cent. The official returns for 1906 are not yet obtainable, but they will be largely in excess of the 1905 figures.
It is estimated that the year of 1907 will show a copper production aggregating the stupendous sum of 15 millions of dollars.
In the last issue of this paper in an article entitled "Wealth from the Mines" are the figures: In the year 1906 there were mined 4,257,712 ounces of gold, valued at over \$80,000,000. The value of the silver product was \$127,765,150. As the prices on copper have materially advanced during the past year, the figures for 1906 should show a tremendous increase over those of 1905, but the interesting part of these figures is that copper produced more money than silver and gold put together.

COPPER WILL GO HIGHER
I am simply citing the figures to show what enormous profits are being made in copper stocks at the present time, and to give some idea of what you may expect to receive in the way of dividends in a year from this time if you buy British-American stock at the present price.

SEND FOR FULL PARTICULARS
I have prepared a prospectus, which goes completely into details regarding this opportunity of making money in copper. Every phase of this proposition is carefully worked out in this book, and I am going to urge you to send for it before you have laid this advertisement aside. I am confident that if I can get you to read the prospectus, I shall number you among our rapidly growing list of stockholders, and every stockholder that we secure puts us that much nearer the fulfillment of our plans to bring this great property into the producing stage.

I expect to begin shipping by August of this year. I may be able to begin shipment in July, but I want to gather up this loose amount of chalcopryite ore which lies in the creek bottoms and hurry it to the smelter in the very earliest date possible. If I can do this I can begin paying dividends this year, and I see no reason why he should not do better than some of these companies have done for our stockholders.

We shall have the benefit of improved machinery, and can reduce our cost per ore in the most economical manner. We have good transportation facilities at a low cost. We have apparently an inexhaustible supply of ore, and the men behind the mine are good business men who stand high in the business world.

I believe I am doing you a great service in drawing your attention to this proposition, and my advice to you is to write me today and buy all of this stock that you can possibly pay for while it is 20 cents a share, for I can't guarantee to hold the price there longer than a week or ten days from the time that you will have read this announcement.
Vice President British-American Copper Mines & Smelter Company.

WIEBOLDT IN SANATORIUM.
Chicago Merchant Reported Dead Is Located in Oshkosh, Wis.
Chicago, Feb. 2.—W. R. Wieboldt is in a sanatorium at Oshkosh, Wis. Capt. Thomas E. Kane of the Sheffield avenue station has received definite information to this effect. He believes the furniture merchant, who has disappeared Sunday night, after an incendiary fire, soon will be in the hands of the law.
The information was received through an intimate friend of the Wieboldt family. Acting upon it, Capt. Kane has telegraphed to Oshkosh, ordering a secret search of the hospitals. He sent detectives to the city yesterday.
Arrangements will be made for swearing out warrants, charging the father and daughter with arson. A rigid investigation will be made into conflicting statements as to Martha Wieboldt's whereabouts.

BETTER THAN SPANKING.
Spanking does not cure children of bad habits. It is said to have been few children would do it. There is a constitutional cause for this. Mrs. M. Summers, Box 161, North Dame, Ind., will send her home treatment to any mother. She asks no money. Write her today if your children trouble you in this way. Do not waste time. The chances are you will be helped.

ANNUAL HOP AND DANCE

Junior Class at the High School Has Merry Evening.
Students and Faculty Enjoy Dinner and Informal Dance.

The members of the junior class of the high school held their annual dinner and dance at the school building last evening. About 150 boys and girls of the class were seated at the center were the faculty of the school. The tables were prettily decorated with black and gold colors of the spirit of the class. The banquet which was served by the girls of the class was delicious. Daily menu cards, sandwiches, scalloped potatoes, salad, ice cream, cake, chocolate and fruit. Everything was perfect and the boys were unanimous in declaring it the best "feed" ever.

The conversation did not lag at any time and the dinner was enlivened by an exhibition of basketball by several members of the faculty, who performed with oranges. Prof. Phillips displayed particular skill in his shooting and catching.

Several of the girls of the class acted as waitresses and were always on hand when anything was wanted.
At the close of the dinner several speeches were made. President Polier of the junior class acted as toastmaster. He praised the girls of the class for their ability in their shooting and catching.

Superintendent Denfeld was then introduced. He said that it had been some time since he had attended any of the school banquets and that he was very glad to be present once more. He said that although his presence is always welcomed in the assembly hall for obvious reasons, he did not feel so sure about it here, as they would be anxious to get through with the speechmaking and take part in a more interesting exercise upstairs. He spoke of the value of class spirit and urged that it be fostered as much as possible.

"These parties," he said, "are good things to have. They increase the spirit of the class. I hope that you will always remember your high school days with pleasure and particularly these delightful entertainments."

Principal Smith then spoke to the class. He said that he had brought girls with him and hoped that most of the boys had done as well. He expressed his delight at having the opportunity to test the abilities of the girls as cooks and said that he was perfectly satisfied with the results.

"This class," he said, "is a remarkable one in many ways. It is especially so in having exactly as many boys as girls. There are eighty-one boys and I would like to have it remain so for the rest of your high school course."

"One hundred and four pupils graduated from the school in 1905, less than that in 1906, and about 100 will graduate this year. I am looking to you to establish a record in this respect, and the thing which will hold you together if anything will, is just this class spirit which you are strengthening."

Prof. Lambert, who has but recently come to the school gave an interesting talk to the students. He said that he had seen many high schools in different parts of the country, but that he had never seen one so well equipped as the Duluth school, in either the East or West. Mr. Lambert closed with a clever impersonation of an Irish woman, which convulsed his audience.

Speeches were also made by Professors Phillips and Townsend, and Miss Wells, Miss Von Scholten, and Miss McGofford.

Elmer McDowell, president of the senior class spoke briefly to the juniors. He said that as it was the last opportunity he would have to talk at the banquet, he would tell the truth and acknowledge that they are a good class.

Louis DeWolf, president of the sophomore class, and Russell Mather, the freshman president, also spoke, cracking several jokes at the expense of the juniors and telling them of the merits of their respective classes.

Leo Smed gave several witty toasts to the members of the faculty to whom the juniors recite, and this closed the speaking of the banquet the members of the other classes arrived and dancing was enjoyed to a late hour.

Wants Millennium.
Crookston Times: A Wisconsin dreamer has introduced a bill into the legislature requiring that hotel sheets be nine feet long, that there be individual towels in each room, and that bed clothing be aired daily. Some men want the millennium without being willing to wait for it.

OTHER SIDE OF THE CASE

Superior Man Takes Up Cudgel for Traction Company.
Says People Have No Good Grounds for Complaint.

"Everything considered there is little cause for complaint from the patrons of the street railway relative to the cars that run between Duluth and Superior," said George A. Barnaby of Superior, who is employed in Duluth. "Since the interest in the street railway company has done everything within its power to reasonably provide for the comfortable transportation of passengers. Unfortunately, the weather has been very cold, adding materially to the unfavorable features. However, in every possible way, every effort has been made to see that patrons are considerably treated."

"I really cannot see any justice in the complaints against the street railway company. As soon as the bridge was knocked down they hustled around and made arrangements for a ferry to connect their lines. They put considerable expense into changing tracks and making it as comfortable as possible in every way for their patrons. I was really surprised to find that as soon as the cold weather came they had the little waiting stations, which they had put up on either side, closed in and provided with stoves; and it appears now that they have a man constantly attending to these waiting stations, keeping the fires in these stoves, sweeping and sanding the walks, etc., and I have never, since they started to heat them, several weeks ago, found them without enough fire to take the chill off."

"It is true there is quite a gap between the station in Duluth and the place where the car has to stop, but it seems that they have arranged their schedules so that it seldom happens that there is not one of the large cars standing on the loop. I have found that one car always arrives before the preceding one leaves. While the connections are not always perfect, I have found them as close as could be expected, and there is really no excuse for any one suffering very much on either side with a waiting station with a fire in it open at all times."

"The service given by Capt. D. E. Stevens since he had to lay up his car on the ferry is also better than I had thought it would be possible to give. He has even gone to the extent of putting a stove into the car, which helps wonderfully to make it more comfortable for the short trip across the bay."

While the cars on the Superior side are of the single truck type, I understand that there are reasons why the company cannot run the double truck cars on that side, and I have found that during the rush hours there is always an extra car on the Superior side to take care of any sudden rush of travel that might come from the double truck cars on the Duluth side. Recently the travel has been very light, and I have seen very little crowding of the small cars."

"The ferry or 'bus' is so operated that it is practically free to street car passengers and 5 cents to others. Talk to the students. He said that he had seen many high schools in different parts of the country, but that he had never seen one so well equipped as the Duluth school, in either the East or West. Mr. Lambert closed with a clever impersonation of an Irish woman, which convulsed his audience.

Leo Smed gave several witty toasts to the members of the faculty to whom the juniors recite, and this closed the speaking of the banquet the members of the other classes arrived and dancing was enjoyed to a late hour.

DUN'S WEEKLY TRADE REVIEW
Forward Business in Iron and Steel is Most Extensive.

New York, Feb. 2.—R. G. Dun & Co.'s Weekly Review of Trade says: Although the average of sixty of the most active railway securities fell this week to the lowest point since 1904, there was no corresponding reaction in commercial activity, which continued beyond precedent. Reports from leading manufacturing centers indicate that scarcely any idle machinery can be found, preparations for future trade indicating a confidence in well maintained consumption.

Forward business is most extensive in the iron and steel manufacture, and the cotton industry, but other prominent producers have liberal contracts on hand, also, and the mercantile outlook is bright. Wholesale houses receive large contracts for spring delivery, especially in dry goods lines, and the settled winter weather has produced a wholesale reduction in retail stocks of heavy weight wearing apparel and other seasonal merchandise.

Little speculation for delivery of Bessemer iron by the prominent steel interests during the past week has increased the available supply, but premiums for spot shipment tend upward, because of the pressure from smaller steel producers, and there is no evidence of weakness in the situation. A large order for pipe and tubes have stiffened quotations to the extent of about \$2 per ton. Bridge work and other contracts keep the market bare of structural shapes, rigid investigation will be made into conflicting statements as to Martha Wieboldt's whereabouts.

ture in primary markets for cotton goods and predictions of further advances are being realized constantly, despite apparent precedents to the contrary. A general resume of the situation discloses a level of prices and a scarcity of supplies that has not existed since the Civil war, and there is the additional factor of no element threatening weakness, although quotations are conceded to be abnormally high. But, with the production of mills sold so far ahead, there is no interest in new business, and spot stocks are practically nothing, while in many departments no goods will be available for some months. As to woolen goods, the next development of interest will be the opening of higher grades, notably fancy worsteds, about which nothing definite is known.

No changes in prices are reported, the most grades of leather being steady at the recent advance, except that concessions are offered in Texas oak hides. Betting butts are very strong. Tanners of glazed kid report that the cost of goatskins is above a parity with finished leather, and some leading concerns are curtailing production. Packer hides have again sold at full figures on small lines, but in some sections of the market, notably for country leathers, large contracts are reported at fractional concessions.

Commodity markets have shown little activity during the past week, and variations in prices were fractional.

The growing demand for Hunt's Perfect Baking Powder is the indorsement of the quality of this home-made product.

BARON KANEKO BELIEVES
(Continued from page 1.)

utterance since the farewell message of President Washington. It is unprecedented in the way it so strongly advocates a foreign cause. No stronger or abler advocate could be found for Japan. When the text of his message bearing on the school question was fully translated in the leading papers throughout this country, even Formosa could readily see and appreciate the profoundness of his arguments. Had the question arisen elsewhere, a crisis would have occurred and loud defiance have been uttered over the loss and breadth of the empire. On the other hand, the quiet tone of the press clearly demonstrates the strength of the confidence reposed in President Roosevelt and the typical American sentiment generally.

"As a sincere friend, America could not help but regret that San Francisco officials should have chosen innocent children for effecting their political ends."

"All my friends who have recently returned from abroad, making comparative observation of educational systems in civilized countries, concur in giving the first rank to the American system. The fact that such an excellent fruit of civilization has been refused to the children of a friendly power, and that, too, in a country acknowledged as the practical exponent of humanitarianism, only tends to alienate it from the sympathies of the civilized world. Before this injustice, Japan rests peaceful and quiet. Not a single soul has ever thought that the San Francisco affair would endanger the friendship of both nations. The affair, disagreeable and regrettable as it is, has never demonstrated the purpose of demonstrating to the world how deep rooted is the friendship between Japan and America. The latent cordiality Japan entertains for her tutor is shown by the fact that, but for unfeeling trusts in support of her rights to the justice which guides American sentiment."

side, Thursday evening, pair of
nose glasses. Return to 223 Third avenue
west.

LAMED THE GHOST.

Sir William Henry Perkins, the in-
ventor of many coal tar dyes, was
talking in New York, before he sailed
for England, about the Physical Re-
search society.

"Some other scientists go in for phy-
sical research," he said, "though I
confess that to me the subject makes
no great appeal."

"Personally I have come in contact,
during a fairly long career, with but
one ghost story. It's here was a man
when I'll call Snooks."

"He was gazing at a country house
and was put in the haunted chamber
for the night. He said he felt no un-
easiness. Nevertheless, he took to bed
with him a revolver of the latest Ameri-
can pattern."

"He fell asleep without difficulty, but,
as the clock was striking 2, he awoke
with a strange feeling of oppression."

"Lifting his head he peered about
him, the room was wanly illumined by
the full moon, and in that weird, bluish
light he saw a small hand clapping the
rail at the foot of his bed."

"Who's there?" he said tremulous-
ly.

"There was no reply, the hand did
not move."

"Who's there?" said Snooks again.
"Answer or I'll shoot."

"Again there was no reply, and
Snooks sat up cautiously, took careful
aim and fired."

"He limped from that night on, for
he shot off two of his own toes."

A SWISH ERROR.

"In my serabooks," said Clyde
Fitch, the playwright, "I have many
examples of typographical errors."

"Of all these errors I like best the
one wherein a tea given by a society
woman in '97 was called a swill af-
fair."

Correct Aprons and Caps for Parlor Maid's Use

MAID'S Dainty Linen Apron and Cap.
FROM LORD & TAYLOR. PHOTO JOEL REBER.

There is more to a maid's apron than meets the eye of the untutored and the status of a housekeeper may be judged greatly from it. That it shall be fresh every one will agree, and in the light of that assent it is extraordinary how often one sees a maid open a front door wearing an apron that shows decided marks of dirty work.

This is really inexcusable, for if the family income is so limited that the maid does certain tasks which are dirty, her white apron may still be kept fresh. This is accomplished by having her wear a colored one over the white while at work, and if the door bell rings she can slip off the dingy one and put on a second and be neat to receive a visitor.

Next to neatness, frugality is a sine quoniam of white aprons. Holes are absolutely inexcusable, and when the style of having bibs and shoulder straps is worn, the latter should be snugly fastened at the back so that there will be no danger of their slipping down over the shoulder like a very deplorable evening bodice.

In the last year English rules governing the wearing of aprons have been adopted. In many houses where a large staff is employed, simplicity may be taken as the guiding principle; frilly and fanciful affairs are generally tabooed, and then, cambric, and some-

times muslin, are the materials employed.

Housemaids wear in the mornings long linen aprons, gathered into a band at the waist, and extending right round to the back, the hem being one and a half to two inches wide.

In the afternoon, and when dressed, they wear aprons of muslin, cambric or fine linen, made in much the same way as the morning ones, only they do not extend quite around to the back, and are not long, while the hem is about the same width.

Parlor maids wear much the same, only their aprons may be made with bibs or straps, which are not required for housemaids.

Laundry maids wear large linen aprons with bibs, while kitchen and scullery maids wear aprons similar to those for the housemaids, of coarser linen, either white or blue. These overalls are worn over clean white ones, so that they can easily be removed when required.

Cooks are allowed a little more liberty, but as a rule wear bibs. Cooks of the best class now use "cooling" sleeves of the same material as their aprons. Many American cooks are adopted short sleeve blouses or having elbow sleeves made to all their kitchen frocks. The effect is decidedly tidy.

Separate Lace Flounces Make Plain Waists Dressy

CIRCULAR FLOUNCE FOR HIGH OR LOW NECK.
PHOTO JOEL REBER.

The separate lace flounces that have recently become such favorites with young women, are a boon to the working girl, for they may be slipped on over a plain tailored shirt waist that has been worn in an office all day, and will make the latter look as dressy as an elaborately trimmed blouse. For the busy woman who must hurry from work to an afternoon tea, or a reception, with no time to change her frock, this flounce or series of ruffles of real machine lace is a blessing.

for it may be pinned in yoke shape about the shoulders and fastened in either back or front, according to the opening of the waist.

If desired, it may be worn with a low neck blouse, for it makes a pretty finish, and is quite fancy enough for evening or dinner wear. These flounces may be easily made at home from old or new laces, for they are simply fashioned by sewing together two or more ruffles or lace of any width desired.

Heavy Fur Coats Cause Women Many Hard Colds

By A. T. ASHMORE.

There is only one known objection to a long fur coat, and that is its warmth. In a climate that can be relied upon this drawback turns into the greatest possible advantage, but in this temperate zone, where one

day is below zero and the next almost summer heat, there are disadvantages in a long, heavy fur wrap, for the danger of catching cold is very great in changing from a warm cloak to a lighter cloth

Feather Coiffure Ornaments Now Worn for Evening

The arrangement of the hair and the hidden, whenever it threatens to be noticeable.

Instead of a simple knot of roll, the hair must now be arrayed in a succession of puffs, three, four, or as many as the tresses will allow or as will be becoming to the shape of the head—which must be the first consideration. If the best results are to be obtained, this arrangement calls for a high empire comb, and the ornament employed in the evening must be selected with reference to the size of the knot or puffs.

In the two illustrations Fig 1 shows an attractive arrangement for the hair. In this the knot is so far forward as to make the pompadour comparatively small. The hair is separated and

made into numberless small puffs arranged apparently without any real design although in reality each puff must be placed with precise reference to all the others.

For the evening aigrettes are extremely smart and, when worn, the latter must be the exact shade of the dress or the principal trimming of the gown, and it may be studded with tiny rhinestones or pearl beads. Sometimes the aigrette is placed directly in the hair and again it starts from a stiff rosette or bow of tulle satin, silver or gold ribbon. Marabout and ostrich tips are also used, marabout being especially pretty as it is so soft and delicate and yet stands up well with consider-

able style. Sometimes as many as three ostrich tips are placed together for an ornament, but they are all exceedingly small. When the knot is large or when puffs are made to cover so much of the head it is often difficult to add even a small ornament, so that this year the feather wreath the debutante this year has preferred a large bow or net of maline, matching the color of her gown. With fair hair this bow is generally more becoming, but a brunette, as a rule, looks better in an ornament that is more conspicuous. Jet and steel pullettes and gold and silver spangles

are effective against dark hair. When ribbon is made use of it should generally be studded with tiny spangles. A handsome rhinestone backcomb is most effective, and with it may be worn backcombs and a barrette to correspond, but these are only suitable with a ball gown.

For the daytime, whether with a street dress or house gown, the high empire back comb is smartest and with it is usually a shell barrette.

Sidcombs, too, are most always a necessity, and these should be perfectly plain like the back comb. There are various combs, but it is safest to get as simple a one as possible for such a pattern is sure to remain in fashion longest.

Jackie, despite the fact that it is the thermometer that is being taken into consideration. One of the risks that is being constantly run by the majority of women is in changing from a high cloth or velvet gown, over which is worn a fur wrap, to an evening dress and cloth opera cloak. The contrast is very marked, and at night it is usually colder than when the sun is shining, and all this taken into consideration, it is astonishing how comparatively few evening wraps are of fur, fur-lined or have wide fur collar and revers.

This winter there are many more fur-trimmed evening wraps than has been the case for some time past, and many of the newest cloaks, if not fur-lined, have an interlining of squirrel or rabbit skin over which is laid the fancy silk or brocade. Ermine or any sort of all white fur, that is so fashionable as a lining for an evening wrap, but for some reason no dark skins are popular. Of course, white is perfectly in keeping

with a light and perishable fall gown, and any sort of dark fur does look somewhat inconsistent; therefore, if one happens to possess a good squirrel or some such sort of lining it may still be made use of, but covered over with a dainty silk or satin.

Most attractive fall evening cloaks this year are those of all white, fur-lined with wadded satin, white or colored. Rabbit is used a great deal and is made handsomer by immense collar, revers and cuffs of white fox or lynx. Some of these coats are cut in slightly at the waist, others hang loose from the shoulder like the poney coats and it is difficult to say which model is shorter than the majority of evening wraps this year, but is longer than the average fur jacket—the most satisfactory length is a long three-quarter, falling about to the knees. Any one who chances to possess one, two or more fur coats so that she wears always such a wrap in the daytime, will find

the long white fur cloak for evening wear a great safeguard against colds.

Caracul, pony skin, mink and, in fact, any kind of long fur coat is now permissible for evening wear at this time of year, for not everyone can own more than one fur coat, and naturally that one must be of a color that will be useful at all times—black, brown or gray. White caracul makes an attractive evening cloak and is particularly pretty trimmed with sable, mink, chinchilla or even black lynx.

Among the fur coats there is noticeable a decided attempt to introduce the Empire model, but as yet it has found little favor, the loose box back still retaining its popularity. This is the best time of year to invest in furs, if a bargain is sought, and any such novelty as the white evening wrap is sure to be in perfect style for the ensuing season, while there is still the greater part of this winter in which to enjoy it.

frock in front and back. They, like the robe, are cut in designs that make for comfort and beauty. The whole

gown suggests a feeling of luxurious repose and rest that will be welcomed with delight by the average woman.

Novel Shadow Drawing to Amuse Small Children on Rainy Days

FROM "THE QUEEN."

Small children and large ones, too, will enjoy doing shadow tracery work if the subjects are interesting and attractive, for outlining a picture that may afterward be used as a bookmark or a wall decoration appeals strongly to the average girl and boy, because it gives temporary pleasure and incidentally has some practical and artistic value.

Tracery is easy to do if care is taken in making every line in the copy clear and distinct, and the results are naturally decidedly satisfactory when the drawings are accurate. To get a good

copy of such pictures as the illustrations shown, very thin tracing paper must be used. The best drawings are made when the original picture and the sheer paper for shadows are fastened to a board, so that the surface will be smooth and free from wrinkles, thus clearly displaying the outlines to be traced.

This work will be particularly amusing to small folk for rainy days and for cold winter evenings spent indoors. Zest may be given to the shadow drawings by offering small prizes for the best tracery of the same object.

FROM "THE QUEEN."

SOFT HATS VS. BALDNESS
New York Press: "If you had always worn a soft hat instead of this," said the wigmaker, as he handed the bald-headed man a toupee and pointed scornfully at the stiff derby. "You wouldn't be buying false hair now. The derby has more to do with the baldness among men than any other thing. Makers of stiff hats insist that this is because tight hats allow no air to get to the head, and they try to alleviate the crime and its suffering by boring fine little holes in the top of the derby. But it is the tight pressure about the crown of the head which stops the circulation and causes the roots of the hair to die and the hair itself to fall out."

"In the South and West, where men wear soft hats all the year round, baldness is almost unknown. Old men with heavy silver locks falling about their foreheads and shoulders are a common sight. The only way to make sure that you will not develop into

that unromantic and unhappy creature, the bald-headed man, is to stop wearing any sort of stiff hat while you are yet young and cannot count the hairs of your head. To do this, however, you must sacrifice your straw hat in summer as well as your derby in winter, and spend your time changing a soft, loose, fedora, which blows off every time there is a wind.

"If your hair has already begun to come out, you can stop its falling by adopting the soft hat and taking a few scalp massage treatments. It will help matters along, too, if you will curtail the washing and cutting of your hair. Women shampoo their heads only once in two or three weeks, while the most men take a shampoo every time they take a bath, thus washing out all the natural oils which feed the scalp. They keep their hair cut so short that just as soon as it gets a new hold on life it is nipped in the bud. There is no way to restore your top hair after you have once become bald—unless you buy a toupee."

Now that tea gowns are such an important part of every woman's wardrobe, those who make any pretensions to style have these house frocks made in elaborate and becoming models, so that they will be appropriate for use

on all but formal occasions. This illustration of a tea gown, taken from the Queen, is made of handsome printed chiffon. It has a train that gives graceful and beautiful lines to either a short or tall woman and is

fashioned in one piece, so that it drops from the shoulders both in back and front.

The sleeves are full and are made in squares that may be bound around the

to Mr. Savage seems beyond reasonable doubt, and that Mr. Savage has absolutely discredited all such overtures seems equally certain.

Blanche Bates has been formally notified of her election to the board of directors of St. Luke's hospital of Philadelphia. Miss Bates naturally considers the office to small honor, as she is the only member of the board not a resident of the Quaker city, and so far as is known, the only woman in the theatrical profession holding such a position.

Thomas W. Ryley is arranging to produce "The White Chrysanthemum" in America shortly.

In consequence of "The Vicar of Wakefield" having failed to attract the public at the Prince of Wales theater in London, it was withdrawn last week. The opera was by Lisa Lehman, with David Hepham in the principal role.

A rather peculiar situation in New York at present is the fact that a number of mimics are imitating one another's imitations. In other words, Gertrude Hoffman, in "The Fanny," is showing how Elsie Jans hits off prominent actors and actresses in "The Vanderbilt Cup." Julius Trencher is doing something in the same line, and so is Cecilia Leckus, in Joe Weber's new burlesque. When imitators begin imitating one another, then what happens to the audience?

Gerhardt Hauptmann, the eminent German playwright, is expected to come to America in February to lecture on German literary art before some of the large universities. During his stay in New York center, "The Sunken Bell" or "Hansel" will be given at the Irving Place theater.

Miss Edith Conrad, with Willard Simms at the Union Square this week in "Flinders' Furnished Flat," appears as a young actress remembering a new part. The role was formerly played by Miss Aimee Angell.

Among the "props" of the Robert Mantell productions are two funeral biers—a white one, used in the scene of Ophelia's burial in "Hamlet," and a black one, used for the funeral of the king in "King Richard III." When about a year ago, Mr. Mantell played in the Walnut street theater, Philadelphia, the stage hands of the house managed to get to the wrong bier on the scene night after night, which ever play was being given. The actor, at length, lost his temper and angrily bled the biers or else post a memorandum so conspicuous that there might be no further mistake.

The next day at rehearsal Mr. Mantell noted a very handsome and artistic sheet poster of a local brewery on the door of the room where the properties were kept when not in use. The scene painter of the theater was at work with paint and brushes on the poster, and the names changed, here is the text of the finished job:

Malt & Hops,
Brewers
PULITAN,
A Dark Beer,
USE IN "RICHARD,"
and
PARISIAN,
A Light Beer.

William Gillette has a high regard for those who frequent and patronize theaters, for in a recent interview he is quoted as having said:

"The direction in which we look for approval or disapproval is across the footlights to the great theater-going public—that public which is the approval and disapproval has made the stage and drama what it is from day to day, from year to year and from country to country. We find that public honest and straightforward with us always, even when we are moved by what is true and likeable and human—provided it be made interesting—ever ready to be deceived, but never erring on the side of kindness and charity toward our art."

Beulah M. Dix and Evelyn Greenleaf Butcher, auto her "Road to Yesterday," began collaborating on plays four years ago. The "Road to Yesterday," used by Miss Dix in her tour in 1906, and "The Road of Tomorrow," used by Miss Dix in her tour in 1907, are the pen names of John Butcher, and now in its fourth year, "Road to Yesterday," produced by Mr. Harvey in April, 1907, and now included in his repertoire. "Road to Tomorrow," produced by Fred Terry in Newcastle, October, 1906, and now being used by her on tour in the South.

For his dive into vaudeville William Hawtrey, the shooting star, has obtained from Channing Pollock the dramatic rights of a musical comedy, "The Philosopher of the Tub." Mr. Hawtrey will make his own dramatization.

Negotiations are in progress looking to still another revival of "Fantasia," a musical comedy which was produced by the Star & Havlin houses under the direction of F. Ray Comstock. Toby Claude is held in reserve for this emergency.

Christie MacDonald, the daughter-in-law of the late Joseph Jefferson, is said to be the best work of her career. She is the title role in "The Belle of Mayfair," still holding the title in New York. Miss MacDonald with her winsomeness and personal magnetism continues to win unqualified applause and admiration from representative audiences at every performance. Her last season in the "Sho-Gun" of a season or so ago will be surpassed at the rapid improvement in this charming little actress has made.

Tom Deomar, now playing Silent Movie, in "The College Widow," was Charles Gibson's first husband. Before he signed again this year he was offered a part with James J. Cagney, in which he would have to go through a sparring match. The salary was tempting and he thought he would try it. He attended one or two rehearsals, at which he put on the gloves with Corbett and finished much the worse for wear. When he glanced in his mirror and saw his Gibson countenance, he decided that he would be better off in "The College Widow" than a sham prizefight with Corbett.

Edna May has a new triumph and again has proven that the affection and admiration of all London is hers. Charles Frohman has just produced at his Aldwych theater the new musical play, "Nelly Nell," in which Miss May made her return to the English stage. The new play is by C. M. S. MacLellan, who wrote "The Belle of New York" in which Miss May achieved her first American success and in which she finally captured London. The music is by Ivan Caryll, who has composed the music for most of the Gaiety successes. Miss May plays the part of a domineering, self-sufficient, miss—a role not unlike her famous Salvation Army lassie.

Ellen Terry has arrived in America. Accompanied by her Lord, she comes over for a brief engagement in New York and a tour of the principal cities under Charles Frohman's management. Miss Terry's first appearance will be at Empire theater, "Nelly Nell," the bound conversion. Later she will be seen in "Good Hope and Nance Oldfield."

Tim Murphy was asked recently what he considered the office of a comedian. His reply was "To make you cry a little, forget trouble, remember to be cheerful, and then the bonds of care, shame, sadness and champion cheerfulness, lengthen life, shorten sorrow, smooth tempers, all-gestation, brush the cobwebs from the mind, translate tears into smiles, mellow melancholy, bear the trouble market, bull the joy market and shear the lambs of laughter."

Those who contributed to the refugee children's Christmas celebration in San Francisco included Florence Roberts and company, Francis Starr and company, Viola Allen and company, Annie Russell, James Ward, Isabel Matthews, William

Fantasy, passion and tragedy are exquisitely mingled in the pathetic story of "Madam Butterfly"—the last opera by Giacomo Puccini, to be sung by Mr. Savage's English-singing force for two nights, beginning Friday, Feb. 8, and at the Saturday matinee, at the Lyceum theater.

Mr. Long's delightful narrative of Japanese life, upon which the Puccini opera is based, contains underlying sentiments, symbolisms and national characteristics that really form the full force of the story. The one-act playlet made on the same theme, restricted as to time, naturally afforded no chance for an amplification of these. It had rare dramatic strength, but necessarily did not quite embody the principal charms conveyed by the book. All these beautiful phases have been given the fullest expression in the expansion made by Luigi Illica and Guido Gioncosca, the poet-dramatist of Italy, in their three-act book, which forms the grand opera.

The loves of Butterfly are three in number, and from all of them she draws only unhappiness and grief of the most poignant character. First comes her love of the composer, and father—the fundamental principle of Shintoism—the real base of the religion of Japan. Second is the love of the wife for her husband, the America naval officer, and third, the love she bears her child, Trouble.

Long-musical symbolism—that which the dramatist can never sound or reach in his musical scoring, the Italian has met these themes in an after-Wagner spirit. For each of the

Drewry, Elita Reed Payton, Bowdoin Square stock company, Boston; Albee stock company, Pawtucket; People's stock company, Chicago; Fawley stock company, Minneapolis; Creston Clarke's company, Minneapolis; and Elsie Janis, Emma Dunting company, and Elsie Janis. The entertainment was a great success.

An Englishman who lately visited America wrote home that the two best plays he had seen were "Uncle Thomas' Bees" and "Ten Nights in a Public House."

William Collier's property at St. James, L. I., has been sold at auction. The property was bought by Mr. Collier for \$11,500. Mr. Collier bought a parcel along the shore front for \$4,000.

Will M. Cressy issued the first copy of his new play, "The Wyoming Whoopee," during his engagement at Keith's, Philadelphia, when he produced a new sketch bearing the same name as the play. The subscription price is fixed at "one cord of wood, whichever you can spare best." The sheet is filled with odd, old-fashioned bits of humor, and the play is a "Want ad" are especially good, and the whole paper is gotten up as a burlesque on the average rural stage. Mr. Cressy does not make announcement as to the frequency of issue, but even if number two never appears he has done well with his first attempt.

William Christie Miller, now appearing at Louis James, is one of the oldest of American actors now in harness. He has been active nearly half a century, having made his debut in 1858 as Othello. He is now appearing in the same character with Louis James.

The thirty-week season of Edwin T. Emery at the Mission theater, San Francisco, will terminate on Feb. 8. During this engagement Mr. Emery produced five new plays—"The Earl of Elberberg," "The Wisdom of Solomon," "The Progress of Mr. Pilsbury," "The Dreamer," and "The Money Man."

Henrietta Crossman's New York engagement in "All-of-a-Sudden Peggy" will begin on Feb. 11. Miss Crossman still intends to appear as Christian in a dramatization of "Pilgrim's Progress" next season.

The Ben Greet players will be seen in New York in the early spring. Mr. Greet is the author of "Everyman" and "Masks and Faces."

"Crucifixus," a four-act religious drama by Francis H. Robinson, has been run a time of "The East" after being tried on the Pacific coast last season. The principal members of the company are Esther Hovver, Ben S. Meers, Edwin Hammer, Hilda Dick, H. E. Irwin, Sadler, Lily Mackintosh, Millicent Loughlin and W. H. Dunn. A. R. Mac-

Some unknown admirer of Montgomery and Stone sent the comedians each a scarfpin in the shape of a red pill, set with diamonds and rubies.

Mr. Leslie Carter will make her re-

appearance on the New York stage, after a brief preliminary read tour, at the Hudson theater on Feb. 11, in her play "Cleo."

Florence Zebelle has been engaged as leading actress in a new musical comedy, "A Yankee Tourist," the transformed "Galloper."

W. J. Ferguson was taken ill in Youngstown, and was obliged to remain in the hospital for several days. He rejoined Virginia Harned's company at Toledo.

Helen Hale has been selected to play Blanche Bailey, the subterfuge role in "A Yankee Tourist," with Raymond Woodie. The play will be presented at Ithaca, Ohio, on Feb. 5.

William Stuart and Anna Hollinger, of Blaney's "Millionaire Detective," have received "honorary" attention in the two weeks there, where they were associated with the local stock companies for two years.

Jennie Lamonte has been playing Maegle in "The Three of Us" during the illness of Eva Vincent. Her impersonation of the good natured Irish servant was entirely satisfactory.

Ernest Shipman is looking for a new play for the coming season. He is now in London in which to open them on Easter Monday night. If necessary, a half dozen plays will be experimented with this spring in order to insure an absolutely desirable vehicle for next season.

Oliver G. Skinner has been forced by

WHY IS JEANNE D'ARC LIKE JOHN THE BAPTIST?

By JULIA MARLOWE.

It is not surprising that great historical figures should move through the drama in every age and clime where the drama has flourished. Before the higher development of the drama its figures were largely mythological. This was so with the Grecian drama and, to less extent, with the early Italian. In England the Elizabethan drama drew largely upon history, and it is to Shakespeare himself that we moderns look for the greatest group of historical dramatic figures. Both in Germany and France, however, history has peopled the drama of every school.

When the day of "realism" came, the historical drama lost its commanding place, but it still continues to crop out at odd times. It is not without interest to note that Mr. Sothorn and I are at present expelling two examples of the historical drama, Sudermann's "John the Baptist" and Mackay's "Jeanne d'Arc."

It is a bit odd that characters with so many fundamental points in common and with such wide differences in history of the unhappy heroine of Dom-

We'll leave her!" During this scene the orchestra, through the wood-winds, celestes and organ, sounds the note of Buddha—a warning of disaster—before an image of Buddha, invoking Izahgi and Izanami, the Adam and Eve of Japan.

The second act discovers the faithful maid, Suzuki, who doubts the return of the naval officer—prayer bell in hand—before an image of Buddha, invoking Izahgi and Izanami, the Adam and Eve of Japan.

Butterfly's confidence can not be shaken. The Consul advises her to accept the Japanese divorce and marry Prince Yamadori, a suitor for her hand. She refuses with scorn the offer, "Trotting from the room she returns bearing her baby son in triumph on her shoulders."

The Consul convinced of the child's paternity, sends his name. Butterfly prompts it with:

"Sir, today my name is Trouble. But write and tell my father, on the day of his return."

Illness to resign as ingenue with the stock company at Bush Temple theater, Chicago.

Bickel, Watson and Wrothe will continue under the management of Al H. Woods, the company called "Three Wise Guys."

Anna Boyd has been engaged for the role of Donna Isadora in "The Girl and the Governor," with Jefferson De Angeli.

A second company to play "Brewster's Millions" is being organized for a road tour.

The American Academy of Dramatic Arts gave its sixth matinee of the season at the Criterion theater, New York, on Friday afternoon, Jan. 25, presenting for the first time a play, "The Letter," a comedy in four acts, by Oliver H. Booth, and "The King's Highway," in one act, by H. Whitman Bennett.

Charles J. Ross, a handsome and clever comedian, who is making the biggest hit of his career in "The Social Whirl," has confessed that he began life as a bootblack in Chicago. His first enterprise was a stand just outside the Transit house at the stock yards. In those days, he was a bootblack, and he was to shine, but many to oil, the hardy stockmen being adverse to the patent leather polish. After making a reputation as a business man, Mr. Ross advanced high enough to become a bootblack in the Transit house, and then onward to his present position. "I may have been a shine artist then, but I hope I am not now," says Charles in telling the tale.

Accustomed to little. The ardor of the American lover over-presses her; she grows fearful; the orchestra sounds again the sinister foreboding and she tremulously sings: "They say that in your country a butterfly is caught by a needle. He'll pierce its heart with a needle. Had then leave it to perish. Reassured and comforted by the caresses of the husband, she finally abandons herself in a rapturous romance. "Ah! Night of rapture! Stars unending! Oh! how kindly are the heavens! Every star that shines afar is gazing on us, lighting our future for us. Ah! lovely night! Thy perfect calm is breathing love near and far— With the romance closes the first act."

to be a forerunner of national freedom from Roman bondage. With similar enthusiasm and very nearly the same mental attitude Jeanne d'Arc accepted the commission of the Almighty to strike the chains of English bondage from the French nation. In both instances, supernatural power urged to the victims of fanaticism, and in both instances a horrible death lay at the end of the journey. John preached a more definite faith and assumed no personal control of future events, but he sternly moved forward toward what he believed to be first and foremost a national deliverance. In the case of the Maid of Orleans, the intervention of supernatural power took the form of heavenly endorsement for the accomplishment of the task in person. There was not about that task the same spiritual significance; but who knows how far Jeanne d'Arc conceived her spiritual mission to extend beyond the work of John the Baptist in history has been given permanency by the consequence of his ministry. The Christian religion arose and became a permanent and dominant factor in subsequent civilization, and hence our estimate of the work of John must be quite different from what the world thinks of Jeanne. But there is a striking similarity in the historical setting in which the legends of those two lives took place. John the Baptist came, in his attitude as a forerunner, upon a crossroad in human history. Humanity under the dominant forms of civilization then in existence had reached the extreme point of doubt and pessimism. Unless a new factor of faith and encouragement could be found the world was on the eve of a plunge into absolute spiritual and moral darkness.

What the events, subsequent to John's mission did for the moral and spiritual advancement of civilization the mission and work of Jeanne d'Arc in a less visible degree, did for the civic and national history of Europe. It was the turning point in the path of national life, though the full measure of influence that the Dauphin was exerted was not felt at the time.

To the ordinary theatergoer, however, the conjunction of these two historical figures in the drama of the next two weeks will mean largely what we players make out of them. The plays are poetical and in measure mystical. Besides they are stupendous stage spectacles. It is no doubt upon these grounds that the drama of history which touch from wide distance in time so many points of similarity in psychology will be judged.

was the forerunner of Jeanne d'Arc. Nor is this statement, nor the use of dramatic presentation, though in Germany alone this use has been frequent. As for "Jeanne d'Arc," Schiller in Germany used her for an entire play, while Shakespeare in "Henry VIII," introduced both the Maid of Orleans and Alencon, with many of the subsidiary figures, in the tragic picture. Of English plays, none have been worth while, though several have been written within the recent past. There was in preparation another "Jeanne d'Arc" play at the time Mr. Sothorn and I accepted the Mackay version, but for obvious reasons it was not presented.

It is a bit odd that characters with so many fundamental points in common and with such wide differences in history of the unhappy heroine of Dom-

remy, while Balfie is responsible for an opera score on the same subject. The point of interest is the singular character conjunction.

When Sundermann's play "was first presented under the title of "Johannes" there was quite a spirited opposition developed among certain of the clergy who feigned to see sacrifice in the treatment of a sacred Biblical story. John the Baptist seemed so close to Christ that it was declared to be an impiety to use the facts of his life as material for a play. The censor was induced to put his ban upon the production, but the German emperor removed the restriction and the play has since been wonderfully popular. That this odd figure of the Christ time should come to New York hand in hand with that sister of fanaticism Jeanne d'Arc is strange.

In no small way John the Baptist

was the forerunner of Jeanne d'Arc. Nor is this statement, nor the use of dramatic presentation, though in Germany alone this use has been frequent. Joy shall be my name." Here the maternal love and pride of the child, trusting and confident wife is shown. In these scenes Puccini is superb, although reverting somewhat to the same method he employed in his "La Boheme." The use of the American motto, a paraphrasing of some of the familiar bars of the "Star Spangled Banner," give emphasis to the patriotism of the child and lends color to the episode. The theme of the constant faith of the wife is finely set forth in these scenes.

It is in the third act, however, that the beauty of the three loves of Madame Butterfly receives its full demonstration. The daughter of a Samurai, whose life was devoted to the mikado, finding herself deserted by her husband, cast off her relations and denounced by priests, soldiers, and all by death, she stands before the image of Buddha, lost in sad thought with a prayer on her lips. Taking the dagger of the father, which is in a waken sheath, she piously kisses the blade, holding it with both hands by the point and handle. Then she reads the words inscribed on the blade:

"To die with honor
When one can no longer live with honor."

As she points the dagger at her throat, Suzuki pushes the child towards its mother. The child runs, stretched hands, the dagger and embraces the child.

Then rushing behind the screen, dagger in hand, she completes the sacrifice. Tossing from the screen she expires.

The story breathes an idyllic charm and gives a picture of a woman who is a moral code in action. The absence of a moral code is accounted for on the ground of the innate perfection of Japanese humanity and self-alienation.

In Japan the ideal of womanhood and "Madam Butterfly" by John Luther Long and Giacomo Puccini is typical, not only of the Japanese gentler sex in her lighter circumstances and tragic conditions.

It will cost you real money to overlook one of the ads in to-day's Herald, so you had better find out which one it is.

BUSIEST WISE MEN IN EMPLOY OF UNCLE SAM

Scientists of the Appraiser's Stores Who Subject All Sorts of Imported Merchandise and Commodities to Chemical Analysis to Find Out What They Are Made of, So That the Duty May be Correctly Computed--Their Laboratory is the Best Equipped of Its Class in the World
---Its History.

By DEXTER MARSHALL.

(Copyright, 1907, by Dexter Marshall.)

Standing a block from the North river front, broadside on to Christopher street, on the Island of Manhattan, there is a red brick building of such huge bulk that it dominates everything for half a mile around. From its tall flagstaff, between the hours of 10 a. m. and 4 p. m., every business day in the year, is flown a flag with vertical instead of horizontal stripes, and with a "union" that does not carry stars, but an anchor, upon a blue ground. Many who see this building for the first time are puzzled. That it is a center of important activities is shown by the large number of trucks that drive up to its back doors daily, leaving and taking away great loads of every conceivable sort of merchandise; the hundreds of men and women who are engaged by its grim, arched doors every morning and emerge from it every night, and the constant stream of visitors, every one of whom is clearly there on urgent business. This building bears no sign to denote its use. It has no expansive

men employed within its massive walls pass upon the major part of all goods and commodities of every kind imported into the United States, and that their say so determines the amount of duty each importation shall be assessed.

But only a tithe even of those who know all this understand that in addition to the board of general appraisers, the local appraiser and the small army of samplers and examiners, who belong to the force Uncle Sam maintains within this grim red building, a force of the most competent practical scientists of their class in the world. This is the fact, however, that the laboratory staff of the New York appraiser's stores to be disabled suddenly a large part of the country's importing business would be brought to a standstill and could not be resumed until new scientists had been appointed and broken in. This staff consists of eight chemists, five polariscopists and enough assistants of various grades to bring the total up to the mystic number of twenty-three. They are among the most important of all the wise men employed by Uncle Sam. There are similar though smaller corps at other ports, but these twenty-three wise men do the bulk of their sort of work

THREE WISE MEN PUZZLING OVER A TOUGH PROPOSITION.

out similar examination.

These two are the only commodities every consignment of which must be sampled and passed upon by the appraiser's chemists, but foreign drugs, both manufactured and in the original forms, as roots, barks, nuts, gums and fruit, are often hauled over the coals by the laboratory force in order to determine their exact constituents and strength. So are wines, cordials, whiskies, brandies and other alcoholic products. These include fruits and other foods preserved in spirits.

Ores and smelted metals must also receive the staff's attention.

The great range of the laboratory's work will be fairly apparent when you understand that more sugar, both in value and in bulk, is imported into this country than any other single commodity. Chemical analysis is sometimes applied to such diverse imported commodities as poker chips and toy donkeys and that all such things as paints, oils, varnishes and compounds of every sort fall naturally under the chemical schedule.

The baffling "Chemical Schedule." Chemical analysis is the only by which the constituent parts of many sorts of goods and commodities can possibly be arrived at, and this makes the chemical schedule one of the most important divisions of every tariff law in every civilized land. Upon its proper interpretation great sums of money depend, money that should or should not be paid in duties and added to the country's revenues.

This has been borne in upon every local appraiser and board of appraisers in the history of the service, but never with greater force than about ten years ago next July, when the present Dingley tariff law went into effect. Chemical analysis was as necessary under the immediate preceding Wilson tariff as it now is and had been under the still earlier McKinley tariff, but in 1897 the New York appraiser's laboratory was far below its present place of efficiency. The entire outfit of the appraiser's stores, in fact, was woefully unfit. They were housed in a crazy old building away down town. Everything was years behind the times, and the laboratory, quartered apart from the main offices in a few small rooms over a saloon, was inadequate even to do the current work then required. Wilbur F. Wakeman was local appraiser, and when he looked over the tariff law and reflected that it could be interpreted only after much original chemical work had been done, he realized that he was "up against it." It never would be possible to make the chemical investigation

necessary to the law's interpretation in the antiquated little laboratory over the Washington street saloon. Something was "in a reminiscent mood," he tells his friends about the way the problem was solved.

"I did not then ask to not know anything about chemicals or chemistry," he says. "The chemist in the appraiser's laboratory knew what to do under the Wilson law schedule, but they were pretty hazy about the Dingley schedule, and it would have been impossible for them to work it out and do their current work even if the laboratory facilities had been sufficient. One day while I was trying to work out the puzzle George J. Seabury, a friend of mine, suggested that the only way to interpret and handle the new chemistry schedule was 'to hire a chemist and lock him up.'"

"What do you mean?" said I. "Get some competent man whom you can trust," said he, "give him the law, put him in a laboratory all by himself, lock him in and have him report to you when he can. Don't push him too hard. The work can't be done in a hurry. Give him months—a year, if necessary. I can see no other way out of your difficulty."

"The schedule looked good to me, but it would not have been easy to work it without the assistance of the late Col. William L. Strong, the mayor of New York. It was not desirable that anyone around the appraiser's stores should know what was going on, and, anyway, there was no place in which to lock up an investigating chemist. So I went to see Mayor Strong."

"I asked him to lend me a place in the laboratory of the city board of health and told him that I would reciprocate the courtesy whenever he wanted to lock up a chemist. He laughed and gave me a card to the president of the board who, he said, would give me all the laboratory facilities I needed. Then I hustled around to find a chemist, finally selecting a young German, a recent graduate from Heidelberg, Dr. T. B. Wagner—who had not yet found a place for himself."

"I gave him one or two assistants of his own selection, furnished him with a copy of the law and a key to the laboratory, told him to go to work. I told him also to get whatever apparatus and books he needed and added that he was not to show his face at the appraiser's stores under any circumstances. Then I began to send samples of imported articles to him and two to honor his regulations. I did not see him for six months and it was nearly a year before he began to make official reports. Meanwhile the regular work of the office was going along the best way it could, but not very satisfactorily. The highest rates of duty on articles covered by the chemical schedule were being collected, the plan being to make better rebates later, if so required, under the final interpretation of the law. Meanwhile both importers and the board of general appraisers were making constant demands upon our office for information regarding the proper duty to be paid on aniline and other dyes, paints, oils and the like, about which I personally knew nothing and am still uninformed."

"One day I had a talk with the late Gen. Tichenor, then of the general appraisers' board, who, in my judgment, was the best authority on customs matters this country has ever known. He said that if some definite information was not forthcoming soon from our office much of the law would be rewritten by the board of appraisers. Soon afterward, to the great relief of us all, I began to get reports from the young chemist, and the practical information of the law was begun at once."

"I have been told that the yearly revenue from the customs dues was increased about \$150,000 a year by the secret analysis of the samples of merchandise falling under the chemical schedules which were submitted to the young German chemist I had 'locked up.' Naturally the importers appealed all the cases in which the duty was increased to the United States courts, but I do not know of a single case wherein the duties were based upon Wagner's analysis, was not sustained. "He had since much more than justified the confidence I reposed in him, being now chief chemist of one of the country's greatest corporations at a fabulous salary."

Finest Laboratory of Its Kind. The big brick building now occupied by the appraiser's stores was then in course of construction, and it was agreed by every one interested that its laboratory ought to be ample in size and equipped in the most perfect manner possible. Accordingly Mr. Wakeman appointed a commission of three, Messrs. Russell W. Moore, J. Howard Walworth and Edward Sherer, to make specific recommendations. It was

advised from Washington that, while there should be no undue expense, it would be well to ask for everything that could possibly be needed for a really complete equipment. This would be comparatively easy to get at the time of the new building's occupancy, but almost impossible to procure later. The commission visited the laboratories of Columbia and Princeton universities, the Massachusetts Institute of Technology at Boston, the Pratt institute in Brooklyn and some other great scientific schools. They were assured that whatever they recommended would be procured. There was only one condition; they must agree in their demands.

The laboratory resulting from their investigations has no superior of its class in the world. It covers a floor space of about 12,000 square feet, and if all included in one room would require a vast apartment thirty feet wide by 400 feet long. For convenience it is divided into several smaller rooms, the first of which contains the office of Dr. Moore, now the chief chemist, and the library, of which the books bought by the young "locked up" chemist formed the nucleus. Next in order come the rooms for the analysis of metals and ores, alcoholic compounds, general chemical compounds, oils, paints, colors, etc.; organic chemicals—coal tar products, aniline dyes and the like—wood pulps, drugs and medicines, gums and resins, and, last and largest, the sugar room.

Part of the space originally devoted to these various departments is now occupied temporarily by the analyzing chemists of the agricultural department, who here to be located here to examine all food importations in order to prevent the bringing in of any foreign food considered unfit to eat under the new pure food law. Every room, including this one, is fitted with the best and most up-to-date apparatus in existence. There are stills and retorts and furnaces and polariscopes, besides many other odd looking things the names of which would convey no idea concerning their use to the non-technical reader.

The pure food room men, though working in harmony with the appraiser's chemists, are directly under the authority of the agricultural department at Washington.

It must not be understood, despite the injunction of congress to get whatever was needed, that the fitting up of the appraiser's laboratory with the completeness indicated was altogether an easy matter. Visits to the new appraiser's stores by members of the appropriation committee, that they might see for themselves what was going on while the structure was being built and equipped, were frequent.

One of those visits was made by "Uncle" Joe Cannon, then chairman of

"Uncle" Joe Cannon in the Sugar Room and His Interest in the Polariscopes, the Instrument by Which the Sweetness of Sugar is Determined--Toy Donkeys, Poker Chips and Golf Balls Analyzed, as Well as Wines and Whiskies, Paints and Metals, Preserved Foods and Chemical Compounds.

the committee. It is only fair to say of him, however, that he was not hard to convince. He had already done everything he could to insure perfect equipment. He was anxious, however, to see the polariscopes, that wonderful piece of apparatus, consisting mainly of a short range telescope and an electric bulb, by means of which the purity of sugar, when illuminated by the electric ray and viewed through the telescope, is determined.

Mr. Cannon said that he did not know of his own knowledge whether a polariscopes was a bear or an overshoe, but when he was able to read through the instrument in plain figures that one sample of sugar was 94 per cent pure, another 85 and another 93, he agreed like most laymen, he couldn't tell "how the darn thing worked."

"I'm glad I've seen the polariscopes," he added, "for now I feel sure that the able speech which I had written for me by a man who knows all about things and which I delivered before the committee without understanding a word I said, was all right. The polariscopes does all I declared it did, and I'm glad you have an ample supply of the best."

Spanning and Testing Sugars. Despite its importance, the sugar room does not contain so many weird looking pieces of apparatus as the

and when all on a given truck are filled, are placed in the appraiser's wharf office, which in turn is locked, so that the cans may not be tampered with. When enough cans have been filled with sample sugar they are placed upon a truck and hauled to the appraiser's stores, the truck in turn being locked in transit.

Naturally a sugar importer somewhat deficient in conscience would be willing to have the samples of his sugar show a less degree of purity than the cargo actually contained, and there are traditions that sugar importers' dock employees have been known slyly to slip salt water in on the samples, thus impairing their sweetness. Such tricks are easy of detection, and would be suspected whenever the polariscopes figures showed less than 90. Like all the other rooms in the appraiser's laboratory, the sugar room is strictly business. All day long the five polariscopists and their assistants are busy preparing the brown, rather dirty looking raw sugar for the tests, and all day long the five expert polariscopists are peering through the short-range telescopes, which are covered with black oilcloth capes to keep out all the light except that which is furnished by the electric bulbs. Getting the sugar ready is no easy

DRILLING TYPE METAL TO GET SAMPLES FOR ANALYSIS.

plate glass windows. There is no display of the merchandise which the trucks transport to and from the structure. Millions of good Americans have never heard of its existence.

Yet those who know it as the "United States Appraiser's Stores" for the district of New York understand that, in a way, it is the very heart of the United States customs service, whose flag it flies; that the

for the entire country. It is not seen odd that so few men can fill so important a place in the customs economy of the nation, but it is so. Not a pound of sugar can be imported into this, the greatest sugar-eating country in the world, until these scientists have sampled the cargo of which it forms a part and found out how pure it is. Not a gallon of vinegar can come in with-

IN THE PURE FOOD ROOM. Here Imports of Things to Eat Are Examined Under the Authority of the Department of Agriculture.

VOLUMETRIC ANALYSIS IN THE BIG GENERAL ROOM.

other rooms. The polariscopes is a very simple instrument in appearance.

The sugar to be examined is procured by samplers who go to the piers where sugar ships are discharging cargo and with long slender, tin snare sampling tubes abstract half a pound or so from every hoghead or bag of sugar in each cargo, dumping each sample as it is taken, into a larger can standing on a rolling crate holding sixteen cans. To each of these has already been affixed the proper "mark"—such as "Smith, A."—indicating the name of the importer and certain information about the importation. Sometimes an entire cargo is assigned a certain "mark"; sometimes it will be divided among several.

The "mark" cans lock automatically, and when all on a given truck are filled, are placed in the appraiser's wharf office, which in turn is locked, so that the cans may not be tampered with. When enough cans have been filled with sample sugar they are placed upon a truck and hauled to the appraiser's stores, the truck in turn being locked in transit.

task. First of all, the different samples of each "mark" must be mixed in order to find out as nearly as possible the average quality. Curiously enough no mechanical device for sugar mixing has ever been made that will not impair the sugar's quality. Consequently all the mixing must be done by hand, and this is the severest kind of manual labor.

It is done with the sleeves rolled to the shoulders, the arms being used as well as the hands, and so vigorously that nearly every sugar mixer in the place can show callous marks on the arms. At a certain stage of the mixing the sugar is divided into quarters, three of which are discarded. Then it is mixed again,

EXAMINING A DOUBTFUL MINERAL IN THE METALLURGICAL ROOM.

Aitkin

Aitkin, Minn., Feb. 2.—(Special to The Herald.)—Wallace Barker is visiting relatives in Cedar Rapids, Iowa.

Mrs. A. Kneel left last week for a visit of several months with her sons in Chicago and New York city.

Edwin Stokes of Ansonia has been the guest of Mrs. Margaret Allen and family.

Miss Miller of Hudson, Wis., who has been visiting her sister, Mrs. Fred Schaeffer for several weeks, left for her home Monday.

A school shelf room has been added to the public library to accommodate the new books that have been ordered. The North Side study club has presented the library with a set of Stoddard's dictionaries, purchased from the fund from the library last given last year.

An epidemic of measles is raging among the children, thus greatly interfering with the school work.

A son was born recently to Mr. and Mrs. Nicholas Henry.

A son was born Saturday to Mr. and Mrs. C. G. Haugen was taken to a Brainerd hospital last week for a surgical operation, and will remain there three or four weeks.

Kordes has been appointed inspector of steam vessels and steam boilers for this legislative district.

Kordes held a similar position in the southern part of the state several years ago.

C. H. Warner entertained sixty-five of his friends at a stag party at his home Tuesday evening. Duplicate whist and progressive clinch were played, after which refreshments were served in the rooms were beautifully decorated for the occasion. Mr. Warner's guests pronounced him an ideal host.

John Gratton, who lived on the Rice river road, six miles from Aitkin, was found dead at his home last Wednesday by his neighbors. Coroners Dandewick went out to view the remains and decided an inquest was unnecessary, and the verdict was death from pneumonia. The deceased was 65 years old and made his home with relatives, who were away when he died.

The funeral of Earl Hay, who was killed by a freight train early Sunday morning, was held in St. Charles Catholic church Wednesday forenoon. Earl was 35 years of age, the youngest son of Mr. and Mrs. William Hay. Just how he met his tragic death is not known, but it is supposed that he was on the train, intending to jump off at the crossing near his home, as he was going to do some work. Gideon of Hudson, Wis., an aunt of the deceased, was present at the funeral. Duplicate whist and progressive clinch were played, after which refreshments were served in the rooms were beautifully decorated for the occasion. Mr. Warner's guests pronounced him an ideal host.

James McKenney of Minneapolis has been spending several days here with his parents.

N. J. Holden has gone to Hismuck, N. D. Hodgden returned Saturday from the western part of the state.

Mesaba

Mesaba, Minn., Feb. 2.—(Special to The Herald.)—Mrs. Andrews of the Adriatic was quite ill last week.

J. Burquet, wife of the youngest son of Mr. and Mrs. William Hay. Just how he met his tragic death is not known, but it is supposed that he was on the train, intending to jump off at the crossing near his home, as he was going to do some work. Gideon of Hudson, Wis., an aunt of the deceased, was present at the funeral. Duplicate whist and progressive clinch were played, after which refreshments were served in the rooms were beautifully decorated for the occasion. Mr. Warner's guests pronounced him an ideal host.

The New York Steel Trust company, who have recently opened a new branch between McKinley and Biwabik, have opened one near the Adiratic, from town near the Adiratic.

E. H. Kempfman visited his parents in Wilmartus Sunday last Monday morning for Clonnet, Minn.

A son was born to Mr. and Mrs. Charles Nelson, accompanied by Miss Gies of the Stevens, was here Tuesday afternoon.

Joseph Mazzuca was on the sick list this week.

The little son of Mr. and Mrs. E. H. Kempfman, Jr., buried his hand quite badly by falling on the heater.

Northome

Northome, Minn., Feb. 2.—(Special to The Herald.)—It is reported that the steam hauler that is being operated over at Kolliber is not a paying investment to the operators, as it does not keep on the road very well, but is often ditched.

E. J. Van Winkle, government examiner for unimproved lands, has almost completed his work in the area and from Shimko, Or., and a graduate of Harvard, and a young man to hold such an important position. The survey just completed comprised the following townships: 25 N., 26 N., 27 N., 28 N., 29 N., 30 N., 31 N., 32 N., 33 N., 34 N., 35 N., 36 N., 37 N., 38 N., 39 N., 40 N., 41 N., 42 N., 43 N., 44 N., 45 N., 46 N., 47 N., 48 N., 49 N., 50 N., 51 N., 52 N., 53 N., 54 N., 55 N., 56 N., 57 N., 58 N., 59 N., 60 N., 61 N., 62 N., 63 N., 64 N., 65 N., 66 N., 67 N., 68 N., 69 N., 70 N., 71 N., 72 N., 73 N., 74 N., 75 N., 76 N., 77 N., 78 N., 79 N., 80 N., 81 N., 82 N., 83 N., 84 N., 85 N., 86 N., 87 N., 88 N., 89 N., 90 N., 91 N., 92 N., 93 N., 94 N., 95 N., 96 N., 97 N., 98 N., 99 N., 100 N., 101 who about two weeks ago was operated on for appendicitis at the Veterans hospital, Chicago, is reported as getting along nicely and it is expected that he will be able to return home within a few weeks.

One of the boilers being removed from the Mass mine was loaded on a sleigh and started for Ishpeming Wednesday. A short distance from the mine the sleigh sank and the boiler was overturned in the snow. An attempt to get it over the road from the mine to Main street will not be made until the thoroughfare is put in better condition.

W. Barber, secretary of the Lake Superior Highway Construction company, was in the city Thursday conferring with Mayor Winter and members of the street and highway committee of the council relative to the framing of a franchise ordinance to be presented to the council later. Mr. Barber and the city officials merely talked matters over informally and it was agreed that he should meet with the mayor, the members of the committee and board of public works soon, when the plans of the promoters of the proposed line will be outlined by the secretary. It is assumed that Mr. Barber will be prepared to advise the city as to where the highway will enter, etc. Mr. Barber also spent some time at the home of Mr. Peterson, owner of the lands on which the highway is to be built.

Mr. Peterson, owner of the lands on which the highway is to be built, is understood to have through the tract. It is understood that Mr. Barber is expected to secure similar privileges from other land owners between here and Marquette.

C. H. Kimball of Marinette spent Thursday in this city. He is a former South Shore conductor, was here Thursday.

Charles Barker, who is now living in Duluth, is in the city. The Connors brothers, Stephen, Michael and William, who were called to the city Monday on account of the death of their mother, returned to their homes Wednesday evening.

The local branch of the Eastern Star society conducted a most enjoyable dancing party Wednesday evening at the country hall in the Kirkwood block. The Negaunee orchestra furnished the music.

E. Murphy, who is now a traveler of Hancock, was in Negaunee Thursday.

A priest from Marquette visiting Rev. Langner at the parsonage of St. Paul's church Wednesday evening, had a coat and fur cap, which were stolen from the vestibule. The clergyman was in the house for a short time when the coat and cap were missed, they having been stolen late in the afternoon. The priest is expected to return to Marquette.

W. H. Bath and family, who have resided in Calumet for some months past, have again taken up their residence in Negaunee.

The infant son of John Strimack, residing on East Main street, died Friday, the funeral taking place Saturday afternoon.

At the last meeting of the Negaunee council of the Royal Arcanum the following officers were chosen for the ensuing year: Regent, George J. Haupt; vice regent, Frank Walker; orator, James A. Goodman; secretary, John Strimack; collector, Thomas P. Kirkwood; chaplain, Or Schurtz; guide, John A. Wasmuth; grand master, William J. Haupt; treasurer, George Kappas; trustees, H. G. Muck, Thomas Pascoe, Peter Fridell, Jr., representative, Thomas Frithson, George J. Haupt.

That masquerade balls, or at least the Negaunee German Aid society's masquerade balls, are popular in Negaunee was again demonstrated Friday evening at McDonald's opera house. The Negaunee orchestra at the German Aid society's masquerade ball. Mr. Brotherton is the manager.

the guest of her cousin, Mrs. La Verne Soule, at the latter's home in the Veterans hospital, Chicago, is reported as getting along nicely and it is expected that he will be able to return home within a few weeks.

One of the boilers being removed from the Mass mine was loaded on a sleigh and started for Ishpeming Wednesday. A short distance from the mine the sleigh sank and the boiler was overturned in the snow. An attempt to get it over the road from the mine to Main street will not be made until the thoroughfare is put in better condition.

W. Barber, secretary of the Lake Superior Highway Construction company, was in the city Thursday conferring with Mayor Winter and members of the street and highway committee of the council relative to the framing of a franchise ordinance to be presented to the council later. Mr. Barber and the city officials merely talked matters over informally and it was agreed that he should meet with the mayor, the members of the committee and board of public works soon, when the plans of the promoters of the proposed line will be outlined by the secretary. It is assumed that Mr. Barber will be prepared to advise the city as to where the highway will enter, etc. Mr. Barber also spent some time at the home of Mr. Peterson, owner of the lands on which the highway is to be built.

Mr. Peterson, owner of the lands on which the highway is to be built, is understood to have through the tract. It is understood that Mr. Barber is expected to secure similar privileges from other land owners between here and Marquette.

C. H. Kimball of Marinette spent Thursday in this city. He is a former South Shore conductor, was here Thursday.

Charles Barker, who is now living in Duluth, is in the city. The Connors brothers, Stephen, Michael and William, who were called to the city Monday on account of the death of their mother, returned to their homes Wednesday evening.

The local branch of the Eastern Star society conducted a most enjoyable dancing party Wednesday evening at the country hall in the Kirkwood block. The Negaunee orchestra furnished the music.

E. Murphy, who is now a traveler of Hancock, was in Negaunee Thursday.

A priest from Marquette visiting Rev. Langner at the parsonage of St. Paul's church Wednesday evening, had a coat and fur cap, which were stolen from the vestibule. The clergyman was in the house for a short time when the coat and cap were missed, they having been stolen late in the afternoon. The priest is expected to return to Marquette.

W. H. Bath and family, who have resided in Calumet for some months past, have again taken up their residence in Negaunee.

The infant son of John Strimack, residing on East Main street, died Friday, the funeral taking place Saturday afternoon.

At the last meeting of the Negaunee council of the Royal Arcanum the following officers were chosen for the ensuing year: Regent, George J. Haupt; vice regent, Frank Walker; orator, James A. Goodman; secretary, John Strimack; collector, Thomas P. Kirkwood; chaplain, Or Schurtz; guide, John A. Wasmuth; grand master, William J. Haupt; treasurer, George Kappas; trustees, H. G. Muck, Thomas Pascoe, Peter Fridell, Jr., representative, Thomas Frithson, George J. Haupt.

The card party given Wednesday by the Ladies Aid of the Catholic church was a most successful affair.

John Grady has been appointed postmaster to succeed C. M. Johnson, who resigned.

ARMY OFFICERS MUST NOT COMPEL SOLDIERS TO ATTEND SERVICES

Matter of Divine Worship Rests Entirely With Them.

Amendment to Constitution Prohibits Laws on Religion.

Important Opinion Rendered by Judge Advocate General.

Washington, Feb. 4.—The text of the opinion of Judge Advocate Gen. Davis of the army in connection with a sergeant's refusal to obey orders at Columbus, Ohio, journals to attend Catholic services, for which refusal the war department ordered the sergeant's reduction and transfer to another post shows the following question submitted to the secretary of war by the commanding officer of the recruiting depot at Columbus barracks:

"Is an order directing a soldier of a command to attend divine worship in a church in which he was brought up and who has no conscientious scruples against attending such services so manifestly illegal as to warrant such soldier in deliberately violating the same?"

In his opinion, Judge Advocate Gen. Davis called attention to the fact that congress is forbidden by the first amendment to the constitution to make any law respecting an establishment of religion or prohibiting the free exercise thereof. He says that officials and enlisted men of the army have never been required to attend religious services.

"I must therefore conclude that," Gen. Davis continues, "a post commander may lawfully issue such orders as he may deem necessary to secure a proper observance of the Sabbath. It is not competent for him to require officers and enlisted men to attend divine services or to promulgate instructions in respect to the observance of the day, which are in excess or contrary to the requirements of the fifty-second article of war."

WEALTHY WIDOW BURNED TO DEATH

Michigan City Woman Loses Live While Visiting Chicago.

Chicago, Feb. 4.—Mrs. A. Haskell, who is said to have been a wealthy widow of Michigan City, Ind., was burned to death early today in a fire which partially destroyed a two-story frame building at 131 Huntington street. Her body was taken from the building about 10 o'clock and was found to be dead. Mrs. Haskell owned the building and was visiting in Chicago on a business trip and it is said, intended to return to Michigan City in a few days. The property loss was small.

END COMES IN ARIZONA

Sumner Smith Succumbs to White Plague in Far South.

Is Sad News to His Many Friends in Duluth.

Word was received in Duluth today of the death of Sumner Smith, in Blaine, Ariz.

The news was confirmed in a brief message to a younger brother, Harvey Smith, who is employed by the Stone-Orlean-Weiss company, and resides at the home of R. D. Haven in the West end.

While it will be sad news for the many friends of the young man in Duluth, it is not entirely unexpected. Death was due to consumption, and the young man's condition was known to have been critical for some time.

Sumner Smith was the son of Harvey F. Smith, formerly employed by the Oliver Iron Mining company here, but later connected with the Haystack mining enterprises in the South. He graduated from the University of Arizona high school four years ago last spring, and then entered Harvard university, graduating with the class of 1895 last spring.

Immediately after graduation he left for Arizona to join his father there. He was in poor health at the time, and it was thought that the climate of Arizona would benefit him somewhat, but he failed to do so. His death occurred early this morning.

He was known to almost every young man or young woman who has been brought up in Duluth, and he numbered practically all of them as his friends.

RAILROADS HAVE PLAN

To Beat Two-Cent Passenger Fare by a Compromise.

Will Offer Round Trips and Mileage at Desired Rate.

St. Paul, Feb. 4.—Minnesota railroads are preparing to make a compromise offer to the legislature, in place of the 2-cent fare bill. It is understood that a meeting of the traffic officials will be held at which the terms of the compromise will be decided upon. It will be presented Tuesday afternoon, when the house railroad committee is to give a public hearing on the 2-cent fare bill.

Several senators and representatives have been sounded and it is claimed that the compromise has a good show of adoption in both the railroad committees.

Railroad officials realize that some kind of a 2-cent fare law has to come. They are striving to get one that will do them the least possible injury. They (Continued on page 3, third column.)

MONEY LENDER KILLS HIMSELF

Howard Frothingham of New York Jumps From Window.

New York, Feb. 4.—Howard P. Frothingham, who, while delirious from a nervous breakdown, jumped from the second story of his home in West Seventy-seventh street, Saturday, died just before midnight. The death was not reported to the police until yesterday, when the coroner inquired an investigation of the case.

Nervous strain, due to recent reverses in Wall street, is believed to have caused the despondency which resulted in the deed. Mr. Frothingham was one of the best known men in the financial district. He had passed his forty-fifth birthday, and was a native of New York city. He was probably the biggest and best known loan broker in the country, handling more money annually than any other man or firm. He handled money for nearly all the large financial institutions and his acquaintance in that line was almost universal.

His patronage was very large and his commissions in the leading business alone are said to have amounted to more than \$100,000 a year. For sixteen years he was a member of the New York stock exchange, but he found lending money more profitable than brokerage and devoted his time almost entirely to it.

Recently his physicians persuaded him to take a rest and Mr. Frothingham went to Atlantic City, where he remained a few days. Returning to his home here, he was ordered to bed and nurses stationed in constant attendance. When one of the nurses opened a window in the sick room, Mr. Frothingham sprang from his bed, and, thrusting aside a nurse who had seized him, jumped from the window. He fell to the ground, alighting on the back of his head, receiving a compound fracture at the base of the skull.

Mr. Frothingham is survived by a widow and daughter.

NUMEROUS COMPLAINTS

Against Railroads Will be Heard by Commissioner Clark.

Kansas City, Feb. 4.—Edgar E. Clark, a member of the Interstate commerce commission, began a hearing here today of complaints of shippers against certain railroads. The first case to be taken up is that of the Producers' Pipe Line company of Indian Territory against the Missouri Pacific, Texas & Pacific, Houston & Texas, Cotton Belt & Missouri, Kansas & Texas railroads. The Pipe Line company alleges excessive rates from Indian Territory to points in Northern Texas. The second case is that of E. S. Williams of Springfield, Mo., who complains that the Missouri Pacific & Texas railroad charges an excessive rate on oil from Kansas to Joplin, Mo. It is also charged with excessive switching charges in the yards. The fourth charge is that the Chicago, Burlington & Quincy and the Atchafalaya, Topeka and Santa Fe railroads, alleging discrimination in grain elevators in favor of Leavenworth, Coffeyville and Kansas City.

KILLED BY AVALANCHE. Tarbes, Feb. 4.—Relief parties have been sent to the village of Barques near Lourdes, France, where the Chirac and twenty houses were destroyed Feb. 2 by an avalanche. Details just received show that several persons were buried by the avalanche.

PENED IN TENEMENTS

Seven Persons Are Badly Injured During Fire Underneath.

Three Removed in Unconscious State and May Die.

New York, Feb. 4.—Seven persons were injured, some of them fatally, while penned in the tenements over a burning rag shop in Cherry street early today. All the occupants of the building were asleep when the fire was discovered. The interior was filled with suffocating smoke. Two women and several men jumped from a second story window.

After much delay, the firemen reached upper story and found Dan Cahill, his wife and Mary Hemlock, unconscious from suffocation and badly burned. The women may die.

GIRL OF 13 ELOPES.

Illinois Lass and Her Romeo Arrested, Later for Abduction.

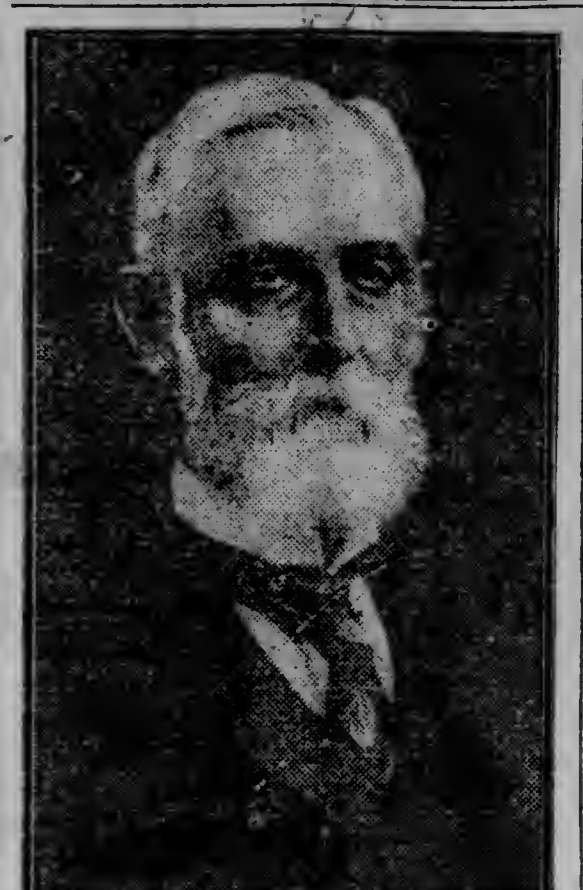

Chicago, Feb. 4.—Charged with eloping with 13-year-old Lena Kerner, Andrew Sedlack, aged 26, is under arrest. The girl also is a prisoner. The specific accusation against Sedlack is abduction. Lena lived with her father, Andrew Kerner, organist in the Hungarian Catholic church at Burnside, Ill. Sedlack boarded in the family. Kerner says Sedlack wanted to wed his girl, but he would not consider the matter, his daughter being too young. Then, the father says, they eloped.

Detective John Duffy looked for the girl in Mrs. R. Laidick's boarding house here, but she was hidden between two feather mattresses and he could not find her. Leaving the house he returned suddenly and caught her. The arrests followed.

WELL KNOWN HOTEL MAN ENDS HIS LIFE.

New York, Feb. 4.—G. Sinclair Moulton, a well known hotel man, committed suicide by shooting, in the Grand Union hotel some time between noon Saturday and noon Sunday. He was president of the Park Gate Hotel company, owners of the Manhattan Square hotel, 54 West Seventy-seventh street. He had been suffering severely from gastritis for some time, and it is believed that his illness led to his suicide. Mr. Moulton had prepared carefully for the deed, leaving letters for his wife and several of his friends. When the body was found, a pistol was in his hand and there were three bullet wounds in the body, one through the left temple, the bullet having entered the brain, one through the chest and another through the heart.

PROSECUTION PRESENTS ITS CASE AGAINST THAW IN TWO HOURS TIME

JOHN F. DRYDEN, Senator from New Jersey Who Has Withdrawn From the Contest For Re-election to the Senate.

SENATOR DRYDEN HAS WITHDRAWN

His Name as Candidate for Re-election as U. S. Senator.

Washington, Feb. 4.—United States Senator John F. Dryden of New Jersey, last night, authorized the Associated Press to announce that he had withdrawn his name as a candidate for re-election to the United States senate.

This action was taken on the advice of the senator's physicians, who warned him of the danger to his health if he persisted in attending the public meeting arranged at his request to be held in Trenton today. It was Senator Dryden's intention to (Continued on page 3, fifth column.)

PRESS REPROACHES MILITANT CATHOLICS.

Paris, Feb. 4.—The Republican press exhibiting a spirit of intolerance towards Archbishop Viateur yesterday on the occasion of the inauguration of the services of the new French Apostolic Catholic church at the Church of the Holy Apostles, considering it to be bad policy, and adding: "Now when a state religion no longer exists in France it is advisable that prudent people respect the opinions of others if they expect their own to be respected."

FEBRUARY BLIZZARD

Is Sweeping the Virginia, Carolina and Maryland Coasts.

Heavy Snow is Falling All Over State of Nebraska.

Norfolk, Va., Feb. 4.—A February blizzard is today sweeping the Virginia, Carolina and Maryland coasts, accompanied by a heavy sleet on this immediate coast.

A telegram received at Norfolk this morning from Ocean City, Md., states that a coasting schooner has been driven ashore near that point. Immediate assistance for the schooner was asked. No report was made as to the name or crew of the stranded vessel.

Omaha, Neb., Feb. 4.—The first real snow of the season is falling over Nebraska winter wheat fields and indications are for a foot or more of snow. Temperatures fell to 4 degs. below zero last night, but it is slightly warmer today, with snow falling over every portion of the state.

The winter wheat needed the moisture and protection of snow badly and the immediate events preceding the shooting on the Madison Square roof garden. The prosecution decided to let the evidence of actual facts prove the motive. Mr. Garvan, declared in his opening address that Thaw's act was deliberate, premeditated and intentional murder. He walked up to the architect when he had determined to kill, wheeled and faced him, and then fired a bullet into his brain.

"Stanford White was dead," the prosecutor said, "but Thaw was determined to make it sure. He fired a second and third time, and then in a cool manner faced the audience with a gesture which assured all who saw it that the man had intended what he had intended. Consequently there was no panic."

Before the prosecution began the introduction of its evidence, District Attorney Jerome secured from the court and with consent of Thaw's counsel, an (Continued on page 3, second column.)

LEVEES ARE SOFTENING

Great Apprehension is Felt Along the Lower Mississippi.

Jackson, Miss., Feb. 4.—Reports from points along the Mississippi river state that continual rains during the past eighteen hours have softened the levees, and great apprehension is felt. The rainfall has been over two inches in twenty-four hours. Wild animals are fleeing from the swamps. Two grown deer passed through the main street of Yazoo City yesterday.

THREE FIREMEN LOSE THEIR LIVES

Were Prominent Business Men of White Plains, N. Y.

White Plains, N. Y., Feb. 4.—Three volunteer firemen were killed and four injured, one of them probably fatally, early today, while working on the ruins of the Mead building which was destroyed by fire last night.

The dead: John Chester Cronwell, assistant cashier of the First National bank; Charles E. Cooley, a real estate agent; Caley Underhill, a liverman.

The injured: Emil Burgess, a candy maker, probably fatally; Charles Sutton, both legs broken; Charles A. Bruster, both legs broken; Stephen D. Lyon, burned about the body.

Anderson sentenced To Two Years' Imprisonment for Fraud at Grand Rapids. Grand Rapids, Minn., Feb. 4.—(Special to The Herald.)—A special term of the district court was held last week, over which Judge Spooner presided. The term began Tuesday afternoon at 8 o'clock and lasted until Friday night at 9 o'clock, during which time the following cases were considered:

State vs. Franklyn Anderson, charged with securing signatures to a written instrument by false representation. Pleaded guilty and was sentenced to two years in the penitentiary. Anderson is the same individual who figured in some shady stock selling transactions in Bemidji, and later pleaded guilty before Judge Spooner and paid a goodly sum as fine. His partner, Moore, is now a prisoner in the Beltrami county jail.

State vs. Charles A. Seward, forgery in the second degree; four years in the state reformatory.

State vs. Joseph Eliodeau, larceny in the second degree; one year in the penitentiary.

State vs. John Tuisku, assault in second degree; three years in penitentiary.

State vs. Harry Burridge, larceny in second degree; three years.

State vs. David Robideau, larceny in second degree; four months.

State vs. James Lee, larceny in second degree; four months.

State vs. Thomas Sullivan, petit larceny; forty days.

State vs. Steve Moth, assault in third degree; seventy days.

State vs. Mike Rudl, assault in third degree; sixty days.

State vs. Mike Orovich, assault in third degree; fourteen days.

State vs. Ray de Grouques, larceny in second degree; six months.

There were two cases of J. W. Poole, et al. vs. A. E. B. et al. The first case was tried, the second not being yet finished.

There was also the matter of vacation of the second addition to the village of Nashauk.

COLD IN SPAIN. Madrid, Feb. 4.—The coldest weather experienced in a generation is prevailing in Spain. Railroad communication is everywhere interrupted.

OIL GOES UP. Cleveland, Feb. 4.—Quotations on gasoline and naphtha were again advanced today by the Standard Oil company. The new prices are as follows: Varnish makers and painters' naphtha, 14c; domestic Red Crown gasoline, 14c. Eighty-six degs. gasoline remains unchanged at 22c.

Garvan Opens for the People and Calls Lawrence White as First Witness.

Thaw's Mother, Wife and May McKenzie Excluded From Court as Trial Opens.

Attorney Gleason Opens for Defense at Beginning of the Afternoon Session.

New York, Feb. 4.—The case of the people against Harry Thaw, charged with the murder of Stanford White, was presented to the jury today in less than two hours of the morning session of the trial, and this afternoon Attorney John H. Gleason opened the opening address for the defense.

Assistant District Attorney Francis P. Garvan outlined the case for the prosecution, occupying less than ten minutes in narrating in a conversational tone the events on the night of the tragedy. He did not go beyond the immediate events preceding the shooting on the Madison Square roof garden.

The prosecution decided to let the evidence of actual facts prove the motive. Mr. Garvan, declared in his opening address that Thaw's act was deliberate, premeditated and intentional murder. He walked up to the architect when he had determined to kill, wheeled and faced him, and then fired a bullet into his brain.

"Stanford White was dead," the prosecutor said, "but Thaw was determined to make it sure. He fired a second and third time, and then in a cool manner faced the audience with a gesture which assured all who saw it that the man had intended what he had intended. Consequently there was no panic."

Before the prosecution began the introduction of its evidence, District Attorney Jerome secured from the court and with consent of Thaw's counsel, an (Continued on page 3, second column.)

White Plains, N. Y., Feb. 4.—Three volunteer firemen were killed and four injured, one of them probably fatally, early today, while working on the ruins of the Mead building which was destroyed by fire last night.

The dead: John Chester Cronwell, assistant cashier of the First National bank; Charles E. Cooley, a real estate agent; Caley Underhill, a liverman.

The injured: Emil Burgess, a candy maker, probably fatally; Charles Sutton, both legs broken; Charles A. Bruster, both legs broken; Stephen D. Lyon, burned about the body.

ADVERSE TO CITY

Is Supreme Court Decision in Case of Chicago vs. Mills.

Fails to Find Any Collusion Between Mills and Company.

Washington, Feb. 4.—Justice Day of the supreme court of the United States today announced the opinion of that court in the case of the city of Chicago vs. Darius O. Mills, which was adverse to the city's contentions. The case involved the Chicago city ordinance fixing the price of gas at 75c per thousand cubic feet. Mills is a stockholder of People's Gas company. He resides in California. The principal question at issue was the lack of jurisdiction on the part of the federal courts, and the city charged that the suit by Mills had been instituted in collusion with the company. The district court failed to find evidence of such collusion and the supreme court sustained the decision.

It was made to appear from the city's pleading in the case that since 1900 when the ordinance was enacted, the company had collected at the rate of \$1 per thousand, thus securing an aggregate of \$12,000,000 in excess of the total that would have been obtained under the rates of the ordinance.

Lexington, Ky., Feb. 4.—When the case of Caleb Powers, charged with complicity in the assassination of Senator William Goebel at Frankfort, seven years ago, is called in the circuit court at Georgetown, Scott county, tomorrow, the trial will be continued by agreement. A special term of the court will be called probably for the early summer.

Neither side has served a subpoena upon witnesses nor has any preparation been made for the trial. This will be the fourth trial of Powers, who has been sentenced to the penitentiary twice and given the death penalty once.

ATTEMPT MADE TO ASSASSINATE JUDGE. Lexington, Ky., Feb. 4.—An attempt was made to assassinate Judge David Martin and his son, Milton Martin, as they rode along the highway in Knott county, by men concealed in the underbrush. Milton was shot twice and seriously wounded while Judge Martin was injured by heavy stones which were thrown on him. There is no clue to their assailants.

WEATHER FORECAST—Increasing cloudiness and not quite so cold tonight and Tuesday with possibly snow flurries. Lowest temperature tonight about 20 degs. below zero.

RETRIAL IS COMMENCED

McGillis Damage Case is Once More Before a Jury.

Heino and Hollister Settle Last Damage Case for Trial.

The second trial of the damage action of Joseph McGillis, administrator of the estate of Gillis McGillis against the Duluth, Missabe & Northern Railway company, was started in Judge Canby's room this morning.

At the first trial in the case, a verdict of \$1,500 was returned in favor of the administrator. The railway company asked for a judgment notwithstanding the verdict, or for a new trial, which was denied. An appeal was taken to the state supreme court which held that the plaintiff was entitled to damages, but sent the case back for a new trial on the ground of errors in law.

Gillis McGillis, the deceased, was formerly a brakeman in the employ of the defendant railway company. It is claimed that while he was engaged in the performance of his duties he was carelessly and negligently run down by an engine and received injuries that caused his death shortly after the accident. The suit was started by the administrator to recover \$5,000, the statutory limit in case of death. The administrator is represented by John Jensen, Jr., and the railway company is defended by Theodore Hollister.

This is the last jury case for trial this term and the jurors not engaged on the case were excused for the remainder of the term.

It was expected that one more personal injury case, that of Jacob Oja against the P. & M. Mining company, would be tried this term, but the case was dismissed this morning on a settlement effected this morning by the parties, in which Oja receives \$2,500 in lieu of all claims for damages. Oja had a leg broken in the pit mine by a quantity of ore that fell on him. Oja was represented by John R. Heino and Theodore Hollister.

Judge Ensign heard the divorce action of Bertha Ludvigson against Ludvig Ludvigson, this morning and granted a decree. Mrs. Ludvigson charged cruel treatment and desertion in the old country. She afterwards came to this country and Duluth with her mother and sister, the family residing at West Second street.

I. Grotum represented Mrs. Ludvigson.

Judge Dittel took up the court cases on the present term calendar, this morning, in court room No. 3.

SCOTLAND, S. D., BANK CLOSED.

Washington, Feb. 4.—National Bank Examiner George A. Silby has advised the controller of the currency that he has closed the First National bank of Scotland, S. D. No reason is given for the closing of the bank.

"GIGANTIC MISTAKE" IS SHOWN BY THE RECOUNT

Attorney Says Duluth Figures Prove the Claims Made.

Fight Will Be Made in State Legislature This Week.

The fight for the enactment of legislation which shall direct the state to order a recount of the votes on the tax and good roads amendments, at the expense of the state, will be started in the legislature Wednesday afternoon by a committee of Duluth men, who will show what has already been accomplished in Duluth in the matter of a recount, and endeavor to convince the legislators that it is their duty to vote in favor of passing a measure of the kind desired.

H. H. Phelps, attorney for the Duluth Real Estate exchange, will be one of the committee from Duluth. The others have not yet been appointed. Said Mr. Phelps this morning: "Our work in Duluth has demonstrated beyond the shadow of a doubt that a recount of all the votes in the state will bring about the defeat of the tax amendment. We find that 1,480 votes intended for the good roads amendment in Duluth were wrongfully credited to the tax amendment. In this city

there are forty-three precincts, which gives an average of thirty-four votes to a precinct which were credited to the tax amendment when they should have been credited to the other. Some of the precincts cast less than thirty-four votes, of course, but these figures show the general average.

"We have every reason to believe that just as great a mistake was made in practically every district in the state. There are 10,000 precincts in Minnesota, and an average of thirty-four votes to each would give a grand total of 340,000 votes credited the good roads amendment by mistake. All we need is an average of 1% votes to a precinct to defeat the tax amendment. It took the commission four days to recount the votes in Duluth. The cost was about \$500. Figuring on this basis, it would take a commission of this size 1,000 days or three years to recount all the votes cast in the state, and the expense would be tremendous, so very large, in fact, that private subscription could not well stand the cost. We do believe, however, that if turned down by the legislature, that enough precincts can be counted to be fairly minded, raised by subscription to defeat the tax amendment.

"It seems impossible to believe that the legislature will refuse our request. I don't see how the Republican legislators can any of them refuse. The party always has stood for fair-minded elections. It has been one of the cardinal motives. I do not brand the present situation as being the result of fraud, but I do say that it is the result of a gigantic mistake, with results just as disastrous and unjust as if it had been fraud. The state made the mistake in the first place, and she certainly should stand willing to rectify it. How any man who pretends to be fair-minded, and stands as a representative of the people, can see it in any other light is more than I can imagine."

REPORT OF TREASURER

For Month of January Shows Balance of \$380,817.13.

City's Funds All Have Small Balance on Hand.

The report of City Treasurer Voss for the month of January has been prepared. The city now has in all its funds, \$380,817.13 at its disposal, the permanent improvement revolving fund claiming the largest balance after the month's expenditures, amounting in all to \$82,580.73.

The report in detail is as follows:

INTEREST FUND.

Balance on hand Jan. 1, 1907, \$2,354.17

Disbursements for the month, 900.00

Balance Feb. 1, 1907, \$1,454.17

SINKING FUND.

Balance on hand Jan. 1, 1907, \$175,512.87

Disbursements for the month, 1,130.00

Balance Feb. 1, 1907, \$174,382.87

PIRE DEPARTMENT FUND.

Balance on hand Jan. 1, 1907, \$13,900.00

Disbursements for the month, 1,000.00

Balance Feb. 1, 1907, \$12,900.00

POLICE DEPARTMENT FUND.

Balance on hand Jan. 1, 1907, \$74,741.71

Disbursements for the month, 2,000.00

Balance Feb. 1, 1907, \$72,741.71

LIGHT FUND.

Balance on hand Jan. 1, 1907, \$2,000.00

Disbursements for the month, 2,000.00

Balance Feb. 1, 1907, 0.00

WATER FUND.

Balance on hand Jan. 1, 1907, \$2,028.80

Disbursements for the month, 2,000.00

Balance Feb. 1, 1907, \$28.80

PUBLIC WORKS FUND.

Balance on hand Jan. 1, 1907, \$2,000.00

Disbursements for the month, 2,000.00

Balance Feb. 1, 1907, 0.00

HEALTH FUND.

Balance on hand Jan. 1, 1907, \$2,000.00

Disbursements for the month, 2,000.00

Balance Feb. 1, 1907, 0.00

PRINTING AND SUPPLY FUND.

Balance on hand Jan. 1, 1907, \$2,000.00

Disbursements for the month, 2,000.00

Balance Feb. 1, 1907, 0.00

WATER AND LIGHT FUND.

Balance on hand Jan. 1, 1907, \$2,000.00

Disbursements for the month, 2,000.00

Balance Feb. 1, 1907, 0.00

BUY DULUTH GOODS.

LESSON NO. 1.

Duluth has 75,000 people wearing at least one pair of shoes a year, and probably averaging two pairs for each person. 150,000 pairs of shoes in a year.

"If every shoe purchaser said: 'Give me a pair of shoes made in Duluth,' the shoe factories here would have to knock the socks out of their heels to accommodate the extra workmen."

PERMANENT IMPROVEMENT FUND.

Balance on hand Jan. 1, 1907, \$5,880.85

Disbursements for the month, 246.00

WEST DULUTH

GOOD FIELD

FOR BROKER

West Duluthians Are Watching Stock Market Very Closely.

Rumor Says Brokerage Office Will be Established Here.

West Duluth is an excellent field for the establishment of a brokerage office, in the opinion of many of the business men of this district of the city. Like the people of Duluth in general, West Duluthians are greatly interested in the stock market, and it is thought that a brokerage office would be well patronized.

There are rumors that there will be a brokerage office here within a few weeks. The rumor says that one of the big up-town offices will establish a branch here, but no definite information has been obtained from the proprietors.

Mining stocks and copper stocks in particular are being watched very closely by many of the business men of this end of the city, and some have realized large gains from their manipulations.

Members of the West Duluth Ski club who were out yesterday afternoon, found that the hill between Fifty-ninth and Sixtieth avenues west had been put in excellent shape by the committee during the week, and some good skiing was the result.

There was a good turnout of the followers of the sport, several members of the Duluth club being present and taking part in the jamming.

The best jump of the afternoon was made by Levi Olson, who sailed into the air for a distance of seventy-nine feet. George Jacobson took second place, with a seventy-five foot jump. George Houder next with seventy-one feet, and Conrad Leo fourth with a jump of sixty-nine feet.

Many other members of the club did excellent work and great promise of becoming first-class ski riders.

The club will hold another meeting tomorrow evening at P. S. Johnson's store, on Central avenue, and rules and by-laws will be adopted. It is likely that the temporary officers will be succeeded by permanent officers, elected tomorrow night.

Blaze Was Quenched.

The home of Mrs. H. B. Hall, 607 Twenty-ninth avenue west, was the scene of a narrow escape from a serious fire yesterday morning. While Mrs. Hall was lighting a stove, a match fell and set off a fire in the curtains.

Immediately the curtains were enveloped in flames and the fire spread rapidly to the west wall. It was only after some quick work by

the fire department that the fire was extinguished. The damage to the property was not great.

Polis Close at 7 p. m.

VOTE FOR

Angus D. McAuley

Independent Candidate for Alderman, 7th Ward.

Mrs. Hall and another woman that the blaze was finally put out with little damage to the building. The loss amounted only to the damage of the curtains.

Will Build Sawmill.

Two West Duluthians known by the name of Leach & Woodhull, have purchased the site of sawmill machinery which has been stored in a warehouse.

Meeting Has Been Called

Public Affairs Committee Will Discuss Harbor Question.

There will be a special meeting of the public affairs committee tomorrow evening at the Commercial club, for the purpose of hearing the report of the harbor committee on the harbor question, and other matters of importance that are to come before the committee.

This committee will be able to make a very favorable report on the work it was able to accomplish in Washington on behalf of the Duluth harbor.

Duluth will be well satisfied as a result of the appropriation bill and amendments are passed. The amendments for Duluth and other matters of importance that are to come before the committee, which remained in Washington several days after the other members of the committee had returned home, and were introduced by Senator Nelson.

French & Bassett's

Great discount sale is the greatest furniture event ever known here. Ten to 50 per cent discount throughout the stocks.

William Abel

Frozen to Death

Coleman, Wis., Man Perishes While on His Way Home.

Menominee, Mich., Feb. 4.—(Special to The Herald.)—William Abel, a lumberman, aged 62 years, was frozen to death last night on his way from Albert Grand's lumber camp to his home at Coleman, Wis. It is supposed that Abel was taken sick while on his journey. He leaves a family of twelve children, the youngest one year old, and the oldest 18 years. The family is in destitute circumstances.

Don't miss this last week of French & Bassett's great discount sale. Hundreds of articles at half price.

F. H. WADE.

229-381 Central Ave.

A RADIANT HOME

is just what you need this kind of weather. You won't heat anybody kicking about the cold weather if they have a Radiant Home heater in the house. They use less fuel and give more heat than other stoves.

Just ask your neighbor about them.

Radiant Home now \$15.00.

Also cut prices on larger sizes.

Royal Stoves and Ranges still going at \$2.00 per week payments.

Don't suffer with the cold when it is so easy to get the best stove made.

NEGROES TO HAVE A NATIONAL FAIR.

Mobile, Ala., Feb. 4.—A negro national fair will be held in this city in November, 1907. A feature will be the exhibit of inventions and craftsmanship of negroes. A large amount of space will be used by Chicago negroes. Many letters of encouragement are being received. An invitation will be extended to the president of the United States to visit and open the fair.

Handsomeness Loose and Tight Fitting Coats.

\$ 9.75 for Long Swagger Mixture Coats, formerly \$22.50

\$ 8.75 for Long Loose Kersey Coats, formerly \$18.50

FINE RECIPE FOR COLDS

Mix half pint of good whiskey with two ounces of glycerine and add one-half ounce of concentrated oil of pine. This latter comes in one-half ounce vials packed in round air-tight cases which are intended to protect it from light and retain all the original ozone. Don't use bulk oil of pine or imitations of Concentrated oil of pine. They are insubstantial and work havoc to the kidneys. Any druggist has the Concentrated oil of pine. It will also be found a most excellent remedy for lumbago and all forms of uric acid rheumatism. For this purpose it is taken raw, a few drops on sugar at night and morning.

Concentrated oil of pine is the results of many years of experimenting by one of Philadelphia's foremost doctors who after endless research at last secured a truly soluble oil of pine, so make sure to get the real thing. It also makes an excellent salve to be applied externally on the limbs. For this purpose it is mixed with lard or vaseline.

LATE DOINGS IN UPPER MICHIGAN

Wages of Employees Are Raised by the Copper Range Road.

Calumet.—The Copper Range railroad has increased the wages of about 100 of its employees acting as freight and passenger service on its line. This increase in wages was by the road's own suggestion at the last year, and came voluntary from the railroad officials.

The increase in wages amounted to \$10 per month for all passengers and conductors. For freight engineers and conductors the increase is \$5 per month, while for brakemen and others the increase amounts to \$2.50 per month. Coming as it did without any solicitation upon the part of the employees affected they are naturally more than pleased with the increase.

It is understood that the South Shore and Mineral Range railroad officials now have under consideration an entire revision of the wage scale, and it is not at all unlikely that an announcement of the new schedule will be made in very short time. By the new schedule it is expected that every employee of the two companies will receive an increase in wages corresponding to that paid by other railroads.

St. Albans.—For several years past managing editor of the Palladium, the Finnish morning paper, has been resigning his position, and has left for Chicago where he expects to be succeeded by Adolph Kilpa.

The death occurred Saturday at the home of his father, Vital Coppo, on Sixth street, of Anthony Coppo, a well-known resident at the age of 33. Dr. Prossy was the cause. His wife died about five years ago, and there were no children.

Gladstone.—The common council of Gladstone is considering the proposition of purchasing the Gladstone Opera house for use as a city hall. The building, owned by the building, has offered to sell the structure to the city for \$10,000. It is considered a bargain figure, and the matter is in the hands of a committee for recommendation. Gladstone has had comparatively few theatrical attractions since the house was built, the city, although on the Soo line, being rather remote to the theatre, and the Northwestern circuit, and it is the understanding that the nature of the Hammer and his associates has not been a particularly profitable one.

Marquette.—Shore of Lake Superior has received from W. E. Ever, the Imperial German consul at Chicago, a copy of a warrant and notice issued by the state's attorney at the royal Prussian superior court at Berlin, No. 21, of the apprehension of August Sternickel, a German citizen, and a warrant for his arrest. It is believed to be in this country, on the night of June 9, 1906, Sternickel and two other men are alleged to have murdered and robbed a miller named Knapp in Prussia and turned his mill. The two other men were arrested, and implicated Sternickel, who made good his escape.

Superintendent Kendall P. Brooks is working on the public schools of the city, a school for deaf children, under the provisions of Act No. 21 of the public acts of 1905, entitled "An act authorizing the establishment of a school for deaf children in the city of Duluth."

MOHLER OUT OF DANGER.
Omaha, Neb., Feb. 4.—(Vice President and General Manager Mohler of the Union Pacific, is ill with pneumonia at the Auditorium Annex, Chicago. He has been confined to a room for a week, and the matter was not made public in Omaha until Sunday, when his daughter who has been by his bedside for a week, returned to Omaha. Mr. Mohler is now thought to be out of danger.

BACKACHE AND DESPONDENCY

Are both symptoms of organic derangement, and nature's warning to women of a trouble which will sooner or later declare itself.

How often do we hear women say, "It seems as though my back would break." Yet they continue to drag along and suffer with aches in the small of the back, pain low down in the side, dragging sensations, nervousness and no ambition.

They do not realize that the back is the main-spring of woman's organism and quickly indicates by aching a diseased condition of the feminine organs and kidneys, and that aches and pains will continue until the cause is removed.

Lydia E. Pinkham's Vegetable Compound

made from native roots and herbs has been for many years the most successful remedy in such cases. No other medicine has such a record of cures of feminine ills.

Miss Lena Nagel, of 115 Morgan St., Buffalo, N. Y., writes:—"I was completely worn out and on the verge of nervous prostration. My back ached all the time. I had dreadful periods of pain, was subject to fits of crying and extreme nervousness, and was always weak and tired."

Lydia E. Pinkham's Vegetable Compound completely cured me. I feel like a new woman. It cures Backache, Falling and Displacements, and all Organic Diseases. Dissolves and expels Tumors at an early stage. It strengthens and cures the Stomach. Cures Headache and Indigestion and invigorates the whole feminine system.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, Lynn, Mass. Her advice is free.

SURVEYORS COMPANY'S BEGIN WORK

Range Electric Line is Now Fairly Under Way.

Actual Construction Will be Commenced in the Spring.

The Mesabe Traction company has begun preliminary work on the construction of its electric line on the range.

The Duluth Surveying company started work today at Virginia, sending out two crews, one working westward to Hibbing, or possibly Mahoning, and the other working eastward to Aurora, laying out the course of the new electric line which is to unite the principal range towns.

The ties for the line are being taken out this winter, and as soon as the frost is out of the ground, crews will be started on the actual construction work, which would assure a goodly portion of the line being in operation by next fall.

Capital for the work has been already enlisted, and there seems to be nothing now which can block the work in any way. P. B. Meyers of Ellabell is president of the traction company.

Doan's Kidney cure constipation without griping, nausea, or any weakening effect. Ask your druggist for this.

OLD INSURANCE MAN RETIRES

D. R. McLennan Now One of Two Partners in Big Agency.

D. R. McLennan, formerly of Duluth, is now one of the two men in control of the largest insurance agency in the world, as the result of the retirement of Daniel W. Burrows from the firm of Burrows, Marsh & McLennan.

Mr. McLennan, who is also president of the Mutual Life Insurance company of Duluth, is one of the two remaining members of the firm.

The following is taken from the Chicago Record-Herald: "Daniel W. Burrows retired yesterday from the firm of Burrows, Marsh & McLennan, which were known hereafter as Marsh & McLennan. For several years Mr. Burrows has been getting out of the business, and is now preparing to retire from active business, so that his action was no surprise to the street. The business will be carried on by his former partner, Daniel W. Burrows, who will retain a desk in the office and make it his headquarters for the city's fire and marine insurance."

This is the climax of what has been a remarkable insurance career. Mr. Burrows was educated for the bar in New Hampshire, but did some of the insurance work while studying law. He came to Chicago in 1883 and entered the firm of Burrows, Marsh & McLennan, which was then a small agency. He entered the local business in Chicago in 1890, continuing the firm of Burrows, Marsh & McLennan. This firm is believed to have the largest business of any insurance agency in the world, controlling many lines of insurance and trust insurance. Mr. Burrows was equally successful.

WIFE HE WOULD BANISH MAY GET HIS FORTUNE.

San Antonio, Tex., Feb. 4.—George H. Myers, who was found dead at Yankton, S. D., with \$100,000 worth of Standard Oil stock on his person, was well known in this city. Three years ago he came here to be treated for heart disease. While in the sanatorium he fell in love with his nurse, Mrs. Mary Dixon, of this city, and as soon as he was sufficiently recovered, married her. His life together was not happy, and four years ago she deserted him.

Acting on the attorney's advice, Mr. Myers went to South Dakota to get a divorce. He lived there for a week, but he lacked only one week of having been there the required time. As he had not secured a divorce, his wife will become heir to his entire fortune unless he left a will providing against this.

MISS LENA NAGEL

of 115 Morgan St., Buffalo, N. Y., writes:—"I was completely worn out and on the verge of nervous prostration. My back ached all the time. I had dreadful periods of pain, was subject to fits of crying and extreme nervousness, and was always weak and tired."

Big Duluth
Williamson & Mendenhall

DEPOT MATRON DIES.

Was Known For Her Activity in Charitable Work.

Many Duluth women were grieved to learn of the death yesterday morning of St. Mary's hospital matron, Edna V. Burns, who has been depot matron at the union station for three years. Mrs. Burns was ill but a few days, being taken to the hospital Friday last week, and her death occurred yesterday morning.

The work of securing a depot matron was among the first duties undertaken by the board of directors of the Young Women's Christian association, and the woman so employed by the railroad company is considered of much importance.

Mrs. Burns had most faithfully filled the post, and the death of this devoted and efficient woman was a great loss to the association.

A short service was held this afternoon at 4 o'clock at Durkin & Crawford's undertaking room, by Rev. J. J. Connelley, pastor of the Holy Trinity church. The body was interred at the cemetery this evening to Winnebago City. A son, 12 years old, and her mother survive Mrs. Burns.

NEW ORGANIZATION.

Independent Progressive Club Will Give Educational Programs.

Duluth has a new literary club. Yesterday afternoon in Kalmazoo hall a number of the Jewish young men in Duluth met and organized what will be known as the Independent Progressive Club. The object of the new society is educational, and lectures and debates will be features of each meeting of the organization. During the winter some of the most speakers obtainable will talk to the club both in Hebrew and English. Meetings being held every two weeks.

An occasional entertainment will be given to make these meetings more attractive and at the next meeting it will be given. A concert and dance will be given. L. Hoff was chosen chairman of the club, M. Schneider, secretary, and L. L. Hoffman, treasurer. The arrangements committee consists of L. Dorman, B. Berg and L. Hoff.

For quality, healthfulness, purity, satisfaction in the baking, use Hunt's Perfect Baking Powder—the demand grows every day.

Another Fight Trust Busted.

The selection of a mix in front of the entrance to the Spaulding hotel as the scene of a pugilistic encounter, and a running rough house in which all hands joined, caused the arrest of four of the fight promoters yesterday afternoon, and Mike O'Malley, Joseph J. Foster, Joseph D. Harris and John C. Carter were gathered in and taken to the station, where they were held until this morning. They forfeited their bail.

Two of the group started the scrap, and when an officer stepped in and saw the other two stepped in and made strenuous efforts to get their companions out of the clutches of the law. One then called a copper a "trass-bustin' Swede," and the result was that they were all taken to headquarters.

BAD FIRE RAGING NEAR CHEAPSIDE IN LONDON.

London, Feb. 4, 7:15 p. m.—Fire broke out this evening in a block of buildings near Cheapside and within a short distance of the general post office. The whole city is lit up with the glare of the flames.

THE DEFENSE FOR HARRY THAW WILL BE INSANITY

Will Rely Entirely on the State Laws Instead of Higher or Unwritten Law.

Defendant's Attorney Says Ample Proof of Hereditary Insanity Will be Given.

New York, Feb. 4.—It was 2:15 p. m. when Mr. Gleason began his opening address for the defense in the Thaw case. The character of the defense to be offered in Thaw's behalf was not divulged in his first remarks.

"You may disabuse your minds, gentlemen of the jury," he began, "of any idea or impression that the defense in this case will rely upon anything but the constitution and the laws of the imperial state of New York. Upon these laws we alone will rely. You must dispel all idea that we are to import into this case any so-called higher or unwritten law. We will rely upon all the defenses that the law allows.

"One of the laws on trial here is the law of insanity. The purpose of the defense was at last disclosed, and Mr. Gleason began to dwell upon the subject. He declared that it would be shown that Thaw believed he was insane at the time of the crime, and when he killed White. It would also be shown that the defendant had suffered from temporary or emotional insanity for years.

Mr. Gleason declared further that it would be shown that Thaw acted in self-defense and without malice, believing that he was acting in self-defense. He said that Thaw was sane when he killed White. Mr. Gleason said that Thaw did not know the nature or quality of his act at the time he committed it.

"If you say with you alone," continued the attorney, addressing the jury, "to decide whether or not Thaw was sane when he killed White, you will apply to yourselves the same test that you will apply to Thaw. You will be asked to decide if you believe that Thaw was sane when he killed White. The defendant was suffering from an hereditary insanity which existed in his family. When we show this insanity in the family and show this man's act you will say it was the act of an insane man. You will understand the stress. The heredity will be proved.

"Hereditary stress are the two great causes of insanity. This defendant suffered from a great stress of mind. Certain things kept revolving in his mind again in his mind until his brain was in a whirl of madness and he felt impelled by Providence to act in the way he did. We will not rest the evidence of insanity upon any single act, though eminent experts of brain diseases have long held that insanity may be defined by a single act."

Gleason asserted that Evelyn Nesbit Thaw, when she was asked by Harry Thaw to be his wife, refused because of her experience in her life connected with Stanford White.

Suffice it to say that the reason was one connected with an experience in the life of the girl with regard to Stanford White.

"That Thaw suffered from a diseased mind we will show you by the testimony of his mother, his wife, his relatives, his doctors, and by letters he wrote to the society for the suppression of vice in this city. When you have heard all this testimony it will be impossible for you to say that the act of this man for which he is now undergoing trial was that of a sane person. We will show you many things connected with his past life and that of his wife. They culminated in the explosion which caused this defendant to kill Stanford White.

"Thaw had long labored under the delusion that his life was in danger whenever he was in New York City, and consequently he had always, after January, 1904, carried a pistol when visiting New York. The pistol was in his overcoat pocket when he was in New York City. It was the night of June 25 last.

"Thaw was in the Madison Square room when he still saw what was a demon glowing in his mind. Acting upon the impulse of the delusion that his life was in danger, he walked coolly and deliberately, as you or I should strike a copper hit sulphide vein in forty feet. The company is installing steam hoist and power drills to sink to a depth of 1,000 feet."

"Believing his act to be a crime, he had no idea of evading any of the consequences. Still, regarding himself as the agent of Providence, he stood there, held his pistol aloft as if to say 'It is done, it is right.' It is righting."

Mr. Gleason spoke for an hour and a half, and then he rested his case. Mr. Delmas, of Thaw's counsel, then asked that an adjournment be taken until tomorrow morning. He said that the defense then would be ready to proceed. The adjournment was granted.

WALKER ON THE METAL

Boston Writer Says Smelters Are Shipping by Fast Freight.

George L. Walker, the Boston writer, says of the copper metal market in his latest letter:

"Copper is strong and unchanged in price. Lake is selling at 25 cents and electrolytic at 24 1/2 cents per pound for delivery as far ahead as June. Spot copper can be sold readily at 25 cents to 25 1/2 cents, according to quantity, grade and shape. Consumers are demanding prompt delivery. The market is very active and the product of the Butte, Lake Superior and Arizona smelters is being shipped forward by fast freight, some of it going into cars before it has had time to cool. It is declared that there is not an average of over one or two days' production of copper at the various smelting plants throughout the country."

The circulation this week by the Associated Press of the story which has brought the Northeastern Metal Dealers' association into prominence, fooled a few consumers and sent a chill down the spines of many holders of copper mining securities. At present the newspapers are filled with denials. Mr. Norton denies that he said it, and every body who has been connected with having had anything to do with the report also denies his connection.

"There is no surplus of copper in this country, and no effort is being made by any interest to maintain prices artificially above the market level. It is improbable that anyone could be found who is sufficiently short-sighted to undertake so cornered again, it will be when the selling price is very much lower than it is at the present time."

"Electrical construction and equipment is increasing steadily in all quarters of the globe. Steam railroads are being converted to electrical traction. Waterpowers are being harnessed, and local manufacturing plants are converting their power into electricity for more convenient distribution to the various departments. There is hardly a steam mill in the country that is not given more or less attention to the question of electrical equipment."

"One of the leading copper men in this United States is quoted as predicting that copper will go to 35 cents per pound. It is known that others expect to see this metal sell above 30 cents. The consensus of opinion, however, is that the average price throughout the present year will be at least 25 cents, and that several years may elapse before the price goes back for any length of time to a 15-cent level. Consumption of copper still exceeds production, and this condition of things is likely to continue for ten years to come."

"The factor of tight money, which I have for a long time feared, came to be the predominant one in the market this week. Inability to float bonds caused several corporations to bid 5 to 6 per cent for money on temporary notes which were sold below par. These were too great a temptation to investment holders of railroad and industrial securities—which showed large profits and yielded 5 per cent or less on market quotations. Liquidation started, became wholesale and carried prices low enough to shake public confidence severely. A report was circulated that copper was being stored

in the way he did. We will not rest the evidence of insanity upon any single act, though eminent experts of brain diseases have long held that insanity may be defined by a single act."

Gleason asserted that Evelyn Nesbit Thaw, when she was asked by Harry Thaw to be his wife, refused because of her experience in her life connected with Stanford White.

Suffice it to say that the reason was one connected with an experience in the life of the girl with regard to Stanford White.

"That Thaw suffered from a diseased mind we will show you by the testimony of his mother, his wife, his relatives, his doctors, and by letters he wrote to the society for the suppression of vice in this city. When you have heard all this testimony it will be impossible for you to say that the act of this man for which he is now undergoing trial was that of a sane person. We will show you many things connected with his past life and that of his wife. They culminated in the explosion which caused this defendant to kill Stanford White.

"Thaw had long labored under the delusion that his life was in danger whenever he was in New York City, and consequently he had always, after January, 1904, carried a pistol when visiting New York. The pistol was in his overcoat pocket when he was in New York City. It was the night of June 25 last.

"Thaw was in the Madison Square room when he still saw what was a demon glowing in his mind. Acting upon the impulse of the delusion that his life was in danger, he walked coolly and deliberately, as you or I should strike a copper hit sulphide vein in forty feet. The company is installing steam hoist and power drills to sink to a depth of 1,000 feet."

"Believing his act to be a crime, he had no idea of evading any of the consequences. Still, regarding himself as the agent of Providence, he stood there, held his pistol aloft as if to say 'It is done, it is right.' It is righting."

Mr. Gleason spoke for an hour and a half, and then he rested his case. Mr. Delmas, of Thaw's counsel, then asked that an adjournment be taken until tomorrow morning. He said that the defense then would be ready to proceed. The adjournment was granted.

and the price artificially maintained. As a consequence, a good many of the higher prices, greater activity and a thoroughly liquidated and somewhat oversold appearance, and a good recovery is certainly about due.

"There is no basis for bearish feeling on the part of the copper stocks. Some of the lower price speculative issues undoubtedly have been overbought, and many of them have seen higher prices. Greater activity and a better market generally than they were entitled to, and viewed from a standpoint of intrinsic value and prospect, they are still much too high."

"Superior & Pittsburgh, which is selling around \$27.50, is in much better shape physically than it has been at any previous time in its history. New bodies have been opened up in its district, and the deposits upon which work has been going forward for a year or two have been found to be extensive and preparations made for increased ore shipments. The Junction is preparing to start work on a new body, and one car per day will go forward from the Hoatson shaft of the Junction. The Lake Superior & Pittsburgh, which is selling around \$27.50, is in much better shape physically than it has been at any previous time in its history. A BLESSING TO MANY FOR BOOSTING DULUTH

Simple Home Prescription Recommended for Elderly Folks.

How to Prepare It for Kidney or Bladder Troubles or Rheumatism.

This is a message that will bring happiness again into many families and sunshine into the lives of hundreds of distressed and discouraged men and women here. It requires just a little inconvenience, for it can't be bought already prepared. It is a simple home prescription now being made known in all the larger cities through the newspapers. It is a simple home prescription now being made known in all the larger cities through the newspapers. It is a simple home prescription now being made known in all the larger cities through the newspapers.

The drugists here have been notified to supply themselves with the ingredients, and the sufferer will have no trouble to obtain them. The prescription is as follows: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup of Sarsaparilla, three ounces. Mix by shaking well in a bottle. The dose is one teaspoonful after each meal and at bedtime. Recent experiments, even in severe hospital cases, prove this simple mixture the remedy for Rheumatism, because of its digestive action upon the eliminative tissues of the kidneys. It compels these vital organs to filter from the blood and excrete the waste impurities and uric acid which are the cause of rheumatism. It cleanses the kidneys, strengthens them and removes quickly such symptoms as backache, blood disorders, bladder weakness, frequent urination, painful, scalding and discolored urine. It acts as a powerful stimulant to the entire kidney and bladder structure, puts new life into them and invigorates the entire tract. It makes the kidneys clean the blood. The Dandelion will take care of liver trouble and constipation, and is fine for the stomach. All the ingredients, states a well-known local druggist, are of the highest extraction, making it a safe and harmless prescription at any time.

Those who suffer and are accustomed to purchase a bottle of patient medicine should not let a little inconvenience interfere with making up this prescription. The Dandelion is a generally known, states a large Eastern publication, it ruins the sale of patent medicine and the various ailments and kidney cures, which is its best endorsement of virtue.

WOULD CLOSE SCHOOLS.

Range Towns Strongly Opposed to Iron Ore Tax Law.

W. H. Eaton, mayor of Virginia, made the statement at the St. Louis that the new bill providing for a tax of 5 cents a ton on all iron ore produced in the state, in lieu of all other taxes on iron mines, if enacted into a law, would virtually close all the schools on the iron ranges of St. Louis county.

"The people of the iron range towns propose to do all they can to defeat the measure," said Mr. Eaton, "and we, of course, expect Duluth to help us, for she would be directly affected by such a law, and to her very great advantage. The iron range towns of the city would be materially raised. A large portion of Minnesota seems to be imbued with the idea that the St. Louis county should support the law, when the ranges already have paid two-thirds of the total amount now in the state school fund."

TWO MEN END LIVES IN MINNEAPOLIS HOTEL.

Minneapolis, Feb. 4.—Two men, George Kirkmeyer and Sons Valentine, carried out a suicide pact in a local hotel yesterday by inhaling gas. Both men were laborers and have been out of work for some time. They both said that they were badly in need of money. Yesterday afternoon Valentine made several remarks to Kirkmeyer, planned to commit the deed, but friends took the matter as a joke. The bodies were found side by side in a bed in their room.

JURORS PRAY; ACQUIT MAN.

Unable to Reach Decision, Illinois Triers Ask God for Guidance.

Kankakee, Ill., Feb. 4.—For the first time in the history of the Kankakee county circuit court, so far as is known, a juror was required to pray in the jury room to guide the jury in determining action in the case under consideration. The case was that of Henry Goll, who twice before had faced the penitentiary on the same charge, perjury.

After failing to reach a decision inside of twenty hours with the jury standing eleven to one for conviction, one of the jurors suggested that they pray to God for guidance in the matter. A brief discussion followed the prayer, after which the jurors decided in favor of acquittal. The juror who brought in a verdict of not guilty, accompanying the verdict was the following note to the presiding judge: "We, the jury, hereby request you to give the defendant your very best and most earnest fatherly advice to hereafter live and lead an honest and conscientious life."

None of the members was a preacher.

GOOD NEWS for the coffee-wreck

DISCUSSION OF PLANS FOR BOOSTING DULUTH

Much Enthusiasm Manifested at the Commercial Club Meeting.

Steps Necessary for Advancing Interests of City Considered.

At the meeting of the industrial committee of the public affairs committee at the Commercial club, Saturday evening, W. H. Silvey suggested that the services of a man to take charge of the "boost Duluth" movement be secured, his work to consist entirely of an effort to interest outside manufacturing concerns in Duluth, and to advertise Duluth. The idea did not meet with the approval of several men in attendance, although some of the speakers strongly favored it.

Sentiment is divided as to the advisability of such a move at the present time, and the indications are that no definite action in this direction will be taken for a while yet. The Commercial club and public affairs committee, through the able hands of H. V. Eva, secretary, has done a vast amount of good work during the last two or three years in woefully advising the Zenith City, turning the attention of manufacturers to Duluth, and there are good many who do not think the services of a "booster" are necessary under conditions as they exist at the present time.

Sentiment at the meeting was unanimous, however, in favor of securing cheaper money for the work now being done, developing the trade of the Northwest, securing more favorable freight rates, advertising the city, getting the street car fares for the traveling classes, cultivating the friendship of the surrounding towns, and of doing anything that might result beneficially to the city as a whole.

A "booster" is not secured, probably an additional man will be employed to make his headquarters at the club, whose work it will be to prepare and keep on file statistics relative to the city and surrounding territory, as regards taxes, freight rates, etc. Railroad rates would receive his particular attention, and in this connection he would work under the supervision of Secretary Eva, who thus far has done very efficient work in the "boost Duluth" movement.

Several manufacturing plants have had Duluth in view as a place of locating, but almost invariably their reason for coming here was the fact that they could not float any stock in the city. They refused to consider Duluth as a site until guaranteed the way from \$10,000 to \$100,000 for stock in local people. The Commercial club is not in a position to guarantee such a sum, and with everybody making so much money in copper stocks, it is said to be an utter impossibility to raise money here for a manufacturing plant. Ten per cent interest on money invested looks very small to the copper fever delirium, and there is little hope of raising sufficient capital here to prove attractive to such outside manufacturing plants as refuse to locate here until they are guaranteed a certain amount of money.

Yesterday evening, for example, two manufacturing plants were mentioned, which thought some of coming here. It was explained by one speaker that a "booster" such as suggested, would have landed them. As a matter of fact, the reason they did not locate in Duluth was that they wanted \$15,000 and \$20,000 respectively before coming here, and the Commercial club was not in a position to guarantee them that sum. Opponents to the "booster" idea assert that a man cannot place money in a position to guarantee to the promoters.

"I do not doubt that there is good money in this proposition," said a Duluthian, "Probably I would receive fully 10 per cent on money invested. It is mainly that I cannot afford to place my money in a deal that brings only 10 per cent. Conditions are such in Duluth that I have seen many times that on money invested."

This instance was cited by one of the men who opposed the prevailing sentiment in Duluth. Much attention was paid at the meeting to the matter of developing the surrounding country, and building cheap homes for the working men. A plan was proposed whereby a company should be formed to purchase a large tract, or several tracts of land, for the purpose of doing this. With one man contributing \$1,000, it was said this project could be carried through successfully.

W. E. Culkin spoke of the necessity of cultivating a friendly spirit for Duluth among the fifty or more smaller towns the country tributary to the city, suggesting that the Commercial club show an interest in all their public movements. He held that a committee of two or three ought to attend their fairs, or that the city send something in the way of an exhibit representative of Duluth. The speaker also touched upon the good roads movement, and what it means to the city.

The importance of the new country being opened by the Duluth, Rainy Lake & Winnipeg road was pointed out by W. A. McGonagle, who urged that Duluth make every effort to establish friendly and firm business relations with this region. He said that such as the one then being held were of considerable benefit, and suggested that the National Iron works had done an extensive business in this direction during the past year.

N. J. Upham said the street railway company should construct lines over the hillsides, thus enabling the laboring class to drive to the hillsides, and several miles from the center of the city. J. B. Heimick touched upon the

freight rates and the cost of real estate.

Ward Ames spoke in favor of the organization of a company to build homes as near as possible to the center of the city for the benefit of the laboring classes. P. S. Anneke touched upon the freight rates, and commented adversely on the cost of insurance, saying that the rates are considerably higher than those of other cities of the same size.

P. A. Coker said the Great Northern Development company was meeting with much difficulty in inducing new manufacturing concerns to locate here because of the high cost of living, the high insurance rates, and the cost of fuel. He was strongly in favor of engaging the services of a "booster."

Julius H. Barnes spoke of the value of the trade of the surrounding territory, and said that the territory is being opened up in the territory tributary to Duluth.

Other speakers along the same lines were H. V. Eva, J. P. McCarthy, C. S. Mitchell, J. O. Lenning, M. S. Bright, John A. Stephens, P. S. Heimick and M. A. Ryman. T. W. Hugo acted as chairman in the absence of A. H. Comstock, chairman of the industrial committee.

RAILROADS HAVE PLAN

(Continued from page 1.)

object strenuously to a 2-cent fare law because it will disarrange and in some cases ruin the regular traffic for one way trips. Mileage books are to be on one at that 2-cent rate. The proposition is to give a 2-cent fare on all round trip tickets, without making any concession in the regular tariffs for one way trips. Mileage books are to be on one at that 2-cent rate. The proposition is to give a 2-cent fare on all round trip tickets, without making any concession in the regular tariffs for one way trips. Mileage books are to be on one at that 2-cent rate.

Some of the progressive members of the committee are also proposing that instead of a 2-cent fare law, the legislature provide by law that all state officials and members of the legislature shall be carried free. This is the law in New Jersey, and is in force in the state with reference to the railroad company. It is argued in favor of this that when passengers make compulsory there is no feeling of obligation on the part of the holder toward the railroad. But some of the lawmakers are having trouble with this proposition, and it is said that it will not be adopted.

A large majority of the members in both houses of the legislature are in favor of the 2-cent fare, and that a vote for it would come from the majority of the state. Some of the progressive members of the committee are also proposing that instead of a 2-cent fare law, the legislature provide by law that all state officials and members of the legislature shall be carried free. Some of the progressive members of the committee are also proposing that instead of a 2-cent fare law, the legislature provide by law that all state officials and members of the legislature shall be carried free. This is the law in New Jersey, and is in force in the state with reference to the railroad company. It is argued in favor of this that when passengers make compulsory there is no feeling of obligation on the part of the holder toward the railroad. But some of the lawmakers are having trouble with this proposition, and it is said that it will not be adopted.

SPORTS OF THE DAY

DULUTH MEN
FALL DOWN

Local Ski Riders Are Distanced by Range Jumpers.

Felling Beats the Winner
at Hibbing in Exhibition Jump.

The Duluth ski riders did not make their usual brilliant showing at the range today yesterday, and at neither Bovey nor Hibbing did any of them succeed in carrying off first honors. Dispatches from both towns report most successful tournaments, though the cold weather cut down the attendance considerably and put a decided damper on the enthusiasm of both riders and spectators.

At Hibbing, with Felling, Bye and Larson on the scene, the showing was somewhat better than at Bovey, Felling making a close finish with Melgaard for first, jumps of 96 and 94 feet carrying off the prize for the Hibbing man, but in an exhibition jump after the contest, Felling made 98 feet in easy style. Gust Bye was third and Larson got the sixth prize. At Bovey 2,000 people from Duluth and the nearby range towns turned out in spite of the freezing temperature, and while the hill was not of sufficient size to warrant a record-breaking jump, Olaf Janum's prize-winning jumps of 55, 50 and 54½ feet were as pretty exciting as any graceful as one could wish to see.

Duluth broke into the prize-winning class only in the fourth and fifth place, Ekanon, English and Russell jumping of 53, 54 and 57 feet, and Mangos getting in at fifth with 57, 53 and 52½-foot jumps.

Bernard Kelley of Coleraine, a 12-year old rider, whose name does not attest any of the blood of a Norse ski jumper in his veins, distinguished himself in the juvenile class with jumps of 65, 62, and 61 feet down in fine style. At the banquet after the tournament, Bovey launched a boom for the National tournament of 1908 and pledged \$100 towards Duluth at the meeting at Ashland this year.

The other branch of the ski sport, track racing, was also a feature of yesterday's sports on the range, the Hibbing Athletic club holding a most successful run on Langvatn lake near Chisholm, in which H. Munisto covered a five-mile course in thirty-seven minutes. About 300 spectators braved the cold of the afternoon to watch the race and felt well repaid for their effort.

BAPTIE WINS
AT MONTREAL

North Dakota Boy Captures Half Mile Professional Race.

Montreal, Feb. 4.—The races of the Canadian Amateur Skating association were held Saturday afternoon. Morris Wood did not compete, having been called home on account of the death of his father. Following are the results:

First heat, 220 yards (boys under 16)—First, F. Polan, Montreal; second, Adolph Anderson, Chicago; third, A. Ald, Montreal. Time 1½ seconds.

Second heat, 220 yards (boys under 16)—First, Woodward, Subsea, Verona Lake; second, F. Logan, Verona Lake; third, E. Amith, Montreal. Time 21-1-5 seconds.

Half-mile professional—First, Norval Payde, Lathrop, N. D.; second, J. K. McCulloch, Winnipeg; third, Peter Shinn, Norway. Time 1:22-2-5.

Wright and Sherbrooke fell at half the distance.

880 yards: First heat—First, F. Logan; second, Adolph Anderson; third, Hilton Helyea, Marathon A. C. Time, 1:32-1-5.

Second heat—First, W. G. Finlayson, Montreal; second, A. Lamy; third, L. Ald. Time 1:28-1-5.

Final heat, dead heat between Logan and Lamy. Time, 1:32-3-5.

Port and Sherry Wine, per gallon, \$2 to \$4.

Prompt delivery to any part of city.
Mail orders promptly attended to.

TWO RINKS
FROM HERE

Smith and Stocking Will Skip Rinks at Winnipeg Spiel.

A Third Quartet May
Go for International Match.

Two rinks will represent Duluth at the Winnipeg bospital, which will begin Wednesday morning.

A. H. Smith will skip one rink, and J. C. Myron and D. W. Stocking will alternate as skip in the second.

In the Smith rink, Cameron Hewitt will lead, with Walter Harris for second, and P. A. Currier for third.

Walter Harris and John Treasle will be first and second in the Myron-Stocking rink.

Thomas Gibson will also take the trip, acting as mascot and spare man for the two Duluth rinks.

Harry Hudson has been planning to take a rink to the spiel, but he stated this morning that he did not expect to get away. There is a possibility that he will go up later, in time for the international match.

The curlers will leave tonight over the Northern Pacific and should arrive in Winnipeg early in the afternoon. This will allow them eighteen hours for possible delays by blizzards in the Dakotas, and they ought to make it in time for the opening games Wednesday morning.

They will probably be accompanied by a Superior rink skipped by A. K. Smith, with Mackfield, Simons and Russell playing the other rink.

The plans for sending a West Duluth rink have fallen through.

ULRICH WILL
FIGHT POTTS

Mill Will Take Place in Minneapolis on Feb. 15.

Curley Ulrich, the Superior fighter who met Jimmie Potts in Minneapolis Friday, Feb. 1, at Normans hall in Minneapolis in a 10-round go at 137 pounds or under. The winner is to take 60 per cent of the receipts, and it is to be a clean break fight.

These terms are a little bad for the Superior boy, as he is not a clean break fighter, and the proposition of fighting in Potts' home town is not the most pleasing in the world in view of certain rather crooked deals that have been handed out there in the past, but a strenuous howl against the conditions, such as has been arising from some quarters since the arrangements which Ulrich had entered into have been known, is a little bit out of place just at this time.

Ulrich lost to Potts a month ago, and the manager of the fight, who is a little bit of a local man, gave the Minneapolis man anything he wanted. The deal on the face of it is fair enough, and the manager is making a proposition to begin howling at what the gentleman has been offered.

It is not likely that another oil of mustard proposition will be made to the Superior fighter on this occasion, but the manager of the fight, who is a little bit of a local man, gave the Minneapolis man anything he wanted.

EAS MUCH
DULUTH

Shevlin's New Road Will Give Direct Route to Beaudette.

Line Will Connect With Duluth & Rainy Lake Road.

Duluth and not the Twin Cities will be the most benefited by the new railroad that Thomas Shevlin, the millionaire lumberman and member of the Shevlin-Mathieu Lumber company of Beaudette, Minn., are going to build in the Rainy river district.

Early during the current month the Minnesota papers announced with great glee that another line from Minneapolis to the Rainy river was going to be built this coming summer by Thomas H. Shevlin of this city, who for several years had been acquiring mill sites, water powers, and timber limits on both sides of the Northern Minnesota boundary. Mr. Shevlin was accredited with having perfected plans for connecting the town of Spooner, on the Canadian side, with the Rainy river, by constructing about fifty-five miles of road southward to Kelso, in Itasca county, where it would connect with the Minnesota & International road to deliver trains to the Northern Pacific road at Bemidji, for the Twin Cities.

It is learned on good authority that while the above plan may have been thought of by Mr. Shevlin last summer, he has made some very radical changes concerning the line of road he will build. It is stated that he will connect the Rainy river with the Duluth, Rainy Lake & Winnipeg road northward from Virginia northward to Bemidji, and which is to be extended to Duluth in the very near future, in order that he may get a direct route to the water front for the lumber that will, in coming years, be manufactured at the big saw mills in the Rainy river region.

The Shevlin line would not only give a direct route to Duluth, but it will open a splendid timber and agricultural district on the Minnesota side of the Rainy river from Beaudette and Spooner to International Falls. The line from Spooner to Duluth, Rainy Lake & Winnipeg road will be about fifty-eight miles in length and will connect with the latter road at Bemidji, a few miles south of International Falls.

The Backus-Brooks interests of Minneapolis are extending the Minnesota & International road from Bemidji to International Falls, a distance of about thirty-three miles. This line will open a way to the Twin Cities from the region, but Duluth will have an air-line route into the same country in the Duluth, Rainy Lake & Winnipeg road, which will cross the river at Pitcher's Point, now called Rainier, and connect with the Duluth, Rainy Lake & Winnipeg road at International Falls.

EAS MUCH
DULUTH

Shevlin's New Road Will Give Direct Route to Beaudette.

Line Will Connect With Duluth & Rainy Lake Road.

Duluth and not the Twin Cities will be the most benefited by the new railroad that Thomas Shevlin, the millionaire lumberman and member of the Shevlin-Mathieu Lumber company of Beaudette, Minn., are going to build in the Rainy river district.

Early during the current month the Minnesota papers announced with great glee that another line from Minneapolis to the Rainy river was going to be built this coming summer by Thomas H. Shevlin of this city, who for several years had been acquiring mill sites, water powers, and timber limits on both sides of the Northern Minnesota boundary. Mr. Shevlin was accredited with having perfected plans for connecting the town of Spooner, on the Canadian side, with the Rainy river, by constructing about fifty-five miles of road southward to Kelso, in Itasca county, where it would connect with the Minnesota & International road to deliver trains to the Northern Pacific road at Bemidji, for the Twin Cities.

It is learned on good authority that while the above plan may have been thought of by Mr. Shevlin last summer, he has made some very radical changes concerning the line of road he will build. It is stated that he will connect the Rainy river with the Duluth, Rainy Lake & Winnipeg road northward from Virginia northward to Bemidji, and which is to be extended to Duluth in the very near future, in order that he may get a direct route to the water front for the lumber that will, in coming years, be manufactured at the big saw mills in the Rainy river region.

The Shevlin line would not only give a direct route to Duluth, but it will open a splendid timber and agricultural district on the Minnesota side of the Rainy river from Beaudette and Spooner to International Falls. The line from Spooner to Duluth, Rainy Lake & Winnipeg road will be about fifty-eight miles in length and will connect with the latter road at Bemidji, a few miles south of International Falls.

The Backus-Brooks interests of Minneapolis are extending the Minnesota & International road from Bemidji to International Falls, a distance of about thirty-three miles. This line will open a way to the Twin Cities from the region, but Duluth will have an air-line route into the same country in the Duluth, Rainy Lake & Winnipeg road, which will cross the river at Pitcher's Point, now called Rainier, and connect with the Duluth, Rainy Lake & Winnipeg road at International Falls.

Millions of Money in Lead and Zinc

Lead and Zinc Now Proven to be Most Profitable of All Mining. Millions of Dollars in Dividends Paid to Stockholders Annually. You can Share in the Profits of 300 Lead and Zinc Mines—Dividends Guaranteed.

Dividends Guaranteed

As there are already five large mills in operation upon the Baxter Royalty Company's property, and at least 50 more new mills will be operating in the near future, it is evident that large revenues are assured from the outset. From these revenues dividends will be declared within the present year. These dividends will be declared upon the par value of the stock, so that even so small a dividend as 8 per cent would be a return to each stockholder of his entire investment, besides causing the stock to advance ten times its present price. Is this not worth looking into at once while the opportunity is still open?

\$110,000 FOR ZINC LEASE Most Ever Paid for 40 Acres in Joplin District.

Cartage, Mo., Aug. 14.—(Special.) J. C. Stewart, president of the Centennial Mining and Smelting Co., received a check for \$110,000 from S. Y. Ramage of Oil City, Pa., for a 40-acre zinc lease owned by that company and located north of Cartage, Mo. The price paid for the lease is the highest ever paid for a zinc lease in the Joplin district. The lease covers 40 acres of land, and the company has agreed to pay the owner \$110,000 for the lease. The lease is for a term of 10 years, and the company has agreed to pay the owner \$110,000 for the lease. The lease is for a term of 10 years, and the company has agreed to pay the owner \$110,000 for the lease.

BUY STOCK NOW AT ONLY 8 CENTS A SHARE, PAR VALUE \$1.

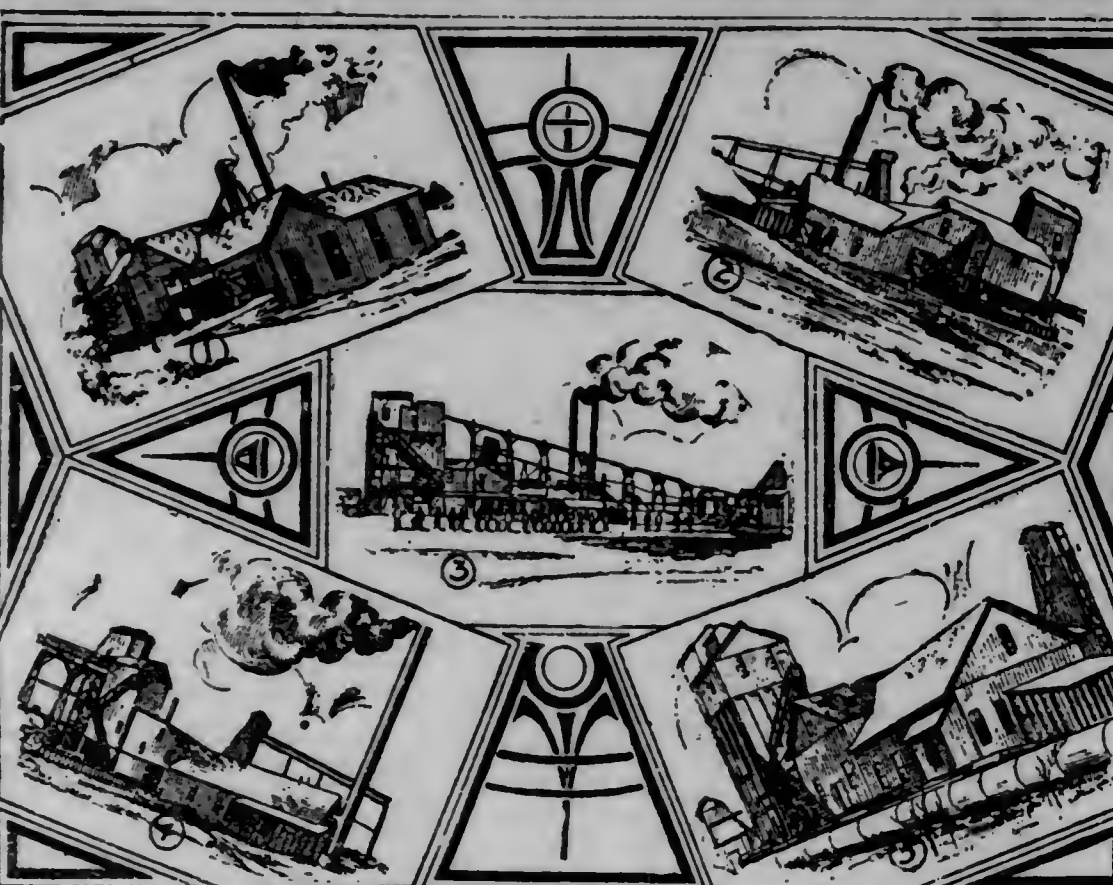

In the Southwest field the vast majority of the mines are wonderfully successful, and our interest in several hundred such mines, all located on our property, is bound to be enormously profitable. We have 3,000 acres of rich ore lands still lying idle. By the investment of additional capital we propose to bring this great acreage to the production stage at the earliest possible moment. For this reason a limited amount of treasury stock is now being sold at 8 cents per share, and our profits will be vastly larger in the end than if we should limit our revenues to the present scale of operation.

Investment on the Small Monthly Payment Plan.

The advantages of this plan to the investor should not be overlooked. By a payment of only 10 cents per month you can own a share of the stock of the company. The stock is sold at 8 cents per share, and the company has agreed to pay the owner \$110,000 for the lease. The lease is for a term of 10 years, and the company has agreed to pay the owner \$110,000 for the lease.

STOCK NOW 8 CENTS A SHARE, PAR VALUE \$1.00.

81 down and 82 monthly for 9 months buys 125 shares.
82 down and 83 monthly for 9 months buys 250 shares.
83 down and 84 monthly for 9 months buys 375 shares.
84 down and 85 monthly for 9 months buys 500 shares.
85 down and 86 monthly for 9 months buys 625 shares.
86 down and 87 monthly for 9 months buys 750 shares.
87 down and 88 monthly for 9 months buys 875 shares.
88 down and 89 monthly for 9 months buys 1,000 shares.

5 MILLS NOW OPERATING ON OUR PROPERTY

1. 100-ton Jones Mill supplied from rich ore bodies, lying only 30 feet down 20 feet thick.
2. 100-ton F. E. P. Mill supplied by the rich ore bodies, lying only 30 feet down 20 feet thick.
3. 200-ton Old Abe Mill, has two shafts working in ore bodies 27 feet thick.
4. 200-ton Cramer-Morse Mill supplied from enormous ore bodies 48 feet thick.
5. Spring River Mill of 200 tons daily capacity recently installed, ore at depth of 67 feet.

VAST ORE BODIES UNDERLYING OUR 3720 ACRES.

These rich lands are located just south of Baxter Springs, Kas., in the richest part of the Southwest field. The ore bodies are of enormous thickness and are absolutely demonstrated by numerous drillings. There is room on our lands for over 300 operating companies, which on the most conservative estimate should yield us an annual net profit of nearly five million dollars.

MY GUARANTEE TO INVESTORS

In my whole experience in mining matters I have never met with any investment opportunity in anywise equal to the one now offered. I therefore unhesitatingly guarantee to return substantially to any investor who within 30 days is not entirely satisfied with the truthfulness of all representations here made. I will also personally guarantee after one year to sell the holdings of any investor who may so desire.

FREE SAMPLES OF Lead and Zinc Ores

Samples of crude and concentrated ores from Baxter Royalty Company property will be sent free upon request. For these samples also provided for the purpose of securing photographic reproductions of the property, a large half-tone map of the lead and zinc fields, and a list of high-class bank and business references.

ADDRESS ALL COMMUNICATIONS AND MAKE ALL REMITTANCES PAYABLE TO

JAMES H. MANNING, Financial Agent.

707 Bank of Commerce, Baxter Royalty Company, KANSAS CITY, MO.

ENORMOUS PROFITS

Tremendous Earning Power of Lead and Zinc Mines.

The demand for Lead and Zinc is increasing rapidly in almost every branch of industrial activity. These two metals have become almost indispensable in many manufacturing and commercial processes. They enter largely into the making of paint, oil, cloth, rubber goods, plumbers' materials and printers' type.

Zinc is required for electrical installations wherever copper is used, and is indispensable in telegraphy, telephoning and electrical transportation. The demand for zinc is enormous quantities of the metal.

The world's great tin mines are being rapidly exhausted, and Zinc alone of all metals will be able to partially take the place of tin. For building and decorative purposes Zinc finds new uses every year. These and other uses are causing unprecedented demand for Lead and Zinc, and the price is climbing steadily upward.

Since 1902 the average price of Lead has increased from \$50.10 to \$62.12 per ton; and of Zinc from \$30.23 to \$44.88 per ton. The present prices are much higher than any of these averages. Yet Lead and Zinc mining is one of the least expensive of all mining operations. It requires vast sums to open up a gold or copper mine, a large expenditure of capital to start a Lead and Zinc mine.

I want to send you a long list of lead and zinc companies operating in the Southwest field that are paying their stockholders dividends of 20 to 30 per cent annually. How are such profits possible? That question is easily answered.

1. The ore is near the surface.
2. The climate is favorable for working the year round, the latitude being the same as that of Southern Kentucky.

3. Lead and Zinc are not controlled by a trust, and the mine owners are paying cash for every ton of ore produced.

4. The climate is favorable for working the year round, the latitude being the same as that of Southern Kentucky.

5. Lead and Zinc are not controlled by a trust, and the mine owners are paying cash for every ton of ore produced.

6. The climate is favorable for working the year round, the latitude being the same as that of Southern Kentucky.

7. Lead and Zinc are not controlled by a trust, and the mine owners are paying cash for every ton of ore produced.

RAILROADS WINNIPEG IS SNOWED IN

Trains Cannot Reach City Duluth Curlers Are Delayed.

Snow Disastrous to Theatrical Companies—Trains All Late.

Passenger trains into Duluth, yesterday and today, were running all the way from two to eight hours late. Those leaving Duluth for the Twin Cities and other points had no better luck, and all were late in arriving at their destinations.

The Great Northern train due here at 9:30 p. m. Saturday, did not arrive until 7 o'clock Sunday morning, being fourteen hours on the road.

Because of the snow blockade existing on the Western lines, the Duluth curlers will be late in arriving at the Winnipeg bungalow, if they get there at all. Their intentions were to leave Duluth this evening for the Canadian metropolis, but it has been learned that the Northern Pacific or Great Northern will be able to take the Duluth men through tonight.

The lines north of the boundary are completely blocked, and the curlers did leave tonight they would have to remain in some Dakota town until the tracks are cleared, which may be two or three days. There is a strong likelihood that they will be unable to leave Duluth tomorrow, although train service may be re-established by that time.

Every line of railroad entering Winnipeg is temporarily blocked. Conditions north of the boundary are worse than they are on this side. Theatrical companies now in Winnipeg have been compelled to cancel their engagements, and a hard year for theatrical touring traveling through the West. Dozens of them have been caught in snow blockades at one time or another, and some of them have been held all the way from the coast to the interior.

Saturday night is reported to have been the worst of the season by the engineers on the Duluth-St. Paul run. While no snow was needed, and on some other occasions, there was a terrific gale blowing down the line, driving the snow badly, and carrying it into the locomotive cabs, until the engineers and firemen looked like snow men. The canvas hung over the rear of the cabs was of little protection, for the snow sifted through the cracks and swirled around the faces, until the men were blinded and seasick. The snow was packed so hard on the rails in places that a few inches was at times enough to greatly retard the speed of the trains, and at times the drifts stopped them completely.

A good deal of care is necessary on the part of the Humane society in caring for the needy ones, as there is a class of people who would be perfectly willing to live on the bounty of charity inclined citizens and societies, and these are strictly avoided in the efforts to aid suffering.

During the month thirty-five horses were blanketed at the request of Humane Agent, Pugh, and one of the horses was brought up to the city. The animals inspected under the auspices of the office during the month amount to nearly 2,000.

For many years it has withstood all climatic changes. Heat, cold and snow alike have failed to mar its beauty. The janitor with his soap and brush has many times washed its face, but the bright point has withstood such vigorous onslaughts, and day after day, month after month and year after year has been seen in the city. The point peeled off in wads and chunks, rolled up and fell to the floor, being literally frozen off the windows.

SIGN FROZEN OFF.

Weather Too Much for Northern Pacific's Oriental Design.

February 4, 1907, will long be remembered in local railroad circles as the day when the signs were frozen off the windows of the Northern Pacific ticket office. The old circular design, so familiar to people who make it their custom to daily wind their way along Superior street, presented a battered appearance this morning.

For many years it has withstood all climatic changes. Heat, cold and snow alike have failed to mar its beauty. The janitor with his soap and brush has many times washed its face, but the bright point has withstood such vigorous onslaughts, and day after day, month after month and year after year has been seen in the city. The point peeled off in wads and chunks, rolled up and fell to the floor, being literally frozen off the windows.

JANUARY CAR REPORT.

The Lake Superior Car Service association handled 27,742 cars during the month of January, according to the report of Manager James Kelly.

BECKMAN GETS \$3,000 DAMAGES

Jury Awards Him Verdict Against Duluth Log Company.

Damages in the amount of \$3,000 were awarded John Beckman against the Duluth Log company, by a verdict opened in the district court this morning. The jury agreed last Friday evening but the verdict could not be opened until the court met in regular session this morning.

Beckman, who brought the suit through his guardian ad litem, John M. Stevens, sued for \$25,000. He claimed that he had his hip fractured and received injuries to his spine in being crushed by a log for the defendant company in the Garfield avenue yards. The logs were being removed by a derrick and the derrick gave way while Beckman was standing underneath directing the movement of the logs.

Sheehan & Keefe represented Beckman and Logan & Moran represented the log company.

STAR IN A MURDER CASE PROVES LONG-LOST GIRL.

Dos Moines, Feb. 4.—The pretty nurse, who is the star witness against Mrs. Fred West in the murder case here, proved to be Flora Gohle, who disappeared three years ago. The late James V. Gohle is the daughter of the late James V. Gohle, a merchant.

Saturday night the girl broke down and confessed that she had left Nora Springs and came to Mrs. West's maternity home

THE GARFIELD AVENUE DOCK

Whether It is City Property or Not, is Doubtful.

The proposition to repair the city dock at the foot of Garfield avenue has awakened a discussion as to whether it is in reality any longer a city dock, and whether it is up to the city to improve the structure or not.

When the dock was first built across the foot of Garfield avenue, a street known as the Spruce street ran along the edge of the water front, and the dock was extended along the edge of Garfield avenue to the west. Since that time it is claimed that Spruce street has been vacated by the city and used by the lumber companies along the water front at that point. The city, if this is true, is not entitled to repair that portion of the dock which is built beyond the end of Garfield avenue.

For some time the lower end of Garfield avenue has not been used for public purposes, and it is also claimed that this strip has been abandoned, and that the city in fact has no dock at all in that locality.

Whether or not this is true can be determined by looking up the records, and the board of public works has requested the city engineer to make a plat of this district under discussion, showing the streets and avenues in the vicinity, so as to settle the question.

SOCIETY IS KEPT BUSY

Thirteen Families Aided by Humane Agents During Cold Snap.

Thirteen poor families, with from two to eight children in each, have been assisted by the Humane society during the cold weather of the last two weeks, and the suffering and hardship which the society has averted by its timely aid is incalculable.

While no money was needed, and the society fitted out nearly all these families with good warm clothing, as far as practicable, from the supplies of second-hand clothes on hand, and where this could not be done, new clothes were purchased for the needy ones.

In a number of cases fuel was furnished to homes where absolutely nothing was in sight to warm the rooms, and in several cases groceries and provisions had to be ordered sent to the unfortunate.

A good deal of care is necessary on the part of the Humane society in caring for the needy ones, as there is a class of people who would be perfectly willing to live on the bounty of charity inclined citizens and societies, and these are strictly avoided in the efforts to aid suffering.

During the month thirty-five horses were blanketed at the request of Humane Agent, Pugh, and one of the horses was brought up to the city. The animals inspected under the auspices of the office during the month amount to nearly 2,000.

SUMMONS IN APPLICATION FOR REGISTRATION OF DEED

Shaw Iron Company, Plaintiff, vs. Shaw Iron Company, Clonnet Lumber Company, F. A. Duley, Frank S. Colvin, James A. Robb, Ole Peterson, Magnus Peterson, and others, Defendants.

The State of Minnesota to the above named Defendants: You are hereby summoned and required to answer the application of the applicant in the above entitled proceeding and to file your answer to the said application in the office of the clerk of said court, within twenty days after the service of this summons upon you, unless you wish to take the case off the docket and pay the costs thereof, and if you fail to answer the said application within the time aforesaid, the applicant's proceeding will apply to the court for the relief demanded therein.

Witness, J. P. JOHNSON, Clerk of said court, this 21st day of January, A. D. 1907.

By V. A. DASH, Deputy, O. S. ANDERSON, Attorney for Applicant, 204 First St., Duluth, Minn.

Duluth Evening Herald, Jan. 21-23-Feb. 4, 1907.

ORDER FOR HEARING ON CLAIMS.—State of Minnesota, County of St. Louis, ss.—In the Probate Court, Special Term, January 25, 1907.

In the matter of the Estate of Frederick H. Judd, Deceased: Letters testamentary on the estate of Frederick H. Judd, deceased, in the County of St. Louis, State of Minnesota, granted to Elizabeth A. Judd.

IT IS ORDERED, That three months be and the same is hereby allowed, after the date of this order, in which all persons having claims or demands against the said deceased are required to file the same in the Probate Court of said County for examination and allowance or be forever barred.

IT IS FURTHER ORDERED, That notice of such hearing be given to all creditors and persons interested in the said estate by publishing this order once in each week for three successive weeks in the Duluth Evening Herald, a daily newspaper printed and published at Duluth, Minnesota, and in said County.

Dated at Duluth, Minnesota, this 26th day of January, A. D. 1907.

By the Court, J. B. MIDDLEBROOK, Judge of Probate, (Seal Probate Court, St. Louis Co., Minn.) Duluth Evening Herald, Jan. 26, Feb. 4, 11-17.

TREASURY DEPARTMENT, OFFICE OF COMPTROLLER OF THE CURRENCY. Washington, Dec. 22, 1906.

WHEREAS, by statute in force in the State of Minnesota, it is provided that the First National Bank of Duluth, in the County of St. Louis, and State of Minnesota, is authorized to extend their corporate existence and for other purposes, approved by the Board of Directors.

NOW THEREFORE I, Thomas P. Kane, Deputy and Acting Comptroller of the Currency, do hereby certify that "The First National Bank of Duluth," in the County of St. Louis, and State of Minnesota, is authorized to extend their corporate existence and for other purposes, approved by the Board of Directors.

IN TESTIMONY WHEREOF, witness my hand and seal of office this Twenty-second day of December, 1906.

Deputy and Acting Comptroller of the Currency. (Seal of the Comptroller of the Currency, Treasury Department.)

SAYS BID IS LIVE ISSUE IN PRESENT CAMPAIGN

Secretary of Civic League Names Blacklisted Candidates.

Hints at Possible Attempt to Impeach the Mayor.

In a communication which hints freely at the impeachment of Mayor Cullum, the bid is a live issue in the present campaign.

Following is Mr. Wheeler's communication:

"The bid question, 'Not Upmost' is a head line in the News-Tribune of today. We wish to state that the Civic League of Duluth stands for law enforcement without fear or favor. If that is what is meant by the 'bid question,' then the News-Tribune is wrong, for that question is upmost in the present fight. This much must be read, that no candidate has signed any pledge as to further action on the bid. There seems to be no further action needed in the council since all the nominees voted in favor of law enforcement, unless a question of impeachment should come up.

The mayor seems to stand alone in his attitude against the sentiment for the law. Just notice the following: As a citizen and not as a politician, he will obey, neither may the executive elect which he will enforce.—Ex-President Harrison.

"If the law is not to the liking of the majority, the majority can change it through the legislature, but the executive cannot ignore it as long as it remains on the statute books without being false to his trust." said James W. Folk, governor of Missouri.

"If there is one plain duty for the average citizen, it is to obey the law," said President Roosevelt, "and if there is one paramount duty for the public official, it is to enforce the law."

"Again, he says: Lawlessness breeds anarchy. The lawbreaker is the foe of American civilization and of the public government, and the worst

of all public servants is the official who connives at law breaking."

"How does Mayor Cullum's position compare with these foretold words of our great men?"

"Let it be repeated then, the mayor stands alone."

"But the News Tribune article stated that Mr. Shattell had been put on the carpet by the so-called radicals. The gentleman was interviewed, and when asked how he would vote on the question of impeaching the mayor, requested a week's time to think it over. He hasn't reported to us yet."

"But, aside from the candidates running in the Second and Fourth wards, all have been reported as favoring a law enforcement policy. However President Tossman who made a speech in the council against the bid, Alderman Rittenbach, who voted against the bid resolution, Chairman Hoar, who is operating the saloon element in the Sixth ward, and M. J. Filtrault, of the Seventh ward, need not expect the hearty support of the Civic League."

Our league claims a membership of about 500 voters, with the following officers and executive committee:

A. R. Merritt, president; W. J. McCabe, vice president; B. N. Wheeler, secretary treasurer; R. A. Sprague, assistant secretary. Executive committee: Watson S. Moore, J. L. Cromwell, A. L. Sturgis, N. H. Murray, R. C. Vincent, F. W. Erickson, J. J. Moe, N. C. Hendrickson.

"This league will be a permanent organization to offset to some degree, at least, the influence of the breweries and brewery-owned stations, in city affairs."

Y. W. C. A. NEW TERM BEGINS TODAY. Join a class in Cooking, Sewing, Millinery, Embroidery, English for Foreigners, Elocution, Physical Culture.

102 West Superior Street.

THREE OR MORE MINERS KILLED BY EXPLOSION.

Elkhart, W. Va., Feb. 4.—Three miners are dead and four terribly injured as a result of an explosion today in Mine No. 2, of the Davis Coal & Coke company at Thomas, near here. It is not known how large the explosion was, as there is no further investigation, as there is no way of determining how many men were in the mine at the time of the explosion.

The explosion occurred before all the men entered the mine. A number were buried in every direction by the force of the explosion and seriously injured.

MAKES NEW LOW MARK

Thermometer Once More Breaks Record For the Winter.

No Promise of Relief Held Out by Weather Man.

"Is another scorching Mercury climbs to 89 deg. Glorious summer weather refuses to relinquish its hold."

Those are only the headlines of a story that appeared in The Herald of Sept. 7 last, but it helps some just to read them over. It calls to mind the fact that this can't always last, and that spring will spring again as it has sprung in all the years that have gone before.

The mercury had another relapse Saturday afternoon, however, and a shining spell, which took it down to the very depths. It struck the 23 degs, below zero mark before the barometer was checked. This is 1 deg. colder than the coldest yet reported this winter, if that helps to bear it any.

This mark was reached early Sunday morning.

The temperature remained very low all day yesterday and never got above the 19 or 12 degs, below zero, going away down again last evening. Although the thermometer was checked this morning, there was no little difference, it was not noticed by most people. At 10 o'clock the mercury had risen to the 15 degs, below zero, and at noon it was stationary at about 10 degs, below.

The cold wave embraces all of the Northwest and in most sections it is colder this morning than at any previous time during the year. At Winnipeg, the thermometer registered 4 below, which was the coldest official temperature recorded. Havre, Mont., had a temperature of 4, Medicine Hat and Battleford, Sask., 4.

Solver Springs gave an even 50 below zero as the temperature for that place. Mr. Richardson does not verify this, but he says that the thermometer was supposed to be a reliable government instrument. Across the bay in Superior the official temperature this morning was three degs, colder than in Duluth.

Mr. Richardson says that he expects it to be very cold again tonight, but not quite as low as last night. The temperature will probably range from 20 to 30 below and possibly a little lower. There are prospects of the sky

clouding up tomorrow morning and there may be some snow flurries. It will probably warm up more or less tomorrow and Wednesday.

But H. T. Hofheimer of Virginia is Delighted With Duluth.

Mr. and Mrs. Henry T. Hofheimer of Norfolk, Va., are
